

NEW ORLEANS: WEDNESDAY MORNING, JUNE 15.

Second Municipality Council.—The usual weekly meeting of the Council was held last evening in the Municipal Hall. Recorder Caldwell presided.

A communication from the Gene Council was read, in reference to the Fourth of July.

The report of the Board of Directors was read. Among other things it stated that the number of girls in the public schools had increased, while the number of boys had decreased.

The Finance Committee of the Board of Directors of Public Schools reported an amount required for expenditures, estimated to the 1st of November next, at \$25,950.85.

Mr. Shields moved that an appropriation of \$30,000 be granted for the support of the Public Schools, which lies over.

The Treasurer's report to the present week showed a balance in hand of \$458.75.

The petition of Albert G. Blanchard, District Surveyor, for payment of claim for \$140 for 88 days services rendered the Council at the Saucy Crevasse in 1849, was referred to Committee on Claims.

The question of the distribution of the fund allocated for the relief of orphans, coming up in consequence of complaints being made to the council by parties who stated that the Recorder refused to pay them out of the fund.

A memorial was presented to the council for the immediate removal of the boiler manufactory on Girard street, by a number of inhabitants in the immediate neighborhood, which, on motion of Mr. Perry, was laid on the table, subject to call as it would come up in the regular order of the day.

Simon Tobet Jr., wrote a long letter to the council relating to the awful fact that St. Francis street, on which he resided, had in late become the resort of a den of neophytes, who made night hide-outs, disguised their faces, covered with mud, and hid a hundred dollars in their pockets.

A petition from Leo Purvis, architect, praying permission to continue the use of the banquette on St. Charles, Common and Gravier streets, for the reception of the required material for rebuilding the St. Charles Hotel, was referred to the Committee on Streets and Landings.

The petition of James White, and other property owners on Julia street, complaining of a nuisance existing in that neighborhood in the shape of a range of stables belonging to Benjamin Rodriguez, was referred to the Committee on Streets and Landings.

The petition of American Hook and Ladder Company, praying an appropriation of two hundred and fifty dollars as necessary for repairs, etc., required by the company's establishment on Girard street, was referred to the Committee on Fire.

The petition of certain property owners in the neighborhood, praying for the opening of a new street from Camp to Noyades streets, was referred to the Committee on Streets and Landings.

The petition of Patrick Kelly, praying the remission of a fine imposed on him by Recorder Caldwell, for creating a disturbance in his court, was reported against by the majority and also brought up, but was lost; whereupon, on motion of Mr. Perry, the committee were discharged from further consideration of the matter.

The committee reported in favor of the removal of the boiler manufactory on the west side of Baronne and Hevia streets, and reported a resolution allowing thirty days for its removal—penalty, twenty-five dollars a day, if not removed at the end of that period.

Messrs. Stewart and Perry opposed the resolution and Mr. Brughman moved for the adjournment of the meeting until the next meeting of the Council.

The Council adjourned shortly after the passage of the last resolution.

Third Municipality Council.—The regular weekly meeting of the Council was held last evening, Recorder Seuzenau in the chair.

A communication was received from the Secretary of the General Council relative to the celebration of the approaching anniversary of our independence.

Messrs. Chiappella, Brinkman and Solomon were appointed to act on behalf of the Third Municipality in the matter.

The Treasurer's report for the week ending May 7, was read as follows:

Balance on hand last report, \$1,010.17 Received since, 1,375.49 Total, \$2,385.66 Balance on hand, \$1,075.88

A communication was received from the Attorney of the Municipality, enclosing a recent decision of the Supreme Court, declaring the right of the Council to tax rural as well as urban property.

It was ordered to be printed, and a communication was received from the Comptroller asking to be paid the services of a clerk, and stating that he declined to pay the salary of the Recorder's clerk until he should receive instructions from the Council. Referred to the Finance Committee.

The Council soon after adjourned.

First District Court.—T. J. Foster and his associates, the subjects of Mr. Charles' story, were brought up for sentence. Foster was sentenced to five years in the Penitentiary, and \$1000 fine. Augustus Cadly was sentenced to five years, and Frederick Marshall to three years in the Penitentiary.

Horse Smith pleaded guilty to the charge of an assault, with intent to kill, upon A. M. Lusk. A *nolo prosequi* was entered in the case of Edward Morgan and David Courtney, charged with highway robbery, the witnesses having left the city.

"A Single Young Woman's Ledger."—The Recorder issued his warrant yesterday for the arrest of one Mary Smith, who is charged by Caroline H. Spears with having stolen a purse containing \$20.50, from her residence on Conti, between Bourbon and Dauphin streets, about nine o'clock, on Monday morning last. Miss Spears says in her affidavit, that she granted Mary leave to stay in her domicile, and that this is the reward of her hospitality.

Probable Homicide.—T. N. Wright, one of the hands employed on board the steambark Great Turk, was arrested on the levee, about half past four o'clock yesterday evening, by Officers Ross and Bohan, of the Second Municipality police, charged with striking and stabbing the mate of the boat with a dirk, while drunk, although very rude construction, as it now lies at the High Constable's Office, is wounded with silver. It is believed that the wounded man cannot survive.

Wright states that he acted in self defense, and a large cut on his right temple, much swollen around it, said to be inflicted with a billet of wood, by the mate, would go some way in proving the truth of the statement.

Treason and Alleged Assault.—Jonathan Hall, Mary Hall, and G. R. Grinnell, arrested by Warrant on Monday evening, at a quarter of nine o'clock, on Monday evening, at the request of John M. Gallagher, were yesterday arraigned before the Recorder, on the double charge of treason, and assault with a knife. The prosecutor, Gallagher, stated that he let a house of his to a Mrs. Lang, who left without paying him any rent, about a fortnight ago. Being told that his house was open, he went there, and found the prisoners, Hall, occupying it, and having a lot of hay and cotton stacked along the floor, which led him to believe that his house was in a fair way of being burned. He ordered them out, and gave them the fright to leave, but instead of leaving, the female brought down a knife, and attempted to cut him. The Recorder, in this case, found the prisoners guilty, and sentenced them to the penitentiary for one year each, without the right to do so, as they had rented it, not from Gallagher, but from Mrs. Lang. Mrs. H. denied having had any knife in her possession. The Recorder required security from the accused, in \$500 each, to keep the peace.

Might be the Case.—John Reilly, arrested on Monday night, at half past 11 o'clock, in whose possession was found a red figured table-cloth or bedspread, a cloth coat, a brass candlestick, and some tumbler, supposed to be stolen, was remanded yesterday by the Recorder, for a further examination, before the Recorder, on a former occasion, not much unlike the present.

Dull Times.—There was nothing of importance transacted by the Recorder Courts of the First or Third Municipalities.

Attempt to Steal.—Lopez de la Garcia was arrested on the levee about mid-day yesterday, for attempting to steal a man.

The Stolen Cotton.—On the 14th of the present month, a bale of cotton, the property of Robert Albert & Co., was stolen from off the banquette before the Planters' Cotton Press, on Annunciation street, by the slave Anderson, belonging to D. T. Donovan. Michael Manning, who stood charged by W. J. Mullen, with receiving the same, was arraigned yesterday before Recorder Caldwell, on the charge, and pleaded "not guilty." The case was remanded to this day for examination.

Larceny.—Edward Reilly, charged with the larceny of \$25 worth of wearing apparel and jewelry from Elizabeth Connolly, a few days ago, will come up for final examination on the 21st inst.

NEW ORLEANS MARKETS. (Continued from page 1.)

Cotton.—But few parties seemed disposed to operate yesterday, and the sales were limited to about 1000 bales.

MISCELLANEOUS FOREIGN ITEMS.

A mixed commission in the point of being formed by the Governments of France and Spain, in order to open definitive negotiations on the subject of the frontiers of the Pyrenees. This commission will report in a few days, and its recommendations and details, which will be submitted to the two governments.

On Thursday afternoon last, the 20th ult., the Prince Albert, with a large expedition, in search of Sir John Franklin and his associates, sailed from Aberdeen.

The Germans have remarked, this spring, what they call a singular phenomenon—an unusually strong current of English emigration is setting toward the continent, just as the continental tide is kind of "up stream" of humanity, is turning towards England. The general belief in Germany is, that London families are letting their lines for the season at fabulous rents, and are emigrating from the great Habel to live on the proceeds in quiet and cheapness on the banks of the Neckar and the Main.

The Austrian Government has ordered seven regiments of light cavalry to be turned into lancers, in consequence of having found that during the late insurrection in Hungary the lancers had a decided superiority over every other description of light cavalry.

We have seen a private letter announcing the serious illness of the King of Spain—so serious that, in all probability, ere this time, his successor will be on the throne. That successor, it is expected, will be Chau de Montglat; and should this be the case, the enlightened views of that prince will refer to commercial matters, which will be of great importance as regards the extension of our commerce in that kingdom. Chau de Montglat, we are informed, speaks and writes the English language as a second language.

Crops—Cereals, etc.—The weather has been extremely warm for the last month. The ears of wheat are very dry, and nearly everything suffering by the dry weather. We have had occasional showers, but not sufficient to do much service. The prospect of a fine crop of wheat, cotton, and corn, throughout the parish, will be unusual, provided we have a good rain in a few days.

At all events, the prospect of a fair crop in Pointe Coupee is more certain than for several years previous.

On the Bayou Perdue, Grosse Tete, Attalacha, the Island, and False river, the prospects of a fine crop of rice, cotton, and corn, throughout the parish, will be unusual, provided we have a good rain in a few days.

The Village was nearly all inundated, but since the river has receded, the planters have planted their fields in full, and the prospects of a fine crop are better.

The crevasse which occurred on the plantation of Mr. Charles Hogan, injured only a few persons in the neighborhood. Mrs. Gordon, and Mr. Hogan, will make a good crop of cane, corn, and cotton.

The plantation belonging to the estate of Col. Morgan had only a few acres affected by the crevasse. Mr. Hogan, and since the water has receded the prospect of their making a good crop of cane, cotton, and corn, is more flattering than usual. [Pointe Coupee Echo, 14th.]
