

NATIVE SONS AT SAN JOSE.

Celebration of Admission Day a Great Success.

Thousands of People Took Part in the Anniversary Parade.

La Estrella Parlor Native Daughters One of the Distinctively Attractive Features of the Procession—Stockton Native Sons Make a Fine Display—Plenty of Music and Other Entertainments.

SAN JOSE, Sept. 9.—The followers of the bear flag, an invincible host, captured San Jose to-day. Like the Porto Ricans, the citizens here received them with open arms.

As a result of the delay in the crowd getting here, the parade was late starting. It had a fine start at 10:30, but it would start at 10:30. There were thousands in line, and although moving rapidly, it required an hour to pass a given point.

A squad of police, composed of officers from San Jose and San Francisco, led the way, being headed by a wagon from which daylight fireworks were exploded. Following the police came the grand officers of the Native Sons in carriages. Then came Grand Marshal Gaston, his aides and the various organizations of Native Sons and Daughters.

The streets were lined with thousands of spectators, but the crowds were handled admirably, so that there was no delay or hitch anywhere after the start was made. The formation of the various parades and divisions was on the eastern side of the city, and the march was to Santa Clara on Second, to San Antonio, to First, to Santa Clara, to Saint Teresa, counter-march to First, to Hobson, counter-march to St. John, to Market, to Santa Clara, where the parade was dismissed.

California Parlor, No. 1, of San Francisco had the right of way among the parades, and made a fine appearance. This is the veteran parlor, of course. Buena Vista Parlor, Native Daughters attracted much attention in their blue uniforms. There were a great number of parlor in the parade, and the crowds in the streets gave all generous applause.

Undoubtedly La Estrella Parlor, Native Daughters, of San Francisco had the first place in the hearts of the spectators in point of beautiful costume. This was a costume of pure white duck, white shirt waist and white cap, with the figure of a white dove on the cap. This was one of the distinctively attractive displays in the line. Over and above all this the young ladies were remarkably pretty, and a wave of applause broke out whenever they came in sight.

Stockton made a fine display with a float on which was a big bear in white. Beside the animal were the tools of the early placer miner, consisting of pan, shovel and pick. San Rafael, Sacramento, Redwood City, Alameda, Oakland, Fresno, Salinas, in fact, all places had some distinctive feature and attraction.

There were bands galore, including the Twentieth Kansas Regiment band and the Fifty-first Iowa. The latter caught the crowd.

Among the local parlors Palo Alto had the most attractive suits. This was of pure white flannel, with white fur hats. Each member wore a big yellow badge. All the San Jose parlors had a great number in line. The Grand Officers of the Native Daughters occupied carriages and attracted much attention. Some big carriages, drawn by four horses each, carried the Santa Clara Valley Pioneer Society members and visiting Pioneer.

This afternoon Stanford Parlor gave a military band concert at Hotel Vendome. To-night there was a grand ball at the Pavilion. Bands paraded the streets all afternoon, playing lively airs, and great crowds of Native Sons properly celebrated.

In the parade in many parlors the Native Daughters marched with their brothers, and this had an excellent influence, for the decorum could not have been better.

Native Sons and Daughters alike, as well as all Californians, have occasion to feel proud of the success of this morning received the following cablegram from Manila: "Manila, Sept. 9.—Native Sons, San Jose, California: Brothers celebrating in Manila send greetings."

Not the slightest accident has so far occurred in any way. After the parade literary exercises were held from a stand erected in front of the Court-house. B. A. Herrington made the address of welcome, and Grand President Conley responded, with an oration by Grand Orator F. T. Coombs.

After the literary exercises receptions were held at the headquarters of the various parlors, where choice refreshments were dispensed, music furnished and dancing indulged in. The most elaborate program was offered at the Vendome, where Stanford Parlor held a reception, a musical program on the lawn being one of the main features.

The racing at Cylers Park in the afternoon drew an immense crowd, over 6000 persons being present. Interest centered in the Derby event, in which Walter J. Davidson of the Bay City Wheelmen won in the fast time of 2:11, and the match race, best two in three, between Bunt Smith and J. E. Wing, Smith won in two straight heats, time 1:50 and 2:04. Following is the summary: Two-thirds mile open—G. P. Fuller, O. C. W., won; W. J. Davidson, B. C. W., second; C. V. Smith, G. C. W., third. Time—1:27 1/2.

The baseball game between the San Jose and Oakland teams was the first event, and was won by Oakland by a score of 2 to 1. The playing was fine. Pyne, the new shortstop for San Jose, did excellent work, but the Oaklanders were the better batters and so came out ahead. Score: Oakland 2, hits 6, errors 1; San Jose 1, hits 5, errors 5. Batteries—Russell and Sullivan; Thomas and Kent.

OREGON VOLUNTEERS. Are Well Taken Care of in the Camp at San Francisco.

SAN FRANCISCO, Sept. 9.—Governor Lord of Oregon again visited the recruits from his State to-day. After talking with the men he became convinced that they were in good condition. He then made a short speech, saying he was pleased to have found them so well taken care of. He promised to use all the influence in his power to get the men off to Manila to join their regiment, or to Honolulu, at an early date.

The Governor then sent a telegram to Portland, stating that after a thorough investigation he had found out that the exaggerated reports of the men being sick and neglected were not borne out by the facts.

In the afternoon General Miller and his staff called on the Governor, who will be the guest of the General tomorrow.

All On Board Were Lost. SAN FRANCISCO, Sept. 9.—The steamer Coptic, which arrived from the coast to-day, brings the news from Hongkong that the American steamer Wing Foo, Captain Sherman, is supposed to have gone down with all hands. During the war United States Consul General Wildman chartered the Wing Foo to carry dispatches to Admiral Dewey at Manila. The little vessel was with several mishaps, and was obliged to return to port. Since her last departure for Manila she has not been heard from.

He started at noon, striking out toward the ocean at first, and then making an inward turn, so as to take advantage of the incoming tide, he headed for Lime Point, which he reached in just 48 minutes from the starting place.

The People's Party. SAN FRANCISCO, Sept. 9.—Secretary of State Brown will be asked tomorrow to decide which of the two wings of the People's party is entitled to the party designation on the official ballots. A Robber Captured. STOCKTON, Sept. 9.—A chase of four blocks resulted in the arrest of Frank Carr this evening for robbery. He had stepped into a jewelry store on Sutter street, when the proprietor, H. Brown, was not looking, and gathered upon himself eight or nine watches. When Carr was captured he threw the watches away. He says he is from Sacramento.

One Man Killed, Another Injured. SOUTH SAN FRANCISCO, Sept. 9.—While Superintendent Washburne and an employee, James Hand, were at work putting down a hole in Warren & Malley's rock quarry about 5 p. m. yesterday a mass of rock fell fifty feet, striking and instantly killing Hand, in jumping to escape, being crushed, Superintendent Washburne had both legs broken.

Had a Big Time at Placerville. PLACERVILLE, Sept. 9.—The Admission Day celebration here was a notable event as it also commemorated the fifth anniversary of the discovery of gold in El Dorado County. The procession was one of the longest ever seen in this section. District Attorney Carpenter was President of the Day, and Judge R. C. Rust of Amador delivered the oration.

Occidental Colony Company. CARSON (Nev.), Sept. 9.—The property of the Occidental Colony company situated near Wellington has been sold under an execution issued in favor of the Bullion and Exchange Bank. The colonists, who were all Jews, will probably be maintained by the Jewish Benevolent Association of San Francisco until they become self-supporting.

THE "TERRITORY OF HAWAII."

Name Which the Commission Has Decided Upon

For Our New Acquisitions in the Sandwich Islands.

The Form of Government to be Modeled on That of Existing Territories—The Commission Trying to Shape Its Work So as to be Able to Conclude Its Labors by the Twentieth Instant.

SAN FRANCISCO, Sept. 9.—The steamer Coptic, from Yokohama, Hongkong and Honolulu, brings the following to the Associated Press from Honolulu under date of September 3d: "It will be the 'Territory of Hawaii.' That is the name which the annexation commission has decided to recommend to Congress. Thus will be preserved in the political nomenclature of the United States the distinctive origin of this part of the United States.

The form of the government will be modeled on that of existing Territories. There will be no more further departures from this form than local conditions and national political considerations make necessary. Local self-government will be given through the extension of the municipal idea. The islands will be divided into municipal districts, having come under restrictions and limited local affairs.

Honolulu, for instance, will be a municipal district, embracing the whole of the island of Oahu. Hawaii will be divided into districts, and Molokai, Lanai and Nihoa will be attached to some other municipal district.

It is pretty clear from what has been said by members of the commission from time to time that in framing a form of government for these islands they have also been charged by the Administration at Washington with forming a model which can be adapted to Porto Rico and other new possessions the war has brought the United States.

The commission is trying to so shape its work as to be able to conclude its labors September 20th. The Commissioners visited Pearl Harbor on the 1st. Miller, who is thoroughly informed as to Pearl Harbor from a naval point of view, pointed out the advantages which originally induced the United States to secure concessions there for a naval station. Professor Alexander, who is thoroughly conversant with the point of view of a geodetic survey, pointed out the geological structure and the improvements that will be needed to make it the ideal naval rendezvous.

The Pacific cable may not go around Honolulu. A shorter route by way of Alaska has been figured on. Owing to the delay in the approval of the franchise, the company threatens to drop the Hawaiian Islands from its calculations, and lay the cable by way of Alaska. It is said that a cable can be laid to touch at Australia, the Philippines and terminating at China for \$5,000,000; whereas if the cable touches at Honolulu an additional expense of \$7,000,000 will be incurred. Nothing has been decided one way or the other, but an effort is being made to have the franchise approved by Secretary Day without further delay.

The Hawaiian Government has objected to the signified intention of the American company to drop the quarters vacated by the Hawaiian military, on the ground that the buildings are of civil character. The matter is being discussed, and will doubtless be settled satisfactorily to both parties.

Y. Uehida, the Japanese Consul of Honolulu, arrived on the Coptic last night. He is accredited as Minister pro tem. to the Republic of Hawaii, although the arrangements have been made for the proper acknowledgment of his credentials at Washington.

The transport Scandia arrived from San Francisco this morning. Newlands Nominated for Nevada Politics.

gress by Silver Republicans. RENO, Sept. 9.—The Silver Party Convention assembled at 10 o'clock this morning. The Committee on Platform and Resolutions made their report.

The platform indorses the platform of the National Silver party at St. Louis in 1896 and the financial plank of the National Democratic party at Chicago in 1896. It reaffirms devotion to free and unlimited coinage of silver at the ratio of 16 to 1 by independent action of the United States. Unalterably opposes Republican policy of increasing the bonded debt and the issuing of money in banking institutions. It asserts faith in the loyalty, ability and wise leadership of William J. Bryan and predicts his nomination as the standard bearer in 1900. It favors the holding of Cuba, Porto Rico and the Philippines until the American people have time to consider the best policy in regard to their final disposition. It favors the construction of the Nicaragua Canal. It favors the foreclosure of the mortgage on the Central Pacific Railroad, unless the principal and interest are paid within one year.

After the adoption of the platform the convention adjourned to await the report of the Finance Committee, which was in consultation with a similar committee from the Democratic convention on fusion.

On reconvening, Francis G. Newlands was nominated for Congress and B. Sadler for Governor.

On being placed a nomination for Congress, Mr. Newlands, in his speech before the convention, said that the conditions of the last campaign still existed, though somewhat ameliorated by the bounteous crop of last year, when famine prevailed elsewhere; that these issues, though temporarily obscured by the activity created by war, would be accentuated in 1900; that a tariff question would not divide the friends of silver.

As to the Senatorship, Mr. Newlands said that he was indisposed to contest the seat of Senator Stewart; that he had uniformly advocated harmony among the silver forces, and that he could not consistently inaugurate a contest in Nevada, which would divide the friends of silver and imperil the silver

organization which had been so completely formed. The first ticket nominated by the Silver Republicans follows: Congressman, Francis G. Newlands; Governor, Renhold Sadler; Lieutenant Governor, James R. Judge; Secretary of State, Eugene Howell; State Treasurer, D. M. Ryan; State Controller, Sam F. Davis; Attorney General, W. D. Jones; Supreme Court Judge, C. H. Belknap; State Printer, Andrew Maute; Surveyor General, E. D. Kelly; State Superintendent of Public Instruction, H. C. Cutting; Regent of State University, long term, W. E. Deal; short term, H. C. Starritt.

The Democratic State Convention nominated officers as follows: Governor, George Russell; Lieutenant Governor, C. M. Grimes; Secretary of State, John Webster; State Treasurer, W. Q. Thomson; State Controller, G. M. Humphreys; Surveyor General, T. K. Stewart; State Printer, James Morris; Regent of University, F. H. Triplett, long term; G. H. Halst, short term.

The Democratic Committee on fusion reported that the Silver party would concede to the Democrats the nominations for Lieutenant Governor, Regent of the University and Superintendent of Public Instruction. None of the conventions seemed willing to accept less than half the ticket, and after some vigorous speeches a motion was made that the Silver party's proposition to fuse be rejected, and the delegates almost unanimously voted to delegates all rising to their feet and cheering lustily.

Shattuck, founder of the town of Berkeley and President of the Commercial Bank and the Berkeley Bank of Savings, died this morning from the results of injuries received nine days ago. He was alighting from a street car when in a sudden and unaccountable manner he collapsed with a passer-by, receiving severe internal injuries. Mr. Shattuck was born in New York in 1825, and came to California in 1850. He followed mining for a time, but later branched out as a farmer, taking up 640 acres of land. expunge from the report the sentence "This iniquitous rule is maintained up to this hour and we submit it is not such treatment as we had a right to expect from Comrade William McKinley."

Corporal Tanner immediately got the floor and stated that his high regard for President McKinley was not exceeded by any member of the encampment, and that in preparation of the report it had been far from his purpose to cast any imputation upon the President, who he begged permission to have unanimous consent of the encampment to add to the sentence which it was sought to have expunged, "and we are confident that when he is once relieved from the mighty matters of national and world-wide importance which command his attention, he will see that justice is done."

The encampment unanimously gave permission to make this addition to the report, and the motion to expunge was withdrawn.

The proposition to make eligible to membership in the Grand Army soldiers who have served in the war with Spain was laid on the table.

The officers-elect were then installed, and at 2:30 p. m. the final adjournment took place.

The Woman's Relief Corps to-day installed the following newly elected officers: Mrs. F. Jamison Miller, Illinois, National President; Mrs. Mary C. Wallace, Illinois; Home Board, Mrs. Sarah J. Martin, Missouri; Inspector, Mrs. Mary Deane, Massachusetts; Installing and Installing Officer, Mrs. Charlotte J. Cummings, Pennsylvania; Patriotic Instructor, Mrs. Mary Hartwell, California.

Among the resolutions adopted was one thanking Miss Clara Barton, President of the Red Cross Society, who is a Past Chaplain, for her official work in relieving the suffering and destitution in Cuba.

As the treasury of the G. A. R. was found to be about empty, the ladies of the Woman's Relief Corps made an appropriation of \$2,000 for the benefit of their brothers.

Adjourned sine die. LI HUNG CHANG.

Anticipating Dismissal, He Will Probably Resign. LONDON, Sept. 9.—The Peking correspondent of the "Times," telegraphing Thursday, says: Li Hung Chang still retains his position as Senior Grand Secretary, but anticipating dismissal, he will probably resign. His removal from the Tsung Li Yamen excites little surprise, in view of the publication of the terms of the Lu Han Railway contract. The negotiations were conducted by him, and he deceived the Tsung Li Yamen regarding the true nature of the terms.

It is not known whether Russia will acquiesce in the removal of the main

instrument of Russian aggressiveness at Peking, but it is believed that Li, having served his ends, will be abandoned. His successor in the Tsung Li Yamen is Yu Li, a Manchur, late Viceroy-elect of the province of Sze Chuen.

GOLD IN THE TREASURY. New Amounts to Over Two Hundred and Thirty-Two Millions. WASHINGTON, Sept. 9.—Another gain in the treasury gold to-day of \$2,369,000 brings the total net gold to \$232,349,394. If the latter offer is taken advantage of it will absorb about \$5,500,000, which, with the whole outstanding issue of currency sixes redeemed, would require nearly \$20,000,000.

Condition of Thomas F. Bayard. DEDHAM (Mass.), Sept. 9.—The report of the physicians to-day was that

YOU DON'T NEED GLASSES. You think because you see so well, but rain clouds, inflamed lids and neuritis are due to eye-strain and even though you do see well, the constant conscious or unconscious effort to correct the necessity of glasses will ultimately result in their collapse, if each eye is not fixed perfectly.

ex-Secretary Bayard seemed to be gradually sinking.

The Antiquity of Glass. Glass has been employed, we know, both for decorative and domestic purposes since the dawn of civilization. The earliest remains date from Egypt 3064 B. C., and are preserved in the British Museum. It is an amulet in the form of a lion's head, of opaque blue color, with hieroglyphics that determine its date. On the rock cut tombs of the necropolis of Memphis glass flowers were depicted as early as 3900 B. C. Stories are told by Pliny, Josephus and other writers to account for its discovery; but those are very doubtful, so that we have only to rely upon facts attested by actual remains. The discovery was doubtless fortuitous; such lucky finds are often the work of chance. When it occurred we cannot determine; but so far as we know, Egypt, as she was the germ of all civilizations, was also the mother of this art, which she applied to a multitude of purposes, strangely excepting that which we deem most necessary; namely, to admit light into buildings. The dwellers by the Nile handed down the art to the Phoenicians, who in like manner bequeathed it to the Assyrians; then it was passed along to the Persians and the Greeks; then to the Romans and the Byzantines, who in turn communicated it to the Venetians; the monks of the middle ages appropriated it to beautify their Gothic temples, and so it came down the centuries to modern times.—Frank H. Vitzely in Woman's Home Companion.

A Misonnry Romance. The parents of a Bethany (Mo.) girl objected to her suitor, and to keep her from running away locked her up in her room. Her "dearly beloved" was not to be outwitted, and, remembering that she had, a few weeks before, taken a scarf or ring belonging to him, he had a warrant issued for her arrest and sent the paper. While the officer was taking her to town the young lover met her on the road, having all preparations made, went on her bond, and drove with her immediately to the preacher's house, where they were made one.—Indianapolis News.
