THE PRICE CURRENT'S ANNUAL STATEMENT. Yesterday, being the first of the new commercial year, the editors of the Price Current issued their annual statement of trade and commerce.

QUARTERMASTER'S DEPARTMENT.—The U. S. steamer Fashion, Capt. Morgan, leaves this morning for Brazos St. Jago.

AN AFFAIR OF HONOR.—An affair of honor between two young bloods of the First Municipality came off on the old Bayou Road on Wednesday morning last.

ERASTUS BROOKS, Esq., is now joint partner with his brother James, in the New York Express.

KENTUCKY ELECTION.—The Louisville Courier, of the 24th ult., says that official returns have been received from all but six counties.

INDIANA.—The democratic majority in the Indiana Legislature, is thirty on joint ballot.

WE are requested to call the attention of our democratic readers to an advertisement in another column, calling upon them to attend a mass meeting in the 2d Ward, 2d Municipality, this evening, at half-past 7 o'clock.

THE STREETS.—We perceive that the present dry weather is being properly improved in the First Municipality, and the repairing of streets is going on with despatch.

THE COMMENCEMENT.—Quite a large Taylor procession past our office night before last. It had the usual accompaniments—music, banners and torches.

IN Boston, money is as if anything a shade easier, and first class paper is in fair request.

THE CHOLERA.—The New York Sun, in some remarks relative to the cholera in Russia, says:—Its appearance in New York at an early date is no longer a subject of speculation—it has become a matter of almost positive certainty.

IRISH CLUBS.—It is said that there are between twenty and thirty of these clubs in New York city. Their object is generally understood.

LIBERAL.—The Washington Republican says that a gentleman from Baltimore, who had listened to the eloquent discourse of Mr. O'Connor in favor of Ireland, in that place, on the evening of the 22d ult., afterwards met him at the Railroad, and, taking money enough from his purse to pay his passage home, generously gave the balance (about forty dollars) to Mr. O.C., to aid in the cause which he so solemnly advocated.

SEARCH FOR ARMS.—The Dublin Herald has the following acknowledgment that the search for arms, in Ireland, by the police, has been completely unavailing. "The police have been, since the arms act came into force under the present government, engaged in a diligent search for arms throughout the city, but as yet with very inconspicuous results.

ST. LOUIS, Aug. 22, 8 p. m.—It is now ascertained that Daniel T. Miller, whig, has been elected to Congress from the First District in Iowa, instead of Thompson, democrat, as heretofore reported. This is a gain for the whigs.

PTESBURG, Aug. 22, 8 p. m.—There are six feet water in the channel, and rising. The Star Factory was reduced to a nearly damaged state.

HANDSOME.—The citizens of Utica have presented one of the members of the Apollonian company, its greatest attraction, Anna Maria Cole, a child of wonderful musical proficiency, one of Chickadee's splendid piano fortes, worth \$400.

FOR ENOCH.—At Pitsburg, Pa., on the 16th ult., the thermometer stood at 102° in the shade.

A cure for hydrophobia, it is hoped, has been discovered in Philadelphia. A son of Henry Rogers, who was bitten by a mad dog, and for several days has been laboring under symptoms of hydrophobia, has had some specific administered to him, which appears to have checked the disease.

RAIN.—Rivers.—Beying.—We have had an abundance of rain for the past week. It is still deluged and cloudy, bidding fair to add still more to the volume of water which has already fallen. The cotton crop must now be seriously injured; and if the rains continue, must prove seriously so.

ONION CROPS.—The acres of growing crops in Oregon, are estimated to be double those of any former year; and it is admitted "the crops look better now than in any previous year. An abundant harvest is anticipated from the present crop—sufficient to supply an immigration of fifteen thousand.

The Effect of the Irish Rebellion. Among the effects of a struggle between the Irish and the tyrants of England, it is possible that a United States may be drawn into the contest.

America, the first born of freedom, the first to break the chains of English tyranny, feels irresistibly attracted towards all who show a disposition to follow her example. The first blow that is struck by Ireland, will touch a responsive chord in every American bosom, and awaken the universal sympathy of our people.

When in Ireland the seaboard shall have been east and the sword boldly seized—when her people shall be engaged in the death-struggle with the mercenary of her aristocracy—when the combat shall once have commenced between Freedom and Tyranny, who can say that America, prompted by the most generous impulses of humanity, will not throw off her neutrality, and rush to the rescue of an oppressed and enslaved people, struggling for their lives, their liberties, and their rights?

The course of the Irish papers in this emergency is not at all calculated to conciliate the United States. On the contrary, those journals become every day more bitter in their sarcasms upon our country and its institutions, and more violently denunciatory of every thing American.

Letter from Mr. Fillmore. We find the following from Mr. Fillmore in the Mobile Advertiser of Thursday: HON. JOHN GAYLOR, ALABAMA, July 7, 1858.

While I was in Congress, there was much agitation on the right of petition. My votes will doubtless be found recorded in the majority in favor of it. The rule upon which I acted was, that every citizen presenting a respectful petition to the body of Congress, was entitled to be heard, and therefore the petition ought to be received and considered. If right and reasonable, it should be denied. I think all my votes, whether on the reception of petitions or the consideration of resolutions, will be found consistent with this rule.

Gen. Taylor's Last Letters. Two letters, purporting to come from Gen. Taylor, have lately appeared in the newspapers. One was addressed to George Lippard, of Philadelphia, and the other to a friend in Charleston, whose name is not given.

"FORGERIES.—Two letters have lately appeared in the papers, with the name of Gen. Taylor attached to them, which we have no hesitation in pronouncing forgeries. One of them was published in Philadelphia, and pretended to be addressed to George Lippard; the other is copied from a letter written to a gentleman of that city; but it is so palpably unlike, and so little in accordance with the character of Gen. Taylor, that we do not fear to name its author, and to identify it as a forgery.

NEW YORK FIREMEN.—Two of the New York fire companies went to Albany to aid in extinguishing the great fire. NAVAL.—The report by telegraph lately of the arrival of the U. S. ship Jamestown, at New York, was incorrect. She left Madeira July 1st for the Coast of Africa.

MR. CLAY AND THE PRESIDENTIAL ELECTION. The Ohio Organ, published at Cincinnati, says:—"We were admitted the perusal of a private letter, the other day, from this distinguished statesman to one of our leading citizens, in which he declares his determination not to take an active part in the present canvass; but when the day of election comes, he will go to the polls and vote according to the best light in his possession at the time."

MASS STATE CONVENTION.—The Whig State Central Committee of Pennsylvania, have called a Mass Convention at Harrisburg, contemporaneously with the gubernatorial nominating convention, which met at that place on the 23d ult.

NEW YORK TAYLOR RATIFICATION MEETING. All the New York papers agree in representing a meeting of whig young men in Washington parade ground in that city, on the 22d, to ratify the nominations of Taylor and Fillmore, as the largest and most harmonious held in New York for years back. The Journal of Commerce says:—"We cannot too exaggerate in saying that twenty thousand persons attended it. Jonathan W. Allen was appointed president. Mr. Frederick Elmendorf, and Messrs. Brooks, Bayard, and other distinguished speakers, and the resolutions were unanimously adopted. Mr. Thimble in the course of his speech said that Mr. Clay would, before the ensuing fortnight had expired, endorse the nomination of Gen. Taylor and give him his cordial support."

A Free Soil Ratification meeting at Fannell Hall, Boston, on the 22d, was very large. The meeting was addressed by D. D. Field, of New York, and Major Hunter, of Illinois. A Free Soil demonstration of the friends of the non-extension of slavery in Philadelphia, was to take place at the Chinese Museum on the evening of the 21st ult. John Van Buren, David Wilmot, and other distinguished speakers, it was expected, would be present.

THE WEATHER AND CROPS.—Our parish has been deluged with rain. Our planters have seldom suffered so seriously from long-continued and heavy rains. We hear of storms, and in different sections, which have injured the crops of corn and wheat considerably, and it is absolutely painful to record the immense damage, amounting to almost a total loss, which has fallen upon the cotton crop. This, to the numerous small planters in Attakapas, will prove very calamitous. On the 16th a hurricane swept over a portion of our parish, fortunately, however, in an unoccupied section of the Grand Bois, otherwise it would have ruined the prospects of many of our largest planters. Its track was more than half a mile in width, and several miles in length. There is scarcely a tree, large or small, which has not suffered from the effects of the storm. For two days we have had clear and dry weather. Our layon has risen about 7 feet.—St. Marksville Circle, 26th inst.

WASHINGTON NATIONAL MONUMENT.—We are happy to learn, says the National Intelligencer, that the foundation of this great structure is moving up and rapidly as the nature of such a work will admit. It is eighty feet square and of solid stone.

COMPLIMENT TO COM. PERRY.—A large number of the citizens of Washington, tendered to Com. M. C. Perry, late commander of the Gulf Squadron, and now in Washington, the compliment of a public dinner for his distinguished services in that capacity. He, however, declines it, as he did a similar tender from the authorities of New York, in consequence of the poor state of his health.

REDUCTION OF THE NAVY.—A Board is now organized in Washington, it is said, for the discharge of four captains, and four first and four second lieutenants, from the marine service—the whole number of men being now reduced to 2,333, what it was on the 2d of March, 1847. The duty of the Board is to examine the claims and services of each officer, and to ascertain who are the least meritorious.

FAMILY OF THE FRENCH BANKER LAFITTE.—It is stated that the wife and daughter of Lafitte, the French banker, who helped Louis Philippe to the throne of France, arrived here in a steamer yesterday a few days since. They are said to have brought some valuable property with them, and probably came in the steamer for the purpose of concealment.—N. Y. Mirror.

A WORK is announced as in press at Paris, entitled "History of the National Workshops," by Emile Thomas, founder and director of the National Workshops. BLACKBERRY JAM.—A new recipe for making this article was discovered in State street, Albany. An ox-cart rode over two large bushel baskets of blackberries, making a precious mess of them.

THE ALBANY FIRE.—We hear, says the Albany Evening Journal, of no confirmation of the rumored loss of ten or fifteen lives by the fire. Only two or three are known to have perished. NEW YORK FIREMEN.—Two of the New York fire companies went to Albany to aid in extinguishing the great fire.

MR. HALEY'S MAGICAL PAIN EXTRACTOR.—The proprietor, "H. HALEY," in the wrappers of each lot, Southern Depot, 111 Orleans street, New Orleans. IMPORTANT TO HEALTH.—No family should neglect to have a bottle of the BULL DOG "CAMPAIGNER" in their medicine chest. It is a most valuable and reliable remedy for all the ailments of the human system, and is sold by all the druggists in the city.

SALEM IRON FOUNDRY.—The large iron foundry, more-house, grist-mill, etc., etc., belonging to Thomas F. Lambson, at Salem, N. J., has been sold for \$8,000, and was purchased by Henry Ferris. The property is valued at from \$15,000 to \$20,000. POISONING AT SECOND HAND.—The Calais (Me.) Advertiser gives a singular account of the poisoning of a family of eight persons, in that town, a short time since. The house being infested with rats, a quantity of poison, arsenic, we suppose, was prepared to destroy them. The rats ate the arsenic, and feeling very thirsty under its burning operations, ran to the water-pail. The poison was communicated to the water, and the family made use of it the next day. The whole of them were taken sick, but fortunately the drug was too much diluted to produce any fatal effects. By the aid of a physician they were relieved from all danger.

DEATH IN A STATE PRISON.—William Parkinson, one of the Poughkeepsie Bank robbers, died in the New York State prison, lately, of the epidemic at present prevailing there. The deceased was about 40 years old, and formerly kept an extensive picture and looking-glass store in William street, New York. JEALOUSY AND ATTEMPTED MURDER.—A girl of the town, in Boston, named Lauretta Franklin, attempted to kill another girl of the same name, named Mary Jane Kimball, on the 21st ult., by inflicting several severe wounds upon her person with a bowie knife. They were jealous, it seems, concerning some man, and thus met in the street.

THE CONGRESS OF NEW GRENADA has passed a law of the following purport. It is worthy of the attention of foreign residents and those doing business with the Republic: "No foreigner, from the mere fact of being a foreigner, can bring any claim against the legitimate Government of the Republic for indemnification or reimbursement for damages or losses which his interest may sustain in consequence of political commotions, when such damages or losses shall have been caused by any other than the legitimate authorities. Always, however, it is understood that the right to proceed against a third party, for every kind of indemnification, is by no means interfered with, but will always be preserved, in accordance with the usual laws for such proceedings provided."

A Southern Convention. We perceive that some of the papers strenuously advocate the propriety of calling a Southern Convention, with a view of meeting the crisis (which will result from the passage of the Oregon bill with the Wilmot Proviso attached). For our part, we cannot see the propriety of such a measure.
