

MURDER NEAR LEWISTON, IDAHO.

Dead Body of a Noted Nez Perce Indian Found Lying in a Muddy Road.

He Was Waylaid and Shot by Some Unknown Assassin.

By the Explosion of a Gasoline Tank in the State Printing Office at Carson, Nevada, Fire Destroyed the New Press-Room and Its Contents, Including Finished and Partly Finished Work, Entailing a Loss of Ten Thousand Dollars.

LEWISTON (Idaho), Feb. 5.—The body of John Levi, a noted Nez Perce Indian, was found lying in the muddy road to-day. He had been in this city until a late hour, and was returning to Lapwai, when he was waylaid and shot by some unknown assassin.

Levi was proprietor of "Levi's Hell," an Indian gambling resort, and was accused of buncoing and robbing the men who visited his house. He was recently principal in an attempted hold-up, in which John Jones, an Indian enemy, was badly wounded with a knife in the hands of Levi. It is also rumored that some threats were made after the cutting affray occurred.

These facts lead to the belief that the murder was committed by Indians, and Jones is suspected by the officers. Levi was under a bond of \$1,000 to appear before Commissioner Poe on a charge of highway robbery to-day.

MUST RETURN THE PROPERTY. Mrs. Craig Will Not Yet Enjoy Possession of Her Brother's Estate.

SAN FRANCISCO, Feb. 5.—Mrs. Mary Craig must return to her brother, Robert Bright, all the money and real estate he transferred her when he believed he was on his death bed. Judge Hebbard rendered a decision to that effect to-day.

On January 7, 1895, Bright assigned to his sister a bank book which showed that he had \$19,987 on deposit, and also executed to her deeds conveying to her several valuable pieces of real estate. He did this because he was very ill and believed that he was dying, and he was anxious to prevent attorneys from handling his property after death.

A few months later Bright began to rally, and he then concluded that his time to die had not come, and that he would like to enjoy the possession of his property for a while longer. But Mrs. Craig objected to being deprived of her wealth, and when he demanded the return of the bank book and the cancellation of the deeds she declined to comply with his wishes. He accordingly brought suit to recover his property, alleging that it had been conveyed to his sister upon the distinct understanding that it should be returned should he regain his health.

Mrs. Craig resisted the suit on the ground that the gift was absolute, and could not be revoked.

Judge Hebbard decided otherwise. He held that the law provided that gifts made in view of death could be revoked at any time. He decreed that Bright was entitled to recover his bank account and that the deeds should be canceled, but that the defendant was entitled to \$2,000 she expended in taxes, repairs, etc.

BIG SCANDAL Said to be Behind a Suit Filed at San Francisco.

SAN FRANCISCO, Feb. 6.—The "Chronicle" says there is a great big scandal back of the suit filed a few days ago by S. Weber Park against A. H. Rapp, C. E. Shaffer and A. C. Morrison.

This action is to compel Rapp to convey a group of five mines in Tuolumne County to the plaintiff; to declare that the other defendants have no title in the property, and for \$125,000 damages.

Rapp is alleged to be the real owner of the property. By him a bond was given to Parker for the sale of the mine at \$150,000, of which \$15,000 was to be paid before the first. Another agreement to sell, this time at \$250,000, was given by Shaffer, in whose name is title.

to A. C. Morrison. Parker offered the investment to a London syndicate for \$200,000. Morrison demanded \$400,000 for the same property, his prospective customer being the Juniper Gold Syndicate of Glasgow.

It is alleged that the English and Scotch firms discovered what was in progress, and joined forces, accepting on joint account Parker's proposal of \$200,000. The first installment of \$15,000 was cabled to San Francisco, where Parker's representative was to close the deal. At this point, it is alleged, Rapp showed a disinclination to act up to the terms of the bond given by him to Parker. On Monday, when the local representative of the purchasers took \$15,000 to Rapp's office, the latter was not there to receive it. Suit was filed the next day, but, thus far, it has been impossible to serve the papers on Rapp.

WASHINGTON'S SCANDAL. Senator Taylor Denounces the Statement of U. S. Senator Squire.

OLYMPIA (Wash.), Feb. 5.—In the Senate this morning Senator Taylor made a bitter speech in denunciation of the statement made by Senator Squire before the Senatorial Investigating Committee last evening, to the effect that he had been present at the dinner given by Senator Squire at the hotel where Warner claimed were in a combination that could be handled with money in the Senatorial fight. Taylor referred to Squire as a cur and demanded the appointment of a committee to investigate the matter. The committee was appointed and at Taylor's request was composed of two Republicans, being of the opposite political faith.

NAVAL APRENTICES Are to Have a Six Months' Cruise on the Adams.

VALLEJO, Feb. 5.—One hundred and forty-three apprentices in all were enlisted on the receiving ship Independence since the order was issued from Washington calling for boys for the naval training station. One hundred left on the Adams Thursday, and are now at San Pedro. The Adams will lie in the bay there for a few days to bend sails and give the boys a little drilling, and then will leave on a cruise of about six months. She will probably go south first, touching at most of the ports, and then make a cruise to the Sandwich Islands.

Grand Lodge of Diana. SANTA CRUZ, Feb. 5.—At Salinas yesterday the Grand Lodge of Diana decided to hold its next session in San Francisco, and elected the following officers: O. Keelidon, Fresno, Grand President; J. P. Peterson of San Francisco, Grand Vice-President; J. P. Kofod of San Francisco, Grand Secretary; C. M. Beck of San Francisco, Grand Treasurer; C. M. Dulberg of Reno, Grand Marshal; P. Rasmussen of Salinas, Grand Marshal.

Oregon Senatorial Deadlock. SALEM (Or.), Jan. 5.—The Joint convention of Mitchell men met at noon, thirty-eight being present. Without attempting to ballot for United States Senator the convention adjourned until noon to-morrow. The Senate and Benson House adjourned until Monday afternoon and the Davis House adjourned until to-morrow.

Attempt to Burn an Indian School. VICTORIA (B. C.), Feb. 5.—News was received here to-day of an attempt last night to burn the Indian Industrial School at Alert Bay. Fifteen children and Rev. A. Coker were in the building at the time. This is the second attempt in two weeks.

INVESTIGATING THE SUGAR TRUST.

Theodore and H. O. Havemeyer Testify Before the New York Committee.

State Why They Had Engaged in the Coffee Business.

Knew That There Was Large Profit to be Made—Deny That They Control the Sugar Market, or That They Had Entered into an Agreement With the Spreckels Not to Compete West of the Missouri River.

NEW YORK, Feb. 5.—The special legislative committee to investigate the subject of trusts met in this city to-day. H. O. Havemeyer and Theo. A. Havemeyer, heads of the American Sugar Refining Company, were on hand, having been subpoenaed as witnesses.

Theo. Havemeyer was called as the first witness. He denied that his company had fixed the price of sugar. He said that the price of sugar had not increased because of the acquisition of those companies. In fact, sugar was now lower than when the companies were acquired. He denied the absorption of the companies for the purpose of shutting off competition in the sugar market.

Witness said that he went into the coffee business because he thought it was a pretty good business. The American Sugar Refining Company, witness said, had no connection with the coffee company.

Senator Lexow elicited the fact that the Havemeyers and John E. Scaries filled equivalent positions in the American Coffee Company as they did in the American Sugar Refining Company. Witness admitted that in addition to a 12 per cent. dividend since 1891 there may have been accumulated a surplus of stock. He could not say whether it had increased from \$3,000,000 to \$13,200,000.

H. O. Havemeyer, President of the American Sugar Refining Company, was sworn and described the organization of the sugar trust in 1887. The assets, real and personal, of the fifteen companies, were purchased by the American Refining Company at the time of the amalgamation.

Asked by Senator Lexow if the directors of the fifteen original refineries were not the directors of the present sugar company, Mr. Havemeyer said that six of the original directors, with the addition of William Parsons, were still on the Directors' Board of the American Sugar Refining Company.

Asked where the original document of agreement was, Mr. Havemeyer said he did not know, and doubted its existence now. The American Sugar Refining Company of New Jersey, Mr. Havemeyer said, took the place in 1891 of the former so-called trust. It was done through purchase. The new company acquired all the property before held by the trust, and no more, and was capitalized first at \$50,000,000 and afterwards increased to \$75,000,000. The greater part of the \$25,000,000 increase was used in the purchase of the Philadelphia property.

In direct questions, Mr. Havemeyer denied categorically that his company controlled the sugar market in the United States; fixed the prices of refined sugars; controlled the produce of sugar, or that it had an agreement with the Mollenhauser concern, the National of St. Louis.

Senator Lexow called Mr. Havemeyer's attention to the fact that he had testified in 1894 before the United States Senate committee that the company controlled the sugar market up to the importing point.

"That was true at that time," replied Mr. Havemeyer. "Competition has changed since then."

"Do you ship sugar west of the Missouri River in competition with Mr. Spreckels?" asked Senator Lexow.

"No."

"Do you enter into an agreement with Spreckels not to compete with him west of the Missouri?"

"Certainly not. Competition with him there is not possible. It is purely a question of geography. Where the sugar would cost us 1 1/2 cents there it costs him 1/2 a cent."

CHEAP FARES FOR THE FIGHT. Round-Trip Rates from the East Will be Very Low.

CHICAGO, Feb. 5.—The roads of the Western Passenger Association have been voting for the last few days upon their own propositions to make reduced rates to the scene of the Corbett-Fitzsimmons fight in Nevada. The first proposition provides for a rate of \$50 from the Missouri River for the round trip, which means a rate of \$62.50 from Chicago. The other plan is to make a round trip rate of \$20 less than the regular round trip rate between Chicago and Reno, Nev., which would mean a rate of \$80 from Chicago.

The vote will not be completed until to-morrow, and the chances are very strong that the first proposition will be carried. In fact, one of the strongest roads in the Western Passenger Association has privately announced that it will make the \$62.50 rate, even though the association declared against it. It has full right to make this rate in contradistinction to the action of the association by taking advantage of the clause in the association permitting independent action at the expiration of a ten-day notice given to the Chairman of the association.

Three-Quarters of the Christian Quarters in Canea Burned to the Ground. Fighting Has Ceased, But the Torch Continues to be Applied.

ATHENS, Feb. 5.—In the Executive Chamber to-day the President of the Council, Delyannis, announced that the Government had ordered two men-of-war to proceed at once to Crete. The announcement was followed by a scene of intense excitement and enthusiasm. Minister of Marine Levidis ordered the vessel Salamanca to leave her dock immediately. It is said some torpedo-boats have also been ordered to make ready for a possible trip to Crete.

The latest news from Canea is to the effect that foreign vessels are already engaged in the work of transporting refugees to the Grecian island of Milco. It is also announced that the foreign Consuls were obliged to make their escape from Halesia to Canea by way of sea.

Advices received from the island of Crete are to the effect that the trouble in Canea originated in the unfounded report that the Mussulmans had killed twenty-seven Christian sentinels in Akrostri. When the report was received the Vail ordered the troops to proceed to the defense of the Christian villages. The troops were attacked, and it is reported that twenty persons were killed. Several villages were destroyed by fire. Canea itself is in a state of complete revolt.

The Mussulmans, it is claimed, instituted the attacks upon the Christians, and commenced the discharge of firearms. A considerable number of persons perished in the conflict. Finally it was observed that the soldiers themselves fired from the ramparts on the heads of the Christians. The Mussulmans set fire to the quarters occupied by the Christians, and the flames were visible from the warships of the Powers anchored in the harbor. The flames appeared to be spreading in the direction of the palace of the Archbishop and the Greek schools. The commanders of the Italian and French gunboats attempted to stop the fighting, and landed detachments of soldiers for the purpose of protecting the telegraph office. The Christians at Halesia sought refuge at the office of the foreign Consuls and on board the gunboats. The Vail and Consuls of the Powers were near Halesia when the outbreak commenced, but were unable to enter Canea at nightfall. The fighting ceased, but according to the latest advices the fires started for the purpose of destroying the buildings have not yet been extinguished.

Three-fourths of the Christian quarters in the island of Canea have been selected for the expedition to Crete, according to the island. The Christians, while trying to escape to the warships, were attacked by the Mussulman population and many were killed and injured. The total number of victims of the recent fighting is estimated at 300.

Minister of Foreign Affairs Skouzes has paid a visit to the representatives of the Powers stationed here for the purpose of assuring them all of the pacific nature of the mission of the Grecian warships ordered to Crete. The vessels selected for the expedition include the ironclad Hydra, with a crew of 500 men, and the cruiser Mykales, with a crew of 300 men.

It is reported that a large number of women and children have already been landed on the island of Milco by the Italian vessels. The men in most instances remained at Crete. They barricaded their houses, and made other preparations for the approaching struggle.

THE KING RESPONSIBLE. LONDON, Feb. 6.—A dispatch to the "Times" from Athens announces that the King of Greece is responsible for the sudden change of policy regarding Crete. President of the Council Delyannis yesterday (Friday) announced that inasmuch as the Powers had undertaken to care for the reforms in the Turkish Empire, Greece will maintain a policy of "watchful non-intervention."

To this declaration of policy the King offered decided objections, taking a stand in opposition to Prime Minister Delyannis, with the result that it was soon announced that gunboats would be sent to Crete.

Fatal Rail Accident in Cuba. HAVANA, Feb. 5.—A passenger train from Matanzas was accidentally derailed yesterday between Colon and Garretas. An ironclad guard car, a baggage car and a third-class passenger car were capsized. The commander of the escort and four soldiers were injured, one soldier was mutilated, and the engineer, fireman and the crew of the train and a man selling papers were killed.

Rained All Over the Coast. SAN FRANCISCO, Feb. 5.—The United States Weather Bureau reports that rain has fallen over the Pacific Coast and more is predicted for to-morrow. The continued heavy rainfall over the Sacramento and San Joaquin Valleys has caused a rapid rise in the rivers. A still further rise may be looked for to-day and Saturday. Tonight the wind is blowing thirty-two miles an hour at San Francisco, and southwest storm signals are displayed.

Steamer Lost. GIBRALTAR, Feb. 5.—The Onega, a British steamship outward bound to Hull, England, signaled to Cape Carvoeiro that the British steamer City of Agra, outward bound from Glasgow, had been lost. The Captain of the City of Agra is on board the Omega. The City of Agra was a schooner-rigged screw steamer owned by G. Smith.

Think She Has a Claim Against This Government. SAN FRANCISCO, Feb. 5.—The opinion prevails in Honolulu that ex-Queen Liliuokalani is in Washington trying to secure financial indemnity from the United States Government. She has been deprived of her annual income of \$100,000 from the crown lands, this now going to the U. S. Government.

Anticipating annexation, the ex-Queen thinks she has some claim for her loss to her income from the American Government.

POISONED HIS WIFE. A Young Englishman Charged With Attempted Murder. REDWOOD CITY, Feb. 5.—A young Englishman named Fidel is in jail here charged with attempting to murder his young wife. The couple resided at Milbrae, a small town near here, and were on their way to San Francisco for thirty days, expired Thursday, but was extended. The object is to obtain further time for the pooling negotiations without exposing the three companies to further loss from cutting.

WEEKLY REVIEW OF TRADE. NO IMPORTANT CHANGE IN BUSINESS APPEARS.

But the Number of Manufacturing Establishments Starting Up Greatly Exceed Those Stopping.

NEW YORK, Feb. 5.—R. G. Dun & Co.'s weekly review of trade to-morrow will say: No important change in business appears, but the number of manufacturing establishments starting much exceeds the number of those stopping during the week, so much that the curtailment of working time in many cotton mills does not lessen the aggregate productive force or amount of wares paid.

There is a distinct increase in orders for woolen goods, some gain in the silk manufacture, awaiting condition, with gain in one branch of boots and shoes, and indications of better times in the iron and steel manufacture.

All symptoms are favorable in the money market, and a large sale of securities in connection with the Northern Pacific and Oregon Navigation interests to European purchasers will put off still further the possibility of gold exports. It is also cheering evidence of confidence among European investors.

To many it is the most perplexing feature of current events that wheat advanced 1 1/2 cents for the week. Atlantic exports have been only 1,630,064 bushels, flour included, against 1,965,456 for the same week last year, while Western receipts have been only 1,468, last year.
