

SCHOOL ESTIMATES SETTLED

THEY FIGURE UP THE SUM OF \$127,600.

Edward Hohfeld Elected a Temporary Teacher for the High School.

Director Elliott presided over the meeting of the City Board of Education last night, President Driver being absent.

The fixing of the estimate for the probable amount of money required for the support of the primary and grammar schools for the next year created considerable discussion.

Director Sherburn declared against any estimate which on its face seemed exorbitant. He referred to Superintendent Erlwine's estimate of \$1,500 for furniture, and called attention to the fact that during last year less than \$800 had been expended for furniture, and he did not believe in asking the taxpayers to raise \$1,500 when \$1,000 would answer the purpose.

Sherburn is Chairman of the Committee on Furniture, and his motion to reduce the Superintendent's estimate from \$1,500 to \$1,000 was carried. He was not through yet, however, and followed up his advantage by moving for a reduction from \$8,000 to \$5,000 in the estimate for repairs.

But at that point the board drew the line, and acting on the theory that the Superintendent, from the position he occupied, was able to judge of the needs of the schools, adopted the estimate submitted by him, Sherburn voting no.

The committee which will be forwarded to the Board of Supervisors, together with the estimate of funds required, is as follows:

Table with 2 columns: Item, Amount. Includes Salaries of teachers and Superintendent (\$90,400), Salaries of janitors (\$7,500), Repairs, including new water closets (\$6,000), Furniture (\$1,000), Fuel (\$2,200), Rent (\$700), Printing (\$400), Gas and electricity (\$500), Water filters and filtering (\$1,500), Stationery (\$2,800), Miscellaneous (\$1,000).

Total \$114,000. Probable receipts from State and county \$62,000. Amount required by special levy, \$52,000.

The estimate for the support of the High School was fixed at \$13,000. Edward Hohfeld of San Francisco was elected to fill the position as teacher in the High School made vacant by the temporary absence of Miss Tyn-dall.

The lady had been granted a year's leave. Mr. Hohfeld is a graduate of the State University and comes highly recommended.

Miss Laura Cooper was elected teacher for the kind garden school at Fourth and Q streets.

An offer of \$1,250 having been received for the east half of lot 2, Ninth and Tenth streets, O and P, it was decided to request permission of the Board of Trustees to sell the same. Director Sherburn voted no.

It was decided to advertise for bids for enlarging one of the class-rooms at the Harkness Grammar School at Tenth and P streets.

INDUSTRIAL LEAGUE.

Working in the Interest of the Coming State Fair.

The call for a meeting of the Home Industry and Business League at Federation Hall, 1013 Tenth street, brought out a light attendance last night. President Louis Breuner stated that it was called for the purpose of inducing manufacturers of the city to make exhibits at the coming State Fair.

Captain H. L. Seymour of the Exhibition Committee reported that he had attended a meeting of the Directors of the Chamber of Commerce on Monday last, when the question of inducing manufacturers to exhibit at the State Fair was discussed.

Secretary of the State Board of Agriculture, was present and promised to set sufficient space apart for Sacramento City and County manufacturing displays.

Captain Seymour explained that the Chamber of Commerce had appointed a committee to act in conjunction with a committee to be appointed by the Industrial League, to personally call upon the manufacturers in the city and county and attempt to induce them to make exhibits of their products.

President Breuner said he did not doubt that the manufacturers of the city could make an excellent display if they would try.

J. O. Coleman, Secretary of the Chamber of Commerce, stated that the joint committee would make a complete canvass of all the manufacturers in the city, taking along a plat of the west wing of the Pavilion, so that each exhibitor might decide on the amount of space he would require. He read a list of manufacturers in the city, so far as he had been able to locate them.

As a committee to co-operate with that of the Chamber of Commerce, President Breuner appointed George Ogg and Harry Rogers.

A meeting of the League will be held next Thursday night at which the committee will report.

Goey Hopped Back to Jail. The habeas corpus case of Goey Hop was heard by Judge Hart yesterday.

IMPRISONED FOR INFRINGING UPON

Apollinaris

"THE QUEEN OF TABLE WATERS."

A Philadelphia party who imposed upon the public by refilling Apollinaris bottles bearing the genuine labels, and also used counterfeits of the Apollinaris labels, was recently lodged in Moyamensing Prison, Philadelphia.

Complaints will receive vigorous attention if addressed to United Agency Company, 503 Fifth Avenue, New York.

Sole Agents of THE APOLLINARIS CO., LTD., LONDON.

and Hop was remanded to the custody of the Sheriff. Mr. Hop was committed by Justice Henry for contempt of court.

JOE AND DELIA.

Herman Weidit's Alleged Assaultants in Jail.

Joe Durick and Delia Hughes, who are held for the murderous assault on Herman Weidit on Sherman Island the other day, were brought to the County Jail last night by Deputy Sheriff Al. Johnson of Isleton.

Weidit, the wounded man, was taken to Antioch, Contra Costa County, and if he should die there the prisoners will be tried in that county.

Lawn Party.

The lawn party given last evening in Mrs. Merwin's grounds at Twentieth and H streets by the young people of the First Baptist Church, was a very enjoyable affair. An excellent program of exercises was carried out.

Fruit Shipments.

Forty-five cars of fruit were sent East yesterday—peaches 11 1/2, plums 7 1/2, pears 2 1/2, grapes 1/2. Fifty-three cars were sent out on the same date last year.

New Citizens.

Hagan O. Wit of Norway and Adolph Stahl and Ernest Schopf of Germany were yesterday admitted to citizenship.

AGNEW'S ASYLUM.

Mrs. Madigan and Tourtillet Accused of Wrong Doing.

SAN JOSE, July 28.—The State Lunacy Commission was in session at Agnews to-day, but Governor Budd was not present. The proceedings are still in executive session, and care is observed that nothing from the room of the commission is divulged.

Trustee Gould of the local board was the first witness called. He was on the stand when the commission adjourned till Tuesday. It is understood that the examination of Gould, in some particulars at least, refers to the charges which have been made against him that he was making places in the asylum for his political friends.

At 12:45 to-day the commission was still in session and Gould still before them, recess for lunch not yet having been taken. It was rumored about the corridors of the asylum that Hale would go before the commission, and that he was "loaded" for large game. The insinuation made is that Hale is looking ahead to political preferment in his party, and that he resents the accusation of being in the ring which is alleged to be running the asylum in its personal interest so far as appointments and places are concerned.

Hale's political opponents say the accusation against him is true, and that Gould, Curnow and Hale make up the inside ring, with possibly White's aid at times.

While the commission is going on with its investigations the local board conducts its side show, so to speak. Two or three witnesses were examined this morning along the same lines as those formerly followed. Nothing of a particularly new or interesting nature was developed. Chiefly the charges against T. T. Tourtillet and Mrs. Madigan were the subject.

Shortly after the noon hour the local board announced the case for the time closed, subject to be opened if deemed necessary. It was also announced that a decision might be made some time later this afternoon.

In the investigation at Agnews State Hospital, which has just ended, Mrs. Madigan and Tourtillet were declared not guilty by a unanimous vote of the investigation committee.

PACIFIC CABLE.

The United States Will Soon Be Connected With Hawaii.

SAN FRANCISCO, July 28.—The "Evening Post" in an article published to-day, says that the United States will soon be connected by cable with her newly acquired Pacific possessions, and that the cable will connect the United States from this city with Hawaii, the Ladrones, the Philippines and Hongkong.

The paper says that most of the surveys have been made, and that the contract for the laying of the cable has already been let, and that, according to the terms of the contract, the work must be completed within six months. The price to be paid is stated to be \$10,000,000.

On July 21 the Executive Council of the Hawaiian Government signed a contract granting the right of the Pacific Cable Company to lay a cable between the United States, Hawaii, China, Japan and the Pacific Islands, the contract being for a period of twenty years.

The Pacific Cable Company, according to the "Post," is capitalized for \$100,000,000. James A. Samyser is President and Edmund L. Baylies is Vice President. The other directors are Admiral John W. Phipps, General S. W. Benson, J. P. Kennedy, Ted General Swain of New York is the legal representative of the company in this country.

The company has been operating very quietly with the co-operation of the Government and the Hawaiian Government, pending the outcome of the annexation proceedings. During the last session of Congress Representative Bennett introduced a bill looking toward the laying of the cable, and the preliminary work has been going on ever since.

Lower Court Reversed.

SAN FRANCISCO, July 28.—The State Supreme Court this afternoon, in the appeal cases of James Creagan and Charles Becker, reversed the decision of the lower court and granted the defendants a new trial. Creagan and Becker are the men who raised a check on the Bank of Woodland and obtained \$20,000 in this city. They were convicted of forgery and sentenced to a long term of imprisonment.

STRUCK IT AT COOK'S INLET.

THE FIRST GOLD FOUND ON SAWMILL CREEK.

Ralph Murphy and Party Create a Sensation at Suisun City, Alaska.

The "Record-Union" has published several letters written by Ralph Murphy from the Cook's Inlet country, in Alaska, to his parents, who live near Brighton in this county. All of his letters up to this time have told of perilous trips over mountains of snow and ice in search of gold, and of the ill fortune of all who had gone to that part of Alaska to look for the precious metal.

But at last a letter has been received which brings good news. His party has struck a ledge of decomposed quartz on Sawmill Creek, near Sunrise City, from which they took out \$42.40 the first day, and it grows richer as their tunnel progresses—the first gold that has been found in that vicinity. Mr. Murphy writes:

Sawmill Creek, July 17th. We are all six of us working in our ledge. The quartz is very good. A vein of decomposed quartz, averaging from four inches in width, runs into the mountain—but how far? that is the question.

We have sawed out timber for our sluice-boxes and had one day's sluicing. We could not save near all the gold, as it was fine and rusty. Some was attached to the quartz and washed out with the tailings. Our clean-up for the day was two ounces and thirteen pennyweights, equal to about \$42.40. It was first gold dust.

There was a small stream of water running down the mountain. It was boiling hot, so the quartz was broken up and turned out of its course, causing a landslide, having washed the gravel away and undermining some of the trees, causing them to slide down into the creek.

June 18th.—I got four letters and package of papers, one enclosed was a small flask. We hoisted the Stars and Stripes over our tent and fired a salute from our six-shooters.

It was a happy camp, as we all got lots of mail. Altogether, this has been an eventful day for the party. Some samples of ore the boys took to Sunrise created quite a panic and caused a rush to this creek.

June 19th.—A hot time on this creek to-day. Lots of men are coming to prospect and see our quartz mine, this being the first gold found in this district.

We are getting some quartz ready to send to San Francisco to be assayed, but we cannot hear from it before August—too late to do anything this year, as navigation closes in September.

June 25th.—We were working in the tunnel to-day drilling and blasting. We strike with a seven-pound sledge-hammer. We are making a tunnel through solid slate and porphyry rock. We blast with black powder, as we cannot get giant powder in this country.

We talk of working three shifts of eight hours each, two working at a time, so we can get the mine opened quicker. We found fine prospects of quartz to-day, rock from the pay streak showing gold on the inside of rocks as large as grains of rice.

We all hope this will prove as good where we prospect it and if so we will sink a shaft and follow it into the mountain, which will give us a good winter's work.

One of our men is thinking of going home this fall and we may send some ore to San Francisco to be assayed.

June 30th.—Cloudy and rainy. We worked in the tunnel to-day; fired more blasts and are now in fourteen feet. The wind has been blowing so hard no one dare go to Sunrise City for the past ten days.

Three men were drowned while crossing the "Arm." Others had a narrow escape and were so badly frightened that they sold their outfits and started for home.

There have been about 1,500 people here this season, and not more than 100 have ever tried to mine.

It is raining this evening. We have no pouring rain here—it is too cold. I have some lettuce growing in a box. The mosquitoes are so thick we have no peace on while it is raining. We have to wear fine cheesecloth over our faces night and day. They have large appetites, and come after us like hornets.

I have heard nothing but the roaring of water since March 20th. The creek has such a steep grade that the water just boils along. You have to be close to a person and call at the top of your voice to make him hear you.

There are a good many bears here. They are very affectionate and will hug you if you give them a chance. Four soldiers on Twenty-Mile River killed one. He came after them until he had been shot eighteen times. The nineteenth bullet killed him.

People are leaving here on every boat. July 3d.—We are all going to Sunrise City to celebrate the Fourth. We hear they are going to have quite a celebration there.

It is now 10 p. m. and I must close and crawl into my sleeping-bag, although the sun is shining as bright as day. We have only twenty minutes' night now. RALPH L. MURPHY.

SHIPPERS WIN.

Judgment Rendered Against the U. S. Express Company. CHICAGO, July 28.—Judge Tuley of the Circuit Court to-day ruled in favor of the shippers in the test case brought by the Illinois Manufacturers' Association, granting a writ of mandamus compelling the United States Express Company to accept for transportation packages for shipment without the payment of 1 cent in excess of the regular rate. The case will be appealed by the defendants.

The court held that it was not within the domain of the shipper to use the bill and that the law expressly provides that the person issuing the receipt shall affix the stamp.

Three million dollars annually is the estimated sum which the express companies will have to pay in case the opinion is sustained by higher courts.

LOS ANGELES, July 28.—The Attorney General to-day instructed the District Attorney in the matter of prosecution of the express company for refusing to stamp or accept unstamped packages. He says:

"It is not a question of the Revenue Act for a carrier to refuse to accept merchandise for shipment. The penalty accrues if goods are accepted for shipment and the carrier fails to issue a bill of lading or manifest. It is criminal if the carrier issues a bill of lading or manifest without the stamp. Prosecution should not begin unless the laws of the United States are violated."

San Pedro Harbor.

WASHINGTON, July 28.—General Wilson, Chief of Engineers, has received a telegram from Representative Mann of Illinois in behalf of Helmdeier & Neun of Chicago, to whom was awarded the contract for the construction of the breakwater at San Pedro harbor, California, expressing great indignation at the report that the firm had abandoned the contract. He says that, on the contrary, the firm is anxious to go ahead with work as soon as possible.

ELMIRA (N. Y.), July 28.—The powder mill of E. T. Johnson at Troy, Pa., was blown up to-day, and the owner, who was also paying taker in the Pomeroy and Mitchell Bank, was killed.

NEWPORT NEWS, July 28.—The transports St. Louis and Massachusetts, with troops under command of General Brooke, started for Porto Rico at 2:30 p. m.

WASHINGTON, July 28.—To-day's statement of the condition of the Treasury shows: Available cash balance, \$202,753,063; gold reserve, \$189,474,530.

WASHINGTON, July 28.—The President to-day appointed Frederick W. Baumhoff Postmaster at St. Louis.

WASHINGTON, July 28.—The expedition against Manila was fitted out and started from Madras, India. There were nine ships of the line and frigates, several troop ships and a land force of 2,300 men, including one English regiment, with Sepoys and marines.

On September 24, 1762, these forces were disembarked just south of Manila. The Archbishop of Manila, who was also Governor General of the islands, collected and armed some 10,000 natives as a reinforcement to the Spanish garrison of 800. During the progress of the siege some daring attempts were made by the British to prevent the further construction of defenses, but the assaults were repulsed with great slaughter.

A desperate sally was made by a strong body of natives, who "ran furiously on the ranks of the besiegers and fought with almost incredible ferocity, and many of them died, like wild beasts, gnawing with their teeth the bayonets by which they were transfixed."

On October 6th a breach was effected in the Spanish works, the English carried the city by storm, and gave it up for several hours to the ravages of a merciless soldiery. The Archbishop and his officers had retired to the citadel, but this could not be defended, and the Spaniards were again upon, by which the city and port of Manila, with several ships and the military stores, were surrendered, while for their private property the Spanish agreed to pay as a ransom \$2,000,000 in coin and the same in bills on the treasury at Madrid. This last obligation was never paid.

A day or two after the capture came news of a rich prize for Admiral Cornish. He had started eastward with a frigate, and a ship of the line to intercept a treasure ship. This he did, but fell in with and captured a Spanish schooner bound from Manila to Acapulco, Mexico, with a cargo valued at \$3,000,000.—Boston Transcript.

Dante's Luck. The shade of old Dante was heard to remark: "The lucky I wrote years ago that tale of my trip through the regions of the dead."

Where the wicked are cast into woe. "Italian was all well enough for that day. But now all my chances would vanish if I sold the book if I let a spook say 'A syllable other than Spanish.'"

REPLY TO SPAIN.

It May be Given To-Day or Tomorrow.

WASHINGTON, July 28.—Secretary of State Day was closeted with the President for less than a half hour this afternoon over the response to Spain's note suing for peace. When he left the White House, Mr. Day announced that the reply would be given to Spain on Friday or Saturday. Meantime its tenor, so far as the Administration is able to do, is to be carefully guarded from the people. The President up to that time had no consultations with other members of the Cabinet with regard to the communication to be presented to Spain.

It has been noticeable that since the conference with members of the Cabinet following M. Cambon's presentation of Spain's preliminary note, there have been few important conferences at the White House. Several members of the Cabinet meantime have called individually, but none has been by pre-arrangement. This is taken to indicate that the response of the Administration already is clearly outlined, and is only awaiting the final consensus of opinion at to-morrow's Cabinet session. Many persons who called on the President to-day on political matters made inquiries on the present situation arising from the outbreak of hostilities.

Several, however, who have talked with the President and Secretary Day, say the Administration is prepared to meet any steps the Spanish Government may take.

"Our terms will be such as to meet the approval of the entire world," one of the Cabinet members is quoted as saying, but further than that he would not go.

Nothing will go so far toward a clean, healthful bedroom as a white enameled bedstead. But there's a great difference between enameled iron and painted iron.

The white on this bed shown above is baked on, not painted, and it positively will not crack or peel off.

The entire top of the foot and head pieces of this bed are lacquered brass and are guaranteed not to tarnish. The foot piece is prettily curved and the whole bed is strongly put together.

Price nine dollars.
