This will also be the last opportunity for children who are writing prize descriptions of the garden to visit it and to make final notes.

A New Feature!

Special Prize of a Twelve Volume Set of Encyclopedias.

As is well known we have offered some 200 prizes, consisting chiefly of books, to the boys and girls of Sacramento, twenty years of age or under, that write the best descriptions of the Japanese tea garden. This offer is open to those who do not attend school as well as to those who do.

In order to awaken among those who attend school class interest as well as individual interest, we have decided to make one large prize offer, as follows:

After the 200 prizes have been awarded, the prize manuscripts written by the young people attending schools will be reassorted by classes. The class that is found to have the greatest number of prize winning pupils will be presented with a handsome twelve-volume set of Universal Encyclopedias. This offer is open to the classes in any private, public or denominational school, providing the class contains at least twenty members.

Manuscripts must be handed in by Wednesday evening, November 1st, and are to consist of not over 500 words. We furnish free suitable paper with neat printed heading upon which to write the descriptions.

Professor Mathews, the phrenologist, will be here this week, 9 to 12 a. m., 2 to 5:30 p. m. He examines the "bumps" in heads free of charge. He tells the good qualities and the badness that these bumps indicate. Don't mind if he tells some plain truths. He throws in plenty of good advice in his talks, and we are quite sure that he will make many friends. Parents are especially invited to bring in their children.

THE LOCAL WHEELMEN.

C. C. W. Men Soon to Hold Their Annual Club Road Race. The Capital City Wheelmen had a rousing meeting last night, and after club business was disposed of were much entertained by Walter Leitch in a recital of his impressions of Luzon and the Philippines.

The Race Committee reported progress, which was satisfactory to the club, as it showed that the entertainment of the 22d, besides resulting in a great victory, paid expenses. After adjournment the Race Committee met and declared the annual club road race open to all members, under handicap declarations, to take place November 5th over a section of the Riverside road, finishing at the city end. This is an annual event for club members, old and young, on any kind of a wheel a member chooses to ride, with a whole list of prizes for winners and even some "consolations." Entries are to all be in by November 3d at 8 p. m., giving two days in which to make up the handicapping list.

This is a merry event always, and is invariably greatly enjoyed. The distance will be about three miles. Possibly a time prize will be given in addition to a long list of others. This is a race in which the "have-beens," as well as the "now-ares," can enter, the handicapping adjusting things to a supposed equality.

To-morrow evening the Race Committee gives a supper on its own account to the ten riders who tripped the heels of the Olympics on the 22d. On this occasion the handsome trophy to which the winning club is entitled for the relay race of Sunday will be for the first time exposed, and the next day it will be placed on public view. It makes the fourth trophy cup the club holds. This time the "cup" is, however, not of silver, nor is it a cup, but an antique vase in rich gilding, with chrysanthemum embellishment in enamel.

LIVE WIRES.

They Caused Two Fires in the Pavilion Last Night. Last evening an electric wire set fire to the cloth and paper booth in the main hall of the New Pavilion used by the Buffalo Brewing Company at the State Fair. HAGENBACK'S WILD ANIMALS.

War in Africa Interferes With His Plans.

(Special Correspondence.) BUFFALO (N. Y.), Oct. 22.—It has probably not occurred to a half dozen men on the Western Continent that the war which the doughty old Paul Kruger is at present attempting to wage against that great mailed knight, Great Britain, in the Transvaal could possibly have any effect upon the Pan-American Exposition which is to be held in the city of Buffalo in the summer months of the year 1901, but Carl Hagenback, the greatest animal purveyor and tamer in the world, was a caller at the office of Chairman Bleistein of the Publicity Department a day or so ago, and he was much worried at the possibilities.

Mr. Hagenback, who is a venerable gentleman, resembling very much the lamented Lincoln, had, as many people know, the greatest collection of wild beasts exhibited at Chicago during the World's Columbian Exposition that the world has ever seen. His great zoological gardens at Hamburg, Germany, are the wonder of the animal world and the despair of circus men there he has thousands and thousands of wild beasts from the interior of Africa, South America, and in fact, from every spot on the globe where the untamed original inhabitant is wont to roam.

Besides the thousands that he has at those great gardens he keeps constantly in his employ the bravest hunters of the Allan Quatermain type that it is possible for money to employ. From January to December of each year these fearless men, accompanied by bands of trusty blacks, scour the jungles and plains of Africa, catching lions, tigers, elephants, hippopotami, rhinoceri, and all the savage animals and venomous serpents which abound in the Dar-el-Arabi, and shiploads of these hard-caught specimens are transported to Germany and there placed in the gardens of this mammoth purveyor of rare animals.

The circuses of the world buy from him, and the zoological gardens of the universe would go out of business were he to stop collecting. And now Oom Paul and Joseph Chamberlain have stepped in, and in the very heart of Hagenback's collection territory they have started a war that promises to be one of the bloodiest and bitterly contested in history, and Mr. Hagenback is worried in consequence.

"I must hurry back to Germany and get in immediate communication with my men in Africa," said the venerable gentleman Friday, when urged by the management of the exposition to remain a week. "I had intended when I so called to spend some months in America, but the affairs over there have put so bad a light upon my affairs that I must hurry back. I want to place with the Pan-American the greatest show ever seen in the animal line, and hope to get a collection of 1,500 or over 2,000 animals from the wilds of Africa for the show. I want a herd of elephants, dozens of great forest lions

and hundreds of other specimens, and though I have many magnificent specimens at home at the present time, I had hoped to send a couple of shiploads from Africa especially for the fair of 1901. If the war between the British and the Boers continues, and at present it looks as though it would be a long-fought and a bitter contest, there will be little probability of my being able to get any specimens in Africa, and still less chance of being able to get them safely away from any of the seaports."

Mr. Hagenback's words were a surprise to his listeners. All had figured that the war between the British and the Boers was so far away that it was merely an interesting detail to read about in the dispatches, but the thought that it could in any way mar the great project in which all were so much interested had not before entered the head of a single man present.

OUT OF PLUMB.

Wm. Baumann's Mental Works Not Just Right.

William Baumann was yesterday arrested by Officer Higgins and charged with vagrancy. Some time ago, Baumann, who was thought to be demented, was before the local Lunacy Board, but was discharged, since which time he has regularly applied at police headquarters for lodgings.

He appeared last evening, minus coat and shoes, and when asked where he was said he had thrown them away. He is considered by the police an unsafe person to be at large.
