

QUITE A LIVELY SESSION.

CHARGES AGAINST SERGEANT DOLAN DISCUSSED.

The Knotty Saloon Question at Fourth and Q streets Referred to the Corporation Counsel.

The City Board of Trustees met in regular weekly session last night, Trustees McKay, Tebbets, Douglas, Paine, Dolan, Kent, Brown, Bentley and Devine being present.

Mayor Land sent in a message to the effect that on Saturday, the 17th inst., a copy of the complaint and summons in the suit of C. H. Cummings and Sparrow Smith against the city had been served on him.

Trustee Tebbets said the commission had done well, thanks to the Board of Trustees and the Mayor, who had forced it into the position where it could not do otherwise.

Trustee Bentley thought it was unfair to compel property owners to put down cement sidewalks before they had been furnished with sewerage to enable the storm water to run off.

Trustee Bentley thought it was unfair to compel property owners to put down cement sidewalks before they had been furnished with sewerage to enable the storm water to run off.

Trustee Bentley thought it was unfair to compel property owners to put down cement sidewalks before they had been furnished with sewerage to enable the storm water to run off.

Trustee Bentley thought it was unfair to compel property owners to put down cement sidewalks before they had been furnished with sewerage to enable the storm water to run off.

CLAIMS AGAINST THE STATE

DEMANDS AMOUNTING TO OVER \$1,500,000.

Are Counties Entitled to the Old Fees for Collecting State Taxes?

If the attorneys who have the matter in hand succeed in inducing the courts to construe the law as they themselves do, within the next month over \$1,500,000 will be drawn from the surplus cash in the State Treasury and divided around among the several counties in the State.

Prior to 1893 fees and commissions were allowed County Auditors, Tax Collectors, Assessors and Treasurers for levying, collecting and handling the State taxes, and by that means about \$250,000 raised for State taxes were annually paid to the county officials named in the form of fees and commissions.

But Controller Colgan desired a change. He considered it unwise to raise vast sums of money for State purposes, over 5 per cent of which would go into the pockets of auditors, tax collectors, assessors and treasurers, and to that end labored for the repeal of the Acts passed twenty-five years before.

The Controller's report for 1891-2 showed a total of \$91 (the forty-second fiscal year) \$24,303.52, or 5.38 per cent of the whole amount of taxes collected, had been paid over to the several counties, and that in 1892 (the forty-third fiscal year) \$271,900.73, or 5.25 per cent of the amount collected, went for fees and commissions.

The showing was an eye opener for the Legislature of 1893, and a bill repealing all laws providing for the collection or retention of fees became a law.

But Controller Colgan desired a change. He considered it unwise to raise vast sums of money for State purposes, over 5 per cent of which would go into the pockets of auditors, tax collectors, assessors and treasurers, and to that end labored for the repeal of the Acts passed twenty-five years before.
