

ARRIVAL OF THE SENATOR.

Compelled to Stop at Honolulu for Repairs.

The Trip From That Port Was Very Slow, Taking Nearly Ten Days.

Brings About Thirty Soldiers Who Are Sick—Every Battalion Hoping to Go in Her, but General Merriam Has Not Made His Selection Yet.

SAN FRANCISCO, Oct. 4.—The United States transport steamer Senator arrived to-day from Manila via Honolulu. She left Manila thirty-nine days ago for San Francisco, but was compelled to stop at Honolulu for repairs. The trip from Honolulu to this city was very slow, the vessel taking nine days and eighteen hours to make the span. The Senator has about thirty soldiers on board, six of whom are very sick. She was sent to the Government quarantine station at Angel Island and will probably remain there all day.

The full list of soldiers returned on the Senator had not been received at army headquarters at a late hour. A partial list of the men and their destinations are as follows:

Edward A. Beechwood of the First Dakota, who is going to Tacoma; T. H. Downes, second engineer, is going to Los Angeles; W. D. Gerard of the Twenty-third Infantry is going to Abilene, Texas; John L. Gregg of Nebraska is going to Dorchester, Neb.; John O'Connor of the First South Dakota is going to Rapid City; Charles A. Pratt of the Eighteenth Infantry, is going to Jefferson, O.; Wm. F. Kinsie of the same regiment, is going to Schuykill Haven, Pa.; John D. Horton, same regiment, goes to Leon, Ky., and Alfred A. DeHores, same regiment, goes to San Antonio, Texas.

They will be furnished transportation by the Depot Quartermaster.

The arrival of the Senator from Honolulu to-day cut short the Senator's palpatating at the Presidio. Every battalion is hoping that it will be the one elected to fill the Senator on her second voyage across the ocean to the Philippines, but General Merriam has not yet made his selection of the command to fill the vessel. The Senator will have to go into dry dock to be cleaned, and, perhaps, scraped, and it will probably be fully ten days or two weeks before she can be ready for the reception of troops. There will not be much question of precedence in sailing, as most of the returning transports are nearly due here.

HALE & NORCROSS CASE.

Final Decision on It Rendered by the Supreme Court.

SAN FRANCISCO, Oct. 4.—After many years of litigation a final decision in the celebrated Hale & Norcross case was handed down this afternoon by the Supreme Court of the State of California. It means that the company is allowed the sum of about \$300,000, the claim for damages by imperfect milling having been disallowed.

The decision to-day modifies a former decision rendered by the court, and the concluding portion is as follows:

"The cause is remanded to the Superior Court, and that court is directed to modify its judgment herein by striking out those portions thereof which authorize a recovery from the appellants of the further sum of \$417,683, with interest at legal rate from June 11, 1892, presented by the claim for damages sustained by reason of the imperfect and fraudulent milling of said ores, together with plaintiffs' costs disbursed at the former trial, amounting to \$840.40, and the interest thereon."

costs given upon the second trial, amounting to \$1,564.00 and also that portion which directs that the plaintiff have execution for the said further sum of \$417,683, with interest thereon at the legal rate of interest from June 11, 1892, and as so modified the judgment is affirmed.

"The costs of this appeal are to be borne by the respondents." The decision was rendered by Justice Harrison and concurred in by Chief Justice Beatty and Justices Henshaw, Garrouette, Temple and Van Fleet.

RAGES AT LOS ANGELES.

Excellent Program Arranged for Eleven Days' Meet.

LOS ANGELES, Oct. 4.—The annual races under the auspices of District Agricultural Association No. 6 opened at Agriculture Park to-day. The attendance was not all that could be desired by the directors of the association, but as an excellent program has been arranged for the eleven days' meet it is expected that the attendance will multiply each day as it becomes apparent that nothing but crack horses will contest.

In the 2:16 class pacing event to-day you bet won easily in straight heats.

In the running races only one favorably met it is expected that the attendance will multiply each day as it becomes apparent that nothing but crack horses will contest.

HAWAIIAN GOVERNMENT.

HONOLULU, Sept. 24 (via San Fran-cisco, Oct. 4).—The Hawaiian "Star" has published an outline of the form of government decided upon for Hawaii by the Congressional Committee.

The "Star" says it is to be called the Territory of Hawaii, and will be allowed one Representative in Congress, as though Hawaii were a State. Queen Nidia 107 (Gould), 1 to 1, second; Lolette 104 (Devlin), 10 to 1, third. Time—1:16 1/2, Torsion also ran.

IGNORER THE CHARGES.

Judge De Haven Decided Federal Court Had No Jurisdiction.

SAN FRANCISCO, Oct. 4.—The Federal Grand Jury to-day ignored the charges of attempt to commit manslaughter on the Hoopa Valley Indian Reservation made against Dan Hill and Pedro Freddie. Judge De Haven having advised them that the Federal courts were not the courts of jurisdiction in crimes committed on Govern-

ment reservations, unless the State had at one time owned the land and ceded it to the Federal Government, thus waiving jurisdiction.

Where the reservation has always been the property of the Federal Government the State courts have no jurisdiction in the case.

GOVERNMENT RELIEF.

It Will Not be Needed in the Klondike This Winter.

SEATTLE, Oct. 4.—An estimate of the amount of provisions on the Yukon River indicates that there will be no need of a Government relief expedition this winter. The two big transportation companies have at least 20,000 tons at various points on the river. The North American Trading and Transportation Company is credited with these figures: At Dawson, 4,000 tons; Fort Cudahy, 1,500 tons; Circle City, 1,500 tons; Fort Yukon, 1,500 tons; Rampart City, 1,000 tons; Eagle City, 500 tons; Perry City, 100 tons.

The Alaska Commercial Company has about the same amount on hand, except at Dawson, where it has about 7,000 tons.

Trading posts have recently been established by the two companies on Koyukuk River, the Alaska Commercial Company locating at Arctic City, and the North American Trading and Transportation Company at Perry City, fifty miles above.

NO CHOICE YET.

Oregon Legislature Still Balloting for Senator.

SALEM (Or.), Oct. 4.—Both houses to-day voted for United States Senator in separate session. The vote was as follows:

House—H. W. Corbett 23, M. C. George 10, George H. Williams, E. S. Eaken 3, A. S. Bennett (Democrat) 18.

Senate—Corbett 13, George 6, Williams 1, Eaken 1, Cotton 1, Bennett 6.

As forty-six votes are necessary to choose, there was no election.

The Legislature will ballot at noon to-morrow in joint session. It is unlikely that an election will result from the ballot to-morrow, as the opposition to Corbett has not agreed upon a candidate, and the probability to-night is that the thirty-six Corbett men will support their candidate for several days yet.

Out of the ninety members in the Legislature, sixty-eight are Republicans. The Republicans were elected on a strong gold platform, and it is entirely improbable that any one not known to be a believer in the gold standard will be chosen for the Senate to-morrow.

FATAL BOILER EXPLOSION.

Two Men Killed and Three Wounded Near Verdi, Nevada.

RENO (Nev.), Oct. 4.—A fatal boiler explosion occurred yesterday at the saw mill of Laherty & Lea, located six miles from Verdi, Nev., in which two lives were lost and three persons seriously injured. The entire plant was completely destroyed and not a fragment of the boiler was to be found.

The following are the killed:

J. Sherrick, engineer; Mitchell. The injured are: J. Williams, leg broken, head injured; Fargo, leg broken, internal injuries; man known as "Frisco," slightly injured. E. Laherty and E. Cardinal miraculously escaped with slight injuries. Only a small piece of Sherrick's head was found. The explosion was caused by the engineer allowing the boiler to run dry and attempting to fill it with cold water.

SEVENTH CALIFORNIA.

Gen. Miller Refuses to Discharge a Number of Its Members.

SAN FRANCISCO, Oct. 4.—General Miller has received from Colonel Berry of the Seventh California applications for discharge filed by members of that regiment. The commanding officer of the Seventh approved one-third of the number of applications. All of the others were considered frivolous, as to reasons for discharge, or they did not conform in text to military regulations.

The action of Colonel Berry and General Miller will be reviewed by General Merriam, and largely upon the nature of his recommendations to the War Department at Washington depend the fate of Southern California's regiment.

ANNUAL CONFERENCE.

Central Baptist Association in Session at Oakland.

OAKLAND, Oct. 4.—The eighteenth annual conference of the Central Baptist Association opened in the Tenth avenue Baptist Church this afternoon, with about 100 ministers from all parts of the State in attendance.

Hon. L. W. Leavitt of Stockton presided. B. C. Wright of the First Baptist Church, San Francisco, acted as Secretary, and G. W. Fraser of Golden Gate, Treasurer. The annual sermon was delivered by Rev. D. J. Pierce, D. D., of Berkeley. This was followed by the reading of church letters. A young people's meeting was held this evening.

MANDAMUS PROCEEDINGS.

To Compel the County Clerk at San Jose to Reopen Registration.

SAN JOSE, Oct. 4.—Proceedings to compel the County Clerk by mandamus to reopen registration in this county were begun here to-day before the Superior Court. The registration was closed on September 15th, upon an opinion from the State Attorney General. It is now contended upon the strength of an opinion rendered by Superior Judge Pettett of Napa County that the time for the registration of voters does not legally expire till October 22d, or fifteen days before the election.

OREGON SUGAR COMPANY.

Its Factory Set in Motion Yesterday at La Grange.

LA GRANGE (Or.), Oct. 4.—The machinery of the Oregon Sugar Company's plant, the first beet sugar factory in the Northwest, was set in motion here to-day. Not an accident marred the opening, and every part of the machinery worked perfectly.

For several days the farmers have been delivering beets from various parts of the Grande Ronde Valley. It is estimated this year's crop, which experts say is the best first crop ever produced, will keep the factory busy for 100 days and nights, and the product will amount to 30,000 tons of sugar.

A Lad Run Over.

SAN FRANCISCO, Oct. 4.—George Bassillis, a 15-year-old lad, run over by a freight train last night and died to-day. He was riding on a brakebeam when in some manner he got under the wheels.

PHOEBE HEARST PLAN.

The Jury Selects Those Who Will Enter the Final Competition.

NEW YORK, Oct. 4.—The "Journal" to-morrow will publish the following dispatch from Antwerp:

The jury in the international competition for the Phoebe Hearst architecture plan for the University of California, which has been in session here since September 30th, concluded its labors to-day. The jury consisted of Messrs. J. L. Pascal, President, representing France; Dr. Paul Waldo, Vice President, representing Germany; E. Norman Shaw, representing England; Walter Cook, representing the United States, and J. Heinstein, representing the University of California.

Plans to the number of 100 were submitted and most carefully and thoroughly examined. Eleven were found to possess such merits as to entitle their author to the rewards of \$1,200 each and the right to enter into the final competition. The vote of the jury upon each of the plans selected was absolutely unanimous and all the proceedings were characterized from first to last by the most complete harmony.

Negotiations are in progress for the purchase of several plans outside those selected for the final competition, which were considered by the jury to be useful to the university.

The names of those selected to enter the final competition are: Barabaud and Bauhain of Paris, E. Bernard of Paris, F. Blumschil of Zurich, G. Dexteller and Stephen Colman of Boston, Ludolph Dick of Vienna, J. S. Freeland of New York, Herald and Schmulder of Paris, Howard and Caulwell of New York, Howells, Stokes and Hornsbot of New York, Lord, Hewlett and Hull of New York, and Whitney Warren of New York.

The members of the jury, together with the successful architects, will be taken to California and there entertained by Mrs. Hearst, and in June, 1899, the jury will decide the final course and select the plan, which must be approved by the regents of the University of California. Thereupon the buildings will be erected with the utmost rapidity.

It is expected that all the buildings will be completed within the next twenty-five years.

At the banquet given last evening by Mrs. Hearst to the authorities of Antwerp and the jury, M. Pascal, President of the jury, in responding to a toast, said that Mrs. Hearst had every right to hope that the buildings of the University of California will excel any other structures erected for a similar purpose.

JACKSON'S RECORD.

Yellow Fever in Towns Throughout the South.

JACKSON (Miss), Oct. 4.—To-day's record of new cases of yellow fever for Jackson is five, with one death, Mrs. Kavanagh.

Mr. Dunn reports matters very serious at Harrison, a special train leaves here for that point carrying supplies for the sick and nurses. Water Valley reports three new cases. Clinton reports a case.

In response to a general demand, the State Board will to-morrow issue an order prohibiting travel from one town to another within the State. All persons, however, will be allowed to board trains for Northern points.

NEW ORLEANS, Oct. 4.—Dr. Souchon makes the following report: New Orleans, 5 new cases, 1 death. Frank-ling, 1 new case, 1 death. Wilson, 4 cases, no death. Baton Rouge, 1 case, 1 death.

ALL QUIET AT PEKIN.

The Foreign Office Makes Apologies and Punishes Offenders.

PEKIN, Oct. 3.—Delayed in transmission.—There is an entire absence of excitement here and the streets are as quiet as those of London.

The decision of the Russian Legation to increase the strength of its escort order is calculated to have an injurious effect. This step has obliged the British Minister, Sir Claude M. Macdonald, to follow suit, and a detachment of British marines has been ordered to the Capital for the protection of the Legation of Great Britain. The place where a number of Europeans were recently insulted has been roped off and inside of it the eight offenders have been placed, wearing heavy caucuses inscribed: "Punished for assaulting Europeans."

The Chinese Foreign Office has simply apologized for the occurrence and several regiments are held in readiness in case of disorders. But the populace is perfectly quiet, now that the feast has been concluded.

THREE MEN SUFFOCATED.

They Went Into a Well After an Explosion of Dynamite.

PAOLA (Kas.), Oct. 4.—Report comes from Somerset, twelve miles from here, of the suffocation of three men in a well on the farm of James Harner. After an explosion of dynamite in the bottom of the well, William Ballard, Bur Purvis and John Gatlin went into the well, one after the other.

When no sign came from the men below, Boss Coffere was sent down, with a rope tied around his body. Coffere, too, succumbed to the deadly gases, but not until he had tied a rope around the body of one of the men,

WIDESPREAD DESTRUCTION.

Impossible to Get Complete Details of the Great Storm.

SAVANNAH (Ga.), Oct. 4.—Complete details of Brunswick and surrounding country are impossible on account of the prostration of the telegraph and telephone systems. Campbell Island, twelve miles from Darien, on the Altamaha River, is said to be completely swept away, and only three persons succeeded in getting off the island. There is no definite information as to the population of the island, and the estimates of the number supposed to have perished there range from twenty to fifty.

The population was made up wholly of colored free growers.

Four deaths are reported at Brunswick. The damage to property there is estimated at half a million dollars.

News from the outlying islands is not obtainable.

INDIAN TREACHERY.

They Capture the United States Marshal and Inspector.

MINNEAPOLIS (Minn.), Oct. 4.—A special to the "Journal" from Walter, Minn., says:

It is reported that United States Marshal O'Connor and Inspector Tinker have been captured by six Bear Island village Indians and held as hostages. Early to-day two emissaries from the Bear Islanders put in an appearance and announced that the Indians for whom warrants had been issued would surrender, provided that the entire tribe be permitted to confer with Marshal O'Connor and the inspector.

THE MARSHAL NOT DETAINED. A telegram has just been received saying there is no truth in the report that Marshal O'Connor is being forcibly detained. He is said to be holding a conference with the villagers which may last until late to-night.

TURNED THE TABLES.

The Empress Discovered the Emperor's Plot and Retaliated.

LONDON, Oct. 5.—According to a dispatch from Shanghai, the Pekin correspondent of the "Mercury" of that city, asserts that the Emperor of China intended to remove the Empress Dowager from his path and intrusted his plans to an adherent. The latter proved a traitor.

The Empress Dowager, on learning of the plot, sternly upbraided the Emperor and invited him to drink the contents of a cup which she pointed. He swallowed the fluid at a gulp. It is impossible, however, according to this correspondent, to ascertain whether the Emperor is actually alive or not.
