

VOICE OF THE PRESS.

Expressions of Coast Newspapers in Brief.

On All Shades of Political Belief and Upon Leading Topics of the Day.

Tulare Register: If the theory of the Bryanites is correct, popular Government is a dead failure and ought to be wiped out of existence. They believe, if they believe what they talk, that election in this country depends upon a sack and threats. They do not appear willing to admit that voters are fairly honest and manly.

Riverside Press: It is estimated that the free silver agitation has caused the postponement or abandonment of building enterprises in Los Angeles alone amounting to \$400,000 or \$500,000. More than half of this money would have been paid out for labor.

San Jose Mercury: Bryan denounces the gold standard because it is the English standard, but he is an ardent admirer of the English policy of free trade, which he was instrumental in fastening upon this country. But consistency cannot be expected from Bryan, for is he not a Popocrat, which is a synonym for inconsistency?

Stockton Independent: In the "good old days" of Democratic rule "a dollar a day is a good man's pay" was truth crystallized in a proverb as applied to labor in the busiest harvest time. In ordinary modern times wages of harvest hands are just double that amount, but the number of men competing for the employment since the Wilson bill threw thousands out of employment in every State have brought harvest wages down to the old standard of nearly a century ago, in the East.

Los Angeles Herald: Anti-silver orators who cite the cologne of the trade dollar as an evidence of friendliness to silver, should remember that the true trade dollar was never made a legal tender for more than five dollars, and that its legal tender quality was taken from it by the joint resolution of July 22, 1876.

Los Angeles Times: The Bryan men dodge every reference made to wool, and some of the more pronounced assert openly that the cry of "free wool is a fraud," "a Republican dodge to catch the Spanish and French vote," and that while wool is low in price the demand has increased in proportion. In this connection the following facts collected by the "Times" representative from the principals named, will prove of interest:

Julio Ferrero, one of the representative general storekeepers and wool farmers of Ventura County, and well known as such throughout the wool-growing district of Kern, San Luis Obispo, Santa Barbara and Los Angeles Counties, has in storage in this city wool to the amount of thirty tons, which he cannot sell, and on which it will not pay him to pay the freight to San Francisco. Yesterday he stated that he knew of one sheep farmer in Kern County who had just offered his wool to any speculator who would pay the cost of shearing, and no one would accept the wool at that price.

Alameda Telegram: Four years ago the orators of free trade, and which is now also the party of free silver, were telling the people what excellent results would follow the election of their candidates and the free trade, open markets, dollar wheat, higher wages and better times they would inaugurate. Their pleading was heeded and they were given just what they asked, full control of all branches of the Government. But before they even made the endeavor to introduce this great panacea of free trade they announced that something else was wrong; the country had too much silver; it could not prosper and continue the silver purchase and silver coinage required by the Bland law and as amended by the Sherman law. There was an extraordinary session of Congress and the Sherman bill was repealed. Now what are they trying to do? Double the dose by adding free silver to free trade.

PURCHASING POWER OF THE GOLD DOLLAR DOUBLED.

Yreka Journal: In his speech on last Saturday night, Mr. Dittmar said: "The purchasing power of the gold dollar has doubled." All right, Mr. Dittmar, our people are heartily glad of it, and well satisfied with the present situation. Could we want anything better than money coming from gold taken out of our hills and streams worth twice its face value in purchasing power? Our farmers sell their products in our home markets for gold and with this gold can buy everything needed to carry on the farms for half the money they could with silver without the credit of the Nation behind it. All of our producers are in a like happy situation. In this country all classes of laborers receive their wages in gold, and therefore they can buy twice in the markets the quantity of the necessities of life and of those things that add to the comfort of living. Siskiyou County mines produce annually about \$1,000,000 in gold. With a double purchasing power this gold is worth \$2,000,000. Our people who weigh this question carefully will hardly vote to reduce the purchasing power of Siskiyou's gold. Mr. Dittmar evidently overlooked the fact that he was talking to Siskiyou miners.

BUT ONE RESULT. Calaveras Prospect: There can be but one result of free silver in conjunction with free trade. The gold would quickly disappear from this country and we should have only silver for money. We could buy abroad, for silver and all our gold would have to be used for that purpose. It is a fact that cannot be denied, that under low tariff we buy abroad more than we sell, and there could be no other result than that our gold would all go in time.

TOO MANY NOW. Oakland Tribune: Much as people in this country sympathize with the Armenians, it is a misdirected charity and a bad policy to send money for the importation of these people. The Philadelphia "Ledger" makes this sensible comment about the benevolence of a good woman: "Lady Henry Somerset is a woman who means well and who does a great deal of good, but she lets her philanthropy carry her too far when she advocates a subscription in England to pay the passage of destitute Armenians to the United States. The sum required is \$25 each, and Lady Somerset's coadjutor, Miss Frances Willard, has a plan for providing the immigrants with work when they reach here. We have too many pauper immigrants already. This country used to be a refuge for the oppressed of all nations and was proud of the fact, but England is a better place since it began to be oppressed itself with the numbers that came here."

CAUSE OF OUR TROUBLE. L. P. D. in Mendocino Beacon: Can anyone deny that if we kept our factories running the past four years and bought at home the 249,000,000 pounds of wool per annum that we paid out to Australia, or the \$60,000,000 worth of woolen goods bought of England, Germany or France, or the millions upon millions of dollars which we spend for other manufactured goods imported from other countries, which could have been made at home, that we would not have experienced hard times? It is low tariff and not the want of money or free silver which has caused the trouble.

PROTECTION FOR LEMONS. San Diego Union: Reports from Eastern cities indicate that the lemon market has seldom been in worse condition than at present. The cheap fruit of Sicily has been brought over in such quantities that prices have been forced down to figures as low as any that have ever prevailed. It does not benefit the lemon growers of this country that the foreign producers will lose money by their reckless shipments. The fact remains that the market is for the time being demoralized, and the home growers are losers as well as their foreign competitors. There will be no remedy for this condition of affairs until an adequate tariff is placed upon imported lemons. So long as the present low duties continue the products of Sicilian cheap labor can be periodically shipped into this country in such quantities as to practically rob the California lemon grower of his just profits.

There is no county in the State that has so great an interest in this question as San Diego. Lemon growing in the course of two or three years will be the great industry here. There are, it is true, many other pursuits which promise well. But the fact remains that there are in round numbers 375,000 lemon trees here, and their production, now several hundred carloads annually, will aggregate from 2,000 to 3,000 carloads in the near future. These lemon orchards have been set out with much labor and expense, and that, too, at a given time that was most unfavorable for launching a new industry. The orchardists of San Diego County can hardly be given too much credit for their perseverance and pluck under adverse conditions. They are certainly entitled to their reward.

Salvation Army Music.

The last thing we should desire to do would be to criticize in an unfriendly manner the excellent Salvation Army—we have always recognized its sincere and useful work. But perhaps after so many years a word might properly be said as to their street parade, which is so frequent as to compel a great deal of attention—as in fact their object is. It has not been generally understood that they aimed at musical effect in their bass drum solos with cornet obligato and occasional singing; the purpose has been felt to be the attraction of the populace. But from a recent number of the "War Cry" it would appear that they think they are producing music. If this is their idea, then the Salvation Army ought to establish a school for the study of the cornet and for the voice, so that the street corps should actually furnish music instead of discord. Music is a good thing, and doesn't rush the flower of our youth, or even bruh the bloom of that flower. It would amaze the troubadours to find themselves called in evidence about a Salvation Army parade. Be reasonable, brothers of humanity, and since you really think music is valuable if consecrated to a holy cause, give us a little of it.—Springfield Republican.

An Oversight.

"These hotels don't seem to have any enterprise," remarked the woman who goes shopping a great deal. "What makes you think so?" "They don't take advantage of the example set them by the dry-goods stores. I'm sure that a hotel charging \$4 a day could get lots of women to favor it when the family goes away for the summer if they'd mark the price down to \$3.99."—Washington Star.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

What a Pleasure.

To see at a distance and near, too, with the same lens (glass), no split to detract from the vision. Ascertain by calling on F. de Wolfe Henshaw, Masonic Temple. Hours: 9-12; 1-5. Sundays, 10-12.

AT ELK GROVE. Republican Rally There and a Club Organized. The Republicans of Elk Grove were out in force last night to listen to an address by Presidential Elector D. A. McKinley, who spoke eloquently on the issues of the campaign. Arthur E. Miller of this city also addressed the meeting on protection and reciprocity. Both speakers were warmly applauded. The town was ablaze with bonfires. After the meeting a club was organized with seventy members. S. P. Gage was chosen President, Julius Everson Vice-President and Dr. J. A. McKee Secretary and Treasurer. It will increase in membership right along.

PERSONAL MENTION. Captain F. de L. Carrington, U. S. A., is at the Golden Eagle Hotel. Ferd. Hunger left last Sunday for the Dental College at St. Louis City to take a three-year's course. Lin. S. Church, Assistant District Attorney of Alameda County, is visiting Sacramento with his family. F. A. Tolman, wife and son left yesterday for a visit to Battle Creek, Shasta County. They expect to be absent a month. William W. Rust of Green Valley, El Dorado County, who had been visiting for the past eight months in the Eastern States, has returned to his California home. Mr. and Mrs. A. Ziegler, who had been the guests of Mr. and Mrs. H. Grau, left on Thursday night for their home in Buffalo, N. Y. They were accompanied by their son and his wife.

Preparatory Struggles. "Yes' spoin'," said Farmer Cornotsoer, "this should be war—" "Nonsense," his wife replied, "they ain't goin' to be no such thing." "But spoin' they should; whur'd this country stand?" "Well, there's 1776 an' 1812 ter look back on," she answered. "I know. But ain't we gettin' kinder rusty on warfare?" he persisted. "Ain't we kinder been a lettin' our military spirit get neglected?" "Joslar," she said with a touch of impatience, "sometimes you raly do make me kinder fatigued. Of course, we ain't been a doin' sech a big lot of drillin' an' callin' ter arms an' sech things ez is ordinarily resorted to fer keepin' practice. But," and her face lit up with a look of confidence, "there he been a tremendis lot' of football playin' goin' on."—Washington Star.

Recorder's Fees. The fees collected by County Recorder Cobb during September amounted to \$373.90.

The first agricultural exhibition held within the limits of the United States is said to have been organized and carried to a successful conclusion at Georgetown, in the District of Columbia, in 1810. This claim is disputed, various towns and counties in New England asserting that agricultural fairs or expositions were held in them at an earlier date.

If your complaint is want of appetite, try half-wineglass Dr. Slegert's Angostura Bitters before meals.

WOMEN AND WOMEN ONLY are most competent to fully appreciate the purity, sweetness, and delicacy of CUTICURA Soap, and to discover new uses for it. To cleanse, purify, and beautify the skin, to allay itching and irritation, to heal chafings, excoriations, and ulcerative weaknesses, nothing so pure, so sweet, so speedily effective as warm baths with CUTICURA Soap, followed, when necessary, by mild applications of CUTICURA Ointment, the great skin cure.

Sold throughout the world. Price, CUTICURA, 50c.; Ointment, 25c. Perforated Boxes, 75c. and \$1.00. Sole Proprietors, Foster & Allen, Chicago, Ill. How to Produce Lustrant Hair, mailed free.
