Farmers in Florida are planting peas and sweet potatoes in order to make up the deficiency of the corn crop.

There will be an immense crop of corn in Iowa, running up into the hundreds of millions of bushels. Eighteen counties, which in 1880 yielded 60,000,000 bushels, will this year produce 70,000,000.

Even the potato bug is of some use. Franklin Russel, of Norwood, Mass., finds that the bugs will color sheepskins a beautiful vermilion. Possibly it will yet pay to raise potatoes as food for the bugs—as mulberry trees are raised to feed silkworms.

We learn from the Gazette that a grand mass meeting of Ponchatoula and vicinity will be held on the fourth Saturday, of September, the 24th inst., to consider ways and means of aiding the proposed railroad from Baton Rouge, via Ponchatoula, to Mobile.

Mr. Joe Beasley, experimental gardener near Columbus, Ga., has succeeded in raising some melons with a delicious lemon flavor. He makes an incision in the vine a short distance from the root, to which he attaches a lemon, and by means of absorption the juice is taken into the melons.

The Chicago Times has three columns of reports of the hog crop in the West, which indicate that the number of hogs is one quarter less than last year, and that they are of small size and in poor condition. There is not the usual number of pigs and there is a deficiency of food with which to fatten them for market.

The three most influential and distinguished Republicans in the State of Mississippi, Hon. W. H. Gibbs, and Judges Daffard and R. J. Alcorn, publish a letter replete with cogent arguments, denouncing the fusion movement, and as Republicans declare for the Democratic ticket.

A special dispatch from Marquette, Mich., says that a powder explosion occurred at 8 A. M., Tuesday, in the packing house of the Lake Superior Powder Company. Eleven men were blown to atoms, and small portions of their bodies were found in all directions. The building was destroyed, and no one survived to tell the cause of the accident.
