

DAILY RECORD-UNION ISSUED BY THE SACRAMENTO PUBLISHING COMPANY Office: Third Street, between J and K.

THE DAILY RECORD-UNION. A SEVEN-DAY ISSUE. For one year \$6.00 For six months \$3.50 For three months \$2.00

THE WEEKLY UNION. Is the cheapest and most desirable Home, News and Literary Journal published on the Pacific Coast.

RECORD-UNION TELEPHONE. Editorial Rooms, Red 121 Business Office, Black 121

SPECIAL AGENCIES. This paper is for sale at the following places: L. P. Fisher's, room 21, Merchants' Exchange, California street, and the principal news stands and hotels, San Francisco.

EASTERN BUSINESS HOUSES. The Tribune Building, New York City. Western Business Office, "The Hookery," Chicago.

Weather Forecast. Northern California—Fair Tuesday, except cloudy in extreme northern portion; warmer in the interior; fresh northerly winds.

Sign the Petition. The appeal for the construction of a Government road into Yosemite Valley over Government reserves and by the Federal Government is at once a just and a strong appeal.

With a chance to get the Gold Watch or Bicycle. With a gold watch or bicycle, with a gold watch or bicycle, with a gold watch or bicycle.

Forest Destruction. The "High School Reporter" has a very able article on the protection of our forests. The argument in favor of preserving our forests cannot be controverted.

Explosion. St. Helena Star. Another Populistic idea has been exploded and soon that party won't have even a shadow of a leg to stand on.

Bread Prices. Eureka (Nev.) Sentinel. In thrifty France everything is reduced to an exacting and not knowing the United States.

Had More Sense. Tulare Register. The convention of federated labor which closed a two days' session at St. Louis this week.

Waiting. Mountain Democrat. Having stolen the last bit of Cleveland's thunder, Republicans are waiting for lightning to strike them.

Out of a Job. Contra Costa Gazette. Free silver orators are about out of ammunition, and don't know what to do in the States.

Arbitration. Kern Echo. One of the mysteries of the age is why some one does not come forward with a plan for settling differences between employe and employer.

What is true of most other machinery is true of the bicycle; good material and good workmanship are the cheapest in the long, and very often in the short run.

The Louisville "Courier-Journal" doffs its hat to Emperor William for announcing to an expectant world that he is responsible to no one but God.

Are good things if properly made? There is no sense in paying a high price for a poor article simply because it is some advertising "game."

no manufacturing name behind them to which responsibility attaches. Cheapness cannot offset the peril of a poor bicycle.

But is not the same to be said of bicycles and wagons? Is not the public liable to be imposed upon in the same way? We think not, because of the difference of conditions.

The careful purchaser relies upon the name and pledge of the manufacturer, and must of necessity do so prior to testing his purchase.

The "Leader" wants these makers of dangerous wheels driven out of business, but it fails to point out a method for the attainment of such a desirable end.

The Zionist Congress recently held at Balze was an enthusiastic affair. It has not been generally understood, we fear, that it is not proposed by these Zionists that Jews shall abandon their homes and belongings everywhere and return to the Holy Land after their purchase, if that can be effected.

So, it is rather an economic than a religious movement. For the tone of the Balze Congress was that the Hebrews in Palestine are strong enough to take care of themselves if they are freed from the rule of a Power that is hostile to them, and with which they are not in harmony.

Zionism means, therefore, breadth for the Jew, not narrowness. It means a belief that the Holy Land is capable of being taken out of the category of countries that do not progress, and put into the general procession of advancement.

One of the puzzles of the day is the inability of the Powers to come to an effective agreement as to the duty of Turkey towards Greece. The latest "ultimatum" is treated by the Porte with sublime indifference.

The story comes that the Hawaiian Senate has agreed to ratification of the annexation treaty. It lacks confirmation, but it is probable. Still, the enemies of annexation will say it is but one more step in what they are pleased to call "a steal."

The general public has been told that the profits in wheels were enormous, and that the recent cut in prices was simply coming down to fair margins; that the tubing, which is the chief reliance in a good wheel, is the same all around, and that there is no necessity for the stiff prices, since wood rims, rubber tires and small parts are of about the same cost in all wheels.

The fact is that in the tubing all the virtue lies. The percentage scale from good to poor tubing, runs from 100 to 25 per cent, and therefore it follows that the cheap wheel, except in a very few cases, as where well-known makers guarantee their make, must carry the low per cent. of tubing virtue.

The fact is that in the tubing all the virtue lies. The percentage scale from good to poor tubing, runs from 100 to 25 per cent, and therefore it follows that the cheap wheel, except in a very few cases, as where well-known makers guarantee their make, must carry the low per cent. of tubing virtue.

VOICE OF THE PRESS

EXTRACTS FROM EDITORIAL EXPRESSION.

State and Coast Opinions on Subjects of Living News Interest.

Fresno Republican: The calamity contemporary yesterday heard of two bank suspensions, and immediately proceeded to dam the flow of prosperity.

San Jose Herald: So far as the failure of our legal machinery to punish crime is concerned, California probably has a better excuse for lynch law than any other State in the Union.
