

WOMEN AND THE HOME

shots, the waitress slipping a tiny flag in the war-like plateful as she carried it to a guest.

Defiant women find that it pays them to take a few lessons in straw-sewing. The woman who learns saves many a penny by making her own hats.

Before fine laces are immersed in naphtha or benzine or even alcohol, for this, too, will clean up a hat sewer. It takes longer, they should be basted with a fine needle and thread on a piece of very thin muslin or old linen.

To splice out a chafing-dish service of creamed fish, some left-over asparagus will be found particularly useful. A cream dressing is made for the fish, and the cold asparagus cut in two-inch lengths and added with the cold fish.

The trained nurse exhibit at the Health Exposition in New York attracted wide attention. It was an admirable object lesson in sanitation, and as a study of comparative nursing it was most valuable and suggestive.

A recent bride spared some of her morocco cases and other jewelers' boxes which came to her holding gifts, to pass around among her young woman friends, who promptly utilized them.

The New England Kitchen at Boston is well known as an established commercial success. Its rate of prices is given for others attempting the experiment.

One of the speakers at the recent Mothers' Congress protested against the abuse of children by the most well meaning mothers. Her words were subjected to a similar protest. If anyone is entitled to freedom, it is certainly an active child, to whom the bondage of clothes spells misery.

War munitions are the correct things in a time of peace. Any device that stimulates an implement of the international conflict is hailed by the fashionable as the correct thing.

A Distinction—Marie—I understand that you are engaged to be married. Daisy—No; merely engaged.—Truth.

FOR THE MAN WHO LAUGHS. A Distinction—Marie—I understand that you are engaged to be married. Daisy—No; merely engaged.—Truth.

IN RELIGION'S REALM.

Just twenty years since I entered into your employment. Principal—That shows how patient I am—Flegende Blatter.

From a Personal Standpoint.—"Don't you think," said one young man, "that literature is in a state of decline?" "Undoubtedly," replied the other.

REAR ADMIRAL NORTON. In Command of the Navy Yard at Washington. The Washington navy yard is in command of Rear Admiral Charles S. Norton.

He entered the Naval Academy from New York in 1851, and was Lieutenant on the Seminole when his ship was ordered to assist in the blockade of Charleston harbor in 1861.

He served in several engagements with the Potomac flotilla and in Hampton Roads, and took part in the battle of Port Royal.

Hobson, He's a "Corker." (Dedicated to our modern navy.) At Santiago lay a fleet of "Uncle Sam's" navy.

"'Twas fitting that the 'Merrimac,' a name well known in story, should be bottled up with glory."

And so the bottle found its cork, which fits so very neatly. That now the Dons are more secure, thus bottled up and corked.

What can we do for Hobson's crew? What of their cool commander? Brave heroes all beyond compare.

Signs of Prosperity. "Oh! my business is good," said the trombone player. "In fact, I am always blowing about it."

In Chicago, of Course. Rev. Lakeside—How is it that that new preacher is getting all the weddings?

NO CURE—NO PAY. That is the way all druggists sell GROVES' PAIN-EXPELLER.

EXPRESSIONS FROM VARIOUS RELIGIOUS NEWSPAPERS.

The Religious Thought of the Day as Expressed in the Eclecticarian Press.

"We strongly suspect," says the New York "Churchman" (P. E.), "that the doctrine of the Trinity, as it is defined by the theologians, appears to many as purely a metaphysical and dogmatic definition of the divine nature."

"It is hardly necessary," says the "Living Church" (E. of Chicago), "to show that the simple requirement that in the sacraments of baptism and the Lord's Supper the use of the words and elements ordained by Christ Himself shall be preserved, gives no security for the proper administration of those sacraments, or for perpetuating the teaching of the church concerning them."

"The Rev. Professor Charles A. Briggs, D. D., of Union Theological Seminary, author of 'An American Presbyterianism and other studies and addresses,' was admitted to deacon's orders in the Protestant Episcopal Church on May 27th."

"We cannot recall a modern 'higher critic' of the Scriptures who has given much evidence of literary perception or appreciation," remarks the "Watchman" (Bapt., of Boston).

"There must be considerable uncertainty," observes the "Universalist" of Boston and Chicago, "on the part of Professor Briggs over the farewell of the Presbyterians and the greeting of the Episcopalians, for while some of his former brethren are shouting 'good riddance' to others are asking 'how low for him in the old church' without crowding anyone else out."

"Two classes of persons will be disappointed at the outcome of the Presbyterian General Assembly's action concerning Professor McGiffert," remarks the "Congregationalist" of Boston.

"The vote of several hundred ministers and laymen that such a man is a heretic? The assembly has declared its emphatic disapproval of all utterances in his book not in accord with the standards of the Presbyterian Church, and asks him, if he cannot conform to these standards, to leave the Presbyterian ministry."

"Yet it is quite possible the Professor or McGiffert may think it wise to go into some other denomination, say Congregational or Episcopal than to be made the center of another theological storm," says the New York Independent.

"The conditions were phenomenally unfavorable. Such another bad season may not come in a generation. And yet all who took reasonable care of their best interests will not regret that they were not a generation ago in the 'Examiner' type that denounced the President because he did not rush an army of unarmed, undrilled and unequipped volunteers into Cuba."

"The conditions were phenomenally unfavorable. Such another bad season may not come in a generation. And yet all who took reasonable care of their best interests will not regret that they were not a generation ago in the 'Examiner' type that denounced the President because he did not rush an army of unarmed, undrilled and unequipped volunteers into Cuba."

DR. A. T. SANDEN, 632 Market Street, San Francisco, California.

VOICE OF THE PRESS.

EXTRACTS FROM EDITORIAL EXPRESSION.

State and Coast Opinions on Subjects of Living News Interest.

Biggs Notes: As there is but one flag recognized in the United States, the talk of returning those captured by a faction who tried to disrupt the Union thirty-five years ago is nonsense.

San Jose Mercury: It is declared by the opponents of Hawaiian annexation that the natives do not desire it. But, as the Sacramento "Record-Union" remarks, if the Hawaiians, native-born and free from cross with white blood, are opposed to annexation, it is rather remarkable that they have never found their voices to say so.

A SPLENDID SUCCESS. Stockton Mail: The sugar beet experiment has proven to be an unequalled success in this county. We will wager that every man who planted beets this year will plant as many more as he can next spring.

THE CHINA YELLOW PRESS. San Jose Mercury: The yellow journals of the "Examiner" type that denounced the President because he did not rush an army of unarmed, undrilled and unequipped volunteers into Cuba are simply demanding the slaughter of our own troops, just as the Stockton "Independent" recently said: "No one," remarks that paper, "is more anxious for early movement and early action than President McKinley."

IT WON'T DO. Oakland Tribune: A number of criminologists are favoring a proposition to transfer the Philippines into a penal colony for the United States and the subject is being discussed pro and con in the Eastern press.

NEWSPAPER TREASON. Los Angeles Times: The Cabinet has called the newspapers of the country to account, in substance if not in explicit terms, for revealing to the enemy the movements of troops and expeditions; and it is to be hoped that this gentle hint will be taken by the enterprising newspapers of the country which in their zeal to print the news are in reality guilty of treasonable acts.

Francis S. Ott, No Percentage Pharmacy, 200 K St. south side Second and K.

WHAT DO THEY THINK NOW?

Kern Echo: What do the adherents of 16 to 1 think now since the returns from Oregon came in? That State has been as strong in its fealty to cheap money ideas as any other of the country now, excepting Kansas.

PASSING AWAY. Tulare Register: Populism is passing away, and Socialism is to take its place. Populism is dead, and Socialism, but comparatively few Populists are aware of the fact, and when they become aware of it they will drop Populism like a hot potato.

NO ARMISTICE. Los Angeles Herald: It is assuring that President McKinley is reported to be in earnest in prosecuting the war vigorously, and that it is not to be permitted to drag along as some have feared, in order to promote partisan success.

YEAR OF PROSPERITY. Ukiah Republican-Press: A record of wonderful commercial activity and progress in the United States is assured for the fiscal year which ends with this month. Prosperity is here.

A Hint. He—I wonder why boarding-houses are such terrible institutions. She—Merely to show men that they ought to have homes of their own.—Ainslee's Magazine.

HOW VERY SIMPLE. There is a force in your body which keeps up the health of the nerves, blood, kidneys, liver, heart, etc. You call it vitality.

Vitality is often wasted by sickness, exposure, excesses—by some unnatural strain upon the vital functions. When wasted it is hard to recover.

This vitality, as you call it, is electrical energy. It is generated in your nervous system, and carried over your body by your nerves.

When it is wasted Dr. Sanden will restore it. Dr. Sanden's Electrical Belt will pour a stream of this electrical force into your nerves for hours at a time every night while you sleep.

It renews the vital power. You feel refreshed. New life is given to your organs, warmth and vigor to your blood. Away goes weakness, pain and misery. Joy and gladness are yours.

After wearing it for three months you will see a wonderful change. Health will be yours. Ask for and read Dr. Sanden's free book, "Three Classes of Men," or "Maiden, Wife and Mother." The Belt is as good for women as for men. "It gives strength."
