

SACRAMENTANS IN ALASKA.

AN INTERESTING LETTER FROM NED ALLISON.

He and Others from Sacramento Will Try Their Luck on Manook Creek.

Among those who left Sacramento last summer for the Klondike was Ned Allison, from near Isleton. He has got as far as the Yukon at Rampart City, from which place he writes as follows to his parents under date of September 17th:

Dear Father and Mother: At last we have reached Manook Creek. There are about 350 people here, so the town is quite flourishing. Philip Godley came up ahead of us and staked country town lots, one for himself and one for me. He also staked out a claim on Miller Creek, about four miles from here.

The Chief Engineer on the Bella gave me a lay of half his claim on Hunter Creek, so that we won't freeze for want of wood.

George Thibby, Philip Godley and Walter Foley left this morning for a twenty-mile walk to Chapman Creek, a new discovery. The man who discovered it just got back yesterday. They are staking out a 1,000 foot claim so that we will have plenty of country.

The party who discovered it consisted of three of the oldest miners in the district, and they say it is the finest creek anywhere around here. They got 22 cents to the pan of the surface. There will probably be a rush for the place to-morrow, as the miners had a meeting to-day, but we heard of it, so the boys started with a guide before the rush.

We have our grub all bought and paid for, and are building a little house to store it in until we get our cabin built on one of the claims. We stopped work when the boys heard that the strike, so they had to finish until after they return.

You will see in the papers an account of a young man who was frozen to death up here, so I will tell you how it happened. He and a friend started out together, both strangers to the country, and without any guide, they went to a place to locate a claim. They had sat down for a while and built a fire, it would not have happened.

Mr. Johnson, father's friend, is going down as soon as the boat comes down the river, and he said he would go and see him and tell him all about the country, so I will not take the time now to write about it. I am rich. Eight thousand dollars has been refused for some of the claims on Little Manook, and the claims not worked yet.

A man came in the other day with six nuggets from Little Manook amounting to \$150, and as they are of the finest grade of gold taken out of the open cut, Mr. Baxter, who is also going back with Mr. Johnson, is trying to persuade him to let him take them to San Francisco and exhibit them. The gold here runs \$19 to the ounce, while Klondike only runs \$15 to \$17.

When the boys get back and are rested we will start up Alder Creek and stake out some more claims. We have plenty of provisions, so have no fear of our starving. Before George left for Chapman Creek he asked me to have you send his mother all the news, as he hadn't the time to stop to write; also send Mrs. Godley, as Phil hasn't written the latest news.

A man arrived from Dawson yesterday in a small boat, and he says there are about 10,000 people at Dawson, 2,000 of them without any money or provisions. So far there are four boats set through to Dawson, but cannot on account of the low water, and as the river is falling every day there is not much hope for getting through. If they don't get the people at Dawson they certainly starve unless they can get out.

We haven't had any very cold weather yet. The lowest it has been was 18 degrees above zero, and that isn't cold up here, if you keep moving. We sleep well, and haven't been cold yet at night, and when we get our cabin built on the claim we will be fixed O. K., and we expect to have that all completed before the winter sets in.

We will spend our first Christmas away from home, but I hope it will all be for the best. This will be the last you will hear from us until the river opens again next June, unless they open a mail service between here and Circle City, which isn't at all probable, as it is about 900 miles from here. Rampart City is the name of this place, which is just at the mouth of Manook Creek, where it flows into the Yukon.

The scenery all the way up the river was very beautiful, and as it took us about two weeks to make the trip we had plenty of time to take it all in. The delay was occasioned by several breaks in the machinery. When we reached Nulata, about 300 miles from

BARB BURNED.

Fire in the Alley Between J. K. Eleventh and Twelfth Streets.

About 6 o'clock last evening a stable situated in the alley between Eleventh and Twelfth, J and K streets, was found to be on fire.

The stable was owned by A. Coolidge, and was occupied jointly by John Diersen and Miller Bros. The fire had caught in some hay in the low loft and the flames spread rapidly.

Two horses and several sets of harness were removed by Officer Greene, C. E. Adams, whose grain and feed barn adjoins the Coolidge property, had a stream of water playing on the flames when the fire engines arrived.

There was but a small quantity of hay in the barn, and what at first showed signs of being a disastrous fire, was quickly subdued by the well-directed efforts of the firemen.

The stable, which is an old wooden structure, was gutted, but the walls were left standing, and the damage is not over \$200. The fire is supposed to have started from matches dropped on the hay.

RUNAWAY.

Accident Last Night to Owen Hughes on Y Street.

While Owen Hughes of Sixteenth and G streets was driving in the vicinity of Twenty-seventh and Y streets last evening, in a light wagon, something broke. His mare became unmanageable, and the wagon was thrown on its side, and the driver was considerably injured on the right side by striking on one of the numerous cobble stones that cover the surface of the street at that way.

The mare twisted the shafts from the harness and ran away with them, and up to a late hour last night had not been heard from. The animal is a gray.

CHRYSANTHEMUMS.

Sacramento Gardens Are Now at Their Finest.

The chrysanthemum season is now on, and for some time to come these beautiful flowers will be very much in evidence. In no part of the State do they reach a higher degree of perfection than here in Sacramento, and there can be nothing more beautiful than a garden or bed of chrysanthemums of many varieties.

Mrs. Mary Barrett, at her home, 1115 D street, makes a specialty of these lovely flowers, and has a great variety of them. She invites all who may feel so inclined to call and feast their eyes on the charming sight.

Should be Prohibited.

It is reported that several public funerals have lately taken place of children who had died of diphtheria. If any such thing has been done it was next to a criminal act on the part of some one.

In many cities public funerals of persons who had died of highly contagious diseases is prohibited by law, and should be everywhere. Parents or other relatives who are intelligent enough to understand the danger will submit to any such regulation with good grace, but even if they should not, that is no reason why the lives of others should be endangered.

This is a matter that the Board of Health should take up, and if there is no local ordinance covering such cases the City Trustees should be asked to pass one without delay.

FROM FOOT TO KNEE.

Ohio Woman Suffered Great Agony From a Terrible Sore—Her Story of the Case, and Her Cure.

"For many years I was afflicted with a milk leg, and a few years ago it broke out in a sore and spread from my foot to my knee. I suffered great agony. It would burn and itch all the time and discharge a great deal. My health was good with the exception of this sore. I tried a great many kinds of salve, but some would irritate the sore so that I could hardly stand the pain. I could not get near the fire without suffering intensely. Someone sent me papers containing testimonials of cures by Hood's Sarsaparilla, and I told my husband I would like to try this medicine. He got me a bottle and I found it helped me. I kept on taking it until my leg was completely healed. I cannot praise Hood's Sarsaparilla enough for the great benefit it has been to me. It cleanses the blood of all impurities and leaves it rich and pure." MRS. ANNA E. BAKER, Whitesboro, Ohio.

NEW TO-DAY.

To the People of Sacramento City AND VOTERS OF THE FIRST WARD.

GENTLEMEN AND FELLOW-VOTERS—I take this occasion to address you as a candidate for re-election, and to submit my record made in the Board of Trustees entirely in your hands that you may judge of my qualifications. I have ever been representative of the First Ward for the past four years I have attempted to make the interests of the city a personal matter, unprejudiced, unbiased and uncontrolled by any selfish motives. I have ever been in thought and economy in action has always been a matter of deep consideration with me in all matters pertaining to the affairs of the city. I have its welfare at heart and for the love of my adopted country, for the love of my home and for the cherished feeling of endorsement for the future success of my children, I have ever been hopeful of Sacramento's prosperity.

My views on the bonded question have often been expressed and have been thoroughly informed on the subject, have always had a desire to be a party to the cancellation of this long standing obligation, that will deliver to the people a free, independent and flourishing municipality.
