

NEW TREATIES IN FORCE WITH JAPAN.

Imperial Rescript Issued by the Island Emperor

Prior to the Conventions With Foreign Powers Going Into Effect.

Expresses the Desire That Loyal Subjects Will Observe the Policy Laid Down at the Time of the Opening of the Country, Combining to Cultivate Friendship With Strangers and Thus Maintain the Dignity of Nation and Promote the Prestige of the Empire.

VANCOUVER (B. C.), July 19.—Mail advices from Japan contain the Emperor's imperial rescript issued before the new treaties went into effect. It reads in part as follows:

"We, the Emperor of Japan, by the glory of our ancestors, have been enabled to enlarge the scope of official organization and of enlightened Government to bring about a growth of national prosperity, and to extend our amity and friendship with foreign powers. The revision of the treaties with all the treaty powers, which had been our long cherished desire, has now been accomplished after repeated efforts. It caused us heartfelt gratification to see that while the responsibility of the empire will become greater on the coming into force of new treaties, our relation with foreign powers are even more friendly than ever.

"We desire that our loyal subjects who are ready to work for the sake of the country's welfare will bear our wishes in mind and observe the policy laid down at the time of the opening of the country, combining in their hearts to cultivate friendship with strangers and thus maintain the dignity of the nation and promote the prestige of the empire."

The Japanese Cabinet has issued instructions stating that unless the treaties are put into force properly it is to be feared that not only will the object of revision be lost, but that the confidence of friendly nations will be forfeited and the prestige of the empire injured. While rights to be secured with justice in consequence of the revised treaties, should be firmly held, it is the duty of the government of the empire and of the nation at large to protect the rights of foreigners perfectly and endeavor to cause them to live comfortably and with ease in our country. It is to be desired that officials concerned should keep the wish of his majesty in view and endeavor to act carefully.

Owing to the new Japanese treaties, many foreign residents are leaving, as they fear it is dangerous to entrust their lives and property to the protection of Japanese laws, but the authorities find that "the exodus of foreigners is really due to the fact that since the Japan-Chino war prices of commodities have increased almost three times. The rise has seriously affected foreigners of the lower and middle class, who have experienced great difficulty in subsisting under altered conditions.

CHIEF JUSTICE CHAMBERS. Declared That He Has Not Resigned His Office in Samoa. WASHINGTON, July 19.—Chief Justice Chambers of Samoa has not ad-

vised the State Department of his intention to resign his office, as reported in the press dispatches coming from Apia, via Auckland. In fact, the department is so far without official advices from Mr. Chambers or any members of the Samoan Commission by the latest steamer, which inclines the officials to the belief that the fight said to have taken place in Samoa among adherents of the late aspirants for the throne must have been small matters and without international significance, as seems to be indicated by the reported co-operation between the German and British naval commanders in making arrests of the malcontents.

The report of Mr. Chambers' intention to resign, if it should turn out to be true, would be no surprise to the officials here, as it is pointed out that his position was untenable after the conclusion of the arrangement by the Samoan Commissioners. It is suspected that Mr. Chambers' resignation possibly was dated to take effect upon his arrival in the United States, in which event there would be no vacancy until that date. The treaty provides that the President of the Municipal Council shall assume the duties of Chief Justice in the event of a vacancy in that office, so that the controversy between Mr. Solf and the members of the commission is probably based on a purely technical point as to when the vacancy occurs.

However, these are not regarded as material points by the officials, who have all along felt convinced that more important matters relative to the Samoan situation remain to be settled by direct negotiations between the three treaty powers, after the commission shall have submitted its report as a basis.

INDUSTRIAL COMMISSION.

The Sub-Committee Concludes Its Hearings at Denver.

DENVER, July 19.—The sub-committee on mines of the United States Industrial Commission closed its labors here to-day and will leave this evening for Wallace, Idaho, to investigate the Coeur d'Alene troubles.

Ex-United States Senator N. P. Hill, manager of the Boston and Colorado smelter, one of the anti-trust concerns, was the only witness to-day. Senator Hill declared his strong opposition to trusts of all kinds. He thought they were detrimental to the public welfare, but could not see how they could be eliminated by law. He said he favored labor organizations as a means of maintaining wages. He opposed the eight-hour law and declared that the men in his smelter preferred the ten and twelve-hour system.

Manchester Fend.

LONDON (Ky.), July 19.—The death of Ed. Fisher makes four fatalities in the fight near Manchester Monday. The reported death of Robert Philpot is incorrect, but it is thought he will be the fifth victim. Green Griffin, who had both legs shot off, will also die. George Philpot and Alex Fisher are reported as recovering. It is claimed that the Philpots have 100 friends assembled, armed with Winchester, awaiting threatened attack from the Morris, Griffin and Chadwell factions, who are reported only two miles distant with an equally strong armed force.

Mrs. Ansell Hanged.

LONDON, July 19.—Despite strenuous efforts to secure a reprieve, including an appeal to the Queen, Mary Ann Ansell, who was convicted of murdering her sister, an inmate of an insane asylum, by sending her poisoned candy, was hanged to-day at St. Albans. The crime for which Mrs. Ansell was executed was committed for the purpose of securing the payment of life insurance money, the murderess having obtained a policy upon the life of her sister, giving a false description.

SHAMROCK AGAIN WINS.

DEFEATS THE BRITANNIA IN THE SECOND RACE.

The America's Cup Challenger Runs Aground After the Contest but Suffers No Damage.

COWES, July 19.—There was beautiful weather to-day for the second trial of the yacht Shamrock, challenger for the America's cup, against the Britannia. There were big crowds both ashore and aboard to witness the race. The course to-day was yesterday's course reversed. The starting point was off the Royal Yacht Squadron's house, thence to Nab Lightship, finishing at the Spit buoy, off Portsmouth.

The Prince of Wales boarded the Britannia about 10 o'clock. There was a good southeasterly breeze blowing all the morning, but it softened considerably toward the time for the starting of the race. Both yachts carried clip topsails. A good start was effected at 10:12 a. m., the Shamrock crossing the line half length ahead of her competitor, being very smartly rounded. She had a new spinnaker for the run to the Solent Bank, and her sails seemed to set better than yesterday. The breeze almost died out as the yachts stood along shore and the boats housed their spinnaker. The Shamrock then headed for the center of the channel to avoid being becalmed on the lee of the island. The Britannia followed. There was but little air, and the yachts practically drifted during the next half hour. The breeze then revived and the Shamrock, which meanwhile had slightly increased her lead, secured a steady widening the gap that separated her from the Britannia and rounded the Solent Bank buoy at 11:17:20. The Britannia rounded the buoy at 11:21:35.

The boats returned crouched up the bay toward the center of the channel. The faintest breeze and the Britannia was getting the best of it, slightly reducing the gap. Nearing Cowes, however, the breeze freshened considerably and the beat to Nab Lightship promised to show better time.

The Shamrock passed Ryde, going toward the Nab Lightship, a mile and a half ahead of the Britannia, and finally won easily. The course of the race with the Britannia, as originally planned, was not completed. When off Southampton, the Britannia signalled that the Prince of Wales had an engagement in London and requested that the race be considered over, as he must return to Portsmouth. The Shamrock was then twelve or fifteen minutes ahead. She was immediately turned homeward and directly afterward rounded on a bank off Horse's Foot Fort. She remained fast for ten minutes, when she was safely and easily towed off and back to Southampton.

As was the case yesterday, the Shamrock showed her superiority very soon after the start was made. Beating to windward, she ran away from her opponent to the Nab Lightship and went about in ten seconds, the Britannia occupying twelve seconds. The whole performance again showed that the challenger is far ahead of the Britannia, although the unfortunate becalming of the boats precluded the finishing of the course before the Prince

of Wales was obliged to start for London.

VOLUNTEER REGIMENTS.

Extra Inducements to Expedite the Recruitment.

WASHINGTON, July 19.—The War Department is offering extra inducements to expedite the recruitment of the ten volunteer regiments. Nearly all the commissions having been issued, many of the disappointed applicants have been advised to enter the ranks, as in that way it may be possible for them to secure commissions. General Corbell says that the policy of the administration will be to fill all vacancies which may occur among commissioned officers from the ranks. A number of applicants for commissions have enlisted as privates in the different regiments, and have been appointed non-commissioned officers whenever possible. Consequently the next in line of promotion is commissioned rank in the event of a vacancy.

Another method of securing recruits is to offer commissions to men otherwise qualified who will undertake to furnish in each case not less than forty men who can pass muster as soldiers, and who enlist for service in the Philippines. There have been several cases of this kind during the past week.

CLAY COUNTY TROUBLE.

Governor Bradley Will Order No Troops to the Scene.

FRANKFORT (Ky.), July 19.—Governor Bradley will not call a special session of the Legislature, neither will he send troops to Clay County under present conditions. He reached this conclusion to-night. He thinks the Legislature would not enact legislation relating to the judiciary necessary to reach the Clay County situation, and he doubts if the military would do any good there. A well-known mountain official, who was called on by the Governor for an explanation as to what was the best measure to be resorted to for the restoration of order in Clay County, responded that he thought the whole thing could be settled by introducing a better grade of whiskey into Manchester to take the place of moonshine liquor, distilleries for which are on almost every farm.

Mysterious Epidemic in Sweden.

STOCKHOLM (Sweden), July 19.—A mysterious epidemic which has been prevailing recently among the cattle on the island of Gorned, has spread to the human beings in the district, and a large number of patients have been admitted to the hospitals. Some of the cases are extremely difficult to diagnose. Cattle are dying by hundreds throughout the island as a result of the epidemic.

The Late Casarowitch of Russia.

ST. PETERSBURG, July 19.—The remains of the late Casarowitch, escorted by Grand Duke Nicholas Michailovich and other dignitaries, were to-day transferred to a church five miles from Abas Tuman, whence the cortege will start to-morrow on the journey to Batoum.

Transvaal Franchise Law.

PRETORIA (South Africa), July 19.—The Volksraad has adopted further articles of the franchise law, enabling sons of Uitlanders to become naturalized at the age of 16, and to obtain the franchise of the voters thereafter.

NEW YORK STREET CAR STRIKE.

(Continued from First Page)

trate Brenner. The charge of vagrancy against the men was dismissed, and the entire party was held for examination Monday on a charge of conspiracy. Bail was fixed at \$750 in each case.

William Askey, employed as an investigator by the Brooklyn Rapid Transit Company, made an affidavit to-day in which he said that he had attended a meeting of the strikers late Monday night at which the statement was made that unless the elevated people joined the strikers they would cause dynamite and blow up the elevated structure. Askey affirms that sixteen of the men arrested this morning were at the meeting, and indorsed the suggestion with shouts of approval. The police claim that they have evidence that those men purchased the dynamite used this morning.

President Rossiter has offered \$1,000 reward for the arrest and conviction of one or more of the dynamiters. General Master Workman Parsons to-day offered a reward to \$500 for any legal proof that a legitimate striker had engaged in violence against human life, such as the use of dynamite or other atrocious proceedings.

Praise for Admiral Dewey.

VIENNA, July 19.—The "Neue Freie Presse" has an article to-day heartily welcoming Admiral Dewey to Austria. Recalling the bold coup de main at Manila, that paper sees in the Admiral the personification of daring coolness, and dwells on his calmness and amiability, describing him as an admirable soldier and a gentleman who can be placed in the category with De Ruyter, Nelson and Tegethoff. The "Neue Freie Presse" then says: "The great welcome extended to Admiral Dewey is not intended for the hero, but above all for the great representative of the great American nation to which Austria-Hungary is united by so many ties of interest."

Alaska Boundary Dispute.

WASHINGTON, July 19.—Senator Fairbanks, Chairman of the Joint High American-Canadian Commission, had an interview with Secretary Hay this afternoon. He is still confident that some arrangement may be made which will result in a resumption of the Alaskan boundary negotiations. He reported to the Secretary the conclusions he had reached as a result of his observations in Alaska.

Few Deaths in Oregon Regiment.

WASHINGTON, July 19.—A statement prepared at the War Department shows that of 56 officers and 1,316 men enlisted of the Second Oregon Regiment, only 49 were killed in battle or died of disease during the campaign in the Philippines, a percentage of 3.6. The total number of officers and men to-day transferred to San Francisco is 1,104, a number of discharges having been previously made. Only two are marked as deserters.

Colonel Ray at St. Michael.

HEALY (St. Michael Island, Alaska), July 8 (via Vancouver, B. C., July 19).—Colonel Ray and three companies of the Seventh Regiment arrived at Fort St. Michael this morning on the steamer St. Paul from San Francisco.

Woman in Her Home.

"Another means by which a woman's success and happiness are secured at home is in making herself felt as the mistress of the household," writes Katherine Reich in the "Ladies Home Journal." "She must be the one to arrange hours of work, and not the servants. She must be the one to regulate the habits of the children, and not they themselves. It is for her to set the standard of the home life. Her position requires firmness, and every member of the family should recognize and yield to her authority in her own domain. Let her assume with courage and dignity the authority which belongs to her, so that every one shall feel she is equal to it, while at the same time she welcomes counsel and suggestion from others. There are women who are too ignorant or indifferent to guide their homes successfully, and women too weak to meet the responsibility, women who are in terror of their servants, or slaves to the whims of children or husbands. It is not so that happy homes are made. Just as a man directs the work of his subordinates and keeps the control of all his business in his own hands, so the woman who has a home to guide must be ready to assume and control the affairs of her household. Observation and experience go to show that as the years bring added responsibility, and also added comforts to the woman at home, she finds her restlessness growing less and her satisfaction growing deeper. The college reedes to its proper place as the academy of life, and the wife and mother realizes that heart and mind are filled to the utmost. Her great anxiety becomes rather to use all the opportunities open to her than to wish for others. She finds herself absorbed in her work without the feeling that she has been thwarted in her most serious ambitions."

Painted coffee beans are among the latest curiosities of the adulterated food market. Inferior beans are colored with burnt lumber and made to look like the finest Mocha. They are described as "shiny brown outside, yellow inside and tasteless."

EMACIATION NERVOUSNESS PALENESS WEAKNESS PAIN IN BACK INDICATE KIDNEY DISEASE HUDYAN CURES 50c

The kidneys are most important organs, for they are the filters of our systems. When they fail to perform the work intended for them, the blood becomes overcharged with the waste matters of the body and the poisons that breed disease, and the result is sickness and suffering. The health of the kidneys themselves depends upon their proper working. If your kidneys are weak, if you notice a sediment, if you experience any of the above symptoms, it is time to guard against serious disease. A few doses of Hudyen will now suffice to avert the danger that is threatening. It is best always to begin treatment early, just as soon as the first symptom is observed. If anyone goes on suffering the pangs of kidney disease he will have himself or herself to blame. Hudyen is within the reach of all. It is a positive cure. Hudyen is for sale by druggists, 50c a package or six packages for \$2.50. If your druggist does not keep Hudyen, send direct to the Hudyen Remedy Co., cor. Stockton, Ellis and Market, San Francisco, Cal. You may consult the Hudyen doctors about your case free of charge. Call or write.
