FRENCH AND GERMAN PRESS AND AMERICA.

The attitude of the French and German press toward the United States just at this time, if it meant governmental expression, would have serious significance.

But there is reason to believe that these papers do not voice governmental thought—at least do not indicate that the powers of Europe contemplate any interference between the United States and Spain.

Of course it is not impossible that Europe may be mixed up in the present difficulty, but it is exceedingly improbable.

THE RIGHT SPIRIT.

The Secretary of the Interior Department has set a splendid example. He announces that any man employed in the Department who enlists under the call for volunteers, or in the navy, will be reinstated in his old place within twelve months after he leaves the army or naval service.

Since the foregoing was written and sent to type the Trustees of the City of Sacramento, on the recommendation of his honor, the Mayor, have adopted a resolution pledging the city of Sacramento to return to his present employment.

Publicity of the threat to the Indian service will do much to avert the damage which the Indians' friends fear. Let them continue to stir up the matter, and we apprehend that the Administration of President McKinley will find time to intervene and provide for a continuance of the methods of the military agents.

RETIRACY OF JOHN SHERMAN.

The retracy of John Sherman from the office of Secretary of State is due solely to the fact that with his many years weighing him down he is no longer equal to the task of bearing the augmented burdens of the Department of State.

WAR DECLARED—DUTY OF THE GUARDSMAN.

The formal declaration of war has been adopted by Congress and signed by the President. This fully legalizes the call for 125,000 volunteers, and makes prize awards in the navy secure.

and navy of the Republic has issued the necessary call for volunteers, and the War Department has declared that the National Guardsmen shall have the first opportunity to respond.

Now let it be seen if there has been any truth in the charge made that the organized militia has been playing at soldier, and that when it came to the issue the men of the Guard would not fight. We believe that California's quota will be filled rapidly.

If this does not prove true, the State will be dishonored, and every town and city where a company of the Guard is located will be humiliated in the dust.

POSSIBLE INDIAN TROUBLES.

The humane people who have been so long and earnestly engaged in the work of civilizing the Indians have great reason to deplore the outbreak of war.

This military superstition will now, it is feared, be largely withdrawn. Most of the army officers have been called to the Atlantic Coast, and things in the Indian sections it is feared will suffer along all lines.

These new men will be without experience in managing the Indian, and hence the fear that on the borders conditions will go from good to bad.

This very much exercises the humane people. They fear that the firm but kindly rule of the regulars, who understood and sympathized with the Indians will be succeeded by incompetency, and that outbreaks and bloodshed will follow.

However now that the humanitarians have called attention to the facts and pointed out that the cattle men have evil designs upon the Indians and the Indian appropriations, there should be hope that the schemes of the schemers will be checked.

Publicity of the threat to the Indian service will do much to avert the damage which the Indians' friends fear. Let them continue to stir up the matter, and we apprehend that the Administration of President McKinley will find time to intervene and provide for a continuance of the methods of the military agents.

EFFECT OF CATHODE RAYS.

On a chemical effect produced by the impact cathode rays, by Professor J. J. Thomson and Mr. Skinner of England, "Nature" says: "Aluminum is rapidly evaporated from the cathode by an electric discharge in a highly exhausted vacuum tube in which air has been replaced by mercury vapor.

SPAIN'S REIGNING DYNASTY.

Santa Cruz Sentinel: Not the least of the difficulties which face Somo Sagastia at the present time is his effort to sustain the reigning dynasty is the fact that Spain at the present juncture is without a regularly ordained hereditary ruler. It has fallen to the lot of but few women to bear such a burden as now rests upon the shoulders of Queen Regent Maria Christina.

VOICE OF THE PRESS.

EXTRACTS FROM EDITORIAL EXPRESSION.

State and Coast Opinions on Subjects of Living News Interest.

Alameda Argus: It is barely possible that the silver men will now have their opportunity. The Government will soon, without doubt, find the necessity of issuing war bonds.

Los Angeles Herald: It is now conceded that the action of Great Britain in declaring coal to be contraband, whatever the intent of the order, will be of infinite advantage to the United States.

A VIGOROUS CAMPAIGN.

Los Angeles Times: Those who have been disposed to criticize the President because of his reluctance to plunge the nation into a war with Spain will probably have occasion in the very near future to revise their too hastily formed opinion, and will be forced to acknowledge the injustice of their strictures.

FORWARD TO VICTORY.

Napa Register: It is not a theory but a condition that now confronts us. That condition is one of war. It was made by Spain on April 21st, when our Minister at Madrid was told that all diplomatic relations with this country had ceased, and that no more communications would be received.

THE DEATH TRAPS.

Stockton Mail: The downfall of Treasurer Widber of San Francisco is another indictment against the race-tracks which curse that city. Widber is but one of many victims; his ruined home but one of hundreds of ruined homes; his disgraced and heart-broken family but one of many such families.

DINGLEY LAW.

Humboldt Standard: The assumption that the protective duties on foreign goods are disadvantageous to our foreign commerce and especially to our sales of manufactured articles does not seem to be justified by developments since that law went into effect.

EGGS IN THE BASKET.

Oroville Register: Disaster in too many cases falls upon men by their relying on one product. The man who grows grain alone must fall in some years; the grower of fruit alone must lose their crop, and the heavy loss then experienced cripples him financially for years.

THE PRESIDENT'S COURSE.

San Jose Mercury: President McKinley has acted with wisdom and firmness throughout all these complications, and the result is that the nation can go to war with the assurance that it has presented a clear front to the world, whose justification it will have.

CONTRABAND COAL.

Los Angeles Herald: It is now conceded that the action of Great Britain in declaring coal to be contraband, whatever the intent of the order, will be of infinite advantage to the United States.

liness clinging about her like the faint breath of a half vanished perfume which clings about her with a certain sweet, subtle odor." Talking of sweet odors reminds me of the woman who doesn't approve of them. In the first place she is clean—overwhelmingly clean. She reminds me of the English woman I once heard of who used to go through a regular siege of housecleaning whenever her visitors had to depart.

FATAL BLOW.

The war Governor of Illinois says the married men can stay at home and provide for their families. This will cause an exodus of divorce lawyers from that State.—Atlanta Constitution.

SINGULAR STATEMENT.

From Mrs. Rank to Mrs. Pinkham. The following letter to Mrs. Pinkham from Mrs. M. RANK, No. 2,354 East Susquehanna Ave., Philadelphia, Pa., is a remarkable statement of relief from utter discouragement.

"I never can find words with which to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. Some years ago I had womb trouble and doctoring for a long time, not seeing any improvement. At times I would feel well enough, and other times was miserable. So it went on until last October, I felt something terrible creeping over me, I knew not what, but kept getting worse. I can hardly explain my feelings at that time. I was so depressed in spirits that I did not wish to live, although I had everything to live for. Had hysteria, was very nervous; could not sleep and was not safe to be left alone."

BESELENA'S PRATTLE.

(Special Correspondence Record-Union.) PORTLAND (Or.), April 21. — A bright woman I know once said to me: "Has your ever noticed how ugly the red is when nations are at variance with each other?" And I had to confess that the thought had never before entered my mind.

FEATHERS AND BIRDS.

Those who are opposed to the use of feathers and birds appear to be more active and more in earnest in England than in this country. At a meeting of a society, whose purpose is the suppression of these evils, which was recently held in London, a speaker was applauded for the suggestion that if women would refuse to take for husbands men who crunched larks at dinner and men would decline to marry with women who bodiced themselves with feathers and singing birds, the object of the society would be attained.

FAMOUS TRUMPETER DEAD.

Toch, the trumpeter who sounded the charge for his regiment, the Third Cuirassiers, at the famous battle of Reichssoffen, the Balaklava of the French cavalry, has just died at Gelsweiler, in Alsace. The man was fearfully wounded, and was left for dead on the field by the side of his Colonel. He was subsequently taken to Niederbronn, where his injuries were attended to, and he was literally patched together. Toch became a paralytic cripple, but managed to live for twenty-seven years after the war was over. The last to go into action, and as one of the cuirassiers in it had his skull blown off, the desperate ride was known as "The Charge of the Headless Horseman."
