

MAYOR MAKES NOMINATIONS

APPOINTS TWO NEW PATROL WAGON DRIVERS.

Trustee Bentley Insists that All be Treated Alike in Sidewalk Construction.

The City Board of Trustees held its regular weekly meeting last night, Trustees Wachhorst, Kent, Davis, McKay, Leonard, Devine, Bentley, Tozer and Pennish being present.

MAYOR'S MESSAGES.

The following messages from the Mayor were received: To the Honorable Board of Trustees: In accordance with ordinance No. 410 I hereby nominate and, by and with your consent, appoint W. P. Harnett as driver of the patrol wagon in place of John Fitzgerald, whose term expires on the 16th inst. Respectfully submitted, C. H. HUBBARD, Mayor.

To the Honorable Board of Trustees: I herewith return to you, with my approval indorsed thereon, ordinance No. 411, entitled "An ordinance amending section two of ordinance No. 324, relating to the condemnation, construction, alteration and repair of sidewalks, bulkheads and curbing, passed October 3, 1893." Respectfully submitted, C. H. HUBBARD, Mayor.

To the Honorable Board of Trustees: In accordance with ordinance No. 410, I hereby nominate and, by and with your consent, appoint H. M. Butler as driver of the patrol wagon in place of Henry Balz, whose term expires on the 16th inst. Respectfully submitted, C. H. HUBBARD, Mayor.

It was evident that one of the appointments did not meet the approval of a member of the board, and Pennish said that if the Mayor could not find better timber for appointment than Harnett, he had better give it up.

The messages took the usual course. A large number of bills were allowed. Devine objected to a bill of \$37.75 for storage of the old patrol wagon, saying it had better be given away or broken up than to pay storage on it.

Kent explained that the old wagon had stood out in the sun through the summer and when it was needed for use while the new one was being painted it had to be sent to the shop for repairs first. He considered it cheaper to store it than to have it fall to pieces.

The bill was allowed, and the Street Superintendent instructed to put the wagon in the city's tool house.

COMMITTEE REPORTS.

In regard to F. M. Egan's bill for the breakage of his buggy, the horse being frightened by the steam roller, Tozer, for the Finance Committee, thought it would be a bad precedent to allow the claim, as the roller must go along the streets and folks must take care of their teams.

Leonard said that, as he understood the matter, the horse was frightened unnecessarily, the driver blowing off steam opposite the horse. More care should be taken about frightening teams.

The matter was postponed for a week and the Superintendent of Streets was instructed to put up trestles on such blocks as the roller is in use on.

Superintendent of Streets Croly said that drivers had got out of their wagons and removed such trestles and driven on the obstructed streets.

Davis, for the Water Committee, reported adversely on the repairs proposed by the Mayor on the Holly pump, as they would cost from \$2,000 to \$3,000, and he preferred letting the new board take up the matter, the cost being so great that the repairs would have to be advertised for, anyhow.

He reported in favor of a steel foot-valve for the suction pipe of the water works.

J. A. Cunningham said that steel was much more flexible and durable than cast iron, and also more easily repaired and would not break so easily.

The steel foot-valve was adopted, the contract going to Mr. Cunningham.

Bentley was not in favor of putting off repairs to the Holly pump for the new board to wrestle with. He thought it should be repaired at once, as he believed it was the only feasible plan by which sufficient water can be secured for next summer. He did not think the board would have to advertise.

He moved that the Mayor be authorized to employ two competent men, at a cost of not over \$2,000, to repair the pump. One cylinder could be repaired at a time, and it could be finished before next spring, when it is needed.

Davis still opposed starting the work until the new board comes in.

Devine thought the pump should be repaired immediately, and hoped the motion would be carried. A ten-million gallon pump will be needed two years from now.

Leonard called Devine's attention to

The Roman mother who with her mantle deeded her child, the body of her child from her child from the ravenous birds of prey is a type of motherhood in all times and among all people.

Prospective mothers should know that Dr. Pierce's Favorite Prescription is a scientific medicine, which gives perfect health and strength to the special organs concerned in motherhood.

Modern mothers are coming to understand that the best protection they can give their child is to protect him against the prevailing accidents of life is to transmit to them an abundance of natural health and hardihood. But a mother cannot confer health and strength upon her offspring unless she has it in some measure herself.

Prospective mothers should know that Dr. Pierce's Favorite Prescription is a scientific medicine, which gives perfect health and strength to the special organs concerned in motherhood.

It is the only perfect and positive specific for all weaknesses and diseases of the feminine organism.

Mrs. F. E. Forrey, of Carrs, Keywayha Co., Neb., writes: "I write to you again concerning my daughter, Mrs. D. Hillings. She has taken two bottles of Favorite Prescription." She thinks the medicine is a world of good. She was confined the 15th of February. Was sick but a short time and has a sound daughter. Got along nicely after the loss of her first child, and she says she never felt so well.

CAPTURED AT ROSEVILLE.

ARREST OF ONE OF THE CLAY BURGLARS.

The Silverware Recovered, but One of the Thieves Makes His Escape.

Mrs. S. E. Clay of 1728 P street will soon again have the cherished silverware that was stolen from her house Sunday evening while she was at church. If their intrinsic value was not very great, the articles certainly were greatly prized, as some of them had been in Mrs. Clay's family for many generations.

There were two men engaged in the robbery. One of them was arrested at Roseville last evening, but the other escaped after unloading his plunder in the roadway.

The capture was brought about by the publication of the fact of the burglary and a description of the stolen articles in the "Record-Union" yesterday. F. W. Bennett of the Sacramento Transfer Company, whose run is between this city and Roseville, was at his dinner in the hotel there about 6 o'clock last evening when a woman entered the dining-room and began telling him that she had a hobo with a quantity of silverware.

Mr. Bennett had read of the robbery, and he went to where the prisoner was detained and called attention to the occurrence. Many of the articles bore the initials "S. E. C." and he also recognized the heavy ladle from the description given of it in the "Record-Union." Mr. Bennett was requested to notify the police department on his return to town, which he did, and the prisoner and his plunder will be here to-day.

Effort are being made to head off the man that escaped. It was he who carried the silverware in his coat pocket and when the Constable pressed him too close he shed his coat and got away. The one under arrest will, of course deny any knowledge of the burglary, and it will be hard to connect him with the stolen articles.

The matter was referred to the Street Committee and deferred one week.

Property owners on T street petitioned to be allowed to grade the street between Eighteenth and Nineteenth by private contract. The matter was referred to the Superintendent of Streets.

A communication was read from the League of American Municipalities, addressed to the Mayor and board, and setting forth the objects sought by the league and the many benefits to be received through membership in the league for the city would be \$30.

Devine moved that the Clerk be instructed to place himself in communication with the officials of the league, so that the new administration could be in position to consider the matter of membership.

The motion was carried and the board adjourned.

Mayor-elect Land and Trustees-elect Dolan and Douglas were present at the meeting, and after the adjournment held a conference with the present members, to obtain information on the sewer and water questions.

Articles of Incorporation.

Articles of incorporation were yesterday filed in the office of the Secretary of State as follows: Trinidad Rubber Company. Formed to establish rubber plantations in Mexico and California. Principal place of business, Los Angeles. Directors—W. H. Allen, Jr., Maurice S. Hellman, H. W. O'Melveny, M. H. Newark, W. J. Broderick, A. C. Jones and O. F. Brandt, all of Los Angeles. those in need to call or send their names and addresses to the barracks on Second street, when their cases will be promptly investigated and help extended in deserving cases.

AGAIN IN COURT.

Second Trial of N. Cippa for Assaulting a Young Girl.

The second trial of N. Cippa, who is charged with having held criminal relations with 14-year-old Mamie Anderson, occupied Judge Hart's court yesterday. The girl was on the stand, and proved a very obstinate witness, though on Cippa's former trial she gave strong testimony against him.

The trial of Ed. Steadman, similarly charged, was yesterday continued by Judge Hart until Wednesday and a special venire ordered.

Mrs. Anderson, the girl's mother, took the stand and surprised the prosecution by directly contradicting her former testimony, saying that the girl was over 16 years old. She also denied that she had testified in more than one of the examinations in Justice Henry's court.

A GOOD WOMAN GONE.

Mrs. Anna Downer Passed Over the Dark River Yesterday.

Mrs. Anna Downer passed away yesterday noon at her home, after a long and painful illness, leaving behind her a husband, O. M. Downer, and three children, Edna, Clara and Leland, to mourn their loss.

Mrs. Downer was of a retiring disposition and a lover of home and her circle of friends was not, therefore, extensive, but those who knew the loveliness of her character and the patience, cheerfulness and determination with which she bore her suffering, feel deep regret at her passing away, and extend hearty sympathy to her bereaved family.

Weather Reports. The Weather Bureau reports show the highest and lowest temperatures yesterday to have been 55 and 39 degrees, with gentle to fresh southerly winds and cloudy weather prevailing.

The barometrical readings at 3 a. m. and 5 p. m. yesterday were 30.25 inches and 30.02 inches, respectively.

The highest and lowest temperatures one year ago yesterday were 61 and 46 degrees, with 0.65 inches of rain, and one year ago to-day 63 and 49 degrees, with 0.14 inches of rain.

The average temperature was 47 and the normal 45 degrees, showing yesterday to have been 2 degrees warmer than usual for the 13th day of December.

Patients Who Have Property. Secretary John P. Carrere of the State Commission in Lunacy, returned from San Francisco yesterday, where he had been engaged in examining the records with a view to locating property belonging to patients who are maintained at the State Asylum as State charges.

Mr. Carrere succeeded in locating property owned by about twenty such persons, and steps will be taken to have the State reimbursed for its outlay for their care.

Prices Reduced. For thirty days the Fair Oaks wood-yard, Tenth and Q, will deliver 4-foot white oak at \$6 per cord. Order early before it is gone.
