

ANGLO-GERMAN TREATY.

Reichstag Passes the Bill to the Third Reading.

Baron Von Buelow Speaks of the Spanish Islands.

Defends Their Acquisition and Says It Has Long Been in Contemplation and Would Tend to the Development of Germany's Other Possessions - Disclaims Any Thought of Opposition to Americans in the South Pacific.

BERLIN, June 21.—The Reichstag today passed the third reading of the bill providing for the promulgation of the Anglo-American commercial treaty. Baron Heydt du Herrensheim, National Liberal, previously withdrew the amendment of which he had given notice June 17th, that the most favored treatment shall apply only to those parts of the British Empire which grant to the subjects and products of Germany the same rights as are granted to the subjects and products of the most favored nations.

During the discussion of the supplementary credits for the protectorates and the loan therefor, the Minister of Foreign Affairs, Baron von Buelow, again defended the acquisition of the Spanish islands, which, he said, the Government had long entertained, as it would tend to the development of Germany's other possessions. He added that he was no builder of castles in the air, but had proceeded quietly, soberly and advisedly, as in the case of Kiao Chou, and asserted he was justified in assuming that the new possessions would prove most valuable, commercially, for the German industry and enterprise in those regions, which henceforth would be able to advance under much more favorable conditions. The islands, he explained, were admirably suited for cultivation, and might in time to come be bases for commercial intercourse between Asia, South America and Germany. From the outset, the Minister also said, Germany could dispense with the costly military establishments of Spain.

The Reichstag subsequently passed the second reading of the credit for the purchase of the islands, with the loan bill and the commercial convention with Spain attached. During the course of his remarks, Baron von Buelow said: "We hold it to be our first duty to see that our relations with other Powers are undisturbed by the new acquisition, and hope that our relations with the immediate neighbors of the islands, namely, the Americans and Japanese, will only become more intimate. We have not thought of placing ourselves in opposition to the Americans in the South Pacific, and we as little wish to prejudice American interests as America contemplates injuring us without cause or reason. We shall meet the active and talented Japanese with sincere sympathy. There is no reason why, on the basis of mutual fairness and respect, the Powers interested in these regions should not live side by side, forward the works of peace and civilization. We hope, through the treaty which harmonizes the ends of the politics and economic differences, that the relations between the Germans and Spaniards will become of the friendliest description. The business concluded with Spain is an honorable transaction in which neither has bested the other. For Spain the islands were only the remnants of a ruined building. To us they are the pillars of an arch of a new fabric with a great future, please God."

During the course of the debate Herr Liebknecht, Socialist, was called to order for declaring the Government would be much better employed in removing the terrible evils existing at home, and for declaring the colonial policy of the Ministers was "ridiculous and despicable."

MILLIONS FOR DEFENSE.

Secretary of the War Office Ask Them From the Commons.

LONDON, June 21.—When the House of Commons went into committee on the military works loan bill today, the Parliamentary Secretary of the War Office, Mr. Wyndham, moved a resolution authorizing the introduction of a bill providing for a loan of £4,000,000, repayable in yearly instalments, for defense works, barracks and rifle ranges at home and abroad. He explained that this was merely a continuation of the policy laid down by the military works loan account of 1897, and pointed out that all British sea home commerce converged at a point between Cape Clear and Ushant, necessitating strategic harbors of refuge, all of which must be defended by heavy guns. On these and other works it was proposed to spend £1,000,000, and on barracks the sum of £2,700,000. The balance would be devoted to the expenses of new situations and West-Hai-Wai would absorb £150,000. After other members had criticized or supported Mr. Wyndham's resolution, Michael Davitt, Irish Nationalist, opposed it, saying he objected especially to the expenditure at Halifax, Burma and Jamaica, as being altogether unnecessary, because at present the Governments of Great Britain and the United States are engaged in diplomatic love messages, yet these proposed guns were pointed at their Anglo-Saxon cousins. Continuing, Mr. Davitt said if the Government was sincere in its professions of love and friendship, it was acting perfidiously and insincere in making these fortifications on the Atlantic Coast. The resolution was adopted by a vote of 241 to 86.

FIRST BLOODSHED.

Colored Miners Fired on When They Arrived at Evansville.

EVANSVILLE (Ind.), June 21.—The first bloodshed of the coal miners' strike that has been in progress here for two months occurred shortly after midnight. About thirty colored miners from Madisonville, Ky., came in over the Louisville and Nashville and were met at the station by James H. Moore, bookkeeper and a stockholder in the Sunny Side Company, with a wagonette driven by Edward Geiger, son of the proprietor of a furniture store. While the vehicle was passing a vacant lot, parties on sides of the road fired in the dark upon the wagonette. The driver, whipping up his horses, hurried to the mine. Patrolman Ruston was attracted by the shooting and was fired upon when he came up. A shot struck his helmet, but he was not injured. Five men were found wounded. They were: James Moore, seriously; Charles Smith, negro miner, critical; John Phillips, severe, but will recover; Ed Geiger, driver, ear shot off; Henry Smith, negro, slight; John Norsweather, negro, slight. The Sunny Side mine remains closed to-day and the imported men are in hiding. Fred Lacher, the National Committeeman of the U. M. W. A., and State Secretary, denies all knowledge of the shooting. All is quiet to-day. Governor Mount will probably be asked to prevent the importation of foreign labor.

Major Fitzpatrick Killed.

CAIRO (Ill.), June 21.—Major T. A. Fitzpatrick, Superintendent of the National Cemetery, near Mound City, Ill., was shot and killed to-day by a man named Tobin. The cause of the shooting is not known. The populace has been aroused and large parties are out looking for Tobin, who escaped. Two Smelter Plants to Resume. DENVER, June 21.—It was announced on reliable authority to-day that the Eilers Smelter at Pueblo, and the Himmattite at Leadville, both trust plants, will resume work at once and the others will follow in a few days. This ends the shutdown. A Fat Dividend. BOSTON, June 21.—The Directors of the American Bell Telephone Company, at their meeting declared the regular quarterly dividend of 3 per cent, with 1 1/2 extra payable July 15th on stock of record June 30th. Want the National Convention. MILWAUKEE (Wis.), June 21.—A movement is on foot to secure the Democratic National Convention of 1900 from Milwaukee. The Business League will put forth every effort to bring it here.

Important Things.

- We are constantly striving to make closer and stronger the bonds that hold this house to the public by: 1. Courteous, obliging service by intelligent, well-trained sales-people and managers. 2. Absolutely no fooling of the people, no deceptions, no falsehoods, direct or implied. 3. Prompt and cheerful redress in any transaction not satisfactory to the customer. 4. By far the largest assortments of goods in Sacramento or vicinity. 5. Absolutely lowest prices. 6. By special sales and offerings. In the number of these sales, in the exceptionally low prices that prevail, and in the high grade character generally of such offerings, we allow no one to even approach us.

To Butter Makers.

The old familiar butter cloth is almost a thing of the past. Clean parchment paper at much smaller cost has driven out the potato starched cotton from almost all dairies. 500 sheets parchment paper, cut for roll butter, 60c. 500 sheets for squares, 65c.

Men's Trousers, \$3.50

These trousers have made a big reputation for themselves. Customers come in and ask for "another pair of those \$3.50 trousers." We sell many pairs of them daily and buy hundreds of pairs at a time. They come in all those quiet, neat stripes that men of good taste like, as well as in plain black. Many stores sell trousers no better at much higher prices. All sizes up to 50 inches waist.

To Your Advantage.

At 276 Church street, New York, we have a resident buyer with assistants the year around. Two of our Sacramento men are about to leave for New York to augment that force, and for several months six or seven people will be there busy in the buying and shipping of new goods. Thus we have—

- 1. Through the resident men in the New York office an intimate acquaintanceship with large Eastern manufacturers and importers. 2. Through the Sacramento men who go East, close personal knowledge of just what the people of Sacramento want.

This happy combination gives an ideal condition for the best buying of goods.

The purchases of these men run into the hundreds of thousands of dollars. They get low prices, large cash discounts, and many times the first pick of choice patterns and novelties.

We speak of these things because they are of direct personal concern to the people of our city, who get the benefit in the substantial worth of our goods and the extra low prices.

That Sacramentoans know that unusual conditions in the buying and selling of goods do exist here is shown by the large volume of business done daily.

Blue Flame Oil Stoves.

Family size stoves with two blue flame burners. A perfect working Summer stove. Special price to close, \$4.95.

Garden Hose, 10c Foot.

This is an excellent quality hose for the price. Made of four-ply ducking with coating of fresh, clean rubber. Price, 10c foot.

New Chiffoniers, \$9.50.

We are showing at least twenty styles of chiffoniers. To-day we speak of but one. It is made of choice selected ash that takes a nice polish. The cabinet work is excellent. The chiffonier has six drawers and stands 5 feet high and is 40 inches wide and 20 inches deep. Our price, \$9.50.

We also have the same chiffonier with real French bevel plate mirror in fancy shape and size 13 by 23 inches. Price, \$14.75.

RECIPROCITY TREATY.

Bermuda Reciprocity Commission Arrives in Washington.

WASHINGTON, June 21.—The Bermuda reciprocity commission has arrived here to open negotiations for a reciprocity treaty. Accompanied by Mr. Tower, the British Charge, who will represent the home Government in the negotiations, the members of the commission called at the State Department and met Secretary Hay and Commissioner Kasson. The conferences on reciprocity schedules will not begin until next week. The reciprocity treaty for British Guiana has been completed and copies of the final draft have been forwarded to London and Guiana for approval. This was a step of precaution, although no doubt is felt as to the approval. When received the treaty will be signed by Mr. Kasson and Mr. Tower representing the two Governments.

MURDERED BY REBELS.

A Frenchman Who Interceded for Release of Spanish Prisoners.

MADRID, June 21.—A dispatch to the "Imparcial" from Manila says: Baron Dumarais, a Frenchman, who went to the rebel camp to intervene in behalf of the Spanish prisoners in the hands of the Filipinos, has been treacherously murdered. The first report of the murder of Baron Dumarais was received in New York from Manila under date of May 11th. It was announced that T. B. Dumarais of Philadelphia, a brother of the Baron, was seeking information concerning the fate of the Baron. Adjutant General Corbin telegraphed to General Otis, who replied as follows: "A committee of citizens sent Citizen Dumarais to the insurgent authorities to intercede for the release of the Spanish prisoners. The last information regarding him was that he was with Luna at Calumpit before the town was captured. It is the belief of many citizens here that Dumarais was murdered. Others believe that he is held a prisoner."

GILLETTE LEAVES CHIHUAHUA.

He is Reported to Have Been the Victim of Blackmailers.

KANSAS CITY (Mo.), June 21.—Grant G. Gillette, the Kansas cattle plunger, whose failure last winter for nearly \$5,000,000 caused a sharp flurry in financial circles, is reported to have suddenly left Chihuahua, Mexico, where he has been in the hotel business since his flight from his creditors. The Kansas City "Star" states that Gillette has taken his family to the City of Mexico, whence they will go into Central America, where the plunger hopes to engage in business and be safe from the creditors and others who have hounded him in Chihuahua. According to the "Star," Gillette has been a victim of blackmailers, who have repeatedly threatened to kidnap him and bring him back to the United States.

MRS. RICH'S CASE.

Mexican Government Designates a Commissioner to Present It.

WASHINGTON, June 21.—The Mexican Government has designated a Commissioner to present the extradition case against Mrs. Rich, now held in Texas on the charge of having killed her husband in Mexico. The American officials are loath to surrender Mrs. Rich until the case against her is well established, as her extradition would mean a foreign trial and punishment. On the other hand, the Mexican authorities hold that the crime will go unpunished unless the accused is surrendered to Mexico, as the American courts have no jurisdiction over a crime committed abroad. The Mexican authorities have been allowed until the 27th inst. to make out their case before the court at El Paso, where the accused is held. The papers were to be forwarded here for final consideration. Under the treaty the President has discretion to grant the extradition or refuse it without referring to the hearing.

CHEMICAL EXPERTS.

Will Come Here to Meeting of Official Agricultural Chemists.

WASHINGTON, June 21.—Three of the chemical experts of the Agricultural Department, Professor Willey, Chief Chemist, and Professors True and Runyon, will join a party of chemists, which will leave Chicago June 28th for San Francisco, where the association of official agricultural chemists will hold its annual session on July 5th. This meeting with one previous exception, has always been held in Wash-

INGTON, but the invitation to meet on the Pacific Coast was accompanied by the guarantee of a very substantial entertainment with excursions covering the whole of California.
