

THE WATERWAY TO CROSS NICARAGUA.

Full Text of the Preliminary Report of the Commission,

Called for by a Resolution Recently Adopted in the Senate.

The Lull Route Favored by the Commission, Because of Its Easier Construction, and the Belief That It Will be a Safer and More Reliable Canal When Completed.

WASHINGTON, Dec. 29.—The full text of the preliminary report of the Nicaragua Canal Commission was today made public. It is as follows: "Department of State, Nicaragua Canal Commission, Washington (D. C.), Dec. 28.—The Honorable Secretary of State, Washington:—Sir: We have the honor to acknowledge the receipt of your letter of the 19th inst., inclosing a copy of the resolution of the Senate of the 15th of December requesting a report of the progress made by this commission in investigating the question of the proper route, the feasibility and cost of construction of the Nicaraguan Canal.

lined the entire canal region from ocean to ocean, and employed some seventy engineers, with their laborers and helpers, for ten months, in making careful surveys and examinations of the canal region. Some meteorological and hydrological observations are still continued in Nicaragua, with a view to obtaining a full year of observations of that nature.

"The required field work has been obtained. The reduction of this field work, together with the compilation and comparison of former surveys going back nearly fifty years, has been in progress for more than ten months. "The commission believes that the construction of the canal across Nicaragua is entirely feasible.

"The estimates of the two best known characteristic routes have been nearly completed. These routes are known as the Maritime Canal Company's route and the Lull route. Their estimated cost is approximately \$124,000,000 and \$125,000,000, respectively.

"The assumed dimensions are considerably greater than ever before proposed, both in length of locks and in width, depth and radius of curvature of canal. These dimensions have been made necessary by the demands of modern commerce, size and draft of modern ships, etc. This has necessarily made a corresponding increase in the estimated cost, and is in no way inconsistent with the estimates made from former surveys which contemplate a much smaller and cheaper canal.

"We are, sir, with great respect, your obedient servants, J. E. WALKER, Rear Admiral, U. S. N., President of the Commission. "LOUIS M. HAUPT, "Civil Engineer, Member."

"I concur with the other members of the commission with respect to the construction of a canal across Nicaragua, but I think, in view of the increased size of the canal estimates for and difficulty incident to work in tropical countries, that the estimate is lower than it should be by about 20 per cent. PETER C. HAINES, "Colonel Corps of Engineers, Member."

Condition of Ambassador Romero. WASHINGTON, Dec. 29.—The condition of Senator Romero, the Mexican Ambassador, is still critical to-day, but his physicians, after consultation, announced that he is doing as well as could be expected, and that unless something unforeseen should occur they believe he will recover.

The Pottery Trust. EAST LIVERPOOL (O.), Dec. 29.—It is stated here upon excellent authority that some of the smaller potteries are not wanted by the new trust, and their stock will be returned. This is on account of the great success of the combine. On the other hand, the Harkers Pottery Company, one of the stronger concerns, has had its stock almost completely free from pain. Had the operation not been made, his physicians say he could not possibly have recovered.

Advance in Price of Brooms. SYDNEY (O.), Dec. 29.—The Secretary of the United States says the recent dispatch from Chicago as to the recent advance in the price of brooms conveys a wrong impression. At a meeting of the association at Urbana, on the 7th, an advance of 20 cents a dozen was agreed upon, and in Chicago on the 28th an advance of 25 cents additional, making the advance 45 cents, instead of 25 cents a dozen.

A Memorial Hall Dedicated. CHICAGO, Dec. 29.—A magnificent hall in honor of the veterans of the Civil War was dedicated to-day in the new public library on Michigan avenue. Over 3,000 persons were present, including many of the State, county and city officials, and Judges of the Supreme and Superior Courts.

Double Tragedy in Kansas. WICHITA (Kas.), Dec. 29.—At Furley, twelve miles north of Wichita, Thomas Greene killed his wife this morning, and then shot himself. He will die. Mrs. Greene came to Wichita this morning and his mother and sister are traveling in Europe. He was living here with a younger brother in the family residence. The brother can offer no reason for the deed.

Iowa Dunham Suspect. SAN JOSE, Dec. 29.—At the Sheriff's office this morning it was learned that nothing whatever additional has been learned concerning the arrest of an alleged Dunham in Des Moines County, Iowa. Nothing new had been received up to noon over the letters made public last evening. Specimens of the prisoner's handwriting cannot be identified as Dunham's or not, so far. The Iowa Sheriff is positive that he has Dunham. Nothing further has been received from Columbus, O.

Parasites for Fruit Tree Pests. LOS ANGELES, Dec. 29.—The Board of Supervisors of this county have received a report from George Compton, their Commissioner in Hawaii, who was sent there for the purpose of securing parasites for fruit tree pests. He states that he has forwarded parasites which destroy aphids and also the pests which have been attacking the English walnut trees. The success of the new acquisitions will be watched with interest by fruit men.

Two Laborers Killed. SAN FRANCISCO, Dec. 29.—Two laborers were killed this afternoon on Fulton street, between Baker and Devisadero. They were working for the City Improvement Company, digging a sewer. They did not use planking for props, and too much earth being piled on one side, a cave resulted. Three men were caught in the slide of the soil and buried. One was taken out alive and hurried to the Receiving Hospital.

Military Postoffice at Iloilo. SAN FRANCISCO, Dec. 29.—Postmaster Montague to-day received instructions from Washington to select two officials from his department to take charge of the military postoffice established at Iloilo, in the Philippines. The men selected for the duty will be notified next week, and they will sail on the steamship China for Hongkong on January 7th.

Not a Case of Suicide. SAN JOSE, Dec. 29.—It has developed that the man who was supposed to have committed suicide here yesterday died from congestion of the brain. The autopsy revealed this. The body was identified as Antonio Marshall. This was wrong, too, as later the remains were identified as those of a man named De Lurchi, recently of Mayfield.

Mrs. Brandes Held to Answer. OAKLAND, Dec. 29.—Mrs. Etta Brandes was this afternoon held to answer before the Superior Court on a charge of beating her stepdaughter to death. Justice Cliff did not make any comment on the case, save to say he believed the evidence justified the defendant being held.

Petition in Bankruptcy. SAN FRANCISCO, Dec. 29.—Joseph Budde, manufacturer of sanitary plumbing appliances, to-day filed a petition in bankruptcy in the United States District Court. His liabilities are \$14,000 and his assets consist of real property valued at \$5,000, which is fully mortgaged.

CONGRESSMAN-ELECT ROBERTS, MAY BE SEATED, BUT LATER ON EXPELLED.

Views of House Members Concerning the Status of the Case of the Utah Polygamist.

NEW YORK, Dec. 29.—A dispatch to the "Herald" from Washington says: Representative-elect Roberts, the Mormon Congressman from Utah, will probably be confronted upon his arrival in Washington to take his seat in the Fifty-sixth Congress by a proposition of expulsion because of his alleged polygamist practices. Some of the ablest constitutional lawyers of the House, who have studied this now celebrated case, declare that there is nothing in the Constitution of the United States to prevent Mr. Roberts from taking his seat, but they add that the House, by a two-thirds vote, may expel him on the ground that he is living in violation of the general laws which govern the United States.

Representative Fleming of Georgia, who is a close student of constitutional law and familiar with the Utah case, said that, in his opinion, Mr. Roberts had as much right to take his seat in that Congress as Speaker Cannon. "I have looked into the case of Mr. Roberts with great care, and I have examined the Constitution relating to such matters," he said, "and I have no hesitation in saying that he cannot be prevented from appearing before the bar of the House and taking his seat when the Fifty-sixth Congress assembles. While I am not upholding Mormonism, nor attempting to defend polygamy in any manner, I view the subject from a purely judicial standpoint.

"According to the Constitution of the United States, the Governor of every State sends to the Clerk of the House of Representatives the names of the men elected to membership. These names are then entered upon the rolls of the House, and a person so named becomes by law a member of the House, and cannot be expelled from his seat until he has taken his seat. Subsequently his right to continue occupying the seat may be contested, or after he has taken his seat and participated in his presence in the deliberations of the House, he may be expelled from Congress by a two-thirds vote of the duly qualified members.

"In all the meetings and discussions had upon this subject none of the objectors to Mr. Roberts seem to have recognized this latter constitutional provision, but have based their opposition to him solely upon the fact that he is a Mormon. Therefore, they declare he should not be admitted to Congress. "If Mormonism is his religion," added Mr. Fleming, "and the Constitution of his State stands for that religion, the people of that State have a right to elect him as a representative in Congress. I do not believe the charge that he is a Mormon will interfere in any marked degree with his political work or demoralize the average representative in Congress.

"If a man has married three women with the consent of his church and in accordance with the laws of his State, would it be just and proper for him to discontinue the support of two of the women—or all of them—because a number of people object to him for that reason as a representative in Congress? For one, I say assurdly not. If he did so, he would be a traitor to the people beneath the contempt of all honorable men. My judgment is that he will retain his seat."

Representative James Hamilton Lewis of Washington is of the opinion that Mr. Roberts cannot be denied his seat in the House of Representatives on the mere ground that he is a polygamist and has been living with three or more wives in Utah. Mr. Lewis is firmly convinced that when Mr. Roberts appears at the first session of the next Congress he should not be allowed to take his oath as a member of the House. "It is possible, however," said Mr. Lewis, "that a contest might be instituted on the ground that by living in polygamy Mr. Roberts was disqualified from election, just as a contest might be raised on the ground that a man was a minor when elected to Congress. Such a contest might also be liable to prosecution under the Edmunds law if he should live with more than one wife in the District of Columbia."

Eight Business Houses Burned. OBERLIN (O.), Dec. 29.—Eight business houses were destroyed by a fire which started in De France's millinery establishment. Loss, \$50,000.

WHEAT WEAK AND FUTURES ARE LOWER. Barley Easier at Unchanged Quotations—Oats More Active, and Market Firm.

San Francisco, Dec. 29th. Wheat weaker, owing to weak Chicago market and dull cables; spot unchanged; futures are lower again; receipts light. No change in Barley; easier, moderate receipts. Oats are more active, market firm; prices no higher. Almost entire receipts were from the north. No Corn arrived to-day; offerings limited, not much demand; holders firm. More activity in the Hay market, but prices are undisturbed. Bran and Middlings scarce; firm market prevails. A chest of Strawberries comes to hand now and again, but are not wanted. In fact, nothing in the Fruit line is wanted. Consumers are still supplied from last week. Mexican Limes are held higher. Butcher's light supplies, owing to light shipments by the last two steamers. BUTTER. Supply more than ample for demand. Cheese firm. Strictly fancy Eggs are not plentiful, and for such the market is in good shape; lower.
