ST. TAMMANY PARISH.
 ITS LOCATION—HEALTH—
 PRODUCTS—MANUFACTURING AND AGRICULTURAL ADVANTAGES, ETC

St. Tammany parish is located twenty-two miles north of New Orleans. Covington, the county site, is ten miles further north, in the interior, and is delightfully located on the Bogue Falia.
 IMMIGRANTS,
 with a small amount of capital and a fair supply of industry and perseverance, cannot possibly do better than locate in our parish. The climate is as fine as any in the world. The winters are generally mild, and snow rarely falls. Spring opens early in February, with blossom on the peach and quince trees, and vegetation comes rapidly forward. The heat of summer is moderate, and the unfailing breezes of the evening refresh man and beast after the labors of the day.

THE SOIL
 is very productive, and admirably adapted for raising sugar cane, cotton, oats, corn, rice, peanuts, etc. The vine is indigenous, and yearly bears large harvests of delicious fruit. Oranges, pears, peach, plums, quinces, figs and pecans thrive well.
CATTLE AND SHEEP
 graze upon our pine lands throughout the year, and seldom are fed in winter, thus making St. Tammany the stock-growers' home. Farming and stock lands can be purchased at rates varying from \$1 to \$5 per acre, and Government lands to actual settlers.

WATER POWER.
 There is an abundance of water power, already improved, inviting the attention of manufacturers. We have no doubt a small factory, such as already abound in Alabama and Georgia, for the purpose of converting our cotton crop into yarn, would prove a paying investment.

FIRE CLAY
 is found in abundance, as well as clays suitable for pottery ware of the very finest texture, purely white, and free from sand or grit. Persons having a practical knowledge of such business would soon realize a fortune in manufacturing and shipping such wares to the New Orleans market.
MANUFACTURE OF GLASS
 Sand suitable for the manufacture of glass is also abundant all along the banks of the Bogue Falia, above the town of Covington. It has been practically tested by Pittsburg manufacturers, and found to contain all the necessary properties to produce the finest glassware.

COVINGTON,
 the county site, contains about eight hundred inhabitants, and is the best business point in the parish, commanding much of the trade of both St. Tammany and Washington parishes. The mail from New Orleans arrives three times a week, per steamer New Camelia, and there is some talk of building a telegraph line.
 At present there is no mill or manufactory of any kind in Covington. Building sites for manufacturing purposes can be had on the most favorable terms, and every facility will be offered for immigrants to this parish.

To all honest and industrious immigrants who may wish to settle in St. Tammany, a hearty welcome is extended and protection and encouragement guaranteed in their respective occupations.

J. E. SMITH,
 COVINGTON, LA.—DEALER IN

Ears for the Million!
Foo Choo's Balm of Shark's Oil
 Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.
 This Oil is abstracted from a peculiar species of small White Shark, caught in the Yellow Sea, known as CHARKARDON RONDELITTI. Every Chinese fisherman knows it. Its virtues as a restorative of hearing were discovered by a Buddhist Priest about the year 1410. Its cures were so numerous and many so seemingly miraculous that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for over 300 years no Deafness has existed among the Chinese People. Sent, charges prepaid, to any address, at \$1 per bottle.
