

### CHINESE EMPEROR RESIGNS HIS POWER.

Abdicates the Throne in Favor of the Dowager Empress.

Ministers Ordered in Future to Deliver to Her Their Official Reports.

The Effect of the Change Likely to Result in the Reinstatement of Power of Li Hung Chang and Increase Russian Influence—Unconfirmed Report That the Emperor is Dead.

PEKIN, Sept. 22.—An imperial edict just issued definitely announces that the Emperor of China has resigned his power to the Empress (Dowager Empress), who has ordered the Ministers to deliver to her in future their official reports.

It is difficult to obtain reliable information at the palace in regard to the proceeding, but the recent reformatory edicts probably caused the change. While the Emperor was subservient and a mere figurehead, the Dowager Empress permitted him to come in peace, but as soon as he attempted to act on his own initiative his practical deposition was the result. His principal adviser, Kang Yumei, the Cantonese reformer, died in spite of the vigorous attempts made to arrest him, and it is said he is now on his way to Shanghai.

The effect of the change must be great. In all probability Li Hung Chang will be reinstated in power, and Russian influence will increase. The hopes of reform so ardently cherished by the intelligent factions of the Chinese are now impossible of fulfillment.

The suddenness of the coup is said to be due to the desire of the Dowager Empress to prevent the mission of Marquis Ito from being successful. The Japanese statesmen recently came to Peking with the object of trying to bring about an alliance, offensive and defensive, between Japan and China.

The new order of things will undoubtedly prejudice British interests in China.

It is reported to-day that the next edict will give the full reason for the change. The wording of the present edict is not yet obtainable, but it is to the effect that the Emperor requested the Dowager Empress to assume power, this being the third time the request has been made.

The Marquis Ito, in an interview before the edict was issued, said the Emperor received him yesterday in the most cordial manner, and said he hoped to have the advantage of the advice of the Marquis in the reforms which his majesty intended to undertake. The Marquis even then feared that the inaction and conservatism of the Chinese officials would nullify the reforms, although he believed the Emperor was acting in good faith.

THE EMPEROR REPORTED DEAD. SHANGHAI, Sept. 22.—A local rumor is current to the effect that the Emperor of China is dead. No details are obtainable, but it is said that the gates of Peking are closed.

WILD RUMORS AFLOAT.

LONDON, Sept. 22.—The "Daily Mail" Peking correspondent, telegraphing Wednesday, says: The Dowager Empress is greatly incensed over Russia's passivity over Li Hung Chang's degradation and Sir Claude MacDonald's attitude since Li Hung Chang's fall. She has granted to M. Pavloff, the Russian Charge d'Affaires, several lengthy audiences. Probably Li Hung Chang will return to power, but will not officiate.

The wildest rumors are afloat. It is reported the Emperor has had alterca-

tions with the Tsung Li Yamen and the Dowager Empress.

### BRIDGEPORT TRAGEDY.

Dismembered Body Found in Yellow Mill Pond Identified.

BRIDGEPORT (Conn.), Sept. 22.—At an inquest held this afternoon by Coroner Dolen it was fully established by relatives of Miss Emma Gill of Southington that the body found in Yellow Mill Pond was hers. Her father and three brothers fully identified the remains, and the Coroner has issued an order permitting the body to be exhumed and taken to Southington for interment.

Undertaker Curtis of Stratford denies that Charles A. Plumb of that town, now under arrest for complicity in the crime, has had the use of any wagon or team owned by him for the last three months.

Plumb is still in custody, but what evidence the police have to connect him with the crime they refuse to divulge. Late this afternoon the police arrested Harry Guilford, son of Dr. Nancy Guilford, as he was attempting to enter the residence of his mother. Superintendent Birmingham refuses absolutely to say a word concerning the case.

### RIOTING AT GALVESTON.

Labor Troubles Break Out Afresh, Resulting in One Death.

GALVESTON (Tex.), Sept. 22.—The Maytag Steamship line labor troubles broke out afresh here to-night, when the striking negro longshoremen, masked and armed with pistols, made an attack upon the guard at the wharf. The police repelled the attack with pistols. One of the attacking negroes was killed and one of the negroes employed on the wharf got a scalp wound. The police captured one of the mob.

There had been an ominous quiet in the situation for several days, but six policemen were guarding the sheds. The negroes made a sortie in the shadow of one of the sheds and overpowered the sentinel. They announced that they were after the leaders of the negroes employed at the docks. These negroes were asleep, but they soon got to cover, and although a hundred shots were fired, but one of them was wounded.

### FILIPINOS NOT FOR ANNEXATION.

Aguineldo Sends Two Commissioners to the United States

Who Will Plead for the Independence of the Islands.

General Greene, Who Returned Yesterday From Manila, Bestows Great Praise Upon the Volunteers for Their Bravery and Fighting Qualities During the Battles Resulting in the Capitulation of the Philippine City.

SAN FRANCISCO, Sept. 22.—The United States transport steamer China arrived to-day from Manila via Hongkong, Nagasaki and Kobe. She brought with her as passengers several distinguished military and naval men, among the former General Greene, besides several noted journalists and two representatives of the provisional government of the Philippines, who are en route to Washington to plead with President McKinley for the independence of the islands, after which they will probably proceed to Paris to appear before the Peace Commission. The Filipinos are named Felipe Agoncillo and Jose L. Palma, the latter being Aguineldo's chief emissary.

In an interview with an Associated Press representative he said the insurgents fully expected to be allowed to govern themselves, and even hinted that some sort of an agreement had been made with the United States Consul Wildman regarding the independence war made by the insurgents against Spain, but that the terms were Agoncillo would not state. He said that he expected definite instructions from Agoncillo by cable, but diplomatically refused to give the slightest hint of anything he might have already received. The Filipinos are very shrewd, and speak English fluently.

A passenger on the China disclosed some further information regarding the reported agreement between Wildman and the insurgents. He said: "Wildman promised General Agoncillo that the American forces would be withdrawn from the Philippines for the purpose of driving the Spaniards out of the Philippines. It was a joint war, and I think that the insurgents understood that the Americans were there to aid them to gain their independence and cast off the yoke of Spanish rule."

Agoncillo lived in the same residence with Consul Wildman for almost two years. It is very clear that there is some complication in the matter of Consul Wildman's promises, which were probably misunderstood by the insurgent leaders. It is also obvious that the general's commissioners are bent on a mission to argue independence for the group.

Speaking of the conduct of the soldiers during the battles, General Greene said that the volunteers fought and acted like regulars, and that he was proud of them. After the first onslaught the men were as cool as could be and prepared for anything. The fire died away as the Americans were particularly deadly at all times. General Greene left for Washington to-night.

Robert Galt, Chief Engineer of the Charleston, was invalided home on account of sickness, and will report at Mare Island navy yard.

Chain Assistant Surgeon Rethard returned on thirty days' leave of absence, pending his resignation. The transport Senator left for San Francisco four days before the China sailed from Manila, but the latter did not sight her at sea.

The Indiana was being prepared when the China sailed for the purpose of bringing home a number of sick and wounded men of the American regiments.

### GENERAL M. C. MILLER.

Will Probably Sail for the Philippines Some Time Next Month.

SAN FRANCISCO, Sept. 22.—General M. C. Miller, now in command of the Presidio troops, is to start for the Philippines some time next month, probably in the Indiana. Instructions to that effect were received by General Merriam to-day.

General Merriam was also informed by the War Department that the transport to carry additional troops to Manila, because the Government had agreed to return her to the Pacific Mail Company. On this account the steamers Senator and Indiana will probably be the first transports to take more troops from here to the Philippines, and Senator left Manila on August 24th, and the Indiana on September 1st, bound for San Francisco. They are expected here any day.

### METHODIST CHURCH.

Proceedings of the Southern California Conference.

SANTA BARBARA, Sept. 22.—The delegates attending the Methodist Episcopal Conference are working early and late.

The reports completely covered the ground of Methodism in Southern California, and indicated the satisfactory progress of the church.

Consideration of the new territory recently opened up as the result of the war to evangelical missionary work was an important factor of the conference. Dr. Palmer presented this topic in an interesting way.

Dr. Jesse L. Hurlbut, General Secretary of the Sunday-school Union and Tract Society, and Rev. W. A. Spencer

### KILLING OF BOLDINI.

Some Sensational Features Crop Out in the Darby Trial.

FRESNO, Sept. 22.—The fourth day of the trial of Frank Darby, accused of killing Louis Boldini, has been full of sensational features.

The prosecution is still putting in its case, and had shown that Boldini was killed by a member of the party of which Boldini was a member had but one gun in their possession. This gun had been taken to Mendota by one Sanchez previous to the shooting.

It developed on cross-examination of Constable Adams of Mendota to-day that there were two guns in the party—the one taken to Mendota and one which was found in the wagon when the Constable visited the scene of the murder.

It is thought now that the defense will endeavor to show that Boldini was killed by a member of his own party. At any rate, the endeavor will be made to build up a reasonable doubt along this line.

The introduction of the second gun into the affair caused a decided sensation. It was unlooked for.

### Masons' Widows and Orphans.

### Plyler Mayhem Case.

SANTA CRUZ, Sept. 22.—The second trial of the Plyler mayhem case began to-day, a jury having been secured after 160 talesmen had been examined. ### THE CUBAN CAMPAIGN.

### GENERAL SHAFER TALKS ON THE SUBJECT.

There Was Less Loss of Life by a Hundred Per Cent. Than During Any Similar Campaign.

CHICAGO, Sept. 22.—A special to the "Tribune" from Constantine, Mich., gives the following speech made by General Shafter at that place, where he went to attend the reunion of the Nineteenth Michigan Regiment, of which he was Colonel during the Civil War.

General Shafter said that when the fleet first left Tampa it was intended to land twenty-five miles from Havana, and march on that city. When, however, the fleet put back because of the reported proximity of a Spanish squadron, word was received from Admiral Sampson that Santiago could be taken in twenty-four hours, and the army sailed for that point.

General Shafter described in his own characteristic manner the campaign at Santiago. After reaching the point in his story where the Spanish General offered to surrender, General Shafter concluded as follows: "I said 'Toral might march out, salute his flag before taking it down, and fire his guns and any other ceremonies he pleased, and I would observe what forms I pleased. So they took down their flag, fired their guns, and Santiago was surrendered. It was beautiful and dramatic. When we raised our hats the officers took off their hats, and our guns saluted."

"A lot has been said about lack of supplies. Men who go to war expect to be short rationed sometimes. You old soldiers here have often had much less to eat than the soldiers did at Santiago. My command during the Civil War often drew corn in the cob for a meal."

"The men had coffee, bread and meat. Sometimes they had to pound the coffee in the rag, but you all did that. Some of the men complained, but they are good soldiers in spite of that, and fought like heroes when called on. A large number of men died. Tents could not be put up because the men were in trenches, and tents could not be pitched upon the firing line."

"We stayed longer than we expected after the surrender, but had to stay—until the Government demanded it, and we stayed. Five hundred men came down every day with sickness, and some days 800."

"But we had brought the war to a close. The capture of the fleet prevented fresh troops from being brought over, but it did not prevent the surrender of Toral's army did stop it."

"People say we should not have made the campaign in the summer. What else could be done? We had to end the war, and end it quickly. There was less loss of life by 100 per cent. than in a similar invasion. Napoleon returned from Egypt with only a remnant of his army. Of 25,000 men England sent to the war of the revolution, 17,000 laid their bones down to bleach."

### GLAD TO GET BACK.

A Large Number of Prospectors Return From the Klondike.

SEATTLE (Wash.), Sept. 22.—The steamer Humboldt arrived here to-day, twelve days from St. Michael, with 230 passengers from Dawson. The majority of them were "Chocards," glad to get back to civilization. There were only a few who had any gold dust. David Beilenberg had the largest sack. He told Purser Taggis that he was bringing out \$60,000 spending money.

Purser Taggis estimates the total amount of treasure brought down on the steamer at \$100,000.

The troops that were taken up from San Francisco on the Humboldt left St. Michael for Rampart City on the steamer Arnold.

The steamer Lelanau sailed from St. Michael for San Francisco on September 10th with a small passenger list.

Among the Humboldt's passengers were A. E. Gardner, who is interested with some Chicago people in the proposed construction of a railroad from Rampart City to the coast, and Robert Moran of this city, who took up a fleet of river steamers this summer.

### MONTANA POPULISTS.

Democrats Place a Straight Ticket in the Field.

ANACONDA (Mont.), Sept. 22.—The Democratic, Populist and Silver Republican State Conventions resumed their sessions this morning. The sensational feature of the day was the action of Governor Robert Smither. He was a Democrat until 1894, when he turned Populist. He was elected Governor in 1896 by fusion of the Populists and Democrats. He was a delegate to the present Populist State Convention. This morning the Governor bade good-by to the Populists and visited the Democratic Convention, where, being accorded the privileges of the floor, he announced a desire to re-enter the Democratic party. He was warmly welcomed.

The Democratic Convention nominated a straight ticket, namely: William I. Pemberton of Butte for Chief Justice of the Supreme Court, Wilber T. Piggott of Great Falls for Associate Justice, A. J. Campbell of Butte for Congress, and Henry C. Rickerts of Boulder for Clerk of the Supreme Court.

The Populists and Silver Republicans fused with these nominations: Chief Justice, T. C. Brantley (R.) of Anaconda; Associate, Henry Smith (R.) of Helena; Representative in Congress, C. E. Hartman (R.) of Bozeman; Clerk of the Supreme Court, Oliver Holmes (Pop.) of Great Falls.
