COMMERCIAL. SHIPPING WHEAT UNCHANGED AND QUIET. Futures a Trifle Lower, and Not Very Active-Barley Continues Quiet. San Francisco, May 27th. Wheat is unchanged and quiet; mill descriptions are weaker, though not lower; futures are a trifle lower, and not very active. Barley continues quiet; it must be extra choice feed to bring the price for local use. Oats are more active and possibly bring 2 1/2c. No change in corn and the markets are rather flat. Cherries are dragging somewhat. Apricots are not very attractive and sell low. Blackberries are lower. Currants still move slowly. There is a wide range in oranges, both as to quality and price; prices range from 10c to 15c per bushel, choice stock, which is scarce, brings top prices, and white inferior, which constitutes the bulk of receipts, goes for almost any price. The Mexican limes that were in quarantine on the Colon have been released; there are 400 boxes. Butter is steady; supply and demand about balance, and prices remain un- changed. Eggs are weak; store are a fraction lower. Produce Quotations. FLOUR-Net cash prices for Family Extra, \$1.75; 45; Bakers' Extras, \$1.50; 45; Superfine, \$1.10; 45; 100 lb.
