

A WOMAN FRIGHTFULLY AND FATALLY BURNED.

She Went to Bed in a Drunken Condition and Smoking a Cigarette.

Her Clothes Caught Fire, With the Above Result.

A Despondent Printer Commits Suicide in Alameda County—Cities, Towns and Villages Throughout California Ratify the Election of McKinley and Hobart.

SAN FRANCISCO, Nov. 7.—A terrible and probably fatal accident occurred at 1119 Webster street shortly before noon to-day, and Mrs. E. G. Manley is now at the Receiving Hospital in a frightfully burned condition.

At 12 o'clock the Central Police Station was notified that a woman was burned at 1119 Webster street.

Officer Campbell was sent out there, and when he arrived at the place designated witnessed a pitiable sight.

Mrs. Manley was found lying on the bed. All of her clothes had been burned from her body.

When Officer Campbell arrived he had her removed to the Receiving Hospital.

There the physicians found that the woman had been burned about the right side, legs and shoulders. In fact, there was hardly a part of her body that had escaped.

TUESDAY'S ELECTION.

A London Editor's Comment Upon the Result.

SAN FRANCISCO, Nov. 7.—Thomas Lloyd, the editor of the London "Statist," descends upon the result of Tuesday's election in a cablegram to his paper as follows:

"The result of the election was a surprise to both parties. The best informed were anxious up to the very end, McKinley's majority is a very decisive proof that the people are resolved to fulfill their obligations to the letter. The spirit of confidence has been strengthened, trade will now gradually improve and prosperity will return, but there are no grounds for a boom."

"It remains to be seen whether the Republican leaders will prove equal to the occasion. McKinley is pledged to pass a tariff bill. Some hope that this will be done by the present Congress, but many are of opinion that it is impossible on account of the Senate, where opposition may be expected to tariff legislation. The Senate has not materially changed, and may stop all bills until the currency question is disposed of. Many are opposed to borrowing for the purpose of raising the tariff, as this money saved the Union in times of danger. It is likely that nothing will be done in the way of agitation, through fear of further panic and bad times."

"There is good reason for judicious speculation now, as properties are cheap. Having a full season of credit will recover, and banks will lend more freely. Stocks of commodities are very low. Investment is safe, if care is exercised. Much remains to be done as a prerequisite before permanent improvement can be achieved. Nothing more than mere optimism may throw back reform and injure the country. The best of Americans hope for a slow recovery, rather than a boom."

STANFORD WON.

The Berkeleys Defeated on the Gridiron Field.

SAN FRANCISCO, Nov. 7.—The cardinal wales triumphed over the Stanford freshmen and Berkeley's first-year men are blue and cold. The two teams met this afternoon on the Central Park gridiron field, and at the end of a savagely fought, interesting game, the score stood 14 to 4 in favor of the boys from Palo Alto.

The game was not perfect football, but it was spectacular, and there was more punting than was ever before seen in a match game on this coast. There was also a good deal of fumbling, and that, too, made things exciting for those that watched the vicious scrambles for the loose ball.

Stanford made one touchdown in the first half and two in the second before Berkeley, by a great effort, succeeded in scoring her single touchdown.

It was the first time a Stanford freshman team had beaten Berkeley's freshmen, and the wearers of the cardinal went away happy, forgetting all about their '98 freshmen, that were defeated 4 to 0, and their '99 freshmen that were annihilated under a score of 44 to 0.

A YOUNG LAWYER'S DEATH.

Flourge Officials Believe It to be a Case of Suicide.

SAN FRANCISCO, Nov. 7.—Michael Seelighshohn of the firm of Rankin & Seelighshohn, a young lawyer, has in the opinion of the Morgue officials committed suicide. His body, weighted with rocks, was found floating in the bay off Goat Island this evening.

Mr. Seelighshohn left his home on Wednesday last presumably for Tucson, Ariz., and his friends are greatly distressed at the discovery of his body, insisting that it is a case of murder. Deceased was a healthy young man and possessed of no vices.

TORONTO, Nov. 6.—The building on Front street, east, occupied by the Patterson Manufacturing Company, was wrecked by a boiler explosion this morning. Robert Charlton, 68 years old, and Henry Adams, 35, employees, were badly hurt, the force of the explosion blowing them through a doorway into the street, their escape from death being regarded as miraculous.

DECATUR (Ill.), Nov. 6.—Hon. Charles A. Ewing died at his home in this city at 7 o'clock this morning, aged 51 years. He was very prominent in the Central Illinois bar, and has taken an active part in the late campaign, being Chairman of the National Democratic State Committee.

MARK HANNA DINES THE NEWSPAPER MEN

Who Were Employed at National Headquarters During the Campaign.

Each Reporter and Correspondent Presented With a Medal.

The Chairman of the Republican National Committee Says He Found the Newspaper Men as Fully Alive to the Situation as Himself, and That Many of His Pointers Were Picked Up From Them.

NEW YORK, Nov. 7.—Mark A. Hanna gave a dinner to-night in the Hotel Waldorf to newspaper men of New York and Chicago who had been employed at headquarters in both cities chronicling events in one of the most exciting political struggles in the history of the country.

Mr. Hanna, when asked what demerits of note he had talked with on the subject of the future, said: "I do not wish to name them all, but I may mention Messrs. W. C. Whitney and Abraham S. Hewitt as examples."

TIED ON THE MONEY QUESTION.

Hobart Will Have to Cast the Deciding Vote in the Senate.

NEW YORK, Nov. 7.—The announcement from Milwaukee by friends of Senator John L. Mitchell of Wisconsin that he will support gold measures in the Senate makes a tie of the gold and silver forces in that body, and puts upon Vice-President Hobart the responsibility of casting the deciding vote.

Putting him among the gold men, the Senate in the next Congress as at present indicated will be divided as follows: Gold Republicans 57, Gold Democrats 26, Silver Republicans 26, Silver Democrats 26, Populists 9-45. Should Messrs. Carter of Montana and Shoup of Idaho, who supported Major McKinley in the campaign, ally themselves with the dominant faction of the party, the gold vote in the Senate after March 4th next would be 47 and the silver vote 43.

The composition of the House of Representatives in the Fifty-fifth Congress remains substantially the same as at first set out by the United-Associated Presses, the present division according to the latest returns being as follows: Republicans 212, Sound Money Democrats 22, Democrats 120, Silver Republicans 10, Populists and Fusionists 23, total, 357.

SECRETARY OF THE TREASURY

Cornelius N. Bliss Likely to Receive the Cabinet Appointment.

NEW YORK, Nov. 7.—Republican local leaders say that it seems to be practically settled that Cornelius N. Bliss will be President McKinley's Secretary of the Treasury. It is understood that the President-elect has expressed a desire that Mr. Bliss accept the Treasury portfolio and is anxious that his selection shall have the approval of the Republican organization in this city and State.

The selection of Mr. Bliss for this place, it was said yesterday, will not be disappointing or even unsatisfactory to local Republican organization. In his capacity as Treasurer of the National Committee, Mr. Bliss had to meet the local leaders frequently, and friendly relations were established. So certain are the Republicans that Mr. Bliss is to be the Secretary of the Treasury that he had the appointment had been tendered and accepted.

Cornelius N. Bliss is in the wholesale dry goods business, and is interested as a stockholder in several banks and trust companies. For eight years he has been the Treasurer of the Republican National Committee.

There is a provision in the United States Revised Statutes which might cause him to give up some of his present business enterprises should he accept the place of Secretary of the Treasury.

Mr. Bliss' dry goods business is said to be in domestic fabrics entirely and he might not through that come within the inhibition of the statutes. His relations with financial institutions which deal in Government securities, however, might need to be severed.

RESULT IN KENTUCKY.

McKinley Will Get Twelve Electors and Bryan One.

LOUISVILLE, Nov. 7.—McKinley has certainly got twelve of Kentucky's thirteen electoral votes. The official count by the county canvassing boards was completed this afternoon, but the returns are slow in coming in, and at this hour, 9 o'clock, it is impossible to give the total vote with any degree of accuracy. The totals of the official count in this Jefferson County, have not been announced, but McKinley gained about 150 votes on his plurality of 12,331. The last edition of the "Evening Times" gave the McKinley plurality at 648. The "Post" estimates it over 100.

The official count in most every county heard from shows that Kast, the first Republican, and Smith, the first Democratic elector, lead their tickets by from 50 to 100 votes, and this insures Bryan one elector.

IOWA LEGISLATURE.

Governor Drake Issues a Call for an Extra Session.

DES MOINES (Ia.), Nov. 7.—Governor Drake to-day issued a call for an extra session of the Legislature. It will be called January 15th, and probably last fifteen days. The object is to complete the revision of the State's code, which was begun at the regular session last winter. When the time of the regular session expired the code work was about a third complete, and the Legislature passed a concurrent resolution asking the Governor to call a special session in the coming winter to complete the work, and in order that that already done should not be lost.

There has been a strong fight against the special session, but the Governor carries out his pledge to call the session.

It is understood a new effort will be made to secure the passage of a law to legalize the manufacture of liquor. The same bill was defeated at the regular session, but since election a new interest has been taken.

Wyoming Election Returns.

CHEYENNE (Wyo.), Nov. 7.—Returns were received here to-day by the Republican State Committee from four of the Big Horn County precincts, the first returns received from that county since the election. The combined vote of these precincts give the Republican Electors, Congressional and State tickets a majority of 104 in 200 votes. Twelve hundred votes are still to be heard from in Big Horn County.

BLOODY TRAGEDY AT NASHVILLE, TENN.

A Jealous Husband Murders One Woman and Mortally Wounds His Wife.

Then Attempted to Put an End to His Own Existence.

Eighty Liners Have a Thrilling Experience and Miraculous Escape From Drowning in a Pennsylvania Colliery—Four Men Killed and Another Fatally Injured by the Explosion of Four Boilers.

NASHVILLE (Tenn.), Nov. 7.—A frightful crime was committed in this city at an early hour this morning. One person was killed, another mortally wounded and the murderer then attempted his own life.

For some months past Thomas Lynch, a hardworking mechanic who lived on Allison street, in the eastern suburb of the city, has been acting very queerly. His friends insisted that he was crazy, but as none of his acts were violent his family refused to have him shut up in an asylum.

It was believed that Lynch was insanely jealous of his wife, who was quite a comely and attractive woman. Lynch was also greatly excited over the election. He took a deep interest in the financial question, and would talk for hours about the oppression of laborers and how much money was needed in the country.

Last night he went to bed quietly and seemed to be in a happier frame of mind than he had been for months.

Early this morning he rose stealthily, and going to a drawer he took out a razor. Creeping over to where his wife was sleeping, he deliberately cut her throat.

Leaving her mortally wounded, he went to the room where the hired woman slept, and taking her by surprise, cut her throat.

Fully satisfied with his awful work, he attempted his own life.

Lynch and his wife are now in the hospital, and it is believed that they will not recover.

FOUR BOILERS EXPLODE.

Four Men Killed and Another Fatally Injured.

SHAMOKIN (Pa.), Nov. 7.—Four men lost their lives by a boiler explosion at the Centralia colliery this morning, and a fifth is fatally injured. Four boilers out of a bank of sixteen exploded, and all the others were dismantled, resulting in a loss of \$10,000.

Andrew Monchok was instantly killed, Joseph Monchok was instantly killed, John Southey and Joseph Kubie died from their injuries, and Matthew Leshor cannot live. Joseph Bolinski was seriously hurt.

Southey and Kubie were blown seventy-five feet, and Leshor landed but a few yards behind them. The remainder of the men lay in what remained of the boiler house. A fragment of iron penetrated a house, knocking a bedpost off a couch on which two children were sleeping. A crowd of miners passing the ash bank near the boiler house had narrow escapes, some being blown scores of feet, and sustaining slight injuries.

MORE CABINET GOSSIP.

A WEST VIRGINIA JOURNAL MAKES UP A SLATE.

Says a Sound Money Democrat Will be Offered the Attorney-Generalsip.

WHEELING (W. Va.), Nov. 7.—The following concerning McKinley's Cabinet will be printed in the "News" (Ind.) to-morrow: In this State the South is given recognition by the award of two places, while the Sound Money Democrats are given one. It is stated that Cornelius N. Bliss of New York will not be the Secretary of the Treasury, as has been announced because the position involves duties too onerous, which he would not be willing to undertake. Mr. Bliss, on the other hand, can be Secretary of the Navy if he is willing to take it.

John Sherman, it is stated, will be Secretary of State if he will take the job. While Sherman's chief fame lies in his ability as a financier, yet his work on the Foreign Relations Committee of the Senate has given him a reputation as a diplomat quite as valuable as that of financier.

As to the Treasury, Henry C. Payne of Milwaukee, Wisconsin, one of Hanna's confidential advisers, has the call. Payne is a soundly practical man, and it is conceded will make a splendid man for the place.

The Attorney-Generalsip will be the place offered the Sound Money Democrats. Almost every utterance coming from Major McKinley since his election has contained some kind words for the Sound Money Democrats who aided in his election, and has further emphasized the idea that his victory was not a partisan one. It is now said that ex-Congressman William D. Bynum of Indiana, Chairman of the National Democratic Committee, will be offered the portfolio now held by Harmon.

General Russell A. Alger of Michigan, who headed the campaigning Generals on their triumphant tour of the country for McKinley, is set down for the portfolio of war. Alger has been a leader for years, and recognition of his services would be appreciated.

Governor William O'Connell Bradley of Kentucky is said to have the call for the Interior, although according to some people there another man has been selected, but it is stated that Mr. Bradley will be the appointee.

Colonel Nathan B. Scott of this town is set down as Postmaster-General. William B. Wilson now holds the place, and in view of this State going Republican, and in consideration of Colonel Scott's services, he will be tendered the portfolio.

The Secretaryship of Agriculture has not been placed. It will likely go to some good Western man like Thurston, who has been most active in McKinley's campaign.

UNITED STATES AND SPAIN.

Correspondence Between the President and the Spanish Minister.

WASHINGTON, Nov. 7.—A special from Washington says: Information of the most startling character regarding a correspondence between President Cleveland and the Spanish Minister, Senor Dupuy de Lome, concerning the future course of Spain toward Cuba, was current here to-day.

It is said that a few days ago the President, in a semi-official manner, sent to ascertain from the Spanish Minister whether he had any information that he would be willing to consider the future course of Spain toward the insurgents in Cuba. To this suggestion Senor Dupuy de Lome is said to have returned a letter in which he assured the President that within sixty days from the date thereof (November 1st) Spain would have chosen its position of withdrawal her troops from the island.

To this astounding rejoinder President Cleveland is said to have replied on the following day that he would consider that the information imparted by the Spanish Minister was sufficient to justify this Government in delaying any action until the expiration of the time mentioned, and that by the same token he would feel justified in recommending recognition of the Cuban Republic should the Spanish Government fail to restore peace in Cuba.

In the opinion of those who know the Spanish Minister, this move on his part is regarded as a clever diplomatic attempt to forestall any action by the President based on the report that Consul-General Lee is believed to be about to make, and to prevent the postponement of action by the Executive until the winter campaign shall have been inaugurated.

UNITED STATES ARMY.

Annual Report of Inspector-General Breckenridge.

WASHINGTON, Nov. 7.—Inspector-General Breckenridge of the army, in his annual report, shows that accounts of disbursing officers aggregating over \$72,000,000 have been examined during the year. Recommendations to avoid an unnecessary number of entries and needless delay in the future will be reported on it over and over again have been followed out, and a great improvement is noticeable.

The national hospitals for disabled soldiers are in fine condition, and reports from them show no decadence anywhere.

The fourteen arsenals and armories of the army indicate that the officers in charge display excellent judgment in the administration of affairs.

In the report of the inspection of the National Cemetery at Lexington, Ky., it is stated that "the Confederate dead still lie in the trenches where they were buried after the battles of Perryville and Mill Springs, uncare for. To make the cemetery national in the true sense, I strongly recommend that these bodies be moved and re-interred beside those against whom they fought in the great National Cemetery, and the care of the Government be extended to all alike."

The colleges at which military instruction by army officers is given are declared to be in a flourishing condition, and accomplishing useful results.

Dreyfus the Victim of a Plot.

LONDON, Nov. 6.—The "Times" will to-morrow publish a dispatch from Brussels saying that revelations are impending for the purpose of proving that Captain Dreyfus, the French military officer who was degraded and sentenced to life imprisonment for betraying military secrets to Germany, was the victim of a plot. Captain Dreyfus, who was recently erroneously reported to have escaped to Constance on the late, the smallest and most arid of the group off the coast of French Guiana known as the Salvation group.
