QUEEN VICTORIA HAS REIGNED LONGER THAN ANY ENGLISH SOVEREIGN LIVING.

History is not the only thing that repeats itself. Many political orators are imitators of history.

THE SITUATION IN THE RANKS OF THE DEMOCRATS might be best described at present by the word "bimeddleism."

BRAYN says he don't like the gold standard because its English. He likes free trade, though, and that's English. What's the matter, anyhow?

SPAIN continues to send victims to Cuba. What with fevers and maches and fire and dynamite, the Inquisitors, under Weyler, are in sore straits.

WHEN LI HUNG CHANG WAS IN GLENSIDE he told the Scotchmen that their bagpipes reminded him of China. They can't make out yet whether Li was joking them or meant it for a compliment.

THERE IS NOT A WORKINGMAN IN THIS United States but knows that before he can get a dollar he must work for it.

THE DEMOCRATS tell him they are his friends, but the fact remains that the policy upon which Mr. Bryan, their leader, rests, has taken away more work than any which ever existed in the history of our nation.

AS THE campaign of education progresses, many who have heretofore been firm in the belief that the free and unlimited coinage of silver was a panacea for all their ills, are speedily returning to the settled conclusion that the republican party offers them the real remedy for their ills, and consequently they are now for McKinley and prosperity.

AN ARGONAUT contributor writes from California that he has just been down on the gulf coast, where he went in a Chinese junk commanded by a Dutch captain to examine a Mexican mine for an English company, and that on the trip an Irish cook drank up all the Scotch whiskey. He will have to take out naturalization papers before he can ever again lay claim to Uncle Sam's protection.

MEMPHIS, TENN., has in custody a man named A. K. Ward, who has probably achieved success as a law breaker seldom accorded one man. He has ninety-five indictments against him, and if found guilty on all the aggregate of his imprisonment will be 1,425 years. It is not believed by his friends that he will ever serve half of that time in this world; but he will carry a credit card with him when he takes his departure for the good unknown.

THE GERMAN proposition for modern house-building might be followed in Arizona with very satisfactory results. The plan is to build the framework of the house of hollow tubing which may be filled with hot or cold water as the temperature demands. The progressive achievements of scientific investigation are constantly adding many features of comfort and convenience to the life of man, and it would appear almost that man had become the conqueror of nature.

THREE elderly gentlemen visited the town of Cottage Grove, in Lane county, Ore., recently, for no other purpose than to ride on a railroad train and eat at a hotel. Each of them was nearly fifty years old, and had never seen a railroad car eaten at a hotel. Their awkwardness was very apparent to the hotel clerk, to whom they told they were born on the coast, near the mouth of the Umpqua river, and that they had never before been in sight of a railroad. They also said that they had come to Cottage Grove in order that upon their return home they might lord it over their less fortunate neighbors. They had never before been out of the county where they were born, and it goes without saying that they enjoyed their outing to the limit.

IT IS positively asserted that a cure for leprosy has been discovered. It consists of a powder made from the bark of the Hoang-Nan tree, which grows only in the mountains that separate the kingdom of Annam from the Chinese province of Laos. It has been effectively employed in the hospitals of India and other provinces where leprosy prevails. To a Catholic missionary is due the credit of the discovery.

AN exchange prints the following paragraph, which contains many sensible truths and his history for its proof: "Open the mills for the full and unrestricted labor of American workmen, is the McKinley policy. There never yet was plenty of money; there never yet was work for every hand but there was food for every mouth and clothes for every back; there never yet was an increase of work and wages for the wage earner but there was an increased demand for the products of the farm; there never yet was a protective tariff but there was plenty throughout the country. McKinley and protection mean plenty of work, plenty of money, plenty of food and clothing, and prosperity everywhere."

THE popocratic press throughout the country is making a great noise over Bismarck's letter to Governor Culbertson of Texas. In this letter Bismarck is alleged to have advocated international bimetalism and that the adoption independently by the United States of free silver would tend to advance the universal desideratum. While Bismarck was, and is today, one of the leading statesmen of the world, it should be borne in mind that he is a German, and is looking out only for the advantage and behoof of the fatherland. He does not say that the course suggested would advance the cause of the United States or that it would not be attended by disastrous consequences on this side of the Atlantic. It will not be forgotten that it was this same Bismarck, who after the Franco-Prussian war, caused Germany to adopt the gold standard in order that the immense indemnity demanded from France should be paid in the "yellow metal." It was a grand stroke of financing and incurred to Germany's great advantage. France raised the enormous indemnity in gold and paid it. This was not enough for Bismarck. He desired to rub it into the conquered country and he endeavored not only to keep France on a silver basis so that the Germans might be advantaged in the purchase of French productions, but endeavored to further depreciate the standard of the Gallic nation by dumping all the German silver into that country. France immediately changed its financial system in self defense and gradually adopted a gold basis. Bismarck is seeking some ulterior advantage in seconding the efforts of the Bryanites in this country. He has some scheme whereby he sees an opportunity for Germany. His advice should be taken with large proportions of salt, as the agrarian element in Germany takes it. The mere fact that the most respectable and the greatest number of German-American citizens in the United States favor McKinley is an indication that even those who admire Bismarck are not led astray by his gratuitous advice. Going to Europe for consolation and powder is a confession of the weakness of the cause of the Bryanites in this country, which they are rapidly realizing, and which they are making strenuous efforts to avert.

OH! CONSISTENCY. WHERE IS THY JEWELRY?

HERE is an item taken from the widest shelves of Bryan and free silver, populistic fusion and everything else that is published in Arizona—the Phoenix Gazette. It is the sublimest exhibition of monumental gall we have ever run against. Hold your breath and listen:

SOME of the republicans of this city were busy yesterday trying to effect a plan of fusion with the populists. Such an unbolty alliance would add little strength to either party; yet there is a strong effort to agitate the populists to foist republicans into office.

THE buyer of curiosities for "the most stupendous aggregation of curiosities on earth," ought to take that fellow in and exhibit him, properly labeled. He would draw like a cantharides fly blister. Gall! J—Redlands Cirograph.

THE terrific and destructive storms which spread over the east yesterday give Arizona still further cause for self congratulation. It is just such manifestations of nature as these that will swell the population of our territory where such things are unknown.

THE Arizona Gazette, which is the most lush and cheerful liar in the ranks of the demopopocratic fusionists, gravely relates a supposititious interview with a gentleman who "has recently returned from Los Angeles," where he had a talk with "a republican and a gold bug," who said that Los Angeles "would give Bryan 20,000 majority." What rot! There are but 23,000 votes in Los Angeles, all told, and how Bryan is to get 20,000 majority out of that we fail to see. The truth is that the demopopocratic papers know they are beaten at every turn and are resorting to a four year and mansard rot style of meekness that is the most brilliant thing of the kind we have ever seen.—Redlands Cirograph.

FACTS point for a great deal more than polished eloquence in this campaign. The significance of the wonderful demonstrations made by the laboring classes at McKinley's home in Canton is due to their knowledge of figures like these: The census of 1892, when the McKinley law was in operation, showed 37,235 extra hands employed, and \$40,000,000 of capital invested in new enterprises. This is what McKinley worked for. This is present investigation, to September 21st, shows 33,151 hands idle in 706 establishments, with a loss of \$1,337,270 a month in wages to wage earners. This is what Bryan worked for, and it is not difficult to understand why the working men are for McKinley.

THE POPOCRATS

Abandon Washington Headquarters Believing Further Work Useless.

MCKINLEY'S CHANCES

Growing Brighter and He Will Have a Majority of Fifty Electoral Votes.

(From Our Regular Correspondent.)

WASHINGTON, Sept. 28, 1896.

The popocratic national committee this week formally abandoned the fight for Bryan in the east and middle states, by abolishing the Washington branch of its headquarters. Other reasons are given, but everybody in Washington knows the real reason to be that Chairman Jones has been convinced that Bryan has no show to carry a single state in the east and that the cost of maintaining the Washington branch of his headquarters was so much money thrown away. It was originally intended that the work done at the Washington branch of popocratic headquarters should be done entirely of a literary nature, and Clark Howell, of the Atlanta Constitution, was placed in charge of the bureau which was to teach eastern voters the benefits of free silver and the Chicago platform, with Representative Richardson of Tennessee, as his chief assistant. Mr. Howell has found things so warm in Georgia that he has been able to give very little attention to the bureau, and Richardson came near having a fight with Butler, the chairman of the populist committee, and was transferred to Chicago. This left the bureau in charge of a young man whose sole political experience consisted of having succeeded in getting himself sent as one of six delegates from the District of Columbia to the Chicago convention, and now the bureau is "busted."

As a result of the Chicago convention, the bureau is now in the hands of a young man whose sole political experience consisted of having succeeded in getting himself sent as one of six delegates from the District of Columbia to the Chicago convention, and now the bureau is "busted."

An Accident in the Ring.

While the circus performance was at its height last night, one of the lady equestrians came into the ring to do her part in the entertainment. She made an effort to spring upon the horse she was to ride, and her foot became entangled in some of the trappings which were upon the animal. She was thrown under his feet and he tramped upon her ankle, which was broken. It was also broken that she had her right arm fractured in the unfortunate accident. She was carried from the ring with her injured foot bleeding profusely. She was certainly a very woman, as she neither uttered a cry nor a word. Such occurrences are these tend to remove the romance of circus life.

Republicans Meet and Nominate their Electors and State Officers.

IOWA'S SEMI-CENTENNIAL.

During the Parade a Stand Collapses and Injures a Number of People.

Boston, Mass., Oct. 1.—The Massachusetts republican state convention met today and accomplished its object with celerity. Ex-Gov. Brackett and W. H. Hale, of Springfield, were chosen electors at large. Gov. Wolcott, who has filled the executive office since the death of Governor Greenhalge, was unanimously nominated for governor; for lieutenant governor, W. Murray Crane. The platform on the currency and tariff questions are as follows:

"A sound monetary system, a simple monetary unit, and a scrupulous observance in letter and spirit, of every public obligation; the enactment of tariff laws which will provide a revenue adequate for the payment of national expenditures and a gradual reduction of the national debt; to promote a policy of reciprocity and to protect American industries and American workmen and preserve our own markets to our own people."

After endorsing the national convention, the platform continues: "But our duty at this hour demands more than a statement of the articles of our party program. We are confident that those who gathered at Chicago under the name of democracy, we are confident that the success of our cause means more than a determination of the issue of reciprocity and we have a right to appeal to broader constituencies than membership in the republican party."

The financial plank in the Chicago platform is condemned as sectional and the question of currency is further discussed at some length, under which the attitude of the democracy towards the supreme court is set forth in the income tax plank is denounced as a threat to degrade the independent tribunal established by our fathers. The issue is also taken with the right of the national government to interfere in states in case of riots. The platform concludes: "To the defense of these principles we summon all republicans and all citizens who are true to the national honor, to the continuance of the general welfare, the integrity of our constitution and the supremacy of the authority whereby right is supreme."

THE CONSOLIDATION. Of the Two A. O. U. W. Lodges Will Occur on November 4.

At its regular meeting last evening, Arizona Lodge No. 1 appointed J. G. Hilzinger, E. J. Trippel and Dr. Odom, a committee to meet with a committee to be appointed tonight by Apache Lodge No. 8, and arrange for the celebration of the consolidation of the two lodges, which will take place on November 4. It is probable that a musical and dramatic program will be presented on the occasion, but as yet no definite arrangements have been made. This event will inaugurate an era of unprecedented prosperity in the order in Tucson, and it is hailed with delight by the entire membership.

Tucson will have good cause to be grateful to the A. O. U. W. for the good it will accomplish, not alone through its charitable work, but in the improvement it will make in the city in various ways.

The Methodist Conference. The annual conference of the Arizona Mission of the Methodist Episcopal church meets in Phoenix, Ariz., on next Thursday, the 8th, Bishop Fox presiding.

The new and spacious Methodist church will be occupied by the session of the conference, and it is hoped that the church will be ready for dedication on Sunday, the 11th of October. Rev. C. P. Wilson, the pastor of the Methodist church in Tucson the past three years, will attend the conference, leaving for the seat of the conference Tuesday night.

If present plans are carried out, Rev. Wilson will not be returned as pastor of the Tucson Methodist church, but will be appointed to another field of labor in the territory.

Pastor Wilson will deliver his farewell address next Sunday, October 4. His many friends will turn out in mass to listen to his parting words.

The old public was much healthier than common today. Elixirs, camels, cures, and all the life-giving accompaniments were prominently in evidence.

There were one or two men on the streets today who imagined they were as big as the elephants. But oh! my! Tomorrow morning they will feel smaller than mice.

The parade of the circus people was by far the finest ever witnessed in this city. Many were the compliments passed upon the beautiful teams of horses which were conspicuous throughout the procession. It is undoubtedly the greatest show on the road.

THE REPUBLICANS MET

Last Night at the Court House and Arranged for the Primaries Next Saturday.

The republican mass meeting held last night under the auspices of the Tucson Republican club was presided over by Chairman Van Kurens, with Chas. W. Bowman as secretary.

After reading the call for the meeting a motion was carried, empowering the chair to appoint a committee to select the names of thirty-four republicans to be voted for at the primaries on Saturday next, the seventeen receiving roughly equal votes to be delegates, and the remaining seventeen to be alternates. The committee was appointed and consisted of Messrs. Thos. Hughes, F. K. Miller, L. D. Chilson, J. J. Freeman, C. Donnelly, C. Butler, J. H. Hallows, P. B. Zaigler, J. D. Johnson.

The primaries will be held at Reid's opera house from 10 o'clock until 4.

The meeting was conspicuous for the business-like manner in which it was conducted. After all necessary arrangements had been made for the proper conduct of the primaries the meeting adjourned.

A Mystery

How the human system ever recovers from the bad effects of the numerous poisons which are daily poured into it for the supposed relief of dyspepsia, liver complaint, constipation, rheumatism and other ailments, is a mystery. The mischief done by bad medicines is scarcely less than that caused by disease. If they are weak, bilious, dyspeptic, constipated or rheumatic, would often be guided by the experience of invalids who have thoroughly tested Dr. Hostetter's Stomach Bitters, they would in every instance obtain the speediest aid derivable from rational medication. This medicine is a searching and at the same time a thoroughly safe remedy, derived from vegetable sources, and possessing, in consequence of its basis of pure spirits, properties as a medicinal stimulant not to be found in the fiery liquid stimulants often resorted to by the debilitated, dyspeptic and languid.
