LOCAL NEWS.

Hon. W. C. Davis leaves this evening for Phoenix. Frank Heny has returned from Washington.

A party of bicyclists went to Lowell last night. The Moctama cattle buyer, Mr. Hol, went to Wilcox last night, to see about loading some stock there.

The Detroit Free Press is out with a creditable illustrated page article on Tucson, written by Mr. Stark.

The advent of the pay or Saturday afternoon made lively business Saturday night among the merchants.

The scale in the freight house at the Southern Pacific station has been moved to a more convenient place.

William Neal will erect a large two-story building at Oracle shortly. Work has already begun.

The children of the Episcopal Sunday school, picked today at Warner's day mill.

Cash Perrin, a former popular Tucsonian, has now a good position in the Chicago detective service.

The Dodge health resort at Oracle is full with Tucsonites and others out there for the mountain air and cooling breezes.

H. I. Brice, a cattlemen of Kansas very ill at the hospital at Oracle, last week underwent a surgical operation in the east. He is now recovering.

Professors Gulley and Cullingwood have returned from an overland to Phoenix. They took samples of all waters en route, for chemical tests as to fitness for irrigation purposes.

Fred Fleishman, Harry Drachman, L. B. Hayes, M. Lamont and J. J. Hill, delegates to the grand lodge of the Knights of Pythias now being held in Phoenix, left Saturday night.

A dead steer is liable to cause some ugly upsets soon. It lies near the first Silver Lake road bridge, and frightens almost every passing horse.

Twenty-one R. A. M.'s partook of the banquet given to themselves Saturday night. An enjoyable evening is reported.

Rodolfo Vasquez makes a model prisoner. He has been doing some detective work for the guards. Some of the time he is allowed to be in the kitchen, which is a very high honor to the inmates in charge of Sheriff Scott.

Mrs. Carey, in Tucson with her invalid daughter a year or two ago, has been interested in the Besse Edgar memorial fund, the Congregational Sunday school and the Tucson public library.

The Kansas cattle buyers, Messrs. Mc Cunic and Hillburn, who have been on the San P. train for a few days, have bought a trainload of stock. The cattle are expected in Tucson for shipment next Friday. The price paid is a secret.

A brakeman named Walter Rupert had a peculiar accident befall him last night. He was mounting an engine, hanging on in the gangway, in a new and narrow cut beyond Benson. A cow was in the cut and attempted to turn round, just in time to strike Rupert. The young man was thrown from the engine to the ground, and his head and shoulders painfully injured. He is now in the hospital.

The Masonic organizations of Tucson expect to erect one of the finest buildings in Tucson—a Masonic temple—in about three years. The commodious building is to be erected on the corner of the sub-committee of the committee on territories, and has the Arizona will be kept there as long as possible, though it may be recovered by Chairman Faulkner, of the full committee.

The usual method of house building, when a good house is in question, is for the contractor to have a hand in it. C. Dennis, who is particularly careful, has built one house alone, a good one with \$1200, and is now engaged in building another. He follows the work after the sodobes are made, clear through from the bottom of the foundation up to the roof, plastering, carpentering, painting—all are done by him. His new house, east of John Brown's, is being built in that fashion, and an excellent home it is. He swears makes his own moulting. The arched between his parlors has 160 pieces in it.

Stock are now being rounded up on the Marsh & Driscoll ranges for shipment to Tucson and Oracle.

Guadalupe, the prisoner who escaped from jail a few days ago is still at large. Men are yet hunting for him.

Don't sicken people with that bad breath. Take Simmons Liver Regulator to sweeten it.

Alonso Bailey administrator of the John Kennedy estate, has sold 425 head beef cattle to Earl Dunlap. The cattle were started for Wilcox on Monday in charge of Sterling King.—Globe Belt.

Take Simmons Liver Regulator in youth and you will enjoy a green old age.

It afflicted with scaly dandruff, hair falling out, and premature baldness, but use grease or alcoholic preparations, but apply Hall's Hair Renewer.

The thanks of the Episcopal church are most cordially extended to Mr. Charles A. Shubert for his kindness and courtesy in giving the use of his beautiful yard for the social evening last night. It is not the first time by many that he has so promptly and willingly extended the same kindness and is very deeply appreciated by the ladies of Tucson.

On Tuesday evening last Miss Pearl Drake celebrated her twelfth birthday by a party to a few of her young friends. Among the guests were Emma Johnson, Bertie Culver, Ruth Strauss, Laurette O'Connell, Ruth Brown, Bessie and Peep Drake, and quite a bunch of others whose names have escaped the Chronicler's memory, although he took a peep in at the merry gathering.

There is a point in the lives of all stock when they will pass their limit of profit. We cannot set any arbitrary age as the point is reached, but as a rule stock begins to be unprofitable as it begins to age. The most successful stock growers are those who keep continually turning off young animals and supplying their place with others still younger, never permitting any animal to grow old on their hands.—Ex.

Operations on Messrs. Brown and Brich's mine in the Tucson mountains were hindered by the coming of the late Thursday. The little brute had been turned out to graze Wednesday night, his fore feet shackled together. Next morning the burro was gone. Search was instituted, it being expected that he would be found near. The hours dragged on, and work was suspended by the departure of the searchers. About noon the burro hove in sight and all was well again in camp. He had hobbled to Tucson, ten miles, with his fore feet tied together, and was found in his corral.

A shipment of 20,000 pounds of wool in the railroad, owned by Mr. Bayless of Oracle. It will probably be sent to San Francisco. Mr. Bayless expects in the neighborhood of twelve cents for it. It was the year's growth instead of a semi-annual growth as has been made heretofore. The annual clip, cut twice a year, was a little over six cents a pound, but once in two years it was seven pounds. Some of the big wethers of the flocks were as big as nine pounds. Mr. Bayless is a strong republican and is watching with interest the wool schedule of the Wilson bill.

One of the two prisoners who broke jail Saturday afternoon, Carlos Larrague, has been recaptured, and is back in his old quarters. He took to the hills west of town, and got to see some of his friends. They provided him, among other things, with a rifle and a canteen. With these he got to a box car which he entered. He took the barrel of the rifle in sight, and this Chief of Police Paul spied. The officer approached carefully, got the gun and then got his man. Larrague had been somewhat disoriented. He did not recognize the officer soon enough, he said, or there would have been trouble. Mr. Larrague had escaped prison, still at large. Night and day officers have sought him. The men made an appointment to meet a friend on top of the hill on Saturday night at midnight, the officers being on hand. The runaways did not appear, however.

The Industrials at Yuma are still there, and when they leave the town it will not be on top of a box car. Should they attempt to climb on the box car it will be promptly side-tracked. The company is determined they shall not ride. Thirteen of them who stand out in a few days when ordered to get out are now under arrest, awaiting examination. It is likely they will be released, if committed, on a habeas corpus. Mr. Larrague, in charge of the industrial, the Bowie and Globe road, says that the men could find employment on the work of railroad building. It behooves the Yuma Industrials, if the road is to be built, to put out for Bowie instead of Washington.

The true inwardness of the trouble between the Santa Fe company and the Bisbee company is said to be as follows: The Santa Fe had the Bisbee contract for the Bisbee copper from Fairbank to New York. The contract ran out and the Santa Fe people were slow to renewing it and the Southern Pacific got the contract. The contract ran out and the Santa Fe people were slow to renewing it and the Southern Pacific got the contract. The contract ran out and the Santa Fe people were slow to renewing it and the Southern Pacific got the contract.

Good times and everybody at work is the report from the Southern Pacific. All the men are working and making good time. The freight traffic is the best westward, being in the proportion of about three trains westward to two eastward.

Elsewhere appears the cast of the opera "Lala" to be played at the opera house Wednesday night, the 16th. The affair is certain to be a success. It is one of the prettiest of operas, and the cast of characters is a strong one. The children, (nearly fifty in number), are taking intense interest in the respective parts to perfection. The Tucsonites stay at home Wednesday night they will have life-long regrets that they did not see it.

The county jail yard, through which two prisoners escaped Saturday afternoon, is very easy of exit. The stones in the wall removed were taken out with a broomstick. With a match the mortar of the wall may be picked out nearly any place near the ground. The yard is very unsafe, yet it is the only place where prisoners may do any washing, blankets or clothing.

Henry Levin had a rude shock from pleasant dreams last Sunday. Overcome with the heat of the day he laid him down on the banks of the rippling Rillito, and lulled to sweet slumber by the song of the stream. The stream was a factor in his awakening. Several red-nose picknickers found him and plotted. They stole silently up and each took a goodly amount of the water. Henry's convulsed form was in the water. He swam safely to shore.

A Tucson man recently in Washington says Senator Hill is opposed to statehood for any western territories on the ground that "the territory has too much power as it is." Hill is chairman of the sub-committee of the committee on territories, and has the Arizona will be kept there as long as possible, though it may be recovered by Chairman Faulkner, of the full committee.

The usual method of house building, when a good house is in question, is for the contractor to have a hand in it. C. Dennis, who is particularly careful, has built one house alone, a good one with \$1200, and is now engaged in building another. He follows the work after the sodobes are made, clear through from the bottom of the foundation up to the roof, plastering, carpentering, painting—all are done by him. His new house, east of John Brown's, is being built in that fashion, and an excellent home it is. He swears makes his own moulting. The arched between his parlors has 160 pieces in it.

God's Magazine for May is attractive inside and out. Frederick W. Seward contributes part two of Seward's West India Crusade. It is profusely illustrated. The serial by the Rev. Frederick Reddall, with drawings by Robert W. Chambers, and which is concluded this number. There are two other illustrated articles on Bermuda's Sunny Isles, by Mary E. Child, and Capt. J. J. Howe Adams. The short stories and special articles are: The Heavenly Twins of Columbia Street, by Julia Magruder; a Patron of the Arts, by Melville Upton; Strayed from the Fold, by Lillian A. North; E. T. Kelly by John W. H. Kelly; The Slayback Career, and Physical Culture Necessary for Brain Workers, by Wilton Tourneur. The poems in this number are by Will Carleton, M. B. Colquhoun, Lee C. Harby, Ernest N. Gray, Nancy Mann Waddell, Rosalie M. Jones and others. The departments are more complete and better than ever.

It Involved the "Barony" of Peraltareavis.

What it Cost a Citizen to Learn the Truth About the Alleged Grant.

These is a man in Arizona with a full-grown grievance against a San Francisco newspaper. Incidentally his complaint brings out in a very direct way the truth about the mythical Peraltareavis grant, which has long been the cause of annoyance to the Territory and of personal loss to citizens and strangers.

The man is Charles Noyes of Fairbank, A. T. He is a Democrat. Some time ago the San Francisco newspaper which has been the rock of faith printed a long article about the "Barony" of Arizona as the Peraltareavis grant is called by the people interested in it, stating that the Court of Private Land Claims sitting in Santa Fe, N. M., had confirmed the title of J. A. Peraltareavis to the alleged grant, and had defined its boundaries.

Mr. Noyes believed this statement, and acted on his belief with confidence. Three of his friends, Republicans, laughed at him, and he promptly beat a five-mile retreat. Then he wrote to the editor of the newspaper. The reply was brief. I said:

"I communicated with Santa Fe, N. M. and am informed by our correspondent there that the Court of Private Land Claims has fixed the boundaries of the Peraltareavis claim. Possibly it would be well for you to seek information in Santa Fe before seeking anymore bets no the subject."

Mr. Noyes took this advice, and wrote to the United States attorney for the court in question at Santa Fe, enclosing the editor's letter. The reply, dated August 10, was as follows:

My Dear Sir: I am in receipt of your letter purporting to be from a San Francisco newspaper, in reference to the Peraltareavis claim, which has been referred to me by you. Replying to your inquiry, endorsed thereon, I state that the court of private land claims has not fixed the boundaries of this claim, nor has it fixed its status in any way. It has taken no action except to grant the plaintiffs in the case leave to amend their petition in the case of a decision in their favor by the court to make interdepositions on the copy filed in his office.

The court of private land claims is not authorized under the law to adjudicate the validity of the grant, nor to fix the boundaries until the case is presented for trial, and I am prohibited by law from making any judgment either as to the validity of the grant or extent of its boundaries.

If you have any case on behalf of the United States, I think I understand the status of it, so far as this court is concerned, quite as well as the reporter of the paper in question. I hope this answer will suffice for you. I am, Sir, very truly, your obedient servant, MATT G. REYNOLDS, U. S. Attorney.

For Arizona's sake Mr. Noyes is not sorry that the Peraltareavis grant has not been confirmed nor its boundaries fixed, but he would like to know about those three hats for which he has to pay \$5 each. The Chronicle has already printed in its Washington dispatches information as to the status of the Peraltareavis claim, to the same effect as that given in the foregoing letter by the United States attorney at Santa Fe.

Doings in and About Florence.—Mrs. Emma J. Guild, accompanied by her son, left last week for Tucson, San Francisco. She will be joined later on by Mr. Knott Guild, another son, who is at present at school at Tempe.

We are greatly pleased to announce that Miss Fannie Barleson has accepted the position of city clerk. She is eminently qualified for the position, and will undoubtedly make an efficient and popular officer of the postal department.

County Surveyor Colton has completed his survey of the irrigated land north of the reservoir. There are upwards of 5000 acres under the Florence canal this side of the reservoir. Mr. Colton left on Tuesday morning to complete the survey on the south end of the canal.

Last week some unknown party or parties visited the ranch of D. C. Stearns by night and overhauled his stacks of bees. If boys committed the deed, for mischief, they should be punished severely. If it was a man, and his intention could be ascertained, he should not be allowed to remain in the community.

The mill at the Reymert mine is running on first class ore from the Africa and America mines. About 25 men are employed, and everything is moving along very satisfactory. A slight break in the roster caused a delay of a day or two in the week-end work resumed. E. O. Kennedy is in charge of the mill.

The young ladies of the catholic church have organized a society for the purpose of rebuilding the old church. The society comprises the following well-known names: E. A. Davis, Pres.; Mary Collinswood, Vice Pres.; Louise Miller, Sec.; Margaret Sanchez, Treasurer; Antonia Brady, Treas. Misses Maria Will, Freda Duron, Isabel Arroyo, Margarita Gonzalez, and Messrs. John E. Miller, John L. Miller, John N. Olivas, Ramon Arvalo, and Francis L. Romandia, Vocalists.

A LIVELY CYCLING.—C. H. Akers, J. M. Atkins and H. D. Derris arrived from Prescott by bicycle Sunday morning, to attend the session of the Grand Lodge, K. of P. Their coming had been made known to the Valley Cycle club, which had arranged for a ride on the canal to meet the incoming wheelmen. But the visitors developed a sporting ability not looked for, and by an early start from New River station were covered in 2 1/2 hours. The members of the Valley Cycle club are showing every attention to the visitors, and on Wednesday, to their honor, will give a private dance at the pavilion in the park.

Don't Buy HAY PRESSES Before Seeing Me. I can save you money and give you the best press invented.

E. P. VAN KUREN, (At W. J. Corbett's Store.)

AN ARIZONA WAGER.

Give your pet dogs and cats Simmons Liver Regulator, when sick—it will cure them.

The Mineral Market. SAN FRANCISCO, May 15. Silver Bars..... 62 1/2 @ 63 Mexican dollars..... 51 @ 51 1/2

A Gila Member. President Eckhardt of the McGinty Club yesterday received from an admirer in Arizona a splendid specimen of the dread-d Gila Monster. After taking a number of friends into consultation as to the best thing to do with the beast, President Eckhardt decided to present the thing to the city, and it may be seen in its cage in the plaza in company with Mayor McClendon's alligators.—El Paso Times.

FROM MAMMOTH. An Old-Timer Compares Mammoth Past and Present.

The Mill Again Running After a Short Shut-Down—Twenty Men Missing 150 Tons Day.

Development MAMMOTH, May 12, 1894. EDITOR CITIZEN:—Up to a few months ago life in this region was so uneventful that any attempt at correspondence with a newspaper has been very discouraging.

But times have changed; quiet and inertia have retired; and enterprise and industry are taking their place. There is no longer any occasional communication between us mountaineers and the great metropolis of Arizona, but a daily break going to and from. Huge freight wagons are now strung along the once dreary desert roads from Tucson to this place. The lively soprano of the San Pedro has a full band back accompanied by the music of the huge Mammoth fifty stamp mill.

All this has been the work of a few months past and to what extent development has been advanced in 1894 year hence, when, as surely as the sun shall rise and set, rich gold-bearing ledges now wholly as partially hidden, will be uncovered and developed, is a matter of conjecture that cannot be exaggerated. Up to a few months ago only the old timers had heard of the Collins group; now both your entire population and the strangers within your gates must be hearing of us every day.

There are but twenty men at work on the mines and the daily output is 120 tons of ore per day. I would advise parties looking for work not to come here as the above number of men are not likely to keep the mill going for many months to come.

The mines and mill are successfully managed, by Messrs. Collins and Barnhart, and the future of the camp could not rest in better hands.

The boarding house is run by Thomas Baker, and I must say the service can't be beat in the country.

Wm. Neal has a contract for hauling the ore. He has three eighteen-wheel teams and three to four wagons to the team; making two trips per day to the team.

The mill shut down a few days this week owing to a breakage of the engine but dropped her stamps again this morning. C. A. P.

Doings of the Coxyrites.—SALT LAKE, Utah, May 15.—H. E. Carter and twenty-six of his lieutenants were defendants today in the district court in contempt proceedings for interfering with the property and operation of the Union Pacific railroad at Provo, Utah. A night and day of testimony were examined. Considerable portions of the testimony related to speeches made by Carter and his followers before they left Salt Lake.

NINETEEN INDUSTRIALS JAILED. CHEYENNE, Wyo., May 15.—Nineteen industrials, including Scheffer, were placed in jail here today by Marshal Watkins and deputies. The railroad men refused to furnish bonds for the United States troops against the industrials and anxiously wait orders from Washington.

IN HARD LINES. GREEN RIVER, Wyo., May 15.—About 1000 industrials who stole a train at Montpelier last night, arrived here at an early hour this morning. They abandoned the train here and went into camp near the town of Montpelier, refusing them provisions and it is thought they will seize another train. They are anxious to be arrested in order to reach Cheyenne.

ALL ABOUT MEAT. Some Phoenix Ladies Who Know Every Outing in the Critter.

A good looking young fellow was cutting steaks yesterday afternoon in one of the leading butcher shops when a Republican man noticed that while they resembled closely good sirloin steaks there was something suspicious about them.

"What kind of steak is that?" he asked.

"On that is shoulder steak or chuck steak, the cheapest kind of steak. We sell it mostly to Mexicans."

The inquiry being one of the restless and migratory army of meat eaters, the leading house patrons thinking this was a good opportunity to gain a little inside information regarding the nature of the vanda which are daily set before them, remarked casually:

"I suppose you sell a good deal of it to the restaurants."

No, sir; the restaurants buy whole rounds and loins and cut them up themselves. We sell of these to the lunch counters, where they have a class of trade that isn't very particular."

"Don't the lunch counters buy very good meat?"

"They buy some of the very best. You see in the lunch counters it's just the same as it is with us; they size up a customer. Some of 'em will stand a tough steak and some would never show up again if they got one of these fellows. Now in the restaurants the quality of the banks used to come in three or four times a week and always called for a very small porthouse steak, not to cost over 15 or 20 cents. The first couple of times we gave her the smallest porthouse we had, but there was no profit in it and nine out of ten she'd just cut a small piece a little larger than your hand out of one of these chuck steaks from long side of the bone and we never had a single kick on it."

"Then there was another woman who used to come in regular and talk about meat until you couldn't rest. She's the wife of one of the leading lawyers here and she'd give the new every cut of animal. I took considerable stock in her at first and always gave her the very finest, but one day she said there were two cuts of the loin that she could ever use and described how near the shoulder they were. She was about four feet out of the way. The other fellow, who I never saw, kept her face straight until she got out of the shop. She was a great snapper after that. I tell you the ones that say they know all about meat and think they do, too, are just the ones who don't know a thing—Republicans."

BRECKENRIDGE.

A Vigorous Protest Entered Against the Oily Tongued Kentuckian.

TELLER FAVORS COXEYITES

The Kid not an Educated Indian, But an ex-Government Scout.

LEXINGTON, Ky., May 15.—The best people of Lexington and Fayette county, including several hundred ladies, turned out today to the anti-Breckenridge meeting at the opera house. The meeting from a standpoint of morality was a tremendous success. The opera house was filled and 5000 people turned away. Prof. J. W. McGarvey, a prominent minister of the Christian church, was the first speaker and he showed Colonel Breckenridge up in no favorable light. He held that it would be a disgrace to the district, the state and the country to return such a man to congress and closed his speech by a strong appeal to the young men to vote against him.

CHICAGO, May 15.—The board of managers of the Union League club this afternoon voted to expel Congressman Breckenridge from the roll of honorary membership. Not a single member of the executive board voted in the negative. In the absence from the city of President Wilson Judge Keleost presided.

The other speaker was Judge M. J. Durham, who denied Colonel Breckenridge was the only man in the district who can represent it in congress. The speeches were both well received and made a good impression.

Resolutions were adopted denouncing Breckenridge's morals and calling on the good people of the district to rise up and vote against the silver tongued persuader.

But when Harry C. Clay got up and offered a resolution not only denouncing Breckenridge's morals, but asking that Senator J. S. Blackburn be asked to obtain leave of absence from the senate and that he come home and from the rostrum speak against Breckenridge, the audience went wild. The cheering was deafening and it was plain to any observer that the Breckenridge boom started by the silver tongued himself a little more than a week ago, was badly strained, if not broken.

Close on the Fugitives. MILAN, Mo., May 15.—The sheriff received a message from Kirkville this morning stating that the fleeing Taylor brothers ate breakfast at farmer Chamberlain's house in Walnut township, and that the fugitives had a short distance behind. A wagon has been found in George Taylor's farm, half a mile from the straw stack where the fugitives were last seen. Neighbors say they had seen George at that place for the past week.

The "Kid" Not Educated. WASHINGTON, May 15.—Superintendent of Schools Mose sent to the bureau of Indian affairs a denial of the statement that "Aspache Kid," the noted outlaw, was an educated Indian, and that he has been used as an argument against educating the red man. While at San Carlos Superintendent Mose inquired about this and learned that the outlaw was never in school a day. He was government scout and in that position learned to speak some English.

Senator Teller on the Coxy Movement. FURRLO, May 15.—Senator Teller, in a letter to a citizen of this city expresses sympathy for the Coxy army now in Washington, declares the arrest and trial of Coxy, Brown and Jones was a farce and concludes as follows: "It is difficult to know what to do with these people who are here in disguise, with thousands of others, through no fault of theirs. They know that there is something wrong somewhere, and that there ought to be a remedy and can think of no other except what congress can give. I myself believe the present dreadful condition of our laboring and producing people is the direct and immediate result of bad legislation already on our statute books and other that is threatened. I have no hope of immediate legislation that will give the required relief. What will happen in the near future I cannot see, and believe, for my peace of mind, it is well I cannot."

Painting the town red means head-achings in the morning. Simmons Liver Regulator prevents it.
