

NEW ORLEANS MARKETS.

MARKET. Dec. 1, 1884. Our market has displayed considerable activity during the past week, particularly in Flour and Grain, though prices of both are rather lower. Cotton has been in demand, and the advance noticed in our last weekly review has been partially lost.

Wheat - The market for the Liverpool steamer of the 15th ult. (the Britannia) is now about dry by telegraph. The market opened in the early part of the week with a good inquiry, and the sales of Standard, Monday and Tuesday, embraced about 10,000 bushels, being generally well sustained at the advanced rates of the week previous. The intelligence by the Cambria, published on the morning of the latter day, though representing the Liverpool market as steady, has, however, occasioned a decline in the price of the week's wheat on Wednesday and Thursday, and a decidedly easier tone for purchasers, and in some cases a decline of 1/2c. To-day several buyers have made their appearance, and the sales reach 3000 bushels, making a total of 22,000 bushels for the week. We have slightly reduced our figures for the quality below. The receipts at all ports show an increase of 51,017 bales as compared with last year's date, and at all the U. S. ports there is now an increase of 1,000,000 bales.

NEW ORLEANS CLASSIFICATION. Inferior 1/2c, Middling Fair 1/2c, Middling 1/2c, Good Middling 1/2c, Choice and Selections 1/2c. COTTON AND TOBACCO STATEMENT. Stock on hand, Dec. 1, 1884. Cotton, 17,700 bales. Received past 3 days, 10,000 bales. Previously, 21,100 bales. Tobacco, 1,000 bales. Received past 3 days, 10,000 bales. Previously, 11,700 bales.

TOBACCO - There has been a good demand for Tobacco throughout the week, and the sales for that period comprise 1200 bales, including one lot of 100 bales. Market Country, on terms not made public for the week, has been generally fully up to our quotations, and the market closes with a stock on hand not exceeding 600 or 800 bales. We continue our last quotations: For Leg. 21c; Leaf, Inferior to Fair, 25c; Choice and Selections, 30c.

MOLASSES - The market for Molasses has been very heavy for a day or two past, and prices have declined. The sales of the week have amounted to some 1800 bbls., beginning at 20c, and closing 1/2c to 1 1/2c per gallon. FLOUR - Owing to a considerable increase in the receipts from the region of the Ohio river, the market has been largely overstocked, and the price, which has again fallen about 1/2c per bushel. A very fair demand, however, has prevailed, and the sales of the week sum up nearly 17,000 bushels, at a range of 44c to 47c for Ohio and similar brands, with some few small parcels of choice Illinois' at 48c to 49c. To-day the sales are some 3200 bushels at this rate. Arrived this week, 31,819 bushels. Exported, same time, 16,200 bushels.

GRAIN - The export demand for Corn, both for Europe and the North, has continued good, but speculative prices are from 25c to 30c lower. The week's sales embrace about 45,000 sacks, at an average rate of 40c. The ruling rates for good dry shipping lots of new and old have been 47c for bushel. We noticed about 3000 sacks of White Corn, and 5000 sacks of Yellow Corn, for Ordinary. Oats have been selling at 26c in sacks, according to quality, and 25c in bulk. Bran has been sold at 50c to 55c. Corn Meal is nominally 42c to 45c. Arrived past week, 42,014 sacks. Exported, same time, 16,200 bushels.

PROVISIONS - The market has presented a pretty steady appearance throughout the week, and about 1500 bbls. of Flour, and closing very firm. The whole stock at the Liverpool steamer was only 2000 bbls. of which 1000 are new and 800 bbls. firm. BEEF has been coming in quite freely, and prices close very firm today at 10c to 11c for Mass, and 9c to 10c for Prime. Of Prime Cuts in tallow, some 350 sold for English shipping at 15c to 16c. Bacon has been rather dull, and 10c to 11c for Sides and Shoulders until today, when 10c to 11c for Sides and 10c to 11c for Shoulders and 10c to 11c for Choice. HAMS sold at 12c to 13c for plain and 14c to 15c for Cured and choice Sugar Cured. LARD has been dull, and 10c to 11c for Choice. THE ALABAMA ARGUMENT - We invite the attention of our readers, both city and country, to the prospect of the "Alabama Argus," published in the thriving town of Dayton, Marengo county, Ala., by Mr. Albert A. Dumas. The Argus is well printed, and evinces ability, industry and tact - the combination necessary to make a useful and interesting paper. We think it would prove an excellent advertising medium, through which our merchants may promote their interests. The Argus is an advocate of the principles of the whig party, yet fair and courteous to its opponents.
