

THREE-QUARTERS OF A MILLION.

The Cottage City Brings Down Miners.

The City of Seattle Will Bring Down Nearly the Same Amount.

Pern and City of Puebla Sailed Yesterday - General Merritt Left Honolulu on the 8th on His Way to Manila - Steamer Pennsylvania Will Probably Start From Here on Monday.

VICTORIA (B. C.), July 15.—The steamer Cottage City, which touched here to-night on her way to Seattle from Alaska, had on board twenty miners from Dawson City, with about \$750,000 in gold dust and drafts, mostly the latter. They came up the Yukon River in a steamer to White Horse Rapids, where they were transferred to a Lake Bennett steamer.

They say banking accommodations in Dawson are now so good that there is no necessity of men bringing out money in any other form than drafts.

Most of the gold will come out by way of St. Michael. Those believed to have the most money on board the Cottage City are the four Butler brothers of Ellsworth, Minn. The eldest went in three years ago, the other three last year. They have cleaned up a large amount on Bonanza Creek, 22 A, 68 B and 23 A. They sold claims to an English syndicate, represented by McFarland and H. M. Coleman, the latter of whom came down to-night. The price obtained cannot be learned, but Coleman is authority for the statement that it was a very large one. All the men on board were very reticent, saying the imposition of the royalties causes them to refuse to state the full amount of money brought out. Several of them have been working only on lays.

The only boats that have yet reached Dawson from down the river are the Hamilton, Wear, Bella, May West and the Victoria.

Among the Cottage City passengers are Phil Dobson of Los Angeles, Henry Cheney of Rochester, N. Y., and Miller and Vines of New York State. All have money variously estimated at from \$10,000 to \$50,000 each.

Gold strikes have been made on a new bench of El Dorado, Bonanza, French Creek and Skookum Gulch. They are reported enormously productive at high levels. Quartz claims prospecting so far yield poor prospects.

H. M. Coleman, who is a well known mining engineer, went in early this spring and purchased a number of claims for the English syndicate which he represents. He estimated that the yield this year will be at least \$100,000. With the exception of a few cases of scurvy, the health of Dawson is reported very good.

To-night's arrivals say that another party, who came out with them, are coming down on the steamer City of Seattle, which is due late to-night.

They are reported to have about as large an amount of gold and drafts as those on the Cottage City. It is estimated that the Canadian Government will collect royalty on about \$10,000,000 worth of gold this season.

GENERAL OTIS SAILS. City of Puebla and Peru Started for Manila Yesterday.

SAN FRANCISCO, July 15.—Shortly after 3 o'clock this afternoon Major General Otis, from his flagship, the City of Puebla, signaled the transport Peru to get under way. The signals were understood by the anxious watchers on shore and by those who had surrounded the two vessels in small boats and were received with great cheering.

As the two vessels got under way the cheering increased in volume and to the accompaniment of hundreds of steam whistles and the firing of bombs and cannon the two vessels proceeded slowly down the bay, past the water front and out toward the Pacific.

The vessels had some difficulty in making their way through the maze of small boats, which constantly interfered with their passage, until they attained such speed that nothing but the powerful tug boats, loaded with friends and relatives of the soldiers, could keep pace with them.

The soldiers on the transports crowded into the rigging and answered the cheering of the civilians with hearty good will, and responded to the dipping flags of the merchant vessels by waving their hats and handkerchiefs.

As the two vessels and the small fleet of accompanying tow boats passed the forts the big guns from the batteries forth with thunder in salute, to which the transports responded with their steam sirens.

Long before dusk the last good-bys had been said to the departing vessels from the decks of the tugs and the heavily laden transports proceeded on their way to Honolulu, where they will stop to participate in the annexation ceremonies and to take on fresh provisions and to refill their coal bunkers.

Major General Otis and staff have their headquarters on the City of Puebla, which also carried the remaining companies of the Fourteenth United States Infantry, recruits of the First and Second Battalions of the Eighteenth and Twenty-third Regiments, enlisted men of the First North Dakota, First Wyoming and First Idaho, medical officers and members of the Hospital Corps, a total of 843 men.

The transports going on the Peru consist of a squadron of the Fourth United States Cavalry, light batteries of the Sixth United States Artillery, a detachment of the Third United States Artillery, a detachment of the Signal Corps, under Captain Russell, a detachment of volunteers, medical officers and members of the Hospital Corps, about 520 men.

MUST SAIL SOON. General Otis Says the Remaining Transports Must Sail Soon.

SAN FRANCISCO, July 15.—The last orders of General Otis before leaving army headquarters to-day were that the remaining transports should sail as soon as possible, irrespective of fleets or other expected vessels. Each one, he said, should go by itself, if necessary. Surprisingly quick work has been done on the Pennsylvania and

City of Rio Janeiro. They are both nearly ready, and will probably be prepared to sail by next Thursday.

The loading of the commissary stores on these two vessels began to-day. Brigadier General Harrison Gray Otis has finally been selected to command the fifth expedition to Manila. His fleet will consist of the steamers Rio de Janeiro, St. Paul and Pennsylvania. The St. Paul is soon due from St. Michael, if there is no delay in her arrival, she can be made ready for Manila in a short time.

Among the other officers to go on this expedition will be Major Ruhlen, Chief Quartermaster, and Lieutenant Colonel Whipple, Chief Ordnance Officer. The remaining expeditions to the Philippines will be repetitions of those that have already gone. All the troop ships will be utilized as they return for the purpose of transporting the forces waiting here.

To-day was moving day at Camp Merritt. Colonel Barber of the First New York took his regiment to the Presidio and the remainder of the troops crossed the hills and camp on the reservation, having been informed that Richmond was unhealthy. The request was granted.

The War Department has instructed General Otis to relieve the First Utah Cavalry from the expected duty in the Philippines and to transfer the troop to the department of Major General Merriam. No reason is given for the change, and now the Utah troopers are among the disappointed glory seekers. They may be sent to the Yosemite to do guard duty there.

AT CAMP BARRETT. A Sacramento Promoted to Assistant Surgeon.

OAKLAND, July 15.—The first general flag at Camp Barrett will be raised to-morrow, all of the officers and men of the Eighth Regiment participating. If the large wells now being sunk for the camp do not improve its sanitary condition it will be moved a short distance east of its present location.

The appointment of Dr. Shields, Chief Surgeon of the Eighth, to be a Brigade Surgeon, promotes Dr. Frank W. Dudley to be Chief Surgeon and Dr. Charles D. McGettigan becomes Assistant Surgeon. Dr. John D. Yost becomes the senior Assistant Surgeon.

FIREBUG AT DUTCH FLAT. Catholic Church and Schoolhouse Burned by an Insane Man.

DUTCH FLAT STATION, July 15.—The Catholic Church at this place was burned last Tuesday night, and early this morning the public schoolhouse was destroyed. The dwellings of Mary J. Uron and Thomas Flairdon adjoining were also destroyed.

Both fires were the work of Charles Wedgewood, a young man whose parents reside here, and who was committed to the insane asylum at Napa about a year ago, but who was released on a furlough about a week ago. He confessed the crime. The schoolhouse was built at a cost of \$9,000, and was insured for \$3,000. The other buildings were not insured.

PILE DISCHARGED. Claimed He Had Been Dropped and Did Not Remember Shooting.

SAN FRANCISCO, July 15.—Oscar C. Pile of Company A, Sixth California Regiment, was up before Judge Morgan to-day on a charge of assault with

a deadly weapon. He fired a bullet through the hand of a water front bar tender on Monday night and was accused of trying to kill two policemen while under the influence of liquor. Major Grant of the Sixth Regiment testified that he had known Pile since he was a boy. Pile and his brother owned a big ranch on Roberts' Island, near Stockton, and the Major gave Pile a splendid character for peace and quiet, which was supplemented by Captain Dasher of Company A. Sheriff Cunningham of Stockton also sent a telegram to the Judge speaking highly of Pile's character. Pile claimed that he had been drugged and did not remember the shooting. Judge Morgan dismissed the case.

HONOLULU NEWS. General Merritt Has Sailed From There for Manila.

SAN FRANCISCO, July 15.—The steamer Gaelic from Hongkong, Yokohama and Honolulu brings the following news from Honolulu under date of July 8th: Murat Halstead, the famous politician, editor and historian, is in this city. He arrived by the transport Newport yesterday morning. Since leaving San Francisco Mr. Halstead has been suffering with a slow fever and soon reached Honolulu to be transferred to the Ohio and the Morgan City. At 9:30 the City of Para moved outside and joined the fleet. Just before noon the Valencia and Newport, the latter with General Merritt and staff on board, left the harbor, the signal to sail was given and the vessels moved off.

Before dark the Indiana, the flagship, returned, accompanied by a fleet of the fleet with the exception of the Newport, which went on ahead. The officers of the Indiana reported that the boilers had sprung a leak, necessitating the return. It will take twelve hours to make the repairs. The fleet will make another start to-morrow.

TO SAIL MONDAY. Steamer Pennsylvania Will Probably Start at That Time. SAN FRANCISCO, July 15.—The steamer Pennsylvania, carrying the First Montana and recruits of the First California Regiment, will probably sail on Monday. Colonel Frost, with two battalions of the South Dakota Volunteers, expects to get away on Tuesday on the Rio de Janeiro.

Lieutenant Colonel Lee Stover will follow some days later with the remaining Dakota battalion, sailing on the St. Paul.

The New York troops, which the Johnson-Loeke company has contracted to land in Honolulu between now and August 17th, will probably go on the steamers Centennial, Humboldt and Tillamook.

A LOST PROFESSOR. Wandering in the Mountains for Two Days and a Night.

LOS ANGELES, July 15.—Word reached this city to-day that C. W. Van Liew, who occupies the chair of pedagogy in the State Normal School here, is lost in the mountains near Bear Valley, in San Bernardino County. He went to the mountains a week ago with a party of gentlemen from this city and Pasadena. On Wednesday afternoon Mr. Van Liew got separated from the party. The party heard several shots in quick succession in the afternoon and replied to them, but could find no trace of Mr. Van Liew.

One of the party came to San Bernardino and secured a large searching party which is now in the mountains, but as yet the search has been unsuccessful.

Late to-night a message from San Bernardino said that Professor Van Liew had been found. He wandered around in the mountains for two days and a night and then struck the camp of Fred Heap, a prospector. Heap piloted him back to his friends in Bear Valley to-day.

NEW REVENUE LAW. Some Decisions Received by Revenue Collector Jackson.

SAN FRANCISCO, July 15.—A number of decisions regarding the new war revenue law have been received by Collector Jackson.

One decision is to the effect that stamping of outside cases in lieu of separate packages, bottles and boxes is not in conformity with the law. Stamps may be affixed to the packages before shipment from abroad and the new stamps will be sent to foreign countries for that purpose.

THE NON-PAREIL STORE.

Trimmed Millinery At Half.

The Millinery Section of our store seems to take on more beauty daily instead of retrograding at the practical end of the season, and when you think of and see the wonderfully low prices which are attached to this beauty array in women's and children's trimmed hats and know that 'tis nought but new fresh stock, not shop worn stuff, old lots, or bankrupt stock, your appreciation of both reduced price and individuality of style will be doubled.

For to-day's selling the trimmed hats for women will be represented in three lots, priced, respectively of former prices, at \$1.95, \$2.50 and \$3.50. The remaining reduction will be self-evident when you see the goods.

Also, for to-day's selling there will be three lots, and not small lots, either of children's trimmed hats, as attractive an array as you've seen this season, and at prices which are as attractive and irresistible as the hats—50c, \$1.10 and \$1.45 each.

REMAINING BODIES FOUND. An Immense Crowd Assembled to See Them Taken Out.

CLEVELAND, July 15.—The bodies of the ten remaining victims of the water works tunnel disaster were found by a rescuing party to-day. The bodies were blown back a few feet from the face of the drive by the explosion, and were slightly burned. The explosion had blown down a portion of the unbricked roof of the tunnel, the damage, however, being slight.

The bodies were brought to the shore end, about 6,000 feet from the tunnel head, in a hand car. The scene when they arrived at the surface, where an enormous crowd, among whom were many relatives and friends of the victims, was indescribable. The large force of police had all it could do to control the almost frantic people.

This, however, is erroneous; the correspondence in question relating to the old and troublesome issue, the exclusion decree of the German Government directed against United States hog productions, has been placed in the hands of Ambassador White to deal with, he being thoroughly familiar with all the aspects of the meat exclusion decree.
