THE MARKET YESTERDAY.—A current rumor that later news from England had been received by telegraph, prevented much from being done in Cotton yesterday; the sales not exceeding 1800 bales.

NO STEAMER YET.—We learn from good authority that the rumor of the Britannia's news being in town yesterday, by telegraph, and unfavorable for Cotton, was incorrect. The report was probably started by some one who was determined to get a little ahead of the "lightning line."

TARGET SHOOTING.—On Sunday morning last, the Artillery Battalion, commanded by Maj. Galt, had its annual target shooting on the Genielly road. There were two medals to be shot for—one for 1847, which was not fired for last year, and the other for this year. The medal for 1847 was taken by private Frederick Lantille, and that for 1848 by private Alfred Bonaparte.

THE MANEUVER.—Sheriff Lewis learned from a gentleman, yesterday, who came down the river, that the steamer Mameluke, which was forcibly carried off on Wednesday morning last, with a Sheriff's keeper on board, by Captain McCulloch and his son, was near Natchez, and the Uncle Sam, with the officers pursuing her on board, about six hours steam behind. At this rate, the Uncle Sam had gained thirty hours on her from the time of leaving this city, and would not doubt soon overhauled her.

CHANGES.—To the officers of the Boreas No. 3, for late St. Louis papers.

AMERICAN LEAGUE.—A meeting of this Association of the friends of Ireland was held at their Hall on Sunday evening last, Dr. McCracken presiding. After the reading of the minutes of the previous meeting, which were approved, the Society went into the election of officers. After the election, the meeting was addressed by Dr. McCracken and Messrs. Scanlin and Reeder. The amount of \$255.50 was subscribed and paid in to the Treasury. The meeting adjourned until next Sunday evening.

SUGAR, &c.—The canal boat Gen. Fry, loading at St. Louis for Chicago, had on board 100 barrels molasses and 50 or 60 barrels sugar. The steamer St. Louis Oak started out with a barge in tow, having on board 55 bbls. sugar, destined for the same place.

OUR OMBUDSMEN.—For some time past there has been a very general complaint from the citizens of this city of the careless and furious driving of our omnibuses; and we were very much gratified yesterday morning to learn that Mr. J. B. Stawson, one of the proprietors of the "Rough and Ready" line, was acting as a general superintendent of both lines, giving orders as to the time each was to leave. We learn also, that they have entered into a mutual agreement by which one of the owners is at all times to be present at Canal street to regulate this matter—starting the stages as near as possible, up and down town, five minutes apart, in order to effectually check this disreputable practice. This is an excellent arrangement, and one which we have no doubt will be heartily approved of by the public, affording as it does the safety and comfort of a large portion of our citizens. A reasonable opposition is good in all things, but a reckless one, jeopardizing life and limb, should never be tolerated. The sun shines for all, and there is room for all.

THE GOLD FEVER.—A vessel sails from this port to-day or to-morrow for Chicago, with several persons who have been seized with the California Gold Fever.

TROOPS.—The steamer Eliza Stewart brought down from Fort Leavenworth, and landed at Alton, Ill., on the 8th, Major J. B. Donaldson, commander of the 3d detachment of Illinois volunteers, Capt. Wm. Kinmar, in command of company K, 1st Lieut. Bostick, 2d Lieut. Hickock, and Lieut. Treadway, McDowell and Bott, of company I; also, Dr. Turner, and the privates of companies I and K, 1st regiment, Illinois volunteers. Capt. Newby's 2d Illinois regiment have also arrived at Alton. But Gen. Churchill will commence mustering them out on the 11th. Major Johnson will pay off the men as fast as they are mustered out. Capt. Tuttle, of company E, of Gilpin's battalion, arrived in St. Louis on the 9th. Col. Easton, with his entire command, reached Independence on the 3d.

RIVERS.—At Pittsburg on the evening of the 9th inst., there was three feet two inches water in the channel. The Cumberland at Nashville on the 7th, had risen eight inches and was rising at the rate of half an inch per hour. The rise in the head-waters. Navigation in the Missouri has become so difficult that boats of the lightest draught bring out but little freight. One or two of the regular packets have withdrawn from the trade for the present. The fine and well known packet Julia, went to the dock yesterday; others will doubtless follow, unless an improvement takes place in the stage of the river, says the St. Louis Republican of the 10th inst.

TOMATOES.—One hundred and twenty bushels of this favorite and wholesome vegetable were received at St. Louis on the 9th, by one of the Keokuk packets. They were handsomely put up in bushel tins, destined for the New Orleans market.

DEATH OF N. E. JANNEY.—A telegraphic dispatch was received from Pittsburg at St. Louis on the 9th inst., announcing the death of N. E. Janney, merchant of that city. Mr. J. was on his return to his home, in a much impaired state of health.

THE ST. LOUIS RACE COURSE.—The regular fall meeting commenced on the 10th inst., and the prospect of sport by far exceeds any previous meeting of this course, says the Republican of the 10th. There are now six or seven stables at the course, and there is no doubt that some of the best nags in the country will be in attendance. Some of the best stables in Kentucky will be present.

WESTERN MARKETS.—Flour dull, with sales at 43 1/2 to 44 1/2. Grain as before. Sales of Whisky at 12. Markets generally without change. The River is stationary.

The Ohio and Pennsylvania Elections.

The Ohio and Pennsylvania elections, which have been some time looked for as the great events of the campaign previous to the grand contest, have come and passed, and still the question, which is now agitating the country, seems to be involved in a good obscurity as before. It had been generally supposed that these elections would be indicative of the final result—and we might, perhaps, consider them so, if we only knew how they had gone; but at present we are in most blinding ignorance, which, we much fear, will have to remain some days unlightened. Who shall decide when the telegraph contradicts itself? Who can say that Johnson is elected in Pennsylvania, or Weller in Ohio, when every minute may bring a dispatch precisely the contrary of what has been received? For some days the whigs have claimed Pennsylvania for Johnson; and certainly, if the telegraph was to be believed, he was known to be chosen the day after the election by at least fifteen thousand majority. The next day, however, the democrats were enlightened by a telegraphic assurance that the whig majority could not in any case exceed one hundred, which, it must be admitted, was a very nice calculation on a populous State. Day before yesterday, however, the majority went up to six thousand, and the democrats were proportionally depressed in spirits, while today it is reduced to one thousand, and the democratic Canal Commissioner elected. This is the latest report, and will be seen by reference to our telegraphic dispatch in another column. In our opinion it comes no nearer settling the question than did any of the preceding ones. As all the reports announce Johnson's election, either as certain or probable, it is safe to conclude that he has the best chance.

As to Ohio, the accounts are equally variable. It was at first stated with certainty that the whigs were sweeping everything before them—former majorities were to be entirely eclipsed—and in fact the game was decided. Twenty-four hours elapsed, and it was ascertained that the democrats had made large gains—another day, and Weller was elected by three thousand majority. This astonished our whig friends considerably, while our democratic acquaintances were just on the point of going into ecstasies at the unexpected result, seeming to forget all about Pennsylvania, when along came a lightning flash with the intelligence that Ford was undoubtedly elected. This is the latest and of course must be considered true until we hear something more. In this condition of affairs, what are we to do? If in the presence of a whig we insinuate a doubt of Johnson's election, we are considered worse than confirmed infidels; if we express a belief to a democrat that such an event has really occurred, he is ready to eat us up for giving evidence to whig reports, and goes off grumbling something about "telegraph unreliable," "lies," &c. It is therefore fair to presume, until the mail arrives, that no one at all has been elected, and in fact that the election never took place at all. When the news comes by mail we shall know all about it, and in our opinion not before. Until then we advise all our friends to keep cool, and wait patiently.

SUIT AGAINST THE CRESCENT CITY.—A suit for injunction was yesterday filed in the Third Circuit Court, by Messrs. J. P. Whitney & Co. ex. C. Stoddard et al. The petitioners represent that they are the true and lawful owners of one undivided fourth interest or share in the steamship Crescent City, and that the other parties interested in said vessel, are represented by C. Stoddard, the master, for the business of the ship. It is further shown that by the original articles of agreement entered into by private writing between petitioners and the original owners of said vessel, it was agreed that the entire business and agency of said steamship in this city should be conducted by the petitioners, and that they should receive 5 per cent. on the amount of passage money procured or collected here, and a further sum of 21 per cent. upon the expenditures of said ship. The petitioners state that during 1847 and up to June 1848 they have paid to the order of their associates the full sum of \$56,000, which was the price of the one undivided fourth interest of said steamship. The Crescent City has made three complete trips from New Orleans to New York, during which the petitioners have faithfully performed all the duties as agents. Petitioners further show that by the written contract for the building of the said ship, Isaac Newton agreed that he would take and retain a one-half interest therein, but that in violation of said agreement, he has nominally conveyed to Charles Morgan, by some pretended bill of sale or assignment, his entire interest in said ship; that the said Charles Morgan has, as petitioners verily believe, accepted the transfer of the entire interest of said Newton, and that said Charles Morgan was at the time well aware of petitioner's right to the said ship in New Orleans. They also aver that Isaac Newton is still a part owner of said vessel notwithstanding the transfer aforesaid. Petitioners further state that the other part owners of said ship, as also Charles Morgan, are and have combined with Harris & Morgan, merchants of this city, in order to accomplish said purpose, and have directed said authorized them to announce themselves to the public as agents; which said Harris & Morgan have done. That the petitioners, as soon as the vessel arrived here, called on Capt. Stoddard, and as agents, demanded the freight list, bills of lading, &c., but that said master refused to deliver them. The petitioners further assert that the commissions resulting from said agency will be fairly worth to them over \$7,000 a year. They also aver that said Harris & Morgan persist in attempting to collect the freight and passage money, and that the illegal conduct of said parties deprives petitioners of the possession, control and use of their own property, that it will greatly diminish the market value of their interest and share in said steamship, and that the attempt to deprive them of the agency will inflict a serious and lasting injury upon the business of their city. Petitioners therefore pray for a writ of injunction, to prevent the defendants from collecting freight, passage money, and in fact preventing them from doing anything appertaining to the business of said ship. The petitioners have given bond in \$30,000. Micou for petitioners.

RETURN OF TROOPS, &c.—The St. Louis Reveille contains a letter, dated Independence, (Mo.) Sept. 10th, from which we extract the following: "Our little city is quite alive with the returning Missouri Volunteers, with four companies of the 1st Missouri Battalion, is here and the Artillery Company belonging to the same will be in to-morrow.
