An alarm was at once sent to the power house on shore, and a relief expedition was organized. Blackened, blinded and scalded, the injured men were quickly transported to the shaft and thence conveyed by ambulance to hospitals. Following are those injured: Ernest Engle, badly burned about face, arms and body; Vila Teleda, burned about head; Alex McFadden, burned about legs; Daniel Hahn, burned about face and body; Michael Trevilian, badly burned; James Anderson, burned about head and arms; Thomas Corrigan, burned about arms and body; James Black, burned about head and arms. WILLIAM E. GLADSTONE. The Patient Has Not Left His Room for a Fortnight.

LONDON, May 11.—A letter written by a member of Mr. Gladstone's family says the patient has not left his room for a fortnight. It adds that he might have some sense of enjoyment when the warm weather returns and turns the whole earth into a garden, but the truth is he has taken leave of all portions of the earth. He is possessed with a sense of despair. His body, mind and soul ask for no food of any kind. His one desire is for peace. He has longer the quiet sleep or rest with closed eyes than when the morphia taking began, but though he has considerable physical strength, he is unable to listen to anything but a short message of one or two sentences. He has seen three or four friends outside of the family, but no conversation occurred, nothing but a farewell blessing for each of them.

These laborers are all from Louisiana, and will be forwarded to New Orleans by the Astor syndicate.

Women's B's Its. The belt gives the right finishing touch to the shirt waists—that is, if right in color, right in width, and right according to the season's fashion or fancy. Ours must be right, judging from the rapid manner in which they are selling. Another large lot was received yesterday. Perhaps you are not aware that we sell a solid leather belt, fitted with a neat buckle for 12c? But we are, and there are several colors to choose from at this price.

At 25c. At this price belts made of soft pliable leather, kid lined, machine stitched edges; a notch higher in quality than any we have hitherto offered at the price. You can choose from ox bloods, assorted browns and blacks. 25c.

At 50c. There are several desirable kinds to make choice from. One of them is of real Morocco, a close grained leather. The finish is out of the ordinary. The edges are folded over, making them perfectly smooth. The buckles are of solid metal finished in gold or nickel. Looks well and wears well.

White Belts. Are popular just now. Our 25c grade is made of soft and pliable leather, but as it is solid calf leather the belt will not stretch out of shape or dent in at a point where the dress skirt is supported.

Novelty Belts. In many handsome effects, including the popular jeweled novelties, at from \$1.25 to \$3 each. When required we place extra eyelets in belts. We do it in a moment and when it is done it is well done. If you have a belt that has pulled away from the eyelet we will repair it for you without cost.

Crash Skirts, \$2. Our new line of crash skirts, tan grounds with pretty colored silk stripes, is already a favorite. Reason enough. The purchaser gets service and appearance combined at a small price. It is not to be wondered at that the pretty and comfortable summer garments are selling rapidly. Price, \$2.

Quinine Pills. 1 grain size, 100 for 18c. 2 grain size, 100 for 25c. 3 grain size, 100 for 33c. Empty capsules, 2, 3 or 4 grain size, 100 for 15c.

Rubber Tire Baby Carriage, \$10. There is not a better value to be found in Baby Carriages than the one we offer at \$10. In appearance it is like cut, but the wheels have rubber tires, and are fitted with a new patent brake adjustment. They can be removed from buggy without a wrench. The body is in good size, made of the best quality reed, and is upholstered in cretonne. The parol is adjustable to any desired position, and is covered with lace, having deep hanging edge. The cut will give you but a faint idea of the appearance of this carriage; this short description will give you but a faint idea of its value. You should make it a point to see it, if interested. Price, \$10.

SPAIN NOW TURNS TO PHILIPPINES.

(Continued from First Page.) destroyer which was guarding Algeiras Bay and Straits, shortly after the steamer passed her all the lights of the destroyer were suddenly extinguished, a terrific explosion followed immediately, and the destroyer disappeared.

The disaster, the dispatch adds, was apparently caused by the explosion of the boilers of the torpedo boat destroyer. It is thought all on board her perished. The Spanish torpedo boat destroyer reported to be blown up near Gibraltar probably is the Destructor. The Destructor is classed as a torpedo gunboat. She was built of steel at Clyde Bank in 1887, and was 192 feet 6 inches long and was estimated to have a speed of about twenty-two and a half knots. Her armament consisted of one 3.5-inch gun, four 6-pounders quick-firing and four Maxim guns. She had three torpedo tubes and a crew of fifty-five men.

IS SPAIN BACKING DOWN? Looks as Though She Would Leave West Indies to Their Fate. LONDON, May 11.—On the Stock Exchange here to-day the report that the Spanish Cape Verde squadron had returned to Cadiz was generally discredited, though the opinion was freely expressed that if the rumor was true it indicated the intention of Spain to throw up the sponge and leave the West Indies to their fate, thus opening the way to an early peace. This is understood to be strongly desired in certain quarters and the effect of the seeming backdown was beneficial.

Later Bennett made an unsuccessful attempt to attempt to suicide. He is now in jail.

Morgan of Osage, and stabbed him three times with a razor. Though the wound is serious, Morgan will recover. The negro escaped. The assault was unprovoked.

Will Not be a Major-General. WASHINGTON, May 11.—Senator Sewell has decided to refuse the com-

GRACE LOOSE IN TROUBLE. Booked in Prison on Charges of Extortion. SAN FRANCISCO, May 11.—Grace Loose, known in this city as Grace Neal, her sister, Elsie Williams, and Myron H. Ashdaerian arrived in this city from Fresno in charge of Deputy Sheriff Timmins. They were booked at the City Prison on charges of extortion, preferred by W. A. Nevills, the mill-lonate mining man.

After some preliminary legal skirmishing the defendants were arraigned, and their preliminary examination set for to-morrow. Captain Nevills accuses the trio of extorting from him the sum of \$2,000 while he was lying critically ill last February, and which sum he paid rather than be bothered while his health was in such a critical state. Grace Neal threatened to show Nevills' wife certain letters which he had written to her unless the money was paid.

SAN FRANCISCO, May 11.—Secretary Scott of the Chamber of Commerce is in receipt of a number of letters from Senator Perkins, Hon. S. G. Hilborn, Hon. Marion de Vries and Assistant Chief of the Bureau of Navigation Dickens at Washington, with reference to utilizing certain vessels of the merchant marine on the Pacific Coast for auxiliary cruisers. The latter-named gentleman says that a copy of Senator Perkins' letter has been furnished to the Commandant of the navy yard at Mare Island, and "he has been directed to have the vessels examined when he understood to be strongly desired in certain quarters and the effect of the seeming backdown was beneficial.

CROPS IN FRESNO. Condition Bad, Except in Favored Places. FRESNO, May 11.—The condition of the crops in this county is very bad, except in a few exceptionally favored places. There will be scarcely no grain crop at all. The wheat crop is a total loss. Some farmers are planting Egyptian corn on irrigated lands, with the hope of getting some kind of a crop. Apricots and peaches are a total loss. The buds were killed early in the season, and nothing will be realized from them. The raisin crop will be better than was expected earlier in the season. The trip is not so plentiful, and except in a few places has

done little damage. The grape crop will be fairly good.

Where She Would Be Strong. "I will admit," he said at last, when the discussion was beginning to become tiresome to him, "that there is one branch of legal practice in which a woman ought to be a brilliant success." "More successful than man?" she asked. "Oh, much more so." "And what branch is that?" she inquired. "Cross-examination," he replied. "And why should she be so successful at that?" she demanded. "Because," he answered, "when you combine knowledge of law with woman's natural curiosity you have a combination that positively cannot be beaten for getting at facts."

She wasn't quite sure whether she should consider it a compliment or not, but she said he was real mean, anyway.—Chicago Post.
