MANILA EXPEDITIONS.

Three Vessels May Sail for the Philippines Next Week.

SAN FRANCISCO, Oct. 9.—The new fleet of transports is rapidly being prepared for sea. The Newport has not yet arrived, but is expected at any hour. The Senator will come off the Union Iron Works dry dock to-morrow, and the Valencia will take her place. The Ohio will go on the dry dock to-morrow also, and as soon as she has been overhauled the Indiana will take her place. The latter vessel went direct to the quarantine station, and will be fumigated before she goes on the dry dock. The Newport will follow the Valencia at the dock, and an effort will be made to get all five vessels away next week. If they can be fitted out in time they will leave in a bunch. If not, the Senator will sail next Sunday, and the others will follow as they are got ready.

General Merriam has called on General Miller for the complete field returns of all the troops in his command. This he did for the purpose of seeing how to best select commands to go on the different transports. They have to be chosen with regard to the capacity of the vessel, and an effort will be made not to overcrowd any of the transports.

General Merriam has been informed that the transport Peru sailed from Manila on Saturday.

SAN JOSE, Oct. 9.—The Watsonville "Babies" proved too much for the San Jose team to-day, winning the game by a score of 6 to 1. The San Josians objected to Umpire Hugh Smith's decisions on strikes at the outset and thereafter played without their customary steam. They were also considerably bothered by Donlin's mysterious curves. About 1,000 people were in attendance. Score: Watsonville 6, hits 6, errors 1; San Jose 1, hits 1, errors 9. Expresses His Views on Leading Questions.

PORTLAND (Or.), Oct. 9.—Senator-elect Joseph Simon, in an interview regarding his course on the leading questions which will come before Congress, to-day said:

"I favor the retention of the entire Philippine group, and I should not agree to the ratification of a treaty that permits any portion of them to Spain. I am for Government construction and control of the Nicaragua Canal, and favor a Pacific cable. I am for a larger standing army and a greater navy. I am especially anxious for firmer establishment of the gold standard and reformation of the currency by retirement of Government paper obligations and the creation of a banking currency. These measures are of great urgency. Both because of our prospective trade expansion and because postponement

GARDEN CITY WHEELMEN.

For the Second Time This Year Win the Olympic Cup.

SAN FRANCISCO, Oct. 9.—Ninety-nine wheelmen participated in the fifth annual road race of the California Associated Cycling Clubs over the Hayward course to-day. The road was muddy and the wind against the riders, yet fairly good time was made. The winner proved to be one of the long-mark men, Clay Holmes of the Reliance Wheelmen of Oakland, who had a start of three minutes and fifteen seconds. The fastest time was made by Julius Smith of the Garden City Wheelmen, who rode into third place with a handicap of one minute and fifteen seconds. Smith's time was 27:49 1-5, that of Holmes' being 29:40.

For the second time this year the Garden City carried off the Olympic cup, and with one more victory the trophy will go to them. The club to-day won second and third places and first time, making a total of thirteen points. The Reliance Wheelmen made seven points and the Acmes three.

AN AERONAUT INJURED.

Fell From the Trapeze While Making a Balloon Ascension.

SAN FRANCISCO, Oct. 9.—Charles W. Vosmer, an aeronaut, was severely and possibly fatally injured by falling from a balloon at the Chutes, a pleasure resort near Golden Gate Park, this afternoon. He was making an ascent on a trapeze attached to a hot air balloon, intending to make a parachute descent. Just as the balloon rose Vosmer apparently struck one of the ropes extending from the high fence around the inclosure. Fearing that he would become fatally entangled, he attempted to grasp the rope, but was carried beyond it and fell to the street from a height of about fifty feet. He sustained a fracture of the pelvis, and was otherwise seriously injured internally. Thousands of people witnessed the accident, which caused a great sensation in the neighborhood of the park.

Wheat Yield in Australia.

VANCOUVER (B. C.), Oct. 9.—Advices from the Warrimoo from Australia state the corn section of the New South Wales Chamber of Commerce estimates that the coming season will produce a yield of 15,000,000 bushels of wheat, of which 10,000,000 will be required for home consumption, leaving 5,000,000 bushels, or roughly speaking, 100,000 tons for export. There have been several very disorderly scenes in the New Zealand Legislature. The opposition kept the House sitting sixty-six hours on the estimates, and at the end of that sitting forced the Government to agree to their demand for information.

No Chance to Burn Buildings.

LOS ANGELES, Oct. 9.—Andrew Koonz, a rancher of Burbank, came to the city to-day imbued with the idea that he is commanded by the spirits to burn all the church buildings in town. Luckily he made known his intentions before beginning operations, and was placed in the City Jail. He telephoned to Bishop Montgomery to come down and bail him out. He will be examined for insanity to-morrow.

The Coalinga Oil Wells.

LOS ANGELES, Oct. 9.—The statement which was issued from Fresno during the past week that the Coalinga oil field, or a controlling interest in it, had been purchased by Claus Spreckels, who is one of the largest users of Coalinga oil, is denied by Dr. Hayward of this city, who is one of the principal owners. It was also rumored that an English syndicate had got the property, but this is also denied.

THE MURDER OF GEORGE D. SAXTON.

President and Mrs. McKinley Go to Canton to Attend the Funeral.

Their Arrival Attended With a Most Touching and Pathetic Scene.

The Funeral of the President's Wife's Brother to Take Place This Afternoon. Mr. McKinley Proceeding Thence to Omaha to Visit the Trans-Mississippi Exposition.

CANTON (O.), Oct. 9.—The home-coming of President and Mrs. McKinley to-day for the funeral of George D. Saxton was attended with a most touching and pathetic scene at the railway station. Many people were at the depot when the train arrived, and extended the party a silent but sympathetic welcome.

The party arrived at 10:26 o'clock. M. C. Barber, the President's brother-in-law, was at the station with several friends of the family and Dr. Fauntleroy, who was called to take charge of Private John Barber, the sick soldier.

President and Mrs. McKinley were first out of the car, and were assisted by George B. Freese to the carriage in waiting. Mrs. Barber, Mrs. McKinley's sister, followed, and was joined by her husband, John Barber, who was carried from the train by his brother George and by George C. Clark. Miss Helen McKinley and Mr. and Mrs. Stewart A. Bowman of Loraine, the latter, the President's niece, who started with the party to Washington, left the train at Pittsburg to take another road.

The President and party went direct to the Barber home, which is the old Saxton homestead, and was the Canton home of the McKinleys during his life in Congress. Mrs. McKinley showed evidences of the sufferings from the shock, and of fatigue from the journey, but bore up remarkably well, and was able to be around the house.

Both sisters and the President viewed the remains, which looked natural, none of the marks of the tragedy being exposed on the face. Mrs. McKinley, when the President, accompanied by Mr. Barber, took a short walk, the party remained at the Barber house all day. Many flowers are being received from sympathetic friends of the President and the family, Washington friends having placed many on the train before it started.

The funeral arrangements were concluded after the arrival of the party. They are to be held from the Barber home at 2 o'clock Monday afternoon, and will be officiated by Rev. O. B. Milligan, pastor of the First Presbyterian Church, will officiate. Interment will be in West Lawn Cemetery, in the Saxton family lot.

The train bearing the Cabinet and other officials from Washington to the Omaha Exposition will arrive in Canton on Monday evening, and about 9 o'clock the private car of the President will be attached thereto, and he will join the party.

Mrs. McKinley, it is thought to-night, will not undertake the trip to the Omaha Exposition, but will be with the President in Chicago. She will remain in Canton for several days, and more than likely go to Chicago with Mrs. Lafayette McWilliams and Mrs. W. A. Goodman, her cousins, who are expected to be here for the funeral services.

TOBACCO PLANT SOLD.

The Drummond Company Sells Out to the American Company.

ST. LOUIS, Oct. 8.—The much-rumored sale of the Drummond Tobacco Company's plant to the American Tobacco Company was consummated at 6 o'clock this evening. The cash price was \$3,457,500, paid by the American Tobacco Company in certified checks drawn to the order of Harrison I. Drummond, President of the now defunct company.

The sale of the Drummond Company was outright. There was no stock consideration. The American Tobacco Company simply paid \$3,457,500 in cash for the real estate, plant, buildings, stock in trade and good will of the Drummond Company, and the stock of the latter ceases to be of value. The American Tobacco Company immediately took possession of its new property, and Monday morning the employees will be working under a new management.

The interest of the Drummond family in the company was 75 per cent. of the capital stock. Their share of the purchase price, therefore, is \$2,593,125. Mr. Drummond, when seen to-night, was asked if he had not accepted rather a small price for the real estate and buildings. "No, I think not," he replied. "We carried it on our books at \$455,000. Its real price, and although the ground has increased in value, the depreciation on the buildings we considered offset that."

Mr. Drummond stated that the American Tobacco Company would continue the manufacture of horseshoe plug, but would reduce the price.

MANZANILLO.

The City Will be Turned Over to the Americans To-day.

MANZANILLO, Oct. 8.—(Delayed in transmission.)—The Spanish troops expect to leave Manzanillo to-morrow. General Parron, the Spanish commander, will turn the city over to the Mayor, who will make the official transfer to Colonel Ray, representing the United States, on Monday.

A collision between the Spanish garrison and Colonel Ray's troops yesterday was, it appears, even nearer than when seemed to be the case. General Parron's orders from Havana was to resist the Americans to the uttermost. Additional rounds had been issued to the troops, and volunteers would have probably brought the Spanish force up to 1,200, as against fewer than 300 Americans. Colonel Ray would certainly

ly have obeyed his original instructions when the hour for closing the cable arrived, and there would have been only the slightest chance of avoiding a fierce engagement, with the odds largely against the Americans, both in numbers and in arms. The Spaniards were armed with Mausers, while the Americans have Springfield.

AN INSANE GRIPMAN.

Suddenly Loses His Mind While Running His Train at Chicago.

CHICAGO, Oct. 10.—John B. Jessen, a gripman on the South State-street cable line, became suddenly insane, and while in that condition ran his train, loaded with passengers from Twenty-second to Madison streets, a distance of two miles, without accident. When the train was ready to make its return trip Jessen's reason returned, and realizing his condition, and fearing a return of the mania, called a policeman and asked to be cared for.

When taken to the Police Station Jessen was raving again, but became quiet after a time. He has no recollection of bringing his car from Twenty-second streets up through the crowded business thoroughfares, and his responses to the conductor's signals were entirely mechanical.

Several days ago Jessen was struck on the head by a lever him in an accident and severely injured. This is supposed to be the cause of his insanity.

A Forger Commits Suicide.

BERLIN, Oct. 9.—Princess Troubetzky, who was under arrest here on an extradition demanded from the Italian Government, charged with forging documents, committed suicide to-day at the Police Station. There are several ladies of high rank or wide reputation known as Princess Troubetzky. Among them are the wife of the Russian Marshal of the Russian court, and the American novelist, who was formerly Miss Amelie Rives. It is quite inconceivable that either of these ladies is the Princess referred to.

Burned to Death.

JACKSON (Miss.), Oct. 9.—An unknown white man, supposed to be a yellow fever patient, was burned up in a negro church in Le Flore County to-day. The man was found sick by negroes who had gone to prepare the church for service to-day. The case was reported to a doctor, who reported him as a suspicious case. The doctor left, and when he returned he found the church in ashes and a few charred bones to tell the awful story. This is a forcible illustration of the unreasonable panic now afflicting this State.

When the Spanish Commissioners left the hotel to take the train for Havana, several American officers accompanied them to the station.

Death of an American Author.

NEW YORK, Oct. 10.—A dispatch from Munich, Bavaria, announced the death there last Friday of Blanche Willis Howard, the American authoress. She was the widow of Dr. Von Teuffel, formerly physician to the King of Wurtemberg. She was known chiefly as a novelist, but also contributed a number of articles to magazines. Madame Von Teuffel lived for years in Germany, recently at Munich, where she made a brilliant and attractive figure in a circle of artistic and literary minds of many nationalities.

Tragedy at Camp Hamilton.

LEXINGTON (Ky.), Oct. 9.—There was a fight at Camp Hamilton to-day, resulting in one death and two wounded. The trouble was the culmination of old personal grudges. Douglas, ex-Corporation Counsel for Jersey City, one of the best known men in New Jersey, is supposed to have jumped into the river during Saturday night from the steamer Richmond, somewhere between New York and this city. CAPTAIN MARCHAND.

The Officer in Command of the French Forces in West Africa.

It is barely possible there will be a clash between the French and English forces in Africa. General Marchand seems to be the sole obstacle, at present, to England's African ambition. He is the French officer who started out with his army two years ago from the west coast of Africa just at the time when General Kitchener was beginning to move his army from the northeastern corner of the continent into the Sudan.

A GALLANT GOVERNOR.

Sent the Governor for Ribbons.

"I have learned that parrots and girls sometimes talk too much and too carelessly," remarked a pretty girl not long back from the Nashville Exposition. "You see, I was doing the exposition, under the most delightful auspices. I was also collecting souvenirs, everything from badges to food specimens. Pretty soon I found myself talking with a pair of merry eyes and an expansive forehead. He had a dream of a gold-fringed sash crossed about his breast, more Masonic, military and society badges than I could count, and a shining pair of epaulets. Summoning my most fetching smile, I asked for an epaulet. "My 'Colonel' looked rather surprised, and expressed his regret that he was not at liberty to comply with my request, adding that he was booked for a conspicuous position in the parade to take place later on. "Now, Colonel," said I, growing bold, "don't you say no to anything. Can't I have a single ribbon of all your gorgeousnesses?" "Sorry," murmured the polite Colonel, "but I'll tell you what I will do. I'll get you some pieces of ribbon corresponding in color to my badges. It's the nearest I can come to giving the badges themselves." "All right," I assented. "But don't be long, Colonel, for I may have to go any minute." "With a proud bow, the Colonel withdrew, and just at that moment papa came up, with a smiling remark about my 'catching very big fish in my conversational net' after the manner of theologians." "Oh, he was rather nice," I retorted, in an offhand manner. "I have just seen him to get me some ribbons. He refused utterly to part with any of his own decorations." "Sent him to get you some ribbons?" gasped my astonished father. "Sent the Governor of Tennessee for ribbons?" "Why? I almost shrieked. "Why? the Governor—O, Governor of this State. Child, that was Governor Bog Taylor you were talking to. He's regarded as the most popular man in the State, and he is famous for having won his election by playing the fiddle on the stump instead of making long-winded campaign speeches. How dare you transform the Governor into a messenger boy, to do your shopping?" "Papa and I groaned out a miserable duet, and I simply flew from the spot.
