THE WAR LOAN. The Small Subscribers Will Take Nearly \$90,000,000 of It.

WASHINGTON, July 14.—The subscriptions to the 3 per cent war loan of \$200,000,000 which closed at 3 o'clock this afternoon, including the offers made by the syndicates, will amount to \$1,200,000,000, or six times the amount of the issue. The subscriptions represented by checks or other forms of payment, it is estimated, will aggregate about \$750,000,000, or three and three-quarter times the amount of issue.

At 10 o'clock to-night Assistant Secretary Vanderlip said: "It is, of course, impossible to give final figures at this hour. The department received to-day just under 25,000 letters and yesterday 24,300. This mass of applications must be put through the detailed operation before a total can be arrived at and the exact line at which allotments will be made announced. My estimate at this hour is that it will be around \$5,000, that is to say, all applications for a smaller amount than that figure will be allotted in full, while all applications for larger amounts will receive nothing at all. At this hour there has actually been listed \$84,300,000 of the \$500 and smaller subscriptions, and the amount scheduled and totalled in the subscriptions larger than \$500 is at this hour \$800,610,840, and I estimate it will reach \$735,000,000. Thus the total number of subscriptions for \$500 and under that has now passed the stampers is \$228,000, and that figure will be somewhat further increased. The total of larger subscriptions numbered is 65,800, and there are still several thousand of these larger subscriptions to be listed."

BOILER EXPLOSION. It Kills Six Persons and Injures a Number of Others. BUFFALO, July 14.—By the explosion of a boiler in the Niagara Starch Works to-day the building was wrecked, six persons killed and twenty-six injured. Two others are missing, who are supposed to have perished. Of the six persons who were in the building, only two escaped. Most of the injured were persons outside the works. Scarcely a house within a thousand feet of the works escaped being hit with bricks, twisted iron or heavy timbers. The dead are: Wm. Kelly, engineer; Henry Scheiffenstein, fireman; Casper Walter, miller; Charles Entemann, teamster; Mrs. Joseph W. Hoyt, baby boy. The following were seriously injured: Baby Sloss, skull fractured, will die; Alex. Sloss, shoulder fractured; Mrs. Michael Meyers, ribs broken; Albert Binkert, leg broken.

WHEELING AND LAKE ERIE. Mortgage Foreclosure for the Purpose of Reorganizing. CLEVELAND (O.), July 14.—Colonel Myron T. Herick, receiver for the Wheeling and Lake Erie Railroad, when asked about the proceedings which have just been begun here in the United States Circuit Court to foreclose a consolidated mortgage for \$8,000,000 on the road, said: "I am only an officer of the road under the direction of the court, and know nothing about what may be going on on the outside. However, I presume that the action was commenced in view of the fact that the new company is now being organized and will in all probability take possession of the road. Financially, the road has been doing excellently recently."

NATIVE SONS. Sunset Parlor's Installation and Banquet Last Night. Sunset Parlor, Native Sons of the Golden West, installed its new officers last night, and the occasion was one of unusual festivity and pleasurable entertainment. The following officers were installed by District Deputy Grand President, J. M. Henderson: J. J. Montevardo, Past President; Don M. Morris, President; Frank C. Schulz, First Vice President; Wm. H. Harrison, Second Vice President; A. Elkus, Third Vice President; Charles Seavey, Marshal; Frank H. Conn, Recording Secretary; F. J. Heintz, Financial Secretary; G. C. Simmons, M. D., Physician; L. W. Ripley, Trustee.

After the installation ceremony about sixty-five members adjourned to the Golden Eagle Hotel, where elaborate preparations were made for their entertainment. The dining-room was artistically decorated with potted plants and draped with American flags. The menu consisted entirely of California products, the wines of California vintage and the cigars of California grown tobacco.

At the festal board a display of oratory was indulged in by members of Stanford Parlor of San Francisco, Alameda Parlor of Alameda, Keystone Parlor of Plymouth, Broderick Parlor of Mendocino and Sacramento Parlor. Toasts were responded to by James H. Pond, A. J. Johnston, Presley J. Johnson, Wm. H. Devlin, J. R. Skelton, Harry Ranlett, Frank T. Johnson, Thomas A. Cody, Herbert Yardley, Henry Brown, Lawrence W. Ripley and Frank C. Schulz and Signor Morat rendered in an admirable manner the intermezzo from "Cavallera Rusticana," which was heartily encored.

Retiring to the parlors, national airs were sung and eulogies passed on the American army and navy for their late overwhelming successes.

CHINESE REBELLION. Defeat of the Imperial Troops at Wo Chow Confirmed. HONGKONG, July 14.—The defeat of the imperial troops near Woo Chow is confirmed. Thousands of bodies have been recovered from the river and have been buried at Woo Chow. The loss of the imperial forces is probably more than 1,500 killed, which was the number first announced.

It is reported here that the Chinese doctor, Sun Yat Sen, who was inveigled into the Chinese Embassy in London in 1896 and imprisoned there until he succeeded in notifying the British Government officials through a friend that he had been kidnapped, is among the leaders of the present rebellion.

It is said that the rebels have decided not to advance further than She Hing, above Sams Hui, fearing foreign complications in the event of Canton being attacked. The creditability of this report is questioned, as the inhabitants of Canton are greatly in sympathy with the rebels.

Announces Monet's Capture. MADRID, July 14.—Captain General Augusti telegraphs under date of July 10th: "General Monet's column, unable to hold out at Malcoba, left in three boats, to wait for the gunboat Leyte, to seek reinforcements. It was stopped by the Americans, but, aided by the current, it succeeded in reaching Esteros and Albulcan. There, however, the column was made prisoners by the insurgents. An official inquiry has been opened into the conduct of General Monet."

Secrecy of Food at Hilo. HONGKONG, July 14.—Letters received here to-day from Hilo, dated July 8th, stated that a severe secrecy of food and cash prevails there. The merchants are using paper in their business transactions, payable on the arrival of funds. The sugar mills have nearly stopped, owing to the working people having deserted. The cane is rotting in the fields, and it is estimated that a quarter of the sugar crop is already ruined.

Torpedo Boats at Las Palmas. LONDON, July 14.—Advices received here to-day from the Canary Islands, under date of July 4th, say the two Spanish torpedo boats were still at Las Palmas, and it was announced that a Spanish warship was at anchor at Tenerife. Ships were not allowed to enter the harbor after dark and the coast lights are extinguished. Most of the visitors had left the place.

Knows Nothing About It. BERLIN, July 14.—In response to an inquiry on the subject, the correspondent here of the Associated Press has officially notified that nothing either officially or unofficially is known by the Government of the German cruiser Irene's alleged interference with the insurgents at Subic Bay.

DARING TRAIN ROBBERY. Eastbound Express Train Held Up Near Humboldt. WINNEMUCCA (Nev.), July 14.—The first and most daring train robbery for years on the Truckee division of the Southern Pacific occurred at 2 o'clock this morning, one mile east of Humboldt. Two masked robbers held up the eastbound express train No. 1. The engineer, Wickland, and Fireman McDermott were taken off the engine and compelled to go to the express car. The robbers climbed over the tender and covered them with a revolver and a Winchester. The robbers blew open the express door with dynamite and also blew the safe open. The car was completely demolished. The amount secured is not known. One man was hurt by the explosion. Sheriff McNeil of Humboldt County and a posse are in close pursuit, and it is believed the robbers will be captured, as they had only a few hours' start of the officers.

Fireman McDermott said: "A mile east of Humboldt we heard a noise on the back end of the tank, and looking up saw two men climbing over the coal. One had a rifle, which he pointed at me, and the other covered the engineer with a pistol. They kept us covered until we reached the gangway. One of them told the engineer to stop the engine. He did so, and the man told us to get off and go with them."

"I asked if I could put on the injector, so that the engine would not burn up, and I was told I could. They kept the guns on us while they waited. They bid us leave the engine and followed us to the express car. After firing a few shots in the ground they told us to knock on the door of the car and to tell the messenger who we were and not to shoot."

"We did, and the one with the pistol knocked on the door and called to the messenger to open the door. Instead of opening the door the messenger put out the lights. The robber then put a small stick of giant powder under the door and touched it off, saying, 'I guess that will fetch him.' The door was partly blown open. They called the messenger again. This time he came to the door, but they sent him back to light the lamp. He was then told to climb out of the car and be a good fellow. After the messenger came out of the car the robber climbed in and placed a large dynamite cartridge near the door of the safe, and after lighting the fuse, jumped out and we went ahead as far as the engine and waited for the explosion. The report was terrific. We could see the sides of the car burst out and the roof raise. After a few moments that a quarter of the sugar crop is already ruined.

LOOK AT MY WINDOWS for the next ten days for BARGAINS in MILLINERY. This space is too small to tell you one-half what I wish to. MRS. N. A. PEALER, 621-623 J Street, S.W.F.

TO-DAY, 9:30 A. M. Special Sale of DOMESTIC REMNANTS.

It's the middle of the cotton dress goods season now. The middle heralds the approach of the end, and the end must not find us with any of the dainty things on hand. It's not going to find us with full or large pieces. Business in cotton goods has been brisk here this year—we have done much to make the Sacramento girl daintier looking than ever—thousands of pieces of wash goods found eager purchasers. But the sale of those thousands of pieces has left us with a great accumulation of short lengths and remnants which, to be frank, we want to get rid of. We purpose to do so by making

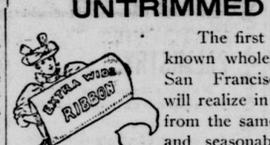

Price the Inducement now, when a great many uses can be found for them by thoughtful women.

At 9:30 a. m. Friday, we shall offer one to ten yard lengths of Fine Organdies, Duck Suitings, White Swiss, Crash Suitings, White Dimities, Madras Cloths, White Piques, Percals, Prints, Fancy White Goods, as well as muslins, linens, cambrics, flannels, silesias, crash—in fact, remnants of everything seasonable in the way of domestics. Those who take advantage of this opportunity will find many of them marked at just one-half and one-third the former selling prices.

Patriotic Neckwear, 25c. The surrender of Santiago has stimulated the demand for patriotic neckwear for men. The peaceful surrender unquestionably saved many American lives—little wonder that Americans are elated! It's the time to wear our colors! India silk neckwear, puffs, tecks, four-in-hands, band bows and string ties, in patriotic effects. Price, 25c.

TO-DAY, 9:30 A. M. Second Opportunity for Millinery Buyers!

RIBBONS, UNTRIMMED HATS, OSTRICH FEATHERS, ORNAMENTS, ETC.

The first Special Sale from the Seavey Stock of Fine Millinery (Seavey's well known wholesale and retail millinery place was located at 1462 Market street, San Francisco) attracted hundreds of purchasers—every one of those purchasers will realize in the fullest extent the importance of this second offering of fine goods from the same stock. Articles somewhat different in character, but just as dainty and seasonable, and values fully as great.

Seavey kept most of his goods in substantial stock boxes—his stock was, therefore, fresh and bright. We bought the stock for 33c on the dollar—little wonder that we are able to fairly astonish Sacramento people with such a combination of deserving goods and low prices as to be unusual even in our establishment!

Lot I.—Ribbons. The fortunate ones who secure the best values in these ribbons will fairly revel over their purchases, while all who buy will have reason to congratulate themselves that they attended the sale. Take, for instance, the novelty gauze sash ribbon (there's a fair quantity of it, by the way), 8 inches wide, at 15c yard—but that's only one of the offerings. The distinguishing feature in all is, perhaps, the excellence of the qualities—the patterns and colorings are pretty and seasonable, and the prices—let the following list speak for itself:

Item 1.—Ribbons, 10c and 25c Piece. All silk ribbons of satin and gros grain moire, plain taffeta and fancy plaid effects, in practically all desirable colorings, including black. None narrower than 1/2 inch wide—range from that to 1 1/2 inches in width. Priced by Seavey at 5c, 7c and 9c yard. Sold by us in pieces, some 7 yards and some 10 yards at Sale Prices, 10c and 25c piece.

Item 2.—Ribbons, 5c Yard. Wide assortment of beautiful ribbon in moire, taffetas, fancy Persian and plaid effects, ranging from 1 1/2 to 3 inches in width. Sold by Seavey as high as 25c yard. Our Sale Price, 5c yard.

Item 3.—Ribbons, 9c Yard. Fancy gauze, fancy changeable taffeta, double-faced satin, umber effects, shaded effects, and satin gros grain ribbons, measuring from 3 to 4 inches in width. Good value at 25c and 35c yard. Our Sale Price, 9c yard.

Item 4.—Ribbons, 15c Yard. We have sold ribbons at 15c before—not such ribbons as these; we may be able to sell such ribbons at 15c in the future if we again secure such a stock as the Seavey stock at 33c on the dollar—but that's an uncertain contingency. Fancy checks, Roman stripes, Dresden effects, moire taffetas, double-faced satin, changeable effects, small checks and bayadere novelties, in widths ranging from 3 1/2 to 8 inches, for hat and dress trimmings, sashes, etc. None of these sold for less than 25c yard, and some were priced as high as \$1. Our Sale Price, 15c yard.

Item 5.—Velvet Ribbons. Desirable colors and black velvet ribbons, in superb quality, satin back. One inch wide. Certainly worth 15c yard in the regular way. At this sale, 10-yard piece for 25c. Better grade, also in black and in colors, 1 1/2 inches wide; the kind that does not sell for less than 25c yard in the regular way. Our Sale Price, 5c Yard.

GOVERNMENT'S LAST RECOURSE.

SAGASTA FOR PEACE. Thinks Spain Could Whip Us, but We Can Starve Her Out. BERLIN, July 14.—The "Cologne Zeitung" denounces the story of the German warship Irene interfering at Subic Bay, Philippines, as a fabrication.

The "Tageblatt" Madrid correspondent says Sagasta has declared that he is now convinced that the Americans would be defeated by the land forces in Cuba and that the Americans knew this themselves, but since Spain no longer has a fleet, the Americans could starve the island without subjecting themselves to exposure to the Spanish bullets. Hence he has resolved to bring about peace as soon as possible.

The German Emperor has contributed 1,000 marks to the Red Cross fund.

ments we all went back, and while one of the men kept us covered, the other went in the car and placed what valuables he could find in a sack. After ransacking the treasure boxes he came out.

"The engineer, messenger and myself were told to join hands and walk ahead. After walking away from the train a short distance we were told to halt, and the robbers shook hands with us, and, saying 'Adios,' disappeared in the darkness. We went back to the train."

"One of the men was of medium height, with reddish hair and beard, and the other was shorter and very dark. They were both cool, and seemed to know what they were about."

Messenger Hughes did not know how much was in the safe. There was not much in the treasure boxes.

NERO IS NO MORE. Special Officer May Lose His Old and Constant Companion. If Special Officer Dick May looks dejected and melancholy to-day it can be easily accounted for. May has lost his erstwhile constant and faithful companion, Nero.

Nero was a dog—just a common, everyday sort of canine in appearance, but to his master he was worth his weight in gold. For fourteen long years Nero had trotted faithfully at the heels of the officer as he made his all-night rounds of J-street stores, in the cold winter and the parching nothings of summer. Wherever May went there also went Nero.

The end came last night, about midnight. While May was talking with a friend Nero lay down on the cool bitumen pavement on J street to rest. Nero was getting old. His bones were stiff, and he took advantage of such opportunities.

As he lay there dreaming perhaps of his days of puppyhood a man drove along at a rattling pace. The clatter of the horses' feet aroused Nero and he attempted to get out of the way, but was too late. The horse struck him with its feet and knocked him out. He could not respond to the call of time, and a few minutes later Nero was dead.

"No," said May, when a friend suggested that he would have to get another canine companion, "I'll get no other. Nero is gone, and no other dog could fill his place."

That is why May has retired that pleasant smile of his for the present. But it will return.
