

CHARITY AND HELPFULNESS.

PRINCIPLES EXTOLLED BY REV. S. J. CARROLL.

His Discourse Preached at the Memorial Services of the A. O. U. W. Last Evening.

The members of Union and Sacramento Lodges of the Ancient Order of United Workmen assembled at their meeting place in Foresters' Hall at 7 o'clock last evening and marched in a body to the Sixth-street Methodist Church, where memorial services were conducted by the pastor, Rev. S. J. Carroll.

The church was filled to its utmost seating capacity, and had been appropriately decorated for the occasion. At the pulpit steps was a large floral piece representing a shrine on which the letters "A. O. U. W." stood out in relief.

The address of Dr. Carroll was listened to with profound attention, and his eulogy to the departed was a grand flight of thought and eloquence. He spoke of the object of the memorial service, and lauded its well-known principle of charity and helpfulness and the unostentatious manner in which they are extended.

The minister impressed upon his hearers that civilization and obedience to the laws go hand in hand, and in progression, while disobedience of the laws means a recurrence to savagery. Obedience to all laws—domestic, civil and religious—mark the good citizen, and whenever anarchy shows itself all good men ought to band together and stamp it out.

The anarchist who seeks to violate the laws, and who attempts to teach others to do so, the speaker said, ought to be placed where he belongs—with the savages of the South Sea Islands. Obedience to the laws of the land, distasteful though they might be, was taught by Christ, both by precept and example, and He held the laws given to the Jews by Moses, and those of the Roman Empire, in the greatest respect, and while He taught a new law, He never violated those of the land.

The reverend speaker drew a picture of Christ as a workman, and told how He, with other Jewish youths, learned his trade, beginning his apprenticeship at the age of 12 years. When at the age of 20 He appeared before the people to teach the doctrine of universal salvation.

He lifted no ill-voiced hands in supplication, but He had been hardened and calloused by toil. Christ was a toiler, a teacher, and a respecter not only of the Jewish, but also of the Roman laws.

To help the poor properly, the minister continued, means to assist them to help themselves, and the order of Workmen understood how to extend such charity and not degrade the receiver. Charity is in harmony with great manliness, but men who stand upon the street corners and beg for money usually are leeches and better fitted for the strong hand of the civil law than for Christian charity.

Good citizens owe it to themselves to band together and see to it that such leeches are set to work breaking rock, or put to some other congenial employment. There are, he said, exceptions to the rule, and the exceptions are true objects of pity, and deserve assistance from their fellowmen.

The man who moves the world, Dr. Carroll said, is not the one who talks in the market place, but the one who puts his shoulder to the wheel—the real workman.

AMUSEMENTS.

There was a fine house at the Orpheum last night at the inauguration of the seventh week of this house of amusement and entertainment. From week to week we have been giving credit to the management for improving its bills, there having been but a single exception, we believe. The new programme introduced last night is certainly still in advance. It is without exception good; there is not a false note or a weak measure in it. That this was the verdict of the audience was made manifest by the sincerest and most prolonged applause and discriminating manifestations of approval.

La Petite Lund, the wonderful child performer, character actor, dancer and singer, is the only feature retained from last week's bill. It was wisdom to keep this sparkling and remarkable child another week. She has the grace of a fully-developed woman, the ease of a practiced professional, and the chic of the most roughish comedienne, yet she is a mere child, and a very small one at that. Differing from all other child performers we have had here when her audience from the moment of her appearance on the stage, Weston and Herbert, man and woman, constitute a strong musical and character team. Weston is one of the liveliest tramps out, witty, crisp and playing on many instruments, while Herbert is as clever as he is in instrumentation, and an admirable foil for his fun. Perhaps the Clivettes are entitled to be ranked as the leaders in the programme. Mons. Clivette is one of the most skillful jugglers, but disdains the usual methods and tricks of the ordinary juggler. He is better still in equisole. Sitting on a stool, he pedals on a tall, triangular table, he poises and whirls tambourines and metal cylinders with his feet, knees, hands, and five in a frame held upon his chin, with surprising ease and delicacy. But when he comes to silhouettes, hand-shadow work, he is the master, better, more graceful and original than any we have had here. He was four times recalled in this shadow work alone, and the audience thundered for more even then, until he was compelled to beg off. He is gracefully assisted by Mme. Clivette, Rice and Elmer, and horizontal bar performers of the first order, introducing many original turns. It is not more in their fine gymnastic work than in comedy that they win. Their act is a minor farce, exceedingly well maintained, between a Chinaman and a countryman. They were recalled over and over again, until they, too, begged indulgence through positive fatigue. Carter de Haven is a boy singing comedian who is very clever, evidently a born actor, reinforced by a training that serves him excellently. His number was a pronounced success and won him three recalls. The De Fillips, international dancers, appeared from last week's programme, but to-night retire to give place to Kitty Mitchell, the popular singing comedienne. The programme closed with an entirely new and wholly novel dog show. The trained animals this time are sixteen diminutive black and gray dogs, introduced by the Filles family. In training to intelligence these animals have few equals,

NO DANGER YET.

The Crops Can Stand a Couple of Weeks More of Dryness.

The popular opinion just now is the present season is going to be a dry one, and that even if rain were to come soon it would not save the crops now planted. But popular opinion is not always based on substantial facts. Farmers from up the Sacramento Valley say that while the crops have been kept back by the long spell of cold weather, that they will come out all right if rain should come within the next two weeks, and that it will be some time before there is no good reason to doubt.

The following data, compiled by Observer Barwick from the Weather Bureau records, shows that the month that ends to-day does not stand alone in the matter of a lack of rain, by any means, while in the season of 1897-98 upward of eleven inches of rain fell after the 1st of February:

The rainfall for the past month (January) was but .08 of an inch. There have been six Januaries in forty-eight years having less than one inch of rain, as follows: January, 1851, .65 of an inch; January, 1852, 0.58 of an inch; January, 1859, 0.96 of an inch; January, 1889, 0.15 of an inch; January, 1891, 0.53 of an inch; January, 1898, 0.08 of an inch. The total rainfall for the above years up to February 1st with the total precipitation for the season was: 1850-51, 0.65 inches, and for entire season, 4.71 inches. 1851-52, 10.97 inches, and for entire season, 17.98 inches. 1858-59, 8.46 inches, and for entire season, 10.68 inches. 1888-89, 9.31 inches, and for entire season 19.45 inches. 1890-91, 4.67 inches, and for entire season 15.81 inches. 1897-98, 5.26 inches to date. The average of the above six seasons' rainfall to February 1st was 6.49 inches, and the average total precipitation for the first five seasons named was 14.90 inches.

To bring the present season's rainfall up to the average, there would have to be precipitated between now and June 30th next a total of 8.54 inches. The question is, will we have it, or will we not? It will be seen that the season of 1890-91 had after February 1st, 11.11 inches. The outlook is seemingly not yet very bad.

Farewell Reception to Salvation Army Officers Last Night.

The Salvation Army headquarters, 320 K street, was packed to the doors last night, the attraction being the farewell meeting of Captain and Mrs. Stedman and Lieutenant Sanford of Sacramento Corps No. 1, who will to-day leave for other fields of labor. The meeting was conducted by Captain Stedman, and interesting to the end. New hallucination songs were rendered, and every Salvationist related a portion of his or her experience and expressed regrets at parting with the officers who had labored faithfully and well. Captain Stedman spoke in high praise of the people of Sacramento. He had, he said, never in his life met with better treatment than in his short stay here, and the pain at parting was only assuaged by the belief that he could do the work of the Master in other sections and leave that here to the guardianship of others, with the knowledge that the good work would not lag.

SALE OF SACRAMENTO COUNTY BONDS. NOTICE TO BIDDERS. SEALED BIDS WILL BE RECEIVED by the Board of Supervisors of Sacramento County at their office of record between Sixth and Seventh streets, of Sacramento City, State of California, up to Saturday, February 12, 1898, at 2 o'clock p. m., for the purchase of bonds of Sacramento County, California, of the amount of \$75,000, being bonds to be issued pursuant to law and the special election held December 4, 1887, and are subject to the usual terms of improving and macadamizing the public wagon road, to wit, Highway in Sacramento County, between the City of Sacramento and the town of Folsom. Said bonds are issued under Section 23, Subdivision 13, County Government Act, 1850. Each bid must be accompanied by a certified check, cash deposit or bond in an amount equivalent to 10 per cent. of the aggregate amount of the bid submitted, and to be forfeited to Sacramento County on the failure of the bidder to purchase said bonds in conformity with the terms of his bid, if accepted, and to pay the cash therefor upon their delivery. The board reserves the right in its discretion to reject bids for said bonds without said certified check, cash deposit or bond and reserves the right to reject any or all bids as the public good may require. Said bonds are to be payable to the order of the best bidder for cash in United States gold coin, to be paid to the County Treasurer on delivery of the bonds. By order of the Board of Supervisors of the County of Sacramento, State of California. Attest: (Seal) WM. R. HAMILTON, Clerk of said Board.
