

NO FEES IN SIGHT FOR THE LAWYERS.

Butler's Attorneys Not Likely to Receive Pay for Their Services.

No Funds to the Credit of the Murderer in Australian Banks.

The Man Arrested Near Coulterville, Mariposa County, Under Suspicion That He Was James Dunham, the Santa Clara Murderer, Proves Not to be the Much Sought After Fugitive From Justice.

SAN FRANCISCO, April 9.—Murderer Butler's attorneys will not receive pay for their services. One of the last acts of the man's disreputable career in San Francisco as a liar and maker of false confessions was the signing of a check on an Australian bank for over \$1,400, payable to his attorneys. It was learned to-day that the news of the issuing of the check was called to Sydney, and the police immediately made inquiry at the bank on which the paper was drawn to ascertain whether Burgess, Harwood, Ashe or Butler had funds on deposit in the institution. Payment will be refused on the draft when it is received, as there are no funds to the credit of Butler or any of his aliases at any of the banks of New South Wales, Australia or New Zealand. The attorneys who defended Butler will have to be content with the advertising received through their connection with the famous case.

NOT DUNHAM.

The Man Who Was Arrested Not the Santa Clara Murderer.

MARIPOSA, April 9.—The alleged James Dunham, the Santa Clara murderer, concerning whose reported capture so much excitement was generated yesterday, turns out to be a no more formidable individual than an irresponsible and comparatively harmless maniac.

There is little reason to doubt that the prisoner in jail here is really William James Davis, as he said when arrested. His subsequent fits of insanity were too real to be simulated. He has been known in various localities in the county, it now transpires, for the last two years, which alone would make his identity with the murderer Dunham impossible. A careful examination of his features also fails to reveal any positive points of resemblance, while Davis actually lacks many of the marks on his body known to be characteristic of the real Dunham. As a matter of fact, the story that the insane miner, who in a quarrel made a murderous attack on a companion, is the much-desired Dunham grew from the idle gossip of a group of would-be practical jokers with more time than discretion, in their possession. Several of these humorists pretended to positively identify the prisoner as Dunham, alleging a prior acquaintance, which in each case was proved to be fictitious. The prisoner's dementia is considered genuine by the physicians here. He will be kept in jail until examined by the Lunacy Commission, after which he will doubtless be sent to an insane asylum.

WARSHIPS AT MARE ISLAND.

Work on Them Impaired by Shortage of Funds.

VALLEJO, April 9.—Forty men were discharged to-day from the construction and repair department of the navy yard, the usual shortage of funds as the close of the fiscal year draws near. As a result of the reduction of the force, work on the Pensacola, Mohican, Charleston and Baltimore is impeded. The little gunboat Concord is about ready to go into commission. Repairs are practically completed, and if the officers and crew were to arrive next week they need not delay in taking charge. Workmen are putting on the finishing touches. So far no officers have been assigned to the Concord, although the gunboat was ordered ready for commission on the 15th.

WILL GO TO COUNTY TREASURY.

The Estate of a Man Who Died in an Arizona.

SAN JOSE, April 9.—Mrs. Mary J. Friend of Phoenix, Ariz., who filed a contest to the estate of Frank Draves, deceased, did not appear to-day, and the administrator was ordered to settle the estate and pay the money into the county treasury. Evidence was submitted to the court which showed that Mrs. Friend confessed that she had forged the signatures to the letters which she formerly presented and claimed to have received from Draves. They were really from her son, but the words "Dear mother" and "Affectionate son" had been changed so as to read "Dear cousin" and "Affectionate cousin." The woman being simple minded will escape prosecution.

from Draves. They were really from her son, but the words "Dear mother" and "Affectionate son" had been changed so as to read "Dear cousin" and "Affectionate cousin." The woman being simple minded will escape prosecution.

QUEEN MAMAE SURRENDERS.

The Rebellion in the Islands of Raiatea and Hauheine at an End.

SAN FRANCISCO, April 9.—Advices from Tahiti state that Queen Mamea, who for seven years as ruler of the island of Raiatea, has defied the French, has surrendered, and that the long Raitatea and Hauheine has been put down. The French gunboat Aube and the transport Caroline captured the Queen and her chief men after a hot fight, in which thirty-six natives were killed and 106 wounded. The French lost one marine killed, while sixteen were wounded.

On February 28th the Queen and 136 of her subjects were sent into exile at New Caledonia, the French penal settlement. They were condemned to remain there for life. The French have left an armed force in charge of the captured islands.

OAKLAND RACES.

Ingleisle, Bliss Rucker, Bernardillo and Hazard the Winners.

SAN FRANCISCO, April 9.—Weather fine at Oakland; track fast.

Seven furlongs, selling, Ingleisle won, Hotspur second, Ceridiah third. Time 1:31.15.

Half mile, Bliss Rucker won, Torsida second, The Chest third. Time—0:49.

One mile, Bernardillo won, Alvarado second, Santuzza third. Time—1:42.

Five and an eighth, Hazard won, Morte Fosse second, Oakland third. Time—1:57.

Seven furlongs, selling, Soniro won, Charlemagne second, Nervoso third. Time—1:53.

Five and a half furlongs, selling, Dunboy won, Suisun second, Santa Paula third. Time—1:06.

Santa Cruz Electric Railway.

SANTA CRUZ, April 9.—To-day the motor for the operation of the electric railway was set in motion and proved a success. The power is furnished by the waters of Big Creek, eighteen miles away. Immediately after the necessary attachments were made, the cars began to move, and during the test there was no hitch in any way. The electric railway system is to be operated by Big Creek power. A near time schedule will go into effect in a few days. The motor weighs 7,200 pounds, and is the largest of its kind in the State. It is of 250 horse-power.

Mrs. Stanford Heavily Insured.

SAN FRANCISCO, April 9.—Mrs. Leland Stanford to-day signed the contract by which her life is now insured for \$1,000,000. By the terms of the contract Mrs. Stanford is to pay an annual premium of \$170,000, and upon her death \$1,000,000 will be paid by the company to the Leland Stanford, Jr., Trust. Should she live ten years, and continue her annual payment of premiums, the university will receive at her death \$2,000,000 instead of \$1,000,000.

An Ocean Steamer Race.

SAN FRANCISCO, April 9.—The rival steamers Pomona and Humboldt arrived in port to-day, after one of the most exciting races which has taken place along the coast for years. The opposition vessels started from Eureka yesterday at about the same hour, and raced at full speed on the ocean journey of 240 miles. The Pomona won the race by eleven minutes, arriving at her dock in 15 hours and 45 minutes.

Bruce Dies of His Wounds.

YUBA CITY, April 9.—John Bruce, who was shot at Pennington yesterday afternoon by John Madden, died this evening at 7 o'clock. His condition grew worse to-day, and the District Attorney went out to take his statement. Madden is in jail, and claims that he was attacked by Bruce and had to defend himself. This is denied by Bruce. The community is much excited over the tragedy.

Another Charge Against Hastings.

LOS ANGELES, April 9.—Deputy District Attorney McComas to-day filed an information in the Superior Court charging "Dr." Calvin S. Hastings with committing felony, in that he performed a criminal operation on Fannie Norris on February 15th. Hastings is now out on bail awaiting trial for the murder of William Hattery of San Bernardino.

State Bankers' Association.

LOS ANGELES, April 9.—The State Bankers' Association will meet in annual convention here on Monday, April 13th. About 100 of the leading bankers of the State are expected to be present, and their business sessions will occupy two days, the 20th and 21st inst. The local bankers are planning to entertain the visitors in fitting manner.

Retracts Her Statement.

LOS ANGELES, April 9.—Mrs. M. Pockelhoff, the widow who caused the arrest of Nicholas Orth of Petaluma on a charge of grand larceny, has made

a signed statement, in which she retracts everything and all statements made by her detrimental to Mr. Orth's character.

Schooner Grounded in Napa River.

NAPA, April 9.—The schooner River, loaded with gravel, while attempting to pass through the railroad draw bridge between 7 and 8 o'clock this morning, got stuck in the mud, and at this writing cannot be made to float. The bridge cannot be closed, and the Napa Valley trains have been stopped at this point. About twenty-five passengers were aboard the morning train. The schooner will probably be floated at high tide to-morrow morning.

Attorney Morgan.

UKIAH, April 9.—Sheriff Johnson left this morning for the Comstock settlement in the woods, about twenty-five miles from this city, to arrest E. M. Morgan, the San Francisco attorney, who is wanted on a charge of felony embezzlement. Morgan has been in this county since March 17th, and at last reports was building a cabin for himself in an almost impenetrable forest some miles northwest of Orr's Hot Springs.

Fell into the Hands of Thieves.

SAN FRANCISCO, April 9.—Neil Knudson, a Stockton weaver, came here a day or two ago to look at tall buildings. He encountered three bunco operators, who soon relieved him of \$300 of his savings. He was also beaten by the thieves, and is now being treated by a physician for his injuries.

WEEKLY REVIEW OF TRADE.

NO GAIN SHOWN IN THE SITUATION AS A WHOLE.

Floods in the Mississippi and Missouri River Valleys Check Progress in Business Lines.

NEW YORK, April 9.—Bradstreet's to-morrow will say: The situation as a whole shows no gain. Staple lines are only fairly active. Overflows, wash-outs and floods continue to do great damage in the Mississippi and Missouri River Valleys, through a portion of which general trade remains practically at a standstill.

Pig iron, steel billets and cast iron pipe are lower in price, and the demand for steel and iron is not as heavy as it has been, although the price of lake iron has been fixed at a low figure and an ore pool formed.

Wheat has continued a disappointment as to price, dropping nearly 4 cents a bushel on Bradstreet's report of an increase in the world's visible supply last week, instead of a decrease, as expected, due to a larger quantity of wheat in sight abroad. Chicago has only about held its own, little, if any, improvement being reported in trade here. St. Louis, more dependent on traffic from the flooded regions, reports a decrease in volume of business. Jobbers at Omaha, St. Paul, Milwaukee and Portland, Or., report a better demand, notably in dry goods, oil, paints, glass, shoes and leather. Prospective advances in the wool tariff are behind another rise in the price of wools, but common goods thus far fail to advance, because the restricted production is meeting current demand.

Nearly all staples, except those mentioned as had advanced, have declined. Exports of wheat (flour included as wheat) from both coasts of the United States last week, 2,036,797 bushels, compared with 2,664,000 last week two years ago, 1,700,000 the week a year ago, 1,395,000 three years ago and 2,947,000 in the like week of 1893.

Business failures remain at the lower level recently reported, 232 this week, compared with 212 last week, 231 in the week a year ago, 225 two years ago, and 211 three years ago. There are 32 business failures reported from the Canadian Dominion this week, against 38 last week, 39 in the week a year ago and 29 two years ago.

Bradstreet's "Financial Review" to-morrow will say: Although the market has been a professional one, and at the beginning of the week exhibited further heaviness, the overweighing of shorts on an extensive scale set in on Wednesday, and carried prices to a level. This movement was not attended by any very striking news, but would seem to be the result of over selling by professional traders and their allies. The fact that the railroads did not justify the hopes of the bears in regard to their action upon the Trade Commission's decision and have studiously refrained from inaugurating a rate war, was of course an important factor in this connection, and it may also be observed that except in a few stocks, like Jersey Central, where special reasons for liquidation existed, no large volume of investment stock came upon the market during the recent decline. Loosely held long stocks were however forced out, but it is now evident that the short selling was upon a much more extensive scale than had been supposed, and as further unfavorable developments seemed far off, uncaused a general desire to close their contract on the bear side, but this disposition has doubtless been accelerated by manipulation on the part of some of the leaders of the bears, and it may be remarked that the commission public buying, indicative of renewed interest in the market, has been lacking. The reduction of the Bank of England rate, with the decline of the money markets in London and on the continent, preventing as they do decreased apprehensions that war will grow out of the Cretan question, are considered favorable factors. At the same time London has been inactive and shows little or no interest in our markets.

Colonel W. A. Ray Dead.

CHICAGO, April 8.—Colonel W. August Ray, at one time President and for twenty-two years a prominent operator of the Board of Trade, died today of chronic kidney trouble. Colonel Ray organized Company F, 103rd Wisconsin Infantry, and was commander of the regiment. He held Memphis against the Confederate General Forrest when the latter made his famous raid on that town.

Foreign Submarine Cables.

WASHINGTON, April 8.—The Senate Committee on Commerce granted a hearing to-day on the bills before it providing regulations for the landing of foreign submarine cables in the United States, but reached no conclusion in regard to the bills.

THE WEEKLY UNION—THE BEST sermon of never-ending fire and brim-

WEINSTOCK, LUBIN & CO.

TO-NIGHT, 7:30. SPECIAL SALE Men's Suits for Easter. One of the best clothing manufacturing firms in New York City, Messrs. Hornthall, Whitehead & Co., is going out of business. At an auction which was held we bought from this firm some fifty black suits for men. Although as perfect and desirable as any of our regular goods, we shall sell them at prices that do not begin to represent their market value. This offering of suits will be one of the great clothing opportunities of the year, and those who buy are sure to be in pocket many dollars. LOT 1—Black Twilled Worsted Sack Suits for best wear. Italian cloth lining, coat finished with satin piping on inside and all seams sewed with silk. High grade workmanship in every part. Sale Price, \$6 85.

LOT 2—Fine Black Worsted Cheviot Suits with round-cut sack coats. Every part carefully made, even the button-holes being hand-worked. Excellent linings and satin finish. These suits are worth more than double the price at which we shall offer them. Sale Price, \$4 90.

LOT 3—Fine All-wool Black Thibet Cloth Suits, in all sizes up to size 40 chest; Italian cloth lining, satin finish and excellent workmanship displayed in every detail. These suits, too, worth more than double the price. Sale Price, \$4 90.

Pattern Suits. Some swell things in fine woolen Suits, imported goods, and no two styles exactly alike; \$8 75, \$10, \$12 50 to \$27 50. Black Silk Grenadines, \$10 to \$25 per pattern. Rich designs in colored Silk Grenadines, \$1 50 and \$2 yard.

Llama Cloth. These are soft, twilled cotton Cashmeres, in dark or light grounds, with pretty floral designs. For 12 1/2 yard they make a most creditable appearance.

Foulard Silks. Foulards make cool and serviceable Summer dresses, and at the special price of 73c yard ought to interest many people. Brown, navy blue, green and heliotrope grounds, with pretty floral patterns, and 24 inches wide.

Concert To-Night. Saturday evening at 7:30 o'clock there will be a concert in our store by the Forester Band, George C. Holbrook, Director.

PROGRAMME: March, "Alexandria,"... Laurendeau Overture, "Silver Bell,"... Schlegelwaltz, "Reminiscences,"... Klesler Selection from the comic opera, "The Yeoman of the Guard,"... Fantasia, "Songs by Stephen Sullivan"... Overture, "Berlin as It Laughs and Cries"... Concerto, "Ermeline"... Myrrelles Medley Overture, "Sounds from the Sunny South"... Do Witt March, "Trumbull Club"... O'Farrah

Plain heavy cloth in new (or cadet) blue, for little boy's suits, 52 inches wide; 75c yard.

Alpacas. In plain black Alpacas our range of prices is 35c, 50c to \$1 50 yard, with every price representing the very best qualities to be had for the money. Alpacas are favorites with many for undershirts, as well as for complete costumes.

We shall hold our Easter Millinery Opening to-day, April 10th. We invite you to visit our store. All departments of our business, bearing on dress for men or women, will team with goods and novelties of the most interesting and attractive kinds. We shall aim to make it a gala day in the business history of our store for this year.

In purchasing Easter Millinery, it will be well to bear in mind that we get most of our Millinery goods direct from the manufacturers and importers. This saves the purchaser one profit over millinery as usually bought and sold. Besides, we can and do name prices impossible, but for the fact that we sell for cash only.

Weinstock, Lubin & Co., 400-412 K Street.

Swell Kid Gloves for Easter.

Recently our New York buyer cabled to Europe for some choice novelties in women's Kid Gloves for Easter.

The gloves are now here, and nothing more choice of the kind is shown in any city of the Union. Besides being of the very finest kid, the colors are rare shades of reds, greens and violet, to match the prevailing colors in dress goods and millinery.

A feature of these gloves is the large two-class fastenings, consisting of solid pieces of white pearl. If you want something really swell in Kid Gloves do not fail to see these. All sizes at \$2 pair.

Stylish Capes and Jackets.

Exclusive sizes in light tan Capes, only one or two of a kind; \$13 50, \$15, \$17 50, \$20.

The new shades of light tan, in tailor-made jackets; \$10 75, \$12 50. Summer jackets in black and colors, at \$5 75, \$7 50 and \$8 75.

Women's Ox-Blood Shoes.

In the new ox-blood red shoes and new shapes of tans and broes we have a splendid assortment of styles and qualities, \$2 50 and \$3. In fastenings the preference seems to be for the lace shoes. All the new styles of toes.

Many pleasing things in tan leather ties; \$1 50, \$2 and \$3.

Bicycle Sundries.

Dixon's Graphite, 5c. "3 in 1" Compound, 20c. Double Stroke Bells, 25c and 35c. Bells, Electric Stroke, 50c and 75c. Never Hot Lubricant, 15c. Rubber Cement, in tubes, 5c. Oil Lubricant, 4c. Pure Rubber, in large sheets, 8c. Veeder Cyclometers, \$1 25. Standard Cyclometers, 75c. Perfect Oil for tool bag, 20c. Small Pumps, 25c. Sprocket Locks, 1897 Model, 25c. "Hang It" for suspending bicycles, 50c.

Baldwin Adjustable Chains, \$3 50. "O K" Toe Clips, 25c. Thiemes' Adjustable Toe Clips, 25c. Hold Fast Luggage Carriers, 20c. U. S. Wrenches, blue steel, 30c.

Weinstock, Lubin & Co., 400-412 K Street.

FUNDS FOR CHARITY WORK.

Great Open-Air Festival in East Park on May 4th.

How the Children's Protective Society Hopes to Raise Needed Money.

Notice is given elsewhere of a special meeting of the Society for the Prevention of Cruelty to Children, to be held at the East Park on May 4th. It is promised that if the members will be prompt at that hour they will not be detained more than half an hour.

The secret of it is this—the work of the society overflows its financial capacity—as five to one. Some time ago the members ordered a committee to look into the question of a benefit for the society, by which money could be put into its purse for relief of distress and rescue of children, and yet the contributors of it be given value received.

That committee has fixed upon a plan, and to-night's meeting is to secure ratification and volunteer committees on lines of subdivision of labor, so that nothing onerous will fall upon any one—it is to be "everyone a little task, to accomplish a great result." Also, as but a little over two weeks remain in which to get the thing up, it is desired to get all the members together who can possibly attend, and arrange for such distribution of tickets as will insure success by getting them into every family.

The benefit is to take the form of a children's and family May Day picnic. To that end East Park has been secured—not the little confined grove at the rear—but the whole park of eighty acres, with all the attractions in the park, and many added ones. Games will be provided for adults and children alike; booths will be erected to care for by many groups of devoted, big-hearted women; the toboggan slide will be operated; races for children and cyclists arranged; a fine band of music will be in attendance; roller skating and bowling; a May-pole festival, and a host of other attractions.

The grounds will be the exclusive property of the society for that one day. There will be twenty guards and officers in attendance, and out-guards will stretch entirely around the park. It will be a great May festival, with perfect decorum, yet hearty freedom for rational exercises and enjoyment. To that end the cars will be carried to and from the park on the electric cars free of charge, if they hold a May-day ticket of the society.

The date fixed upon is May 4th, which falls on Tuesday. As the children's tickets, including transportation, are fixed at 25 cents and adults at 50 cents, it is believed that fully 3,000 children will be assembled and a thousand adults, and the affair thus made the largest May festival ever given in interior California.

But it can only be successful, say the officers, by all the members attending and resolving that it shall be, and to that end to-night's meeting is called. Tenneyson used to tell the story of a farmer who, after hearing a red-hot sermon of never-ending fire and brim-

CALIFORNIA WHEAT EXPORT.

Cause of the Terrible Decline During the Past Decade.

Fifty years ago two or three hide-droppers sufficed to carry round the Horn the whole annual export of California—a few hides and a little tallow. Thirty years ago two successive seasons of drought put an abrupt end to the pastoral period and the reign of the wheat farmer was ushered in. The making of California dates from 1866, when towns and hamlets sprang up all over the State; and whether a man labored as lawyer or doctor, merchant or mechanic, teacher or preacher, his pay came out of the boundless wheat field. This era of prosperity based on grain reached its climax in 1882, when California's wheat export footed up \$43,000,000. Such tangible success spurred our rivals to emulation. Australia learned the lesson to such effect that her wheat soon outranked in price the product of California. As early as 1881, in reply to a description of our "header" which I furnished to the London "Times," I was requested to send detailed information to Southern Africa. So the Afrikaner benefited by California ingenuity at an early date. The following year Argentina entered the race, with a feeble export of 68,000 bushels. This has grown to an accredited 400,000 bushels exported in the half of 1894. Meanwhile, in that year, California's output to Liverpool had fallen to a value of \$8,424,000, or one-fifth the amount shipped in 1882. In 1895 it rose a little, to \$10,028,102.

What is the meaning of this terrible decline? Simply that California has been worsted with her own weapons. For a while inventive ingenuity applied to grain farming kept California ahead of the world. The gang-plow, improved harrows and cultivators, headers, and lastly, the combined harvester, with its thirty-mile team, cutting, threshing and sacking the wheat at a stroke, had enabled the Californian to compete with cheap-labor countries. For many years this faculty of invention acted as a counterpoise to Argentina's propinquity to the world's wheat market. Of course this could not last. The fame of California's harvesting machinery was noised abroad, and in a single year Argentine imported \$3,000,000 worth of reapers, steam threshers, plows, etc. The transactions of our State Agricultural Society chronicle the result briefly: "Argentine wheat broke the market." The California farmer, handicapped by 8,000 miles of perilous ocean navigation around Cape Horn, found himself unable to compete with the Argentine—Frederick Berwick in the Arena.

Haunted by a Cat. About twenty miles out of Toledo, Ohio, in a little town known as Richfield Center, nearly twenty families are afflicted with a disease which they all claim is caused by a phantom cat, which haunts them. At first the medical men of the vicinity thought it was caused by bad water, but there are no familiar symptoms. The patient simply fades away and does care whether he lives or dies. No explanation has yet been given.—Philadelphia Press.

The greatest corporation on earth is the London and Northwestern Railway Company of England. It has a capital of \$505,000,000 and a revenue of \$6,500 an hour; has 2,300 engines; employs 60,000 men. Everything used is made by the company—bridges, engines, rails, carriages, wagons, coal scuttles, and even artificial limbs for its injured employes. Repairs to the permanent way cost \$130,000 a month.

Cleanest Cities on the Continent Cleaned by Direct Labor. The two cleanest cities on the continent to-day are Toronto and New York, and they are both cleaned by direct labor.

New York not only employs and thus directs all its street cleaning and garbage dispatch forces, but it has an organized department, with an adequate staff, with a disease which they all claim is caused by a phantom cat, which haunts them. At first the medical men of the vicinity thought it was caused by bad water, but there are no familiar symptoms. The patient simply fades away and does care whether he lives or dies. No explanation has yet been given.—Philadelphia Press.

Spring. Green is the color of faith and truth, And rose the color of love and youth, And brown of the fruitful clay, Sweet earth is faithful and fruitful and young.

When Mabel placed the mistletoe We marvelled that she hung it low; Full fall are we—the room we seek, And lo! there comes a shorter man.—Chicago Record.

Artful Mabel.

When Mabel placed the mistletoe We marvelled that she hung it low; Full fall are we—the room we seek, And lo! there comes a shorter man.—Chicago Record.

A CERTAIN CURE.

Is Your Back Weak?—Have You Rheumatism or Kidney Trouble?—Try Dr. Sanden's Electric Belt.

ALL OTHER MEANS HAVE FAILED, BUT THE THOUSANDS who have tried the cure by Dr. Sanden's Electric Belt give evidence that after everything else has been tried without result, this famous Belt will cure if a cure is possible. It has great electric power, is warranted to last one year, and is applied by a regular practicing physician who knows his business. Those who use it save the benefit of Dr. Sanden's wide knowledge and experience free of charge.

Here is a Late Cure.

SAN FRANCISCO, March 26, 1897. DR. A. T. SANDEN.—Dear Sir: After suffering terribly from rheumatism in my legs and weak kidneys, I was induced to try your Belt, and I could not give it up for \$50 if I could not get another. My troubles had annoyed me for years, and I could not lift twenty-five pounds. The Belt knocked the pain out in six weeks and the rheumatism in three, and I have not felt a touch of either since then. I laughed at the idea when a friend told me your Belt would cure me, but I am changed now, and am a better man for it. Y. J. BURKE, 1624 Powell Street.

DR. SANDEN'S ELECTRIC BELT. No remedy has ever been known to perform the wonderful cures shown by Dr. Sanden's Electric Belt. It is the friend of the man who has drugged until he is sick of drugging. It only costs one cent; as much as an ordinary course of medical treatment, and it can't hurt you—drugs can. It cures; drugs do not. Book free, full information.

DR. A. T. SANDEN, 632 Market Street,
