

THE MURDER OF MRS. DUNNING.

Final Argument in the Trial of Mrs. Botkin Begun.

Attorney General White of Delaware Opens for the Prosecution.

George A. Knight Makes the Principal Address in Behalf of the Accused—To-Day Attorney McGowan Will Close For the Defense and District Attorney Hosmer For the Prosecution.

SAN FRANCISCO, Dec. 28.—This was the most interesting day in the Botkin case since the trial of the woman for the murder of Mrs. John P. Dunning commenced. The proceedings opened this morning with an argument by Attorney General White of Delaware for the prosecution.

Mr. White addressed the jury quietly, and proceeded to review the testimony brought out during the trial. He called attention to the chain of circumstantial evidence against Mrs. Botkin, and said that if the jury believed the evidence of the witnesses for the prosecution, Mrs. Botkin must be convicted of murder in the first degree.

At the afternoon session, Attorney George A. Knight made the principal argument for the defense. Mr. Knight's reputation as an orator and his ability as a criminal lawyer attracted an enormous crowd to the courtroom.

Mr. Knight argued the jury not to be influenced by the outcry caused by the recent acquittal of Walter Ross, the Tennessee soldier, who murdered an innocent citizen of San Francisco, and referred to the Maybrick and Dreyfus cases as instances of the suffering of innocent people because of public opinion.

Mr. Knight denounced Dr. Bishop, the Dover physician who attended the poisoned woman, and was most bitter in his condemnation of the methods of the San Francisco police. Mr. Dunning, the husband of the murdered woman, also came in for a liberal share of the attorney's vitriolic sentences.

Particular attention was called to the fact that Mrs. Botkin, the alleged author of the acrimonious letter that was mailed in San Francisco in June, was at Eureka, Cal., all that month, and could not possibly have mailed the letter there.

Writing Expert Ames, who came here from New York, and testified that Mrs. Botkin was the author of the anonymous letters, and also addressed the wrapper on the candy, was denounced as coming here and testifying for the prosecution because he was paid to testify that way.

Mr. Knight laid great stress upon the fact that the arsenic found in the candy was in lump form, whereas Druggist Grey testified that Mrs. Botkin purchased powdered arsenic. He contended also that there was no legal proof that Mrs. Dunning had died of arsenical poisoning. An autopsy, he said, was necessary to prove the cause of death in any poisoning case.

Mr. Knight contended that the prosecution had failed to show a motive on Mrs. Botkin's part for the commission of the crime. It had been shown during the trial that Mrs. Botkin had persistently refused to allow her husband to procure a divorce, and this showed that she had no desire to marry Mr. Dunning.

Mr. Knight closed with a brilliant peroration, in which he described Mrs. Botkin as an innocent, persecuted woman, and he urged the jury to exonerate her from the horrible suspicion that had rested upon her through the machinations of the police.

The case will go on to-morrow, when Attorney McGowan will make an argument for the defense, and District Attorney Hosmer will close for the prosecution. It is expected that the case will be given to the jury Friday morning.

EX-BANKER STOUTT.

Charged With Making False Entries in Bank Books. SALT LAKE, Dec. 28.—The mystery surrounding the shooting of Ex-Banker J. M. Stoutt two weeks ago has not yet been cleared up.

Mr. Orin, who has been arrested on the charge of doing the shooting, and his hearing continued until Stoutt sufficiently recovers to appear in court. At the instance of United States Commissioner Twomey a warrant was sworn out to-day for the arrest of Stoutt on the charge of having presented to the Bank Examiner certain false entries on the books while President of the Utah National Bank, and referred to the Maybrick and Dreyfus cases as instances of the suffering of innocent people because of public opinion.

Mr. Knight denounced Dr. Bishop, the Dover physician who attended the poisoned woman, and was most bitter in his condemnation of the methods of the San Francisco police. Mr. Dunning, the husband of the murdered woman, also came in for a liberal share of the attorney's vitriolic sentences.

Particular attention was called to the fact that Mrs. Botkin, the alleged author of the acrimonious letter that was mailed in San Francisco in June, was at Eureka, Cal., all that month, and could not possibly have mailed the letter there.
