

DEVINE DEFENDS THE WATER

DR. MEALAND'S DEAD FISH ROUSED HIS IRE.

Conference Meeting of Bondholders and Others Interested Will be Held.

The City Board of Trustees met in regular weekly session last night, Trustees McKay, Tebbets, Douglas, Paine, Dolan, Brown, Devine and Kent being present.

E. J. Croly said he appeared on behalf of a Chicago company that wish to place a flush tank in the sewers. They ask permission to place it in the city's lot at the corporation yard, in order that people might look at it and become acquainted with its workings.

Trustee Devine said that if the flusher is better and cheaper than those manufactured in California he had no objection to allowing it to be placed there. There are one or two flushers in use in the sewers that are doing very good work, and if the California product is as good and cheaper he would favor getting the home product.

A DEAD FISH.

Dr. Mealand spoke of the subject of microbes. He said he had something to show them—something that is not a microbe. He showed them a dead fish that came through his hydrant, which he had brought for the inspection of the board, and which showed, he said, that the people should not complain of the water, which gave them not only their drink, but their food.

MAYOR'S MESSAGES.

The following messages from the Mayor were read: To the Board of Trustees: I herewith transmit to your honorable board the petition of number of the citizens of the city of Sacramento, requesting the appointment of Nelson Champlin as special police officer for the locality known as the "City Plaza."

To the Board of Trustees: I herewith transmit to your honorable board for your consideration an ordinance amending Ordinance No. 338, entitled "An ordinance regulating the style of uniform to be worn by the police force," passed March 19, 1894, and approved March 20, 1894. Respectfully submitted.

To the Board of Trustees: I herewith transmit to your honorable board for your consideration an ordinance, entitled "An ordinance to prevent the carrying and use of firearms within the limits of the city of Sacramento." Respectfully submitted.

To the Board of Trustees: I herewith transmit to your honorable board for your consideration an ordinance, entitled "An ordinance to prevent the carrying and use of firearms within the limits of the city of Sacramento." Respectfully submitted.

NUISANCE MAY BE ABATED.

TRUSTEES PREPARING TO MOVE IN THE MATTER.

City Will Not Allow the Contract to Terminate Till Gilman Covers the Garbage.

The matter of the city dumps was transferred last night from the City Justice's court to the Board of Trustees' meeting as an aftermath of the Gilman case.

S. R. Hart addressed the board in relation to the contract of the city with J. K. Gilman in regard to the dumping place. Clerk Desmond read the contract, at the request of Trustee Brown, which was passed by the board over Mayor Steinman's veto and signed by W. D. Lawton, President. It was a contract for one year, with the privilege of three.

Mr. Hart recapitulated the circumstances of Gilman's trial and conviction in the Police Court, and the testimony as to the stench from the lot. He claimed that no complaint had ever been made about it until lately. He said Mr. Gilman wished to abate the nuisance and wished the city to abrogate the contract. The garbage is on fire and the smoke pollutes the air and is much complained of. Some of the Trustees with whom he had talked thought something should be done. He did not believe his client should be persecuted and did not believe that he had been convicted legally.

Trustee Devine said this had long been a source of annoyance to the board and he thought that if Gilman would carry out the provisions of the contract with the city and cover up the garbage properly, there would be no complaint. When Mr. Gilman covers up this garbage as he should, the city will abrogate the contract, he having fulfilled his part. There was no impossibility, as his attorney has claimed, for covering it up.

Mr. Hart made a violent attack on Sanitary Inspector Herr for arresting his client and when he concluded, Mr. Herr said that he did not know why the matter should be brought before the board. It was clearly a nuisance and Gilman had been convicted in the Police Court. If he had kept the garbage covered up according to his contract he would have had no trouble.

Trustee Paine said he had been informed that the contract is contrary to law, which provides that no garbage shall be dumped within the city limits. He did not see, however, that it could be abrogated until some other ground can be secured on which to deposit the garbage.

Trustee Tebbets said he and Trustee Dolan had visited the dumps and found that nearly half a block of land is on fire and must be put out. If the stuff is not covered up and the fire put out, he would vote that Mr. Gilman be compelled to fill in the lot. He did not want to be hard upon a poor man, but the board owes a duty to the people of the city. The fire department had been requested to send some of his men out with hose to put out the fire.

Trustee Brown said it was in his ward and he thought if the members of the board would go over the levee and take a look at it, they would feel ashamed of the disgraceful condition of affairs. He thought the board would take hold of it and abate it.

Trustee Tebbets moved that the matter be referred to the Committee on Streets, in order that it might take measures to secure dumping ground beyond the city limits. Carried.

Trustee Devine moved that the board be requested to limit Mr. Gilman's fine, so that he could use the money to cover up the garbage according to contract. Trustee Tebbets moved that the Justice be requested to withhold sentence until the board can make arrangements. The motion was carried.

Mayor Land said that he was out at the dumps last week and they were on fire in several places. He suggested to Mr. Gilman that he cover it up with dirt. He could, he was satisfied, cover it up and put out the fire with \$25 worth of dirt. He thought some boys had set some new fires containing the same.

Sanitary Inspector Herr said the fire had been burning for nearly two weeks. Mr. Gilman had instructed his man at first to cover up the fire, but the man had not done so and it had got such a start that it cannot now be easily put out.

Trustee Devine denied that the Trustees had obstructed the Commissioners, but it had been some one else. If the validity of the bonds is attacked, they will fall to 33 cents.

Mayor Land refuted his arguments and said that if the 55 cents is collected for five years more, it will take \$230,000 out of the pockets of the taxpayers.

The motion of Trustee Tebbets was carried and the board adjourned.

Mayor Land has called the attention of Chief of Police Dwyer to the provisions of those portions of city ordinances 255 and 276 which prohibit the throwing of banana and orange peels upon the sidewalk, and requested that the same be enforced. Chief Dwyer will instruct his force in accordance with the request to-day.

Wide Awake Republicans. The Third Ward Republican Club held its regular meeting last night, and it was a very large attendance.

The club is now in good working order, and hopes to aid materially in the coming campaign. It was decided to have a high jinks at the next meeting of the club.

NUISANCE MAY BE ABATED.

WEIGHTS AND MEASURES.

A Sealer Appointed for San Diego County

Governor Budd yesterday appointed J. P. Neely of San Diego Sealer of Weights and Measures for that county. The appointment was made on the request of the San Diego County Board of Supervisors, and under the Act of 1881, which provides for such officials.

Section 3 of the Act makes it the duty of the Governor to appoint, whenever so requested to do, by the Board of Supervisors of any county, a County Sealer, whose duty it shall be to examine weights and measures or beams, used by dealers for weighing or measuring commodities, and after testing them, to affix his seal.

Section 4 of the Act makes it the duty of the Governor to appoint, whenever so requested to do, by the Board of Supervisors of any county, a County Sealer, whose duty it shall be to examine weights and measures or beams, used by dealers for weighing or measuring commodities, and after testing them, to affix his seal.

RAWLINS AND HIS RING.

A More Serious Charge Than Vagrancy Against Him. James Rawlins, or Mike Duskel, as he is commonly called, was before Justice Davis yesterday to answer to a vagrancy charge. He is the man who on Saturday last attempted to surreptitiously exchange a worthless ring for a gold one at Wachhorst's jewelry store, but was detected in the act.

Rawlins was not ready to enter a plea, and was granted until this morning to do so. City Attorney De Ligne subsequently determined to change the complaint and charge him with attempting to commit larceny, and this morning he will be called on to consider his course of action from that standpoint.

Real Estate Transfers. The following real estate transactions have been recorded since our last report: Estate Annie F. Hammond to distribution—West fifty feet lot 6, F. and G. Sixteenth and Seventeenth streets.

George O. Hayford to W. R. Strong—Quit claim, same property. Florin Alliance Hall Association to Thomas Taylor—Lot 80 feet by 125 feet in town of Florin.

J. M. Dudley, by Commissioner, to F. A. Shepherd—Lot 1, and west half lot 2, F. and G. Twelfth-ninth and Thirtieth streets; \$1,901 11.

V. A. Brown and W. A. Boole, by Commissioner, to John Andrews—West half of northeast quarter and east half of northwest quarter section 12, township 7 north, range 8 east; \$1,250.

Weather Reports. The Weather Bureau report shows the highest and lowest temperatures yesterday to have been 54 and 33 degrees, with brisk to high southerly winds and partly cloudy weather prevailing.

The barometrical readings at 5 a. m. and 5 p. m. yesterday were 30.15 and 30.10 inches, respectively. The highest and lowest temperatures one year ago yesterday were 62 and 42 degrees, and one year ago to-day 66 and 45 degrees.

The average temperature was 44, and the normal 54 degrees, showing yesterday's temperature was 10 degrees cooler than usual for the 14th day of March. The wind yesterday traveled at the rate of from twenty-five to thirty miles per hour, reaching at times a maximum velocity of thirty-six miles per hour.

There was a heavy and severe frost in this section yesterday morning.

A Fire Averted. A coal-oil stove exploded in the rear part of the Neagle Medical Institute at 72 1/2 K street yesterday morning. The explosion scattered oil all over the room, but a prompt application of wet blankets smothered the flames before they had attained serious headway. The fire department was not called out.

Disturbed the Orators. John Drobick was arrested last night for creating a disturbance at the meeting of the City Board of Trustees. He had looked long at the flowing bowl, and was making some of the conversationalists on the board green with envy. J. M. Rowley finally arrested him and led him away to the City Jail.

For a good, sharp glass of steam or lager beer go to the El Dorado, 826 J. McMorry sells groceries. Agent for Coronado water and Stockton sarsaparilla and iron. 531 M street.

E. M. Leitch, piano mover, requests orders left at Kohler & Chase, 721 K street, and not at Pommer's.
