

The Daily Crescent.

OFFICIAL JOURNAL OF THE COUNCIL OF THE SECOND MUNICIPALITY. Published Every Day—Sundays Excepted—BY J. H. MADDOX & CO.

TERMS:—Five Cents per week, payable in advance; for the month, \$1.50; for the quarter, \$4.50; for the year, \$15.00. Single Copies, 15 Cents.

LATEST FROM WASHINGTON—March 8. Mr. Morton presented to the Senate the credentials of the Hon. Solomon Foot, of Vermont. Mr. F. appeared and took his seat.

Mr. Morton presented a communication from the Hon. D. L. Yulee, claiming to have been elected Senator for the Legislature of Florida, and that the Hon. N. Mallory, who received the Governor's commission, was not legally elected. Laid on the table.

Mr. Bright moved to take up the order that on Monday the Senate would adjourn sine die, and after debate the motion was lost.

Several resolutions of inquiry were offered and adopted. The resolution directing that each Senator be given twelve copies of the Congressional Globe, was debated and referred.

The resolution allowing extra compensation to the employees of the Senate, was taken up and decided for more than two hours, and was then adopted.

After an Executive session, the Senate adjourned. A Washington dispatch of the 10th inst., to the Louisville Courier, is limited to the nearest route within the United States.

The House, notwithstanding, has allowed mileage to the United States Senator by the Panama route. Senator Green, who submitted his case to the Judiciary Committee, and it is understood that they will report against the Panama route, and a compromise will be made to the extent of \$10,000 for mileage since December.

Father Ritchie's case goes over to the next session. Mr. Cass defended himself from an editorial in this morning's Republic, in relation to a letter to Mr. Kellogg, relative to the case of Harriet Beecher Stowe.

Mr. Kellogg's letter to the Hon. J. H. Madison, the false and erroneous statements contained in Mr. Hamilton's report to Gen. Hamilton, published in the Union of yesterday.

This gave rise to an exciting debate between Messrs. Rhet, Houston, and Butler, which terminated by a vote from Mr. Hale.

Mr. Gales & Son, declining to publish, after the session, the daily debates of the Senate, which was referred to the Judiciary Committee.

The Committee reported adversely to allowing mileage to California Senators by the Panama route. Executive session adjourned.

U. S. SUPREME COURT.—Friday, 7th March. No. 24. D. Hanson vs. T. Tracy's Administrator. Mr. Justice Grier delivered the opinion of the Court, affirming the judgment of the said District Court, with costs and damages, at the rate of six per cent.

No. 25. A. Fowler, et al. vs. A. P. Merrill. Appeal from the Circuit Court of the United States for Arkansas. Mr. Justice Woodbury delivered the opinion of the Court, affirming the decree of said Circuit Court, with costs.

No. 26. A. Lecomte vs. the United States. Appeal from the District Court of the United States for Louisiana. Mr. Justice Grier delivered the opinion of the Court, affirming the decree of the said District Court.

No. 27. The United States vs. T. Powers. Hears. Appeal from the District Court of the United States for Mississippi. Mr. Justice Catron delivered the opinion of this Court, reversing the decree of the said District Court, and remanding the case, with directions to dismiss the petition of the claimants.

No. 28. J. H. Bennett vs. S. F. Bosterworth. Appeal from the District Court of the United States for Texas. Mr. Chief Justice Taney delivered the opinion of this Court, reversing the judgment of the said District Court, with costs, and remanding this case for a re-trial after due diligence.

The Fortinos Riot. A writer in the Boston Transcript gives a table of all the families who were killed. His object, evidently, is to bring the present inefficient police of Boston into just reproach. We select his account of the Portenos riot, in Edinburgh, when one of his prisoners was broken open, Portenos taken out of his cell, and hanged.

In 1737 occurred the memorable riot in Edinburgh, upon which occasion Captain Portenos was severely wounded. The affair gives rise to various reflections, not the least remarkable of which is a consideration of the extreme difficulty of identifying offenders, whenever the outrage is committed in a public place, and the people are so numerous, and the feelings of the people so agreeable to the feelings of the people.

AMERICAN COTTON AND ENGLISH DEPENDENCE. Among other matters which late writers in Blackwood's Magazine have written upon, is the dependence of the present condition of Great Britain, is the fact that five-sixths, or nine-tenths, of the supply of cotton consumed in Great Britain, is derived from America; and that seven or eight hundred thousand persons are directly or indirectly employed in the operations which take place upon it.

rick's Church. Several months since I appeared...

rick's Church. Several months since I appeared before the Hon. Solomon Foot, of Vermont. Mr. F. appeared and took his seat. Mr. Morton presented a communication from the Hon. D. L. Yulee, claiming to have been elected Senator for the Legislature of Florida, and that the Hon. N. Mallory, who received the Governor's commission, was not legally elected. Laid on the table.

Arrival of the Steamer Asia.

The mail due to-day has failed beyond Charleston. Yesterday's mail is not received. New York, March 18. Advance in Cotton.—The steamship Asia arrived at New York at eight o'clock, A. M. to-day, with Liverpool dates, but instead of the account of short crops, published by the America, and the small receipts, had caused an advance in Cotton of one-fourth. Provisions were improving, and the market had been exceedingly dull during the week.

Flour received 6d. Western Canal was quoted at 20 to 21. The Beef market was steady, but transactions were not active for want of buyers. There being no Pork in importers' hands, holders ask an advance, which has checked imports. Bacon was much wanted. Several imports of Lard, have caused a reaction in the market, and the article is now quoted at 1s. 10d. lower, with a languid demand. [Evening Picayune.]

LATEST FROM JAMAICA.—We have the Kingston (Jamaica) Morning Journal of the 28th inst. and last instant. It contains little news. In Jamaica business was generally inactive. The markets were supplied beyond demand, especially in articles of Groceries. All stock continued to rise. The crops on the island of Jamaica promised well, and notwithstanding the insufficiency of laborers, which will somewhat diminish the yield, the harvest was likely to be better than had been anticipated.

There appears to have been a revival of the cholera in some of the rural districts. The Kingston Morning Journal contains an account of an attempt to dig for treasure, said to be buried on the island of Grand Cayman by Gibbs the pirate. An American schooner, called the Emira, from New Orleans, arrived at Jamaica, and her mysterious movements give rise to rumors that the crew were buccaners.

Inquiry was made and the captain denied all the charges. He attempted to find the treasure, but without success, and after his vessel had gone the authorities of Georgetown, with about three hundred men, made a similar unsuccessful attempt. Two men were in possession of the secret, made a similar effort, and had, at the last accounts, reached some strange signs.

NEW YORK U. S. SENATOR.—One more effort has been made, and it is thought will be another bone of contention in the Legislature. Mr. Ferris of Tompkins, on the 7th instant, introduced a bill in the Assembly, providing for the election of a Senator by the people of the State of New York.

Mr. Ferris of Tompkins, on the 7th instant, introduced a bill in the Assembly, providing for the election of a Senator by the people of the State of New York. Mr. Dickinson, whose term of office expired on the 4th of the present month. The bill declares that on the 25th instant, both branches of the Legislature, shall proceed to an open nomination for a candidate; and after having made a nomination, the Senate and Assembly shall unite together for the purpose of comparing nominations, and in case of agreement, the candidate so elected shall be declared elected. If, however, there appears to be a disagreement, then to proceed to joint ballot.

MURDER IN CLARKSVILLE, TENN.—We find in the Louisville Courier of the 11th, a telegraphic dispatch with the particulars of a murder committed near Clarksville, Tennessee, as follows:—On the morning of the 7th inst., a difficulty occurred between Mr. John H. Crowder, proprietor of the Blooming Grove Furnace, by which the latter was immediately killed. It appears that a misunderstanding had arisen between Mr. Crowder and a party named Newton, who had been engaged to work at the furnace. Crowder had notified Newton that his terms should no longer apply, and that he was to be discharged. Newton, however, refused to leave, and on the 7th inst., he was engaged to work at the furnace. Crowder, on the 7th inst., was accompanied by his son, who was also present. The father had not been arrested, but the son is now before an examining court. Much excitement prevails.

AMERICAN COTTON AND ENGLISH DEPENDENCE. Among other matters which late writers in Blackwood's Magazine have written upon, is the dependence of the present condition of Great Britain, is the fact that five-sixths, or nine-tenths, of the supply of cotton consumed in Great Britain, is derived from America; and that seven or eight hundred thousand persons are directly or indirectly employed in the operations which take place upon it.
