There are only 1,000 of them, and they have \$5,000,000 of their credit in the United States treasury, the interest of which, amounting to \$100,000 annually, is paid out to them by Uncle Sam's agents. They are treated as absolute wards of the government, and their lands and money are kept for them, as a guardian keeps the property of a minor.

### "OUR FAIR."

The Florida Parishes Fair will open October 29th. The Springfield Bee, in an able editorial under the above caption, in its issue of August 21st, states in the following clear and forcible manner its reasons for speaking of the Fair as "Our Fair":

"We use the term 'our fair' in our caption for this article, and use it because it is our right to do so. In using the term 'our' we speak for and as the people of Livingston parish; it belongs to us, in common with the rest of the Florida Parishes, and a matter of home and local pride should prompt all the people of the Florida Parishes to unite in making the fair the great success it ought and deserves to be."

As it is the handiwork of all the parishes east of the Amite river. One by season of location, by habit and by association, the people of the parishes of Livingston, St. Helena, St. Tammany, Washington and Tangipahoa all can well say, "The fair is ours." Such being the case, is there any reason why all the newspapers published in the Florida Parishes should not, with one accord, join the Bee in booming the fair and making it surpass all predecessors as an exposition of the resources of this section. It is expected that quite a number of home-seekers from the cold northwest will be here during the fair. Let each parish put forth its best efforts toward making a creditable exhibit of its products and resources, and let all the people and the local papers join with one accord in a united effort to make the fair, which is in no sense local so far as Amite City is concerned, a grand success.

We call upon the Springfield Star, the St. Helena Echo, the St. Tammany Farmer, the Franklin New Era, the Hammond Sun, Graphic and News, the Roseland Herald, the Kentwood Commercial and the Amite City Independent to follow the lead taken up by the Bee and boom "Our Fair."—Florida Parishes.

### THE COTTON CROP.

Washington, Sept. 10.—The cotton report of the Department of Agriculture shows a decline from the August conditions of the crop, which was 77.9 to 70.8 per cent, a decline of 7.1 points. This makes the lowest September condition of the plant since 1881, when it was reported at 70 per cent.

The State averages are as follows: Virginia 84, North Carolina 79, South Carolina 81, Georgia 81, Florida 79, Alabama 73, Mississippi 77, Louisiana 75, Texas 56, Arkansas 79, Tennessee 76, Kentucky 85.

### PLAYING HAVOC WITH COITON.

GALVESTON, Tex., Sept. 4.—Private advices from Tyler are to the effect that the army worm is destroying cotton faster and in greater quantities in Smith county than ever known before, and the prospects are that nearly all the crop will be ruined. A Lagrange merchant writes Sals & Cohn that the cotton worm actually is thriving on Paris green in Fayette county. Eight cents were offered for midding spots on the exchange to-day after the close of the local market, and there were no sellers.

"Since I have been in the horse business," says Mr. I. H. Brookway, of Boston, Mass., "there have been a great many inventions, such as electric cars and bicycles, which one would think would stop the sale of horses, but I find that my trade has increased more than 50 per cent in the last three years, and there have been more horses sold in Boston in the last year than ever were sold in one year before. Why? Because the horse has been sold more cheaply and more have been used for pleasure, both under the saddle and harness, and for heavy draft work. And, in my opinion, good horses will be worth twice as much in two years as they are now, because the farmers in the West, where they are raised, have got the idea that they would not be worth raising."

When the new tariff went into effect the advocates of McKinley reciprocally loudly lamented the loss of trade which they said would result from the abandonment of their darling policy. They boasted especially of the advantageous reciprocity arrangement that had been made with Brazil in opening a market for American products in that country. Yet the official returns of commerce show that since reciprocity has been abolished the exports of the United States to Brazil are greater than ever before.

In 1892 these exports amounted in value to \$14,791,873, in 1893 to \$12,388,124, in 1894 to \$13,866,008, and in 1895 to \$15,165,069. Thus one by one the humbugs of McKinleyism are exploded by the facts of trade.—Philadelphia Record, Dem.

### EAST LOUISIANA BUYS THE SPANISH FORT LINE.

The States is informed upon unquestionable authority, that the Spanish Fort Railroad has been sold to the East Louisiana Railroad Company, of which the President is Mr. John Poitevent. The property is a well known one, and though the States is not able to say what price the purchasers of the road paid for it, it is safe to say that it will be thousands of dollars less than the Northeastern paid for it when they acquired the property.

The above is the reason of President Harvey's present visit to New Orleans and it is understood that the price has been agreed on, and the papers made out and signed by the representatives of the interests involved and that nothing now remains to put the East Louisiana in possession except the formal ratification of the deal by the London directors of the Northeastern, which formality is undoubtedly secured ahead.

When interviewed to-day by the States, Superintendent Ferguson would neither affirm or deny the report, but the States is able to say that its information is beyond peradventure. The East Louisiana road will without doubt, so well informed railroad men say, utilize their new purchase to make quicker connections with the several lake rivers. They will connect with Spanish Fort with a fast and elegant service of steamboats and reduced time schedules and comfort in travel, build up an immense summer travel and a good sized, all-the-year-round business.

There is also hope, now that the favorite resort Spanish Fort has gotten into such hands, that this place will put on itself new life and once more assert itself as the Queen of summer resorts for this city.—Daily States.

### SHOCKED BY LIGHTNING.

Mr. W. H. Taley was struck by lightning last Monday, at Slidell, and seriously injured. The bolt struck a tree under which he was standing, splintering it and knocking him down. It seems to have struck him on top of the head, tearing several holes in his hat, bruising his head and passing down the spine slightly discoloring the flesh and leaving distinct marks on the body. He recovered from the shock, is perfectly conscious and suffers terribly from the hip joints downward only, having no pain in the upper part of the body. He was taken to the Touros Infirmary for treatment. Mr. Walter Ernest, who was standing only a few feet from him when he fell, was not shocked by the bolt.

### Pedestrians who are astonished when they are run down by bicyclists do not know, of course, that a man weighing 150 pounds and moving at the rate of ten feet per second (or only about seven miles per hour) has a momentum of 1500 pounds, exclusive of the weight of the wheel. A collision between two wheels, each with a 150-pound rider, spinning at the moderate speed of seven miles per hour, would result, says the Globe-Democrat, in a smash-up with a force of 3000 pounds. It is easy to understand, therefore, why bicycle accidents are often so serious, and why great care should be taken to avoid them.

### WANTED A CHANGE.

An old lawyer once told me about a case he had, but which he didn't keep. An old Irish woman sent for him in great haste one day. She wanted him to meet her in the Criminal Court. He hastened to the court house all out of breath. The woman's son was about to be placed on trial for burglary. When the lawyer entered the court room the old woman rushed up to him and in excited voice said: "Mr. B.—I want ye to git a continuance for me by 'Jimmie.' " "Very well, madam," replied the lawyer. "I will do so if I can, but it will be necessary to present to the court some grounds for a continuance. What shall I say?" "Share, ye can just tell the court O' what a continuance till O' can git a better lawyer to try the case."

The lawyer nearly fainted when he heard this, and after telling the woman that she would have to get another lawyer to get the continuance he hurried back to his office a very angry man.—Chicago Inter Ocean.

### QUEER SHE FELT TIRED.

Farmer (to physician)—"If you get out my doctor, any time, I wish you'd stop and see my wife. She says she ain't feelin' well." Physician—"What are some of her symptoms?" Farmer—"I dunno. This mornin', after she had milked the cows, an' fed the stock, an' waded the dishes, an' built a fire under the soft-soap kettle in the lane, an' done a very few chores 'bout the house, she complained o' feelin' kinder tired. I shouldn't be surprised if her blood was out of order. I guess she needs a dose of medicine."—The Independent.

### SANDY FORD SCHOOL.

On Friday, Sept. 6, at one o'clock p. m., the patrons and friends of the school met to witness the Monthly Review of lessons. The weather was very sultry. The pupils recited their lessons very correctly. Parties who had witnessed school exercises pronounced Sandy Ford's review equal to any they have seen. The ladies were highly pleased with the proceedings of the evening. Mr. Norman Fendlasson, Superintendent of Parish Schools, was delighted with the manner in which the children answered questions and also with the singing, especially "Mr. Coon."

As all the pupils gave satisfaction in the recitation, speeches and singing it is useless to mention names. Mr. J. W. Boothie, with his fast trotting stock came out with Mrs. J. Cavanaugh—one hour's drive from Covington to Sandy Ford, distance 8 miles.

Covington being a healthy resort Mrs. Cavanaugh regrets to leave, but she will take country air for a while at Mr. J. A. Barker's, second ward. Everybody being well pleased with the program went home wishing success to the teacher, hoping that he may long remain in the parish to educate the rising generation. Mrs. Cavanaugh's health has wonderfully improved in Covington. News is scarce, we wish you success. J. C.

### DIED OF STARYATON.

#### A PECULIAR CASE.

George Howell, aged fifty one, died in the County Hospital, at Jacksonville, Fla., last week, of starvation. He starved on account of his inability to swallow food. Not even a drop of water passed into his stomach for a period of ten days. On the 16th instant Howell was eating a peach when by accident he swallowed the peach stone, which lodged in his esophagus or gullet. From that day until the day he died he suffered agonies from hunger and thirst, and gradually wasted away until he was a mere skeleton. He begged piteously for food and water, and sometimes they were given him, but the two or three mouthfuls that he was able to take came up almost immediately, having never found their way to the stomach or any further than the obstruction. Skilled physicians tried in vain to remove the obstruction, ever cutting open the stomach in their efforts to reach it. After the man died the doctors cut him open and removed the part of the esophagus in which the stone was lodged. The stone had turned crosswise in its passage to the stomach and the sharp ends had penetrated into the esophagus, clinging so firmly that it could not be forced.

### PRAYERS FOR THE POPE.

The twenty-fifth anniversary of the unification of Italy and the wrestling of temporal power from the Pope will occur next Friday, Sept. 20, and the following has been issued by Archbishop Janssens: New Orleans, Sept. 8, 1895. Reverend and Dear Father: Nearly twenty-five years ago the enemies of the church and our holy religion took Rome by force. This was accomplished in violation of the Jus gentium (the law of nations), and without any provocation on the part of Pius IX, king and pope, of glorious memory. The anniversary of that reprehensible act will be celebrated Sept. 20 by the Italian government with all the pomp and splendor at its command. It behooves us, therefore, to address our prayers to heaven on that day, and to beseech the Lord of Hosts, in His eternal omnipotence, to grant to the holy church and to the sovereign pontiff full liberty so essential, and in every due, to the people. We consequently ordain that in every parish church and in every chapel in which a priest is attached there be given the solemn benediction of the holy sacrament, and that the litany of the saints be said or sung, so that God will, in His infinite goodness, hearken to our prayers, to protect and guide by His divine Providence our holy father, Pope Leo XIII. Given at our archiepiscopal residence this 8th of September, 1895, feast of the nativity of the blessed virgin.

### Pearl River.

Sept. 12, 1895. Editor St. Tammany Farmer. A gay party of Pearl Riverites had a picnic last Friday at old "Apple Pie Ridge." Famous in name, it was famous in fact for old time hospitality and good cheer, but now all that remains one of those happy days is a few deserted homes and the grand old moss-covered live oaks.

Mrs. E. E. Davis, of San Miguel, Cal. says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to say, my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all suffering from lung troubles as I was, to give it a trial." For sale by W. C. Heintz, druggist, Covington, and Dr. R. B. Paine, Mandeville.

Certainly the southern farmer should make the best of all the advantages presented, and it is the mission of the press to spread the information as to what are the best means to prosperity. A writer in the Louisiana Planter thinks the cow pea is a not fully appreciated or utilized wealth producer. He declares the cow pea to be "the best fertilizer of the age" (certainly it is not adulterated as is so much of the commercial fertilizer) "and is food for man and beast, producing cane, corn, cotton, beef, pork mutton, milk and butter."
