The finest, most delicate things you have you needn't be afraid to wash with Pearline. The fact that a thing is delicate and easily torn is the very reason why you should take Pearline to it. Nothing else can get it clean with so little rubbing and wrenching. If you observe carefully, you'll notice that the women who are the most particular about their washing and their housekeeping and their housework are the ones who are the most enthusiastic about Pearline. Look Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as" Pearline. IT'S FALSE—Pearline is never peddled; if your grocer sends you an imitation, be honest and send it back. JAMES FYLE, New York.

GIVE UP THE FIGHT.

The You Bet Miners Promise Not to Sluice Any More. A stipulation has been filed in the Superior Court between District Attorney F. D. Ryan and Robert T. Devlin, attorney for the County of Sacramento, in the action against Jerry Goodman, Frank Godding and others, and the defendants' counsel, Frank Scurlis, whereby the defendants promise to forever desist from mining the claims near You Bet, Nevada County, known as the "Brown Brothers" and "Red Dog" claims, by what is known as the "sluice" or washing process complained of.

They also agree to desist henceforth from depositing stones, cobbles, tailings and debris in Steep Hollow Creek, or Greenhorn Creek, or the ravines of Bear river, or of leasing the claims to other parties for such purposes. This stipulation, it is provided, shall not prevent the parties of the second part from working said mines by what is known as the drift process. Nor are they to be debarred from any rights that may be accorded them by the California Debris Commission on application to that body for permission to work the mines by the sluice or washing process.

In view of this stipulation the attorneys representing Sacramento County consent to the dismissal of the injunction proceedings heretofore had for any violation of the injunction committed prior to the signing of the stipulation.

Strong Mind, Strong Body, Strong Nerves.

WHO IS THE MAN THAT DOES NOT WANT to be strong? It is an ambition worthy of the truest manhood; and the stronger a man is, the stronger he wants to be, because he knows that his strength—his health—is the best part of him. With strength a man can fight ill fortune—and win. Without it he is a victim to all the evil that is about. Mental and physical vitality is born in every man, and when it is lost the greatest capital that man possesses is gone. It should be regained. Manhood demands that it be regained, because without it a man is only half a man. Happiness comes from strength, and to be happy you must be strong.

DR. SANDEN'S ELECTRIC BELT.

This is the thing. From it you can get nerve power, the muscles glow with new life blood, the mind is made clear and joyous, and renewed health dawns before you, a new ambition springs up in your heart, and you are a new man. "Electricity is Life." This famous Belt fills your body with it, and it generates a fresh vitality in your nerves. It makes life brighter in a day. "I was practically on my last legs when I got your Belt. I had spent \$200 for drugs without getting any benefit. My strength was all gone and I was a wreck. I got benefit as soon as I applied the Belt, and am now as strong as ever," says H. Knowlton, 621 Kearny street, San Francisco.

Dr. Sanden will show you hundreds of original letters like this if you will call at his office, or send for his book, "Three Classes of Men," free, closely sealed, by mail.
