

LOCAL NEWS.

The Billito was booming yesterday, along its upper course, from rain near Pantano.

Gila monsters nibble at the heels of the Tomstone children along the streets.

The Narrow Gauge railroad has another five mile section about ready for inspection.

Mr. W. J. Ferry, proprietor of the Lexington shales, will go to Fort Huachuca tomorrow, on a short visit.

Secretary Jas. A. Boyd and bride, and Miss Deakin, his wife's sister, have safely arrived at Prescott.

Mrs. W. P. Woods and her daughter, Miss Gertrude Ballard, have returned from a visit to Red Bluff, Cal.

A very fine rain fell last night. It came down softly and steadily and the ground absorbed nearly all of it.

Mr. A. O. Short and Miss Amanda Roberts, of Tempe, Maricopa county, were married on Sunday, August 1st.

The taxable property of Pima county looks up to \$3,322,851, by the estimates returns. The city valuation is \$1,280,253.

The hydrant water begins to assume its normal consistency and appearance again. The mud is nearly all out of the mains.

Mr. Charles Taylor, for a long time connected with the office of Frank & Co., leaves for Santa Fe, New Mexico, tomorrow.

Sam Drachman is somewhat on the sick list, but is still able to get about. He will leave next week for a trip to San Francisco.

Supt. Noble has returned from El Paso. He says the rains along the road have been purely local and very heavy, particularly near Lordsburg.

Many carp that were flooded out of Warner's lake into the aqueducts are being caught. Some of them are very large, weighing as high as fifteen pounds.

The republicans will meet in Reid's Opera House tomorrow night to form a campaign club. Every republican is invited to attend and participate in the organization.

Joseph Pascholy, of Tombstone, and Miss Leona Hayes, daughter of Mr. Hayes of the Babacomb ranch, were married in San Francisco, on Wednesday afternoon.

County Surveyor Geo. J. Boskrage will soon start upon a survey of the southern portion of Pima county and Judge W. J. Osborn will attend to his local official duties.

A new find of rich mineral is reported from the Haysway district midway between the Sterling mine and the Blue Dick. It is silver ore and assays show a value of \$23.18.—Journal Miner.

To-morrow, being Sunday, the San Xavier service at the cathedral will be provided, as usual, and the guests will be full and happy.

Mr. Thomas Wilson, the fragile lumberman, will be a passenger by today's train for San Francisco, whither he goes to enjoy the ozone and fish shower and to attend to business matters.

The Palace dining rooms, under the careful management of Mr. McElwain, are being liberally patronized. He makes a specialty of Sunday dinners which cannot be surpassed anywhere.

The Phenix Herald has issued a neat and useful pamphlet upon the resources of Salt River valley. It contains very valuable and reliable information to parties seeking homes in this Territory.

George McFeeley eloped with Miss Clara Falkerson, in Tombstone, and they were married on Wednesday evening, in spite of the opposition of the young lady's mother who had declared it should never be.

The Phenix Herald has issued a neat and useful pamphlet upon the resources of Salt River valley. It contains very valuable and reliable information to parties seeking homes in this Territory.

Narrow Gauge Shops.

At the last regular meeting of the county board, practically denied the application of the narrow gauge railroad company for a lease of several vacant blocks of the worthless land west of the cemetery, for its shops. The area asked for contains about seven acres, and the road once held a lease thereon which expired recently, although it technically complied with the conditions and can hold it in spite of the caprices of the council, if it so desires. However, it was suggested to the company that a surrender of the old lease would be followed by the enactment of a new one upon like terms and conditions, and the application therefor made.

The rejection of the application was done ostensibly for the reason that it did not definitely state how many miles of road would be constructed, how many stalls the round house would contain, nor the general extent and capacity of the shops—matters which the future traffic of the narrow gauge railroad would require. The record shows that Councilmen Sullivan, Gifford, Stevens and Samanog voted against the application and Councilmen W. F. Smith and George Fenix, in a wagon with his family, but failed to reach here as yet. Friends insisted inquiry and can learn nothing of Mr. Fenix's movements since passing Seymour, coming the way he disposed of his property recently and is supposed to have left home with considerable money, hence the apprehension that he may have been in some deal with a party will leave here to-night to inquire into the matter.

Mr. and Mrs. Jose R. Vasquez have met with a deep affliction in the death of their little daughter, three years of age, who died suddenly on Sunday morning, at six o'clock, and was buried from the Catholic church at five o'clock on Monday. Mr. Vasquez is a member of the friends and acquaintances attended, and Pioneer Home Company No. 1, of which Mr. Vasquez is a member, and which they have been assisting with better facilities for operating them. They will not return their application to the city for a lease to the land selected, upon which they now have a small blacksmith shop, but will regard the loss of their daughter as evidence of hostility to their enterprise.

The Phenix Gazette says: Some fears are entertained for the safety of Barney Martin, who has resided for many years at Antelope on the Wickenburg road. They were from a camp near the Phenix, in a wagon with his family, but failed to reach here as yet. Friends insisted inquiry and can learn nothing of Mr. Fenix's movements since passing Seymour, coming the way he disposed of his property recently and is supposed to have left home with considerable money, hence the apprehension that he may have been in some deal with a party will leave here to-night to inquire into the matter.

Phenix fruits seem to be of far better quality than those brought from California, and they sell more readily in the market. The Phenix fruits are especially picked when quite green and are ripening normally, they simply wither and lose much of their good qualities. The Phenix fruits come to hand ripe and fresh, and at a price considerably below those from California. Mr. A. B. Hayes, at the office of Connors & Fenix, fruits at wholesale and retail.

Conrad Mandelstein returned from Wood's station, on the Quitova road, last evening, safe and sound. His misadventure from a camp near the Phenix, in a wagon with his family, but failed to reach here as yet. Friends insisted inquiry and can learn nothing of Mr. Fenix's movements since passing Seymour, coming the way he disposed of his property recently and is supposed to have left home with considerable money, hence the apprehension that he may have been in some deal with a party will leave here to-night to inquire into the matter.

Mr. Geo. L. Schofield was in this morning from the St. Helena ranch, near Davidson's cañon on the Santa Rita. He brought in the scalp of a fine cinnamon bear that came to an untimely end by coming into business with which it had no cause to mix. The schoolboy returned home this afternoon.

A Mexican was found with a horse belonging to Mr. W. W. Baldwin, of Benson, early this morning, and quite a little excitement was created when it was found that the horse was being held with resistance from the Mexican. Judge Scott adjusted the trouble by giving Mr. Baldwin his horse and returning the Mexican to the owner of the animal through a mistake.

Such quantities of fish were scattered over the Santa Cruz bottom by the overflow that the stench was almost insupportable. It is reported that the low lands are being peddled large strings of fish, many of which have already been picked up on the bottoms and after they died from exposure to the air.

The street commissioner gathers up all the sweepings every Saturday morning, and if people will place a box containing their sweepings early on the morning of the day he will pick them up. The street commissioner will take them away. This plan will prevent the streets becoming strewn with dirt and rubbish.

The Chinaman employed by Mr. T. A. Judd, who was working at the mine, severely cut his left hand with a broken piece of glass. The great gash severed a number of blood vessels and the matter is being treated by a doctor. The California Wine House to Dr. Hady's office.

Mr. J. V. Vickers, of Tombstone, spent Sunday in this city, on his way to Phoenix. He was accompanied by his wife and children, and both were very much pleased with the city. He will leave to-day for the Salt River valley.

In many places along the Santa Cruz, to the south, the rains have been very heavy and severe that they have done almost as much damage as good, as the water run off too quick to soak the ground. It is a regular flood, washing away bridges, dams, etc., in its mad flight.—Tombstone.

The residence of Mr. and Mrs. McCowan, at Tombstone, was broken into in some unaccountable manner, probably with a dynamite cartridge, about one o'clock on Tuesday morning. The house and contents were badly wrecked but no one was seriously injured.

The Phenix Fire.

The following is a list of the losses by Friday's fire in Phenix, as estimated by the Herald of this city: Minor building, totally destroyed, valued at \$2,000; insured for \$3,000. Asher Bros., warehouse, goods and fixtures, totally destroyed, valued at \$25,000; insured for \$12,500. C. C. & Co., stock and building, damaged, estimated roughly at \$12,000; entire insurance held, \$12,000. Goldman & Co., stock and building, damaged, estimated damage \$15,000; insurance held on stock and building \$16,000. Lemon & Co., building totally destroyed, valued at \$4,000; insured for \$2,500. Geo. F. Coats, stock and fixtures; damage, estimated at \$3,000; insured for \$1,500. R. C. Pearson, saloon stock and fixtures destroyed, valued at \$5,500; total insurance \$2,500. Kales and Lewis, Jacobs' building, totally destroyed, valued at \$3,000; insured for \$1,200. H. McCann and W. F. Smith, saloon, stock and fixtures, totally destroyed, valued at \$3,000; insured for \$2,000. H. Baumaker, fixtures of barber shop, totally destroyed, valued at \$2,000; insured for \$1,000. M. Jacobs & Co., stock of goods and fixtures destroyed, valued at \$18,000; insured for \$11,800. C. S. Snel, saloon fixtures and stock totally destroyed, valued at \$3,800; insured for \$1,800. J. S. Snel, building totally destroyed, valued at \$4,500; insured for \$4,500. T. H. Seelig, stock of cigars and fixtures, valued at \$2,200; insured for \$1,000. C. S. Cloud restaurant, fixtures and furniture totally destroyed, valued at \$1,200; no insurance. D. H. Roberts, wearing apparel, valued at \$400; insured for \$200. L. H. Goodrich, building totally destroyed, valued at \$9,000; insured for \$2,000. Kales & Lewis, bank fixtures damaged, \$200; no insurance. Valley Bank, fixtures damaged, \$200; no insurance. Wright & Co., fixtures of bakery, etc., totally destroyed, valued at \$200; no insurance. J. W. Trenchard, wearing apparel destroyed, \$300; no insurance.

Florence Facts. (Continued.) A gentleman from Mammoth says the Mammoth mill and mine has been sold to a San Francisco company for \$200,000. Mr. D. C. Stevens returned from Tombstone and the lower county Saturday, and says pinkeye is epidemic in the Mammoth district of the Territory.

Under treatment of Dr. Mitchell, Judge J. D. Miller is rapidly regaining health. He is now able to take outdoor exercise. Children from Tucson are invading the Old Head district, this county, with the intention of leaving mines and shipping ore.

Mr. N. White, the cattle man, has opened a station at the summit between Benson and Phoenix, which will keep his splendid water and will feed and water teams at reasonable rates. Mr. George N. Finch has moved his cattle out to the new ranch, which lies about twenty miles south of his old place. He sues another well at his new ranch, and at depth of twenty feet struck a strong flow of good water.

Mr. R. N. Martin has, we understand, obtained a large contract on the new canal and will have a large force of men engaged in its construction. This is the first of the kind in this Territory. The canal is to be completed by the first of September at the latest. His company and the Florence Canal and Navigation company have, we understand, "pooled their resources" and will make the canal a grand success. "As well, as it places the enterprise upon a solid basis."

The government has sent a steam pump to the Pima Indian Agency, this county, to be used in raising water from a well for the purpose of irrigating the lands of the Indians. The pump will raise three thousand gallons of water per minute, and will be used to irrigate a large tract of land. The pump will be used to irrigate a large tract of land. The pump will be used to irrigate a large tract of land.

INDIAN COURTSHIP.

How the Copper-Colored Romeo Wins His Dusky Mate. A Courtship of Quietness—Without Whispers or Kissings—Obtaining Consent of Parents and Relatives—Fasting for the Wife—Marrying a Wife's Sister.

There are many different ways of doing the courting—some that differ from our own, yet no less cunning and successful. Whether successful or not in the end, the young man usually has for one or two pleasures of life is not in the least diminished; he meets his disappointment in love unlike his friend, the doctor, who, during unfavorable terms, feels his meals, looks pale and contemplates the various ways of suicide.

When a young man likes a girl, he soon discovers her feelings toward him. He will carefully follow her footsteps, until he catches her alone—sitting on the grass, on a rock or dead tree. He quickly throws a blanket over her, and she crawls to her side under the protecting shelter. If the girl likes to be thus captured, there will be peace and quietness, and they will sit side by side for hours, without whispering, kissings, or other endearing little trifles—they simply press closely together and look happily at each other as they gaze into the distance. This will be a short, sharp and decisive battle, which always ends in the defeat of the amorously inclined swain, for he dare not persist by force.

One of the new locomotives was started from Pittsburg, July 27. Fourteen flat and box cars had left Pennsylvania loaded with coal, and twenty cars and 50 teams and 140 men are at work. Men and teams work 10 hour each day. There are three camps. The grader is operated by from 10 to 12 animals and grades 1800 yards per day. E. Kelly is superintendent. Mr. Welton is the engineer, C. W. Beach is superintending grading, etc. Mr. Bullock is every where. A powerful A. P. engine is hauling material on a pretty long construction train.

The worst part of the north end of the line is not finished, and work will be pushed with much greater rapidity. We rode some ten miles over the road and found it very "steady" for a new one. Material is first class. Mr. C. B. Foster remained behind to measure and inspect the road. As soon as 20 or 25 miles shall have been completed, stages will run to the road and freight will be delivered.—Prescott Courier.

Mr. C. B. Foster, inspector, having measured the road, and found it to be in good condition, and that the material was of the best quality, he has ordered that the road be completed as soon as possible. The road is now in good condition, and the material is of the best quality. The road is now in good condition, and the material is of the best quality.

The father of the girl would suggest that both families should have a party and a feast, and hold court concerning the proposed alliance. This is the custom of the Indians, and it is done within a few days, and usually results in a decision. The father of the girl would suggest that both families should have a party and a feast, and hold court concerning the proposed alliance.

When a white man marries an Indian woman, it is a genuine sale, growing out of many causes. He disclaims all responsibility in the matter, and says that he has had nothing whatever to do with them, except that he is anxious to save his wife from the hands of the Indians. He is rather of the impression that they will always be troublesome, so long as they remain among the mountains of Arizona. Some of the tribes have been taken to Florida, and it is thought very likely that they may be taken there also.

At that time some of them escaped and were very troublesome, but the chief's wife, who is said to be a powerful woman, and one peculiarly adapted to lead, very soon had the whole tribe stirred up to war. She is now at large again, and is thought by the Interior Department to be giving encouragement to German, Chinese, or Chinese, as the army officers call them, in their depredations upon the Mexicans. The talk that has been given him about the excellent fishing in the Orange state does not seem to change his ideas in regard to going thither. It is quite likely that as fast as they can be caught the whole tribe will be taken somewhere far away from their native haunts.

The talk that has been given him about the excellent fishing in the Orange state does not seem to change his ideas in regard to going thither. It is quite likely that as fast as they can be caught the whole tribe will be taken somewhere far away from their native haunts.

At that time some of them escaped and were very troublesome, but the chief's wife, who is said to be a powerful woman, and one peculiarly adapted to lead, very soon had the whole tribe stirred up to war. She is now at large again, and is thought by the Interior Department to be giving encouragement to German, Chinese, or Chinese, as the army officers call them, in their depredations upon the Mexicans. The talk that has been given him about the excellent fishing in the Orange state does not seem to change his ideas in regard to going thither.
