**ST. TAMMANY-PARISH.**

ITS LOCATION—HEALTH—  
PRODUCTS—MANUFAC-  
TURING AND AGRI-  
CULTURAL AD-  
VANTAGES,  
ETC.

St. Tammany parish is located  
twenty-two miles north of New Or-  
leans. Covington, the county site,  
is ten miles further north, in the  
interior, and is delightfully located  
on the Bogue Falia.

**IMMIGRANTS,**

with a small amount of capital and  
a fair supply of industry and perse-  
verance, cannot possibly do better  
than locate in our parish. The cli-  
mate is as fine as any in the world.  
The winters are generally mild, and  
snow rarely falls. Spring opens  
early in February, with blossoms  
on the peach and quince trees, and  
vegetation comes rapidly forward.  
The heat of summer is moderate,  
and the unfeeling breezes of the  
evening refresh man and beast after  
the labors of the day.

**THE SOIL**

is very productive, and admirably  
adapted for raising sugar cane, cot-  
ton, oats, corn, rice, peanuts, etc.  
The vine is indigenous, and yearly  
bears large harvests of delicious  
fruit. Oranges, pears, peach, plums,  
quinces, figs and pecans thrive well.

**CATTLE AND SHEEP**

graze upon our pine lands through-  
out the year, and seldom are fed in  
winter, thus making St. Tammany  
the stock-growers' home. Farming  
and stock lands can be purchased at  
rates varying from \$1 to \$5 per  
acre, and Government lands to  
actual settlers.

**WATER POWER.**

There is an abundance, of water  
power, already improved, inviting  
the attention of manufacturers. We  
have no doubt a small factory, such  
as already abound in Alabama and  
Georgia, for the purpose of con-  
verting our cotton crop into yarn,  
would prove a paying investment.

**FIRE CLAY**

is found in abundance, as well as  
clays suitable for pottery ware of  
the very finest texture, purely white,  
and free from sand or grit. Per-  
sons having a practical knowledge  
of such business would soon realize  
a fortune in manufacturing and  
shipping such wares to the New  
Orleans market.

**MANUFACTURE OF GLASS.**

Sand suitable for the manufacture  
of glass is also abundant all along  
the banks of the Bogue Falia, above  
the town of Covington. It has been  
practically tested by Pittsburg  
manufacturers, and found to con-  
tain all the necessary properties to  
produce the finest glassware.

**COVINGTON,**

the county site, contains about  
eight hundred inhabitants, and is  
the best business point in the pa-  
rish, commanding much of the trade  
of both St. Tammany and Washing-  
ton parishes. The mail from New  
Orleans arrives three times a week,  
per steamer New Camelia, and  
there is some talk of building a  
telegraph line.

At present there is no mill or  
manufactory of any kind in Coving-  
ton. Building sites for manufactur-  
ing purposes can be had on the  
most favorable terms, and every  
facility will be offered for immi-  
grants to this parish.

To all honest and industrious im-  
migrants who may wish to settle in  
St. Tammany, a hearty welcome is  
extended and protection guaranteed  
in their respective occupations.

from that date until paid, in accordance
