One of the most important amendments is one appropriating \$491,163 for the payment of the services of two additional regiments of artillery, provided for by recent legislation.

The general appropriation for the enlargement of the military posts is increased from \$120,000 to \$200,000; \$400,000 is appropriated for the purchase of Point Park, on Lookout mountain, as part of Chickamauga Park, and \$50,000 is provided toward the erection of a sanitarium for disabled volunteer soldiers at Hot Springs, S. Twenty thousand dollars is made immediately available for this purpose. One hundred thousand dollars additional is given for continuing improvements at Yaquina Bay.

Provision is made for a contract whereby California shall be allowed to pay half the expenses of the improvement of the Sacramento and other rivers in that State.

PENSION ROLL. A Deficiency of More Than \$8,000,000 in the Appropriation.

WASHINGTON, March 30.—In sending to Congress a deficiency estimate of \$8,070,872 for pensions for this year, Secretary Bliss makes an interesting statement on the general subject of pensions up to the Secretary Bliss says:

"On the 1st of July, 1897, there was available \$140,000,000 for the payment of army and navy pensions. Four million dollars of this was set apart for navy pensions, leaving \$136,000,000 for payment of army pensions.

The total number of pensioners on June 30, 1897, was 976,914, while on the 28th of February, 1898, there were 983,613 on the roll, a net increase of 6,700.

"But on later dates there was disbursed for the payment of army pensions \$85,570,872, leaving the sum of \$50,429,128 for the payment of pensions to the end of the present fiscal year.

The Commissioner of Pensions estimates that \$18,700,000 will be required for the payment of pensions during the remaining four months of the fiscal year, more than \$8,000,000 in excess of the unexpended appropriation."

CHATTANOOGA, March 30.—Two heavy freight trains on the Western and Atlantic Railway collided to-day near Adamsville, Ga. Engineer E. S. Elliott was instantly killed and Engineer John McAtee was fatally injured.

The two trains were completely demolished, and a score of cars were smashed into kindling wood. Several brakemen were badly injured.

Austrian Navy. VIENNA, March 30.—The "Neue Freie Presse" to-day announces that the Austrian-Hungarian Government intends to ask for 45,000,000 to 50,000,000 florins for the purpose of increasing the strength of the Austrian navy.

LATE LIEUTENANT JENKINS. AN IMPOSING FUNERAL DEMONSTRATION.

Cities of Pittsburg and Allegheny Unite in Paying Honors to the Remains.

PITTSBURG, March 30.—The cities of Pittsburg and Allegheny united to-day in a loyal and patriotic spirit, and paid the highest civic and military honors to the remains of Lieutenant F. V. Jenkins, who perished on the United States battleship Maine.

The public funeral accorded Lieutenant Jenkins' remains was not merely dictated by the motives of local pride in a son of this community; it was a national affair.

From the time of the arrival of the body in Pittsburg at 6:05 o'clock this morning until the laying of musketry over the grave in Uniondale cemetery, Allegheny, the manifestations of mourning and patriotism were marked in the two cities.

Flags were at half-mast everywhere. The tolling of bells, echoes of minute guns, and the marked suppression of the boisterousness of ordinary days, and the strains of funeral airs and the muffled roll of drums told those who heard but did not see the solemn events passing.

The funeral programme occupied most of the day in its execution, and the weather was most favorable. First the body was taken to Allegheny and placed in state at 9 o'clock in the post-office corridors.

A squad of Division C, Pennsylvania Naval Reserves, was the guard of honor. At 11 o'clock, still escorted by the military guard and a detachment of policemen, it was brought to the court house in this city, where it again lay in state for two hours.

While the people filed by the bier and the bells tolled, the National Guard and the G. A. R. posts assembled in the vicinity.

At 2:30 o'clock the casket was placed on a caisson and the march to Allegheny was taken up. Through a great concourse of men, women and children the procession marched slowly to Christ Protestant Episcopal Church, Allegheny.

Here the impressive and beautiful Episcopal service for the dead was performed, and a tender sermon, full of lessons patriotic and Christian, was preached by the rector, Rev. Robert Meach.

orders to men working upon the vessels to hurry their labors to completion. Some workmen from the shipbuilding yards employed in making some minor changes on the Brooklyn were told emphatically that all work must be finished to-night, and the men on board would not be surprised to find the fleet moving within a few days.

The hurry was in the main due to the uncertainty in the situation in Washington, as detailed in the Associated Press dispatches, and the similar situation in Key West.

Commander Schley has almost fully organized his working force, finding it not a difficult matter as many of the officers of the fleet are old shipmates and have worked with him before, notably on the Baltimore at Valparaiso, Chile, when the international episode occurred, and where he displayed diplomacy that won for him the confidence of the country.

MOVEMENTS OF WARSHIPS. Columbia Will Probably Reach Hampton Roads To-day. PHILADELPHIA, March 30.—The cruiser Columbia, which sailed from the League Island Navy Yard on Monday to join the flying squadron at Hampton Roads, passed Red Bank in the Delaware Bay at 4 o'clock this afternoon.

The Columbia anchored at Deep Water Point, off New Castle, Del., Monday night, and yesterday started for her destination, but after going fifteen miles she was compelled to anchor because of the heavy fog on the bay. The Columbia will probably reach Hampton Roads early to-morrow.

CHARLESTON (S. C.) March 30.—The monitor Terror sailed to-day for Key West after having taken on coal. The monitor came into port at noon.

COWBOY RANGERS. Bill Providing for the Organization of a Regiment. WASHINGTON, March 30.—Senator Warren to-day introduced a bill in the Senate authorizing the President to organize a regiment of cowboy rangers whenever it shall be in the interest of the public service for him to do so.

The regiment is to be enlisted for ninety days or more, to be organized as cavalry and to have the privilege of electing its own commanding officers. The bill specifies that the members of the regiment shall be good riders.

CONSUL-GENERAL LEE. The Report that He Has Tendered His Resignation Denied. WASHINGTON, March 30.—Secretary Long is authority for the statement that there is no truth in the report published this morning that Consul-General Lee is dissatisfied with the President's Cuban policy, and has asked his resignation to the State Department, at the same time requesting that he be relieved at once. The report was that a telegram to that effect was received from General Lee last night. Secretary Long said to-day in the most positive manner that no such telegram had been received, and that he had every reason to doubt the report that General Lee was dissatisfied with the present policy of the administration.

Tom-Harry had an awful drinking bout last night, hadn't he? Dick—Yes, he had to be hauled out before he got home.—Pick-Me-Up.

THE FLYING SQUADRON. Orders to Have Work on the Vessels Completed Without Delay. FORT MONROE (Va.), March 30.—Monday and yesterday everything about the flying squadron had a peaceful air because of the meagre news from Washington. This morning a great deal of suppressed excitement was noticeable, particularly in the

purchase them farming implements. Spain is considering this at Madrid. A cablegram was received from Minister Woodford which shows that the negotiations are proceeding in a way entirely satisfactory to the President. It is said that this cable merely said "Accepted." Whether this meant all the propositions or merely the proposition that an armistice be attempted, and that Spain will release the reconcentrados, is not known. It is not believed that Spain will at this stage promise independence.

But on the strength of the information from Madrid the President decided to send a message to Congress, and a high official said the way was opening to a speedy settlement of the whole Cuban situation.

On the Maine question Spain is evidently preparing to combat the contention that the ship was destroyed by an outside explosion, and instead of forwarding an apology will send a denial, and ask for international arbitration.

BUYING OF CUBA. The Administration Has No Part in the Alleged Scheme. WASHINGTON, March 30.—It was stated by a Senator who called upon President McKinley to-day and discussed the Cuban question that the Administration was taking no part in the alleged purchase negotiations. He said that this may be talked of in New York and by New York men, but he did not think it was a part of the Administration's policy regarding Cuba.

John J. McCook of New York to-day again denied that he was a member or a representative of any syndicate proposing to put up an indemnity for Cuban independence, taking Cuban bonds in return. He added that he thought, if there were any such propositions Spanish or the Spanish people themselves would take a large portion of any bonds Cuba might issue. The talk about the purchase of Cuba was very prevalent at the White House to-day, but no one presumed to speak regarding Spain's attitude.

BERLIN, March 30.—The "Tageblatt" to-day announces the presence in this city of an American financier, representing a syndicate said to be trying to interest Berlin financiers in a project for purchasing Cuba and paying Spain 1,500,000,000 pesetas, the syndicate recouping itself from the customs of Cuba.

Inquiries made at the United States Embassy and at the leading banks show that they have no knowledge of the matter.

THE STORY ABSURD. WASHINGTON, March 30.—The Spanish Minister to-day declined to speak to the press concerning the reports of a Spanish settlement. When pressed, however, as to the report published in New York that a solution had been reached comprising the payment by the Republic of Cuba of \$20,000,000 for the embarkation of the Spanish troops for home, the Minister said the story as a whole was unwarranted and absurd.

DIPLOMATIC RELATIONS BETWEEN THE NATIONS HANG IN THE BALANCE. NEW YORK, March 30.—A special to the "Herald" from Washington says: McKinley waits on Sagasta, and the diplomatic relations between the two nations hang in the balance. On the Cuban question our president is that Spain arrange some time in the near future to accept Gomez's offer to pay \$200,000,000 for Cuban independence; that an armistice be entered into during which the Spanish troops are to be withdrawn from the island; that the reconcentrados be released immediately and permitted to return to their homes, and that the United States furnish them not only with food, but

ful in tone, and gives the President hope that a final settlement of the question at issue may be determined at to-morrow's conference.

The main question discussed at the meeting yesterday between Minister Woodford and Premier Sagasta is known to have been the prompt cessation of hostilities on the Island of Cuba and the release of the reconcentrados, with permission for them to return to their homes and resume their occupations without further molestation.

The exact lines upon which Minister Woodford is at work for the final settlement of the Cuban question can be stated as receiving a number of suggestions from this Government as to what would be acceptable to it. The consensus of opinion, however, in addition to the cessation of hostilities, is settlement on an indemnity basis of something less than \$200,000,000.

TWO PROPOSITIONS TO BE CONSIDERED. MADRID, March 30.—The "Pais" says that orders have been issued to mobilize all the Spanish warships and that a second torpedo squadron is being prepared for sea at Cadiz.

The Balearic Islands, according to the "Pais," are being fortified and military engineers are starting for the Canary Islands.

A cabinet council was held this afternoon to consider the American proposals. Another will be held to-morrow at noon, presided over by the Queen Regent, and at 4 o'clock to-morrow there will be a final conference between United States Minister Woodford, Senator Sagasta, the Premier, Senor Gullon, the Foreign Minister, and Senor Moret, the Minister for the Colonies.

The proposition which Spain will answer covers two points only, and its publication will be a revelation to some of those who have been denouncing America's aggressive attitude. It reads as follows:

"Spain to proclaim immediately an armistice in Cuba to last until October, during which interval the United States will use its good offices with the insurgents to make this temporary peace permanent; and, second, Spain to do her best toward relieving suffering and starvation on the island, with America to be allowed to assist in this work."

McKINLEY WAITS ON SAGASTA. Diplomatic Relations Between the Nations Hang in the Balance. NEW YORK, March 30.—A special to the "Herald" from Washington says: McKinley waits on Sagasta, and the diplomatic relations between the two nations hang in the balance. On the Cuban question our president is that Spain arrange some time in the near future to accept Gomez's offer to pay \$200,000,000 for Cuban independence; that an armistice be entered into during which the Spanish troops are to be withdrawn from the island; that the reconcentrados be released immediately and permitted to return to their homes, and that the United States furnish them not only with food, but

Then came the march to the cemetery, the final service, the committing of the body to the earth, the firing of the salute, the closing of the grave, and the placing at its head of the American flag.

Among the many beautiful floral offerings was an anchor sent by the class of '96 of the United States Naval Academy, Annapolis, and a battleship from the Western University of Pennsylvania, from which deceased graduated before entering Annapolis.

HAVE FAITH IN FETICHES. Many Colored People Believe Snake Skin Will Ward Off Evil. Belief in the efficacy of fetiches is still prevalent among a certain class of colored people in this city, and probably no one has the superstition brought so forcibly to his attention as Head Keeper Manley of the zoo, says the Philadelphia "Record."

Constant applications are made to him for materials for love charms by both sexes. Most often the request is for a piece of snake skin, which, when powdered by a witch doctor and put in a locket, to be suspended from the possessor's neck, is considered to be a sure winner of affections. To supply the demand a number of skins taken from the reptiles that die in captivity are always kept on hand. The soft breast feathers from the African gray parrots are saved for other woeers, who prize them just as highly. Keeper Manley is called upon to supply fetiches to insure success in combat as well as in love. Several negro prize fighters well known in the local ring carry a little bunch of hair clipped from the tuft on the end of the old lion's tail. These bristles are thought to give the wearer unbounded courage and strength.

Felt Acquainted. A Boston lady of the most reserved and exclusive type was waiting for her change at the glove counter in one of the large stores, when she was approached by a very large, gaudily dressed and loud-looking woman, who held out a pudgy hand in a bright green kid glove, and said:

"Why, how do you do, Mrs. Blank?" Mrs. Blank ignored the proffered hand, and drawing herself up stiffly, said, rigidly:

"I do not think that I know you, madam."

"No, I s'pose not," replied the woman, in no wise embarrassed by the coldness of her reception, "but I've known you by sight for a long time, and now I've got a hired girl who worked at your house once a year or two ago, and she's told me so much about you that I feel real well acquainted with you. Pleasant day, ain't it? Well, if she ain't polite to sail off without so much as a word 'show's her raisin', anyhow!"—Harper's Bazar.

Of Course They Do. "Statisticians say that married men live longer than single men," she suggested.

"Of course they do," he replied. "They're tougher, you know, for they're kept in training all the time."—Chicago Post.
