

AN OUTSIDER WON THE FUTURITY.

Martimas, at Forty to One, Captures the Rich Prize.

Which Was Contested for at Sheepshead Bay Yesterday.

Autumn, the Public's Favorite, Left in the Ruck—Fifteen Thousand People Witness the Race—Winners at Windsor, Saratoga and on Other Tracks.

NEW YORK, Aug. 23.—Fifteen thousand people saw Martimas, at the long odds of 40 to 1, win the great Futurity stakes at Sheepshead Bay today. High Degree coming in second, while the public's choice was nowhere. The day was excessively hot. The delay at the post was long, owing to the starter's failure to start the race. The horses, however, were well behaved, and so he proceeded to administer lines ad libitum, and set down for a week out of the locker's including Sloan.

At the opening of the betting Autumn was a favorite over the Fleischmanns stables' Dr. Elchberg and Sir Hubert, and at the end was really the favorite, though his price was little higher, but then it was one horse against two. The Madden string, Genheim, Rheinlander and Scannel, were next in vortism, and the down in the ring, where it was like a furnace, the men tumbled over each other in their eagerness to put up their money on their choice.

EIGHT MEN KILLED.

Result of the Cave-in in a Tunnel on the Panhandle Road. PITTSBURG, Aug. 23.—Eight men were killed (possibly ten) and five more injured, two fatally, at the Carnegie tunnel on the Chartiers Division of the Panhandle Railroad last night. The accident was due to the wall of the tunnel caving in on a number of workmen.

A gang of sixty-eight men employed by Casper, a contractor from Columbus, O., were engaged in tearing out the tunnel just west of the town of Carnegie. The work is being done entirely at night, in order not to interfere with traffic during the day. It progressed for about a month without accident, and was nearing completion. Last night the men had fixed a rope to pull down the west wall of the tunnel, and were preparing to drill holes for blasting. Suddenly the wall fell over on them. Every man standing at the end of the big excavation was injured, and the other workmen at once began the work of rescue.

Felix Mills was the first taken out. He died three hours later. An unknown colored man was next rescued. A special train brought him to the West Pennsylvania Hospital, but it is not thought he will live. Seven men were taken out dead.

Most of the men employed on the work are Italians. They go by numbers instead of names, and nothing is known of their family relations. Their fellow-workmen were too busy this morning seeking for more dead to identify any of the bodies.

Two of the injured are George Waid, colored, and George Slack. The hospital physician says Waid's spine is fractured and he cannot recover. The tunnel is now securely cleared of the debris, and no other dead or injured were found.

TROOPS AT PORTO RICO.

Sickness Among the American Forces on the Increase. PONCE, Aug. 23.—(Noon.)—Illness among the American troops is on the increase, and there are now nearly a thousand cases of malaria and dysentery, with a few of typhoid fever. There is absolutely no recuperation properties in the climate, and Surgeon General Greenleaf has urgently recommended that the sick be sent north as rapidly as possible.

It is reported that there is yellow fever at San Juan, but Surgeon General Greenleaf's advice do not confirm the rumor. Last night the heavens seemed ablaze to the eastward, and the fire alarm was given out. A detachment of the signal corps went as far as Santa Isabel, but found all quiet there. The fire was not located.

The yacht May, carrying Mr. Rensselaer's party and Lieutenant Colonel John W. Clous, who has been designated as Secretary and recorder of the commission on the government of Cuba, sailed for Havana to-day.
