

DEMOCRATIC PROGRAMME.

WILL NOT FORCE AN ISSUE ON CUBAN QUESTION.

But Will Vote Against Financial Measures Suggested by the President and Secretary Gage.

WASHINGTON, Dec. 16.—Leading Democrats, members of the House say no aggressive action is anticipated to carry out the declarations of the recent Democratic House caucus on Cuba, finance and bankruptcy. The caucus action will be allowed to stand as showing the action of the minority.

It is said, however, that it would be useless to force the Cuban question before the House, as the rules would not permit the minority to bring the question to a vote. The Senate Cuban resolution, which was endorsed by the caucus, reposes in the Committee on Foreign Affairs, and there is no power under the rules to get it from that committee.

Representative Livingston of Georgia has suggested that a resolution be presented directing the Foreign Committee to report the Cuban resolution at once. But this procedure would be ineffective, as the resolution declining an immediate report would be referred to the Committee on Rules. It is not doubted that this body, representing the majority, would not act favorably on a motion of this character.

Parliamentarians on the Democratic side concede that it will be impossible for the minority to force an issue on Cuba. They are more hopeful of giving expression to the caucus action on finance. The majority will, doubtless, bring forward financial measures on the lines suggested by the President and Secretary Gage, and the Democratic caucus policy will be given effect by the casting of the solid Democratic vote, numbering 125, against these measures.

On the bankruptcy question it is expected that the minority will frame a bankruptcy declaration for a "wise and just" measure of this character. The bill will be offered as a substitute to the one to be urged by the Committee on Judiciary after the holidays.

A FLY WHEEL BURSTS.

Fatal Accident at the Plant of a Steel Company.

PITTSBURGH, Dec. 16.—One man was killed, one fatally injured and a number of others slightly hurt by the bursting of a flywheel at the South Thirtieth street plant of the Oliver Iron and Steel Company, at an early hour this morning. The names are: Adam Brodich, killed instantly; Frank Rosen, wire drawer, fatally injured; Joseph Brown, engineer, arm broken; Andrew Kozatak, a laborer, injured about the back and head.

The others who were injured were able to go to their homes. The accident was caused by the engine becoming ungovernable. The flywheel was fifteen feet in diameter, and weighed several tons. The engine was completely wrecked, and the mill will be idle until the damage can be repaired.

McCoy-Credon Fight.

Governor Black Declines to Stop the Contest.

ALBANY (N. Y.), Dec. 16.—The Rev. Charles Park and J. H. Terry of Long Island City argued in vain with Governor Black to-day to have him stop the Creedon-McCoy fight, which is scheduled to take place at that city to-morrow. The Governor said it was not for him to assume that the law was to be violated, because the local powers did not choose to indicate to the public in advance what would be done in case the law should be violated. How, then, in this case, could he know that a fight advertised as a glove contest was to be a prize fight?

SMALL, BUT TRUE.

Do you know that valuable things are often done up in little packages? This is one of them. It is known that you are suffering from drains that will eventually put an end to your strength. The Hudson Medical Institute will stop the drains; the doctors will put you on your feet again. Will you take the grand opportunity offered? If you only knew of the great army that has been so grandly helped! Write and ask for specimens of their testimony. It is true that this will take a few—say ten seconds—of your time. Do you believe that you can afford to waste that much on your life? On your big vital forces? On your life? Have some sense! Life is dearer than all!

SMALL, BUT TRUE.

The Hudson Medical Institute is at the junction of Market, Stockton and Ellis streets. It is a big white building, which you cannot mistake, and the doctors who are there will give you free medical advice if you are suffering in any way. If you cannot call, you can surely find time enough to write. No charge for answering letters. It is done with pleasure. Muster what energy you have left and muster it TO-DAY!

AN ACTOR ASSASSINATED.

Wm. Teyriss Stabbed as He Was Entering a Theater.

LONDON, Dec. 16.—William Teyriss, the well-known actor, was assassinated to-night, being stabbed with a knife as he was entering the stage door of the Adelphi Theater. Mr. Teyriss had been playing in London in the English version of William Gillet's American drama "Secret Service." Teyriss' assailant is supposed to be a former suitor. The murderer rushed at the actor as he was stepping across the pavement from his cab and stabbed him just below the heart. As the actor fell his murderer was seized by people who were outside the theater, and doctors were called from the hospital, but Teyriss expired in fifteen minutes.

THE ASSASSIN HAD A LONG CHASE.

The assassin had the appearance of a foreigner and wore a long cloak. "Terry fell shouting: 'My God, he's stabbed me. Don't let him escape.'" The assassin withdrew the dagger and made a second plunge at his victim, but he was seized by the spectators, of whom there is always a crowd about the stage entrance to witness the arrival of the actors.

Mr. Terry was placed on the landing of the stairway just inside the theater, where he lay, groaning loudly. Once or twice he attempted to speak, but it was impossible. He quickly succumbed, while surrounded by the theater staff. The murderer was taken to the Bow-street police station, followed by an angry mob. His name was given as Archer. It is said that he had been a "singer" at the Adelphi Theater several years ago, and for some days he has haunted the theater. The motive of the crime is not yet known.

A large audience had already assembled for the evening performance, and the manager came to the footlights and announced that as Mr. Terry had met with an accident no performance would be given to-night. It appears that the assassin last evening asked the keeper of the stage entrance as to the whereabouts of Mr. Terry, and his behavior was then so obvious that Harry Nicholls, one of the principal colleagues of Mr. Terry, was obliged to remonstrate and to order him to leave the premises.

The scenes along the Strand at the hour when the theater closed to-night were remarkable. By that time the special edition of the evening papers were out, the newsboys were shouting around the theater exits that Mr. Terry had been murdered. At first the people refused to place any credence in the report, but when they found that it was true, horror and indignation were expressed.

Rev. C. O. Brown.

CHICAGO, Dec. 16.—Rev. C. O. Brown says he will ignore the notice sent him by the Bay Conference of San Francisco. He said the action taken was instigated by vindictiveness on the part of Dr. J. H. Leary. After Dr. McLean was done, Mr. Brown said he would publish the confession of one of those who testified against him before the conference. The notice is to show reason for his restoration to good standing, or to show cause why he should not be expelled from the Bay Conference.

DESTRUCTIVE FIRE IN IOWA.

MARSHALLTOWN (Ia.), Dec. 16.—The wholesale grocery house of Betts, Fletcher & Co., one of the largest concerns in Iowa, caught fire this afternoon and was entirely destroyed. Fear for a time was entertained that the Postoffice and the Opera-house building would be swept away by the flames. The loss on the grocery stock is \$200,000; loss on building, \$200,000. Insurance about two-thirds.

It is alleged that the embezzlements extend over a period of seven or eight years. The amount stolen is estimated at \$25,000.

A PROBLEM TO SOLVE.

What Disposition Will Be Made of Bury to Render Him Harmless?

Local officials are somewhat exercised as to what disposition shall be made of Antonio J. Bury, the young cracker who on Wednesday morning took possession of Dr. Copey's gold cure establishment and guarded his holdings with a revolver.

A full account of Bury's escapade was published in yesterday's "Record-Union." It will be remembered that about a year ago he attempted, while drunk, to murder Miss Maud Methven of this city, and failed only because he could not shoot straight enough. He was arraigned in the Police Court, and held to answer on a charge of assault to commit murder, but when the case was called in the Superior Court the District Attorney allowed the charge to be reduced to one of simple assault, and the accused was sentenced to serve three months in the County Jail.

Subsequent to serving his sentence, Bury was committed to the State Insane Asylum at Stockton, but was several months ago discharged as cured. Prior to his arrest Wednesday Bury said he had come to this city for the purpose of killing Miss Methven, and that young lady is duly frightened at the prospect in store for her. She and her mother visited the City Attorney yesterday, and implored that official to take steps to insure her immunity from Bury's attacks. The only woman stated that if Bury is allowed to go free, there is but one thing for her to do, and that is to leave the country.

Bury's mother and sister also called on the City Attorney and represented that the young man was never obstreperous unless drunk, and asked that he be set at liberty to provide that he would cut no further capers.

A simple charge of drunk was preferred against Bury, and upon recommendation of the City Attorney yesterday he was sentenced to spend twenty-four hours in the City Prison.

From what has been ascertained by the officials, Bury is harmless when not under the influence of intoxicants, and it is considered doubtful whether examiners in lunacy will commit him to an asylum. The City Attorney is interesting himself in the matter and developments may be shortly expected.

RELIEF FOR YUKON MINERS.

(Continued from First Page.)

Hitt, Chairman of the Foreign Affairs Committee, answered some of the criticisms which had been advanced. The admitted evil of the present, he said, was pelagic sealing, which evil resulted in the killing of 20,000 seals annually. And yet the gentleman from North Dakota (Johnson) proposed to meet this evil of partial slaughter by an absolute slaughter of the entire seal herd. Was this a humane proposition from a Government which was urging humanity on other nations?

Hitt referred to the barbarity of the practice of killing the defenseless seal pups. This brought a query from Livingston (D.) of Georgia: "As Chairman of the Foreign Affairs Committee, you have in your possession a resolution respecting the poor and defenseless people of Cuba. What do you intend doing about that? Are not the Cubans as much entitled to your care as the seal pups?"

Hitt turned the question by saying it was not asked with a view of getting a serious answer. After further debate the bill was passed—yeas 148, nays 78. An hour was spent on the legislative, executive and judicial appropriation bill, without accomplishing anything. The bankruptcy bill was reported by the Judiciary Committee, and an extension of time granted in which the minority may file its report.

Niagara Falls Would Do.

A dumpy little man with an extremely red nose climbed on a Niagara Falls trolley at Main and Niagara streets the other evening and took a seat in the smoking compartment of the car. I sat behind him for a little way, but

the odor from his pipe was too much for me, so I moved across the aisle. He was nearly to the city line before the conductor got around for our fares, and in the meantime the passengers in the smoking compartment had discovered that the little man with the red nose had "a quiet one on."

He tried to read the paper he had with him, but his eyes were not equal to the task. They lids got heavier and heavier, and soon the little man was sound asleep. The conductor's gruff "Fare, please," roused him. He gave up a nickel and demanded an Elk-street transfer.

"This car don't go to Elk street," said the conductor. "It don't." "No; where do you want to go?" "Home 't' suppr'." "Well, this car won't take you there." "Thash funny (hie)," said the little man under his breath. "Thish carsh always takes me home 't' suppr'. Did I ash 'n' 't' before lash. But it won't t'n', eh? Well, if it won't take m' home, gott'er take me some place. Jes-son go 't' Niagara Falls as home, any-way. Let'er go."—Buffalo News.
