

DUST FROM THE DIAMONDS.

THE C. C. & B'S AND WOODSES AT OAK PARK.

An Exciting Game Expected To-Day—Ed. Kripp's Proposed Ball Venture.

BASEBALL continues to boom. This afternoon at Oak Park the S. N. Woods of San Francisco and Curtis Carmichael and Brands of this city will play an exhibition game of baseball. The visitors are rated among the best clubs in the metropolitan area and have a fine reputation for gentlemanly ball playing. Perrine, their pitcher, is said to be one of the most promising twirlers on the coast, although he is not yet 19 years old. Mulvey, the catcher, is a fine backstop and a beautiful thrower. While Wilds, the first, is also a splendid player, and is well known in Sacramento. Gormley, Tribon and Batchelder are also well known here, and they have been playing ball for some years. The C. C. & B's have a very strong team to play against the Woods, and are confident of winning. Manager Milliken says that Pitcher Wilcox is a "crack" pitcher, and that it will not be his fault if he loses the game. Wilcox was formerly a resident of Reno, and acquired such a good record as a twirler that some of the clubs in Nevada would not play against him. He is very speedy, and is said to have perfect control, and uses his curves to good advantage. Conrad will play behind the bat, a position in which he is perfectly at home, Will Newbert at third, Rice centered, and Ridley first base.

new and special is the exhibition of life-saving by Captain Perfer of Paris, who leaps from a lofty tower; a street parade of unusual extent; a large stable of imported and selected horses; a riding lion, the only one in the world; a score of ring and hippodrome riders; and a large selection of animals, some of them new in the show line.

ANNE BOYD AGAIN. Arrested on Complaint of Her Sister, Mrs. Hatch.

Annie Boyd is in trouble again. She was yesterday arrested by Officers Higgins and Miley on a warrant sworn out by her sister, Lillian Hatch, charging her with petty larceny.

Annie Boyd has quite a record in police circles, and her picture occupies a page in the prison blue book, commonly called the "rogues gallery." The present difficulty seems to be pretty much in the family. Annie Boyd was recently in San Francisco, where her sister, Mrs. Hatch, is employed. The latter, it appears, has been stopping at a lodging-house on Post street, and when she left she owed the landlady a small sum for rent, to insure the payment of which she left her Saratoga trunk, filled to the top with dresses and hats and laces and bonnets and various other things which go to make up a woman's wardrobe. According to Mrs. Hatch's story, her sister Annie visited the landlady who conducts the lodging-house and represented that she had sent her for the trunk, at the same time proffering the amount due for rent.

The upshot of the matter was that Annie Boyd, in coming to this city and taking no time in coming to this city and taking a room in the Vendome lodging-house on K street, between Third and Fourth. It was not long before Lillian Hatch called at the Post-street lodging-house and demanded her trunk, when she was informed that she had been forestalled by her sister Annie. Mrs. Hatch then took the first train for this city, where she got out the warrant on which the arrest was made. She states that her motive is not to punish her erring sister, but to regain possession of her wardrobe. The trunk and contents are held as evidence in the case, which will be called in the Police Court to-morrow.

THE ART GALLERY. It is to Have a Pretty Thorough Overhauling.

The City Art Gallery will close on Monday morning for one week that necessary repairs to the interior may be made. Custodian Jackson will also seize the opportunity to revitalize some of the paintings, repair some frames, etc., and provide new cloth screens overhead in two of the galleries. The damaged glass will be replaced, and the window sashes and frames, which have not been touched for repairs in twenty-six years, will be scraped, restained and varnished. Where polished work is soiled it will be cleaned and polished, and the office will be papered. These repairs have long been needed and cannot be further delayed, except at risk of far greater cost next year. The steps leading to the gallery need replacing with granite, but that it is found can hardly be done this year, though an estimate of cost is to be prepared and reported to the Joint Board of Control.

CYCLERS AND WATERMELONS

THE GREAT EVENT AT STOCKTON TO-DAY.

Hundreds of Cyclers Expected There to Partake of the Feast.

There will be a great time at Stockton to-day and to-morrow, the occasion being the so-called "watermelon" to be held under the auspices of the Terminal City Wheelmen of that place. Wheelmen are expected from far and near, and the people of the watermelon belt will be in their glory. A large delegation of the Capital City Wheelmen will join in the attack on the melons. Some of them went over to Stockton last night by train, and others will go by wheel this morning. The Stockton "Independent" says of the great gathering:

"The visitors will be most elaborately entertained and from the replies at hand they will be here in large numbers to enjoy the hospitality of the local cyclists. The Capital City Wheelmen notified the T. C. W. that they will bring almost all of the club down on the train and a few will ride over. Members of the Imperial Cycling Club of San Francisco who are in Stockton at present received postal cards yesterday saying:

"There will be a club run to Stockton next Sunday, August 8th, to join in the 'Watermelon festivities' given by the Terminal City Wheelmen. This run is the event of the year, and we should have all our members out. The club at Stockton provides an excellent lunch to visiting wheelmen, and a roaring good time will be assured. Members will leave our club rooms on Saturday evening at 6:30 sharp. Steamers leave Clay-street wharf at 7 p. m. Those wishing berths will notify Lieutenant Wilson, who will make arrangements for securing them. 'Nough said.' "All of the club members received yesterday that there would be fifty of his club here Sunday. Vallejo will bring up about 100, including the wheelmen from Napa. The other organizations in San Francisco will send from fifteen to fifty-five members. Fresno will not be represented as a club, but a number of the wheelmen will come as unattached cyclists. The Road Club Annex will make quite a showing and the boys will do their part in entertaining the visitors.

"The public has been laboring under the impression that there would be a watermelon fight at the picnic. This is a mistake and the committee stated yesterday that they wished to assure all that there would be no watermelon fight. There will also be an improvement in the manner the fruit is served. The melons will be inclosed in a fence and the public will be served on tables, around which benches have been placed. There will be none of the helping one's self, as at the former picnic.

"The most novel feature of the run will be the sombreros the T. C. W. will wear. All of the boys will be in uniform and will wear the wide brimmed, high-crowned hats. They are made of light straw and for a band the colors of the club, green and orange, are neatly arranged. Vaguelich Park will be tastefully decorated with hundreds of Japanese lanterns, which will be lighted in the evening. The picnic will close at midnight, and if there is any one who has not enjoyed himself his money will be refunded and a ticket given him for the next watermelon run in 1898."

SIERRA VALLEY.

A Lovely Spot Where Sacramentans Are Enjoying Themselves.

A correspondent writing from Campbell's Hot Springs, Sierra Valley, under date of the 5th, says:

"We are having delightful times here at Campbell Hot Springs. As to the bear steaks, we are at present living on bear tracks and trout. We (that is, myself and Charles Flohr and others) caught some eighty odd last Monday, of which Ed. Van Alstine received some twenty or more.

"I will relate a little incident that happened to our friend Flohr on July 30th. While some of us were fishing down on the Little Truckee, Mr. Flohr separated from us to go farther up the creek, saying there was plenty of fish higher up. To our amazement, in about ten minutes back came Flohr with his hat raised high and the hair of his head, 'Give me your gun,' he cried, 'there is a big bear up here.'"

"Of course we all wanted to see the bear, so up we went very cautiously, and lo and behold! there stood a big black log peering out from under the willows. It is needless to say that Charles Flohr was a very surprised man.

"Please give this a place in your paper. At present a great number of Sacramentans are here. They include myself and wife, P. Scheid and wife, John Weil and wife, G. K. Riker and wife, E. Green, Mr. Gribble, Mike Howard and C. Flohr.

"John Weil and Mike Howard are starting in to outdo Phillip Sched in obesity, Howard being the champion croquet player. He will come back loaded with fish stories out of the swimming tank and both will Jake Presse and son will come back loaded with grouse and sage hen stories.

"I hope you will give this a good send-off, as the 'Record-Union' is the only paper we have here, and they are all anxious to see anything relating to this neck of the woods. T. K. B.

The present time of transit of seventy hours has been reduced to forty-eight hours, commencing on Tuesday, the 10th instant, freight trains will leave Sacramento tri-weekly, Tuesdays, Thursdays and Saturdays, for Portland, making the run in forty-eight hours. COUNTY ASSESSMENTS.

No Citations Yet Issued by the State Equalizers.

The State Board of Equalization has done little for several days past beyond examine the assessment rolls of the several counties and compare them with those of 1896.

The serious work of the board will

begin this week, when the several rolls will be considered with a view of equalizing them.

The usual invitations to Boards of Supervisors and County Assessors to appear before the board and offer such explanations as may suggest themselves have not yet been issued, and some doubt exists as to whether they will be. In that case officers who desire to catch the ear of the board will be obliged to ask for a hearing.

So Ho Would.

"To curb the wild cavalcade of bicycles that are speeding to and fro on our sidewalks," says the Placerville "Democrat," "the Supervisors have instructed their legal adviser to formulate a measure. Had they referred the matter to us, the bike on which the District Attorney sits himself would have been up for a raffle before their next meeting."
