To My Old Patrons. I STILL OFFER MY VALUABLE services, if you are so unfortunate as to require them. When a man is sick and needs a physician, the inquiry is where can I find one who has been long enough in this climate to understand the peculiar status of disease in our midst. I having practised in our midst since 1850, and with a mind matured and enriched by studies of an advanced order, I can safely say there is hardly a disease in the catalogue of human ills that I cannot treat successfully. Ladies, I am always ready to assist you. My knowledge has been increased by extensive experience. I am now able to treat you with assured success. No complaint peculiar to your delicate organism is beyond my control. My female monthly medicines are superior to any offered heretofore, and are sure to have the desired effect. Those of the public who need my services I guarantee gently, honorably and scientific treatment at reasonable rates. I address particularly those suffering from private diseases and lost manhood. Persons afflicted, if they prefer, can consult me by letter, giving symptoms of the disease or trouble, and receive medicines by express with full instructions. All letters must be directed to J. H.
