

NEWS SCARCE IN NAVAL CIRCLES.

(Continued from First Page.)
The Spanish cruiser Reina Mercedes of 1,800 tons, now at Santiago de Cuba, has seven boilers disabled, and she is otherwise so badly dilapidated that she has been anchored at the harbor entrance as a guard ship.

THALL AND JONES.
Will Likely Soon be Exchanged for Two Spanish Prisoners.

KEY WEST, May 16.—The United States Government tug Uncas has returned here from Havana without the two American newspaper correspondents said to be Charles Thall and Hayden Jones, captured by the Spaniards and imprisoned in Fort Cabanas, whose release the Commander of the Uncas attempted to consummate, on the basis of exchanging them for Spanish prisoners held in the United States.

COTTON'S MESSAGE.
The Manager of the French Cable Company Explains Its Delay.

PORT DE FRANCE (Island of Martinique), May 16.—(Copyrighted, 1898, by the Associated Press.) The manager of the French cable company explicitly denies the statement that a dispatch filed by Captain Cotto of the United States auxiliary cruiser Harvard was delayed twenty-four hours at St. Pierre, this island. The manager explains the matter as follows:

"Captain Cotto presented himself at the office of the company at St. Pierre and asked by what cable line cable messages were transmitted to Washington. When he was informed that such messages went by way of Port de France and Haiti he refused to give us his dispatch because a Spanish torpedo boat was at that time at Port de France. Not taking into account professional secrecy he told the American Consul in the presence of M. LaLung, under these circumstances, he preferred to give his dispatches to the English company, in spite of the delay of twenty-four hours which they have to submit to on account of accumulation of business on the lines of that company."

"I protest against the statements made, as we leave our office open to midnight or 1 o'clock in the morning when necessary, while the West India company closes at 6 o'clock in the evening local time, and also because we do everything possible to be agreeable to the American Government, forwarding its messages very rapidly when we have any."

"I have obtained the following statement on the subject signed by the United States Consul at St. Pierre and by Captain Cotto of the Harvard:
'To Whom It May Concern: I certify that the agent of the French company at St. Pierre, Martinique, never acted in a quick manner in the delay of twenty-four hours, while the West India company closes at 6 o'clock in the evening local time, and also because we do everything possible to be agreeable to the American Government, forwarding its messages very rapidly when we have any.'"

"George L. Dart, U. S. Consul. Cotton, Captain Harvard."

MORE VOLUNTEERS.
Said There Will Unquestionably be Another Call.

WASHINGTON, May 16.—"There will unquestionably be a second call for volunteers," says a well-known Western Senator who holds intimate personal relations with Secretary of War Alger.

"To properly hold the Philippine Islands, we shall find 30,000 to 50,000 not too many. To clean up matters in Cuba in a quick manner we shall need not far from 200,000. With the regulars and volunteers already in the field, we find ourselves short about 75,000 men. I understand that the President is considering a call of 100,000 additional volunteers. I also understand that the Secretary of War and General Miles agree with the President's call as a timely one."

Secretary Long has found it necessary to issue a general order calling the attention of enlisted men particularly to the uselessness of employing attorneys in settling any questions of pay, bounty, prize allowance or claims in general. All that is possible to be gained may be accomplished by writing to the Auditor for the Navy Department, who is stationed in the Treasury Department.

Another general order has been issued requiring that all officers shall furnish the Navy Department with the name and address of the nearest relative or the person to whom advices should be sent in the event of disaster.

EIGHTY-ONE THOUSAND.
Number of Volunteers Already Mustered Into Service.

WASHINGTON, May 16.—Reports received by Adjutant-General Corbin up to 10 o'clock to-night indicate that 81,000 volunteers have been mobilized into the United States service. It is expected now that unless something unexpected occurs.

On leaving the harbor an officer on board the United States auxiliary gunboat Eagle, which overhauled the Adula, said they were fishing for the cable and expected to cut it any day. The cable has since been cut.

SPANISH CELEBRATE.
Thought They Had Won a Great Victory at Manila.

KINGSTON (Jamaica), May 16.—(Copyright, 1898, by the Associated Press.)—Advices which have just been received from Cienfuegos, Island of Cuba, say the Spaniards of that place attended the chanting of a Te Deum at the principal church in celebration of the "news" circulated by the Spanish Government to the effect that the Spanish forces had been victorious at Manila. When the first "news" was received at Cienfuegos from Madrid all the bells in the city were rung, and General Pando, who was then there, and his staff attended the Church of St. Sulphice in full uniform. In addition a ration of wine was served to the soldiers, and though the American blockading ships were outside the harbor and meat was costing two pesetas a pound, the city was gay and rejoiced at the announced "success" of the Spanish arms.

Since then, however, ugly rumors of the defeat of the Spaniards have been in circulation, though "officially" Spain has won a "victory" in the Philippines. The refugees who arrived at Jamaica from Cienfuegos by the Adula were released from quarantine yesterday. Among the most prominent are Albert Fowler, brother of the British Consul, his mother and sister; M. Antonio Pavet, a millionaire sugar planter and the Salceda family.

Threats of cutting off the heads of Americans have been made at Cienfuegos, but no casualties have actually occurred.

On leaving the harbor an officer on board the United States auxiliary gunboat Eagle, which overhauled the Adula, said they were fishing for the cable and expected to cut it any day. The cable has since been cut.

The Fin De Siecle Comb, The great success of London and Paris, is winning for itself many friends here. By its means any woman can dress her hair in a variety of styles without the use of hairpins. It possesses the merits that made hairpins necessary without their faults. It fastens the hair securely, yet leaves it loose and fluffy, thus avoiding headaches and falling out of the hair. It has many other merits, which are readily understood when the operation of doing up the hair by means of this comb is witnessed. Experts are demonstrating its advantages in our store and show window. Don't fail to see them. We sell the combs at 75c, \$1 and \$2.
