

STATE CONVENTION OF THE MINERS' ASSOCIATION.

Increased Attendance of Delegates at the Second Day's Session.

Resolution Adopted Indorsing the Movement for Good Roads.

Substantial Recognition of the Services of Senator Tiry L. Ford in the Shape of a Presentation to Him of a Large and Handsome Case Filled With Silverware—Governor Budd Addresses the Delegates.

SAN FRANCISCO, Nov. 11.—The second day's session of the Miners' Convention began at about half-past 10 o'clock this morning, with an increased attendance of delegates and visitors.

As was the case yesterday, the proceedings were opened with music, Cassassa's Band being in attendance and rendering a number of popular airs.

Immediately upon the conclusion of this pleasant opening feature of the day's programme, President Neff called the meeting to order.

No time was wasted in roll call or the reading of minutes, the proceedings beginning with a request from President Neff that State Senator Tiry L. Ford would come forward to the platform.

Senator Ford did so, wearing a sort of doubtful look the while and apparently wondering what was going to happen to him. He soon found out, and the information was very pleasantly conveyed to him.

Calling his attention to a large and handsome case filled with beautiful silverware, President Neff presented to him the case in the warmest terms for the faithful work which he had done for the miners in Washington.

That these efforts had not failed of appreciation among those for whose benefit they were chiefly made, President Neff explained that it was the object of the gift to prove.

Senator Ford seemed much moved by the evidence of his friends' appreciation of his efforts, and for a moment paused, as if unable to find words in which to express his feelings.

Heard applause greeted the conclusion of Senator Ford's remarks, and the incident ended in the most pleasant manner possible.

Chairman C. W. Cross of the Committee on Order of Business then presented a report outlining the manner in which the work before the convention should be taken in hand, the same being adopted.

The Special Committee on Resolutions was granted further time in which to present a report.

SMITH AND NOBLE ARE STILL AT LARGE.

Officers Fail to Effect the Capture of the Suspected Murderers.

Are Still Confident, However, That They Soon Will Be.

Complete Official Returns From the Sixth and Seventh Congressional Districts Show Pluralities of 721 for Barlow, Fusion, Over McLachlan, Republican, and 304 for Castle, Fusion, Over Bowers, Republican.

CAHTO, Nov. 11.—The Sheriff's officers returned to Ual-to-night, having failed to effect the capture of Smith and Noble, the last of the quartet suspected of complicity in the murder of rancher John Mudgett.

The preliminary hearing of the Dodge family and Ferguson, which is set for tomorrow, requires the presence of the officers; hence their abandonment of the pursuit for the present.

The evidence against the Dodge family is strongly circumstantial. The family is known to have been sorely pressed for money for some time prior to the murder, and immediately afterwards young Dodge endeavored to negotiate a draft that was payable to Mudgett.

CONGRESSMAN NEWLANDS. Believes the Republicans Should be Allowed to Pass a Tariff Bill.

SAN FRANCISCO, Nov. 11.—Congressman F. G. Newlands of Nevada, Temporary Chairman of the National Convention of the Silver party at St. Louis, outlines the policy of the supporters of free coinage in part as follows:

"I believe that we should accept the verdict of the country. The Republican party claimed protection and the Democratic party silver to be the paramount issues. The people have declared in favor of protection, and have given the Republican party a contract for the restoration of prosperity.

That measures be taken to secure the repeal of the law forbidding the sale or purchase of real property by the owners of mining companies without the consent of two-thirds of the owners of the stock; also, the revocation of the law making it necessary for mining company Secretaries to file monthly financial statements of the concerns which they represent.

Certain other suggested legislative Acts or recommendations for changes and amendments were referred back in the report to the body of the convention with a suggestion that they be turned over to the Committee on Legislation.

The report was adopted and the convention then took a recess until 2 o'clock.

At the afternoon session the following officers were elected by acclamation: President, Jacob H. Neff; Vice-President, Samuel R. Thornton; Treasurer, W. W. Montague; Secretary, Julian Sonntag.

An Act providing for the establishment of an executive department in the National Cabinet, to be known as the Department of Mines and Mining, which it is proposed shall be presented to the House of Representatives, was read and referred to the Committee on Legislation.

MAY HAVE WAR WITH SPAIN.

AN INCIDENT WHICH SHOWS THE FEELING AT MADRID.

The Spanish Prime Minister Tries to Learn the Attitude of Foreign Powers.

NEW YORK, Nov. 12.—A "Sun" special from Washington says: Appreciation of trouble with Spain growing out of the Cuban war has determined President Cleveland and Secretaries Olney and Herbert to put the navy on a war footing at the earliest possible moment.

Since August 28th last, when Minister Taylor, at Madrid, informed the State Department of the defiant attitude of Spain toward the United States, vigorous steps have been taken to keep the navy up to its full fighting strength.

On August 28th last Minister Taylor, at Madrid, learned at a dinner given by the British Ambassador to the representatives of foreign Powers that two or three days previous the Prime Minister of Spain had sent a note to each Ambassador, saying that in view of the policy of the United States toward his Government there might follow a re-orientation of its attitude, and in that event he wished to be informed as to the probable attitude of the European Governments.

The note was sent to every legation at Madrid, and but for the British representative its existence would not have been known to Minister Taylor.

After this dinner Minister Taylor sent to the Spanish Government a note that the Spanish Government withdraw the note, or he would demand his passports and return to Washington. This severance of diplomatic relations would have been followed by the recall of the Spanish Minister at Washington.

The promptness and vigor of Mr. Taylor's threat produced its effect, and within twenty-four hours every Ambassador had returned his note. The incident became known in Washington, however, through a cable message, and the London and Paris Foreign Offices no doubt were informed also of the Spanish Government's request by their representatives at Madrid.

For months the State Department has known that Spain is irritated and annoyed at the manner in which the filibustering expeditions have left the Southern ports with arms and ammunition for the Cuban rebels.

While it is generally accepted in army circles that the President will not recommend to Congress any action in regard to the Cuban situation, he will refer to the defiance manifested by Spain, and warn the country of the probability of serious trouble, if indeed it does not occur before the assembling of Congress.

Military experts can see no possible way in which Weyler can defeat the insurgents, if his campaign as outlined be carried out. Weyler's presence in the field, they say, will inspire the insurgents to great activity, and result in bringing about some of the most stubborn battles yet fought on the island.

Even with his army of 200,000 men, it is thought that it will be impossible for Weyler to prevent the insurgents from getting around his flank, and unless his cities are left heavily guarded, the followers of Maceo may be expected soon to hold some of the important towns on the island.

For hoarseness, coughs, asthma and bronchitis troubles, use "Brown's Bronchial Troches." Sold only in boxes. Avoid imitations.

"A WEAK MAN IS ONLY HALF A MAN." To him the joys and pleasures of this world are dull pastime. His sense of enjoyment is dulled by a weak, depressed nervous system; his intellect is slow, his memory poor. It is evident that he lacks vital force, which is electricity. He is easily subject to disease, because his circulation is weak and the body cannot throw off the impurities which gather in the kidneys, bladder and stomach.

Dr. Sanden's Electric Belt. Is Nature's cure for weak men. It saturates the body every day with a volume of animal magnetism and restores the power of the nerves and all vital parts. Its cures—why, there is not a town in this State which knows not a cure by this famous Belt.
