The leaders were very anxious to get the bill authorizing the President to call out the volunteers through the House and into the hands of the President at the earliest possible moment to-day.

Hull, Chairman of the Military Affairs Committee, explained the imperative necessity of haste and what had been done. Without even a formal ratification of the informal action of the conference he thereupon presented the conference report.

WHEAT ADVANCING. May Closes at Chicago at \$1 14 1/2 Per Bushel.

CHICAGO, April 22.—An excited Liverpool wheat market, with a raise in the futures there equal to 4 1/2 cents a bushel, started this market to-day on a momentary rampage.

The first trades in July were over a range of from 80 1/2 to 90c, most of the trade at the lower figures, and only a very few succeeded in getting 90c. The decline that followed carried the price down to 88 1/2c, but that proved the rallying point for a fresh advance.

The demand from country millers for No. 1 northern spring wheat was urgent at 2c over the price paid here yesterday, but Letter's broker in sample market said he refused all bids.

Spot wheat at Liverpool closed 2d higher for California and 1 1/2d higher for futures. But Cudaby brokers were persistent sellers of the crop prospects, and, on the advance in ocean rates, the crowd began to believe that war was bound to affect grain prices on this side adversely.

The Chamber of Commerce met in extraordinary session to-day to take into consideration the state of affairs to plan the next measures, in combination with the military authorities to avoid a surprise.
