Potassiumbichromate is the name of a new antiseptic, says the Scientific American. It must be good for something, if a person can judge by the length of the word.

THE MONROE DOCTRINE.

Cincinnati, Dec. 10.—The Duckworth Club (Democratic) passed a resolution last night endorsing the declaration of President Cleveland on the Monroe doctrine, and sent a telegram to Gov. McKinley asking, in the event of war, to be enlisted as the First Ohio Volunteer Infantry, to fight for the Stars and Stripes.

A Home cable of Friday says: "The Holy Office, in reply to a question from a bishop of the United States, has just published a decree forbidding Catholics to continue to be members of secret societies, even though they should attend no meetings or take an active part in proceedings. It is clear that the Vatican is bent on waging a bitter war against secret organizations."

A negro by the name of Richard Hyams was being at Colfax on the 6th inst. when the murder of a Russian Jew took place. His last words were, "Gentlemen, when you convict a man be certain you know what you are doing. Jack Chambers, whom you convicted and sentenced to hang, and afterwards sent to the Penitentiary, and he died there, didn't know anything about the killing of the poodler."

The Supreme Court, last Monday, affirmed the decision of the lower court in the case of Councilman Haley and Causefield and they will have to serve eight months each in the penitentiary.

In the case of Paul Mills, appeared from the Second Recorder's Court, the Recorder was sustained. This is a legal victory for our talented friend, Judge A. M. Avoisin.

THE ROAD QUESTION.

We agree with the Hattiesburg Gazette on what it says in the following paragraph, on the road question:

In addition, we want to say that the system is unjust anyhow. We believe that the expense of keeping up our public highways ought to correspond with the relative interest we have in them. Take, for example, two men, one of whom is worth \$10,000. He has teams and wagons, and his farm products have to be hauled to the market, and his supplies have to be brought to his plantation over the same highway. The other man has neither wagon, team nor plantation. Is it right to tax him with the same amount to keep up a road which he has not one tenth the interest? It is not, from our standpoint of thinking.

It will stand good as a rule that those who have most are most interested in having good roads, and it is but just that they should bear a proportionate share in keeping them in good condition.

100,000 KILLED.

London, Dec. 12.—A dispatch to the Associated Press of Constantinople and signed by a number of Armenians was received this morning. The dispatch says: Armenia is at her last gasp. The work of extermination continues and the number of massacred reaches 100,000. Nearly half a million survivors have taken refuge in the forests and mountains and are feeding on herbs and roots. Cold and hunger are committing ravages among them. In the name of humanity and christianity save us. The news has caused consternation everywhere. Feeling is intense in London and has reached every European center. Action may be expected without delay.

CANNOT AID CUBA.

Omaha, Dec. 10.—At the Cuban sympathy meeting last night Mayor Beemis announced that he would receive at his office anything in the form of money or provisions and would see that it reached Cuba to assist the insurgents. Judge Dunphy, of the Federal Court, today declared that if the mayor attempted to forward such contributions he would come in contact with the United States government and the goods would be liable to seizure.

Representative Otey, of Virginia, has a scheme that will injure no one and may greatly benefit needy ex-confederate soldiers if it can be carried through. In the treasury there is an accumulation of money sequestered during and directly after the war for want of evidence to show its proper owners, amounting to about \$25,000,000. Inasmuch as this money belongs to the South and that its rightful owners will never be found, Mr. Otey proposes to try to get a bill through congress providing that the interest on this money shall be distributed among the needy ex-confederate soldiers, and when they no longer need such aid the principal shall revert to the government to be as any other money provided by congress. In order to avoid any charge of partisanship even by implication, Mr. Otey proposes having the bill introduced by a Republican, if he can get one to do it.

Senator Squire, of Washington, has introduced an important bill to provide a general system of fortifications for seacoast defense. It appropriates \$87,000,000 to be expended during the next twelve years at the important ports of the country, such as New York, San Francisco, Philadelphia, New Orleans and others, not only on the seacoast, but on the Great Lakes, the navigable rivers and the estuaries of the sea, such as Puget Sound and Hampton Roads. In presenting the bill Mr. Squire dwelt upon the necessity of providing adequate protection to the country. He stated that the provision of the bill were in accordance with the recommendations of the board appointed by the President under the act of 1865, and said that the scheme was one which had the indorsement of many expert engineers and high officials, including the Secretary of War and the commanding General of the army.

A POCKET TYPEWRITER.

A resident of Rockford, Ill., has secured a patent on a pocket typewriter, no larger than a watch, on which a speed can be attained much faster than a person can write by hand. A local stock company is being formed to manufacture the machine.

Philomenus and Mabel were in a fight at El Paso, Texas, Feb. 24, 1895, for a purse of \$10,000 and the championship. The winner will get the belt, and the loser will get a Valentine.

FOSTER NOMINATED.

The Democratic State Convention assembled at Shreveport last Wednesday, and is still in session. Gov. Foster was nominated to succeed himself, Thursday, without opposition. The ticket now looks like Foster, Governor; Snyder, Lieutenant Governor; Cunningham, Attorney General; Heard, Auditor; Michel, secretary of State; although, Superintendent of Education, and either Junel or Dubroca for Treasurer. Congressman Robertson is chairman of the platform committee.

FORTY-FIVE STARS.

Utah has been admitted to the Union as a State, which makes forty-five in all, and adds another bright star to the national banner.

The Republican State Central Committee is in session in New Orleans, and the Warmoth and Kellogg factions are having a lively fight for the leadership. Joseph Matthews, of Mandeville, is the member for this parish.

The Chicago Evening Post has at last authoritatively decided the famous question as to whether 7 and 8 is, or 7 and 8 are. It says they are, and all grammarians will please take notice.

England claims that the Monroe doctrine does not apply to the present controversy in Venezuela. President Cleveland sent a stirring message to Congress last Tuesday insisting that the Monroe doctrine must be enforced, and asks Congress to appoint a committee to investigate the matter. In the meantime the whole country is aroused, and the President's action is heartily approved by all political parties.

To a boarding school miss who met Joseph Jefferson at a tea table and began to talk to him about Sabbath-breaking the actor said: "If I were a fisherman I should never fish on Sunday, but being an actor I can rest both mind and body by fishing."

RED RICE.

The New Orleans papers, notably the Picayune, are devoting considerable attention and giving the Calcasieu question a lot of fatherly advice regarding its red rice. In view of commendation or rather presentation of its merits there is wholesale condemnation and it is declared almost unmarketable, thus helping to further undermine values which are now at a low ebb so far as the product of this section is concerned. The offense would be venial if committed by others elsewhere, not of the South, but here we have exemplified that old saying: "Wounded in the house of his friends." With its widespread circulation and long list of exchanges it is doing a damage to this section which can scarce be estimated. Utterances of this character are taken by journals North, West, East and throughout the South, and red rice is getting to be regarded, as it were, as a nucleus food to be avoided.

They go so far as to dub it "pest rice," which suggests something noxious, mischievous or destructive. On the other hand Messrs. Dan Talmag, of St. Louis, New York, are seeking to establish a counter-current, and thereby to further its sale. They say in a recent letter to one of our planters: "We cannot see why the New Orleans people are so down upon and decry red rice. As a result of the light esteem in which such is held by New Orleans, it fails to realize any decent figure. We can hardly suppose our milling facilities in New York are superior to theirs and yet we find our output of this character sells just as easy as the white and fairly regular figures, considering the bad name which the New Orleans people have given it. We claim that the Croco rice, i. e. red rice, is the best rice in the world, not simply just as good as the whiter sorts; nor again, that its relative cheapness should impel our customers from economic motive to give it their preference, but taking a broad and correct ground, that it is intrinsically the best rice and its unpopularity a confession of ignorance."

The popularity of Chamberlain's Cough Remedy and the high esteem in which it is held leads us to believe it to be an article of great worth and merit. We have the pleasure of giving the experience of three prominent citizens of Redondo Beach, Cal., in the use of the remedy. Mr. A. V. Trudell says: "I have always received prompt relief when I used Chamberlain's Cough Remedy." Mr. James Orchard says: "I am satisfied that Chamberlain's Cough Remedy cured my cold." Mr. J. M. Hatcher says: "For three years I have used Chamberlain's Cough Remedy in my family and its results have always been satisfactory."

FARMERS AND PLANTERS' ASSOCIATION.

The regular semi-monthly meeting of the Farmers and Planters' Association was largely attended Wednesday evening, Dec. 11.

The meeting was called to order at 7 p. m. by W. H. O'Brien, and after considering a proposal to locate a cannery factory in the Garden District, matters in connection with the coming election were freely discussed. The desirability of a Justice of the Peace in the upper portion of the Third Ward was fully conceded, and Mr. J. J. Biery was nominated as the Association's candidate for this office. Messrs. Louis Voss, Geo. Peters and Nathan Egan were appointed to call on Mr. Biery and tender him the nomination.

In answer to an inquiry, the President stated that the petition for the privileges of voting for a road tax would be circulated for signatures and presented to the Police Jury at their next meeting. The various candidates announced for the office of Representative in the Legislature were duly considered, and the Association decided to nominate a candidate to voice their sentiment against the suffrage amendment. Mr. Thos. O'Connor, Jr., was nominated by the vote of the entire assembly, as a candidate for the people, and Messrs. J. B. Timberlake, Carl Becker and Carl Bausch were appointed a committee to call on Mr. O'Connor and pledge the entire support of the Association in tendering the nomination.

The most remarkable incident of the evening occurred when the President stated that an indorsement of a candidate for Clerk of Court was in order, when with one voice the entire assembly shouted, "Warren!" No vote was taken, and the President appointed Messrs. Henry Page, Louis J. Dirksen and Geo. Becker a committee to call upon Mr. Warren and notify him of the unequal support of the Association. The candidates for the offices of Sheriff, Police Juror and Coroner created considerable discussion, and brought out some display of feeling. No final action was taken, however, and the whole matter will come up for final action at the next meeting.

Mr. Clay Elliott was then indorsed by the Association as a candidate for the office of State Senator, and the committee appointed to notify Mr. Warren was also charged to wait on Mr. Elliott and ask that he address the Association at their next meeting. On motion, duly seconded, the meeting then adjourned.

MAX. EDGAR, Secretary.

Garden District.

Dec. 16, 1895.

The Mite Party given last Saturday night at "Tanglewood," the cozy and comfortable home of Mrs. L. Clark, was a great success, socially and financially. The Abita String Band and Mr. O'Brien's charming and talented family kept the music flowing through the evening. Everybody thoroughly enjoyed the entertainment, and the stars were winking as they journeyed homeward.

Miss Cora Clark deserves great credit for the energy and perseverance she has displayed in her desire to improve our schoolhouse, and the Garden District fully appreciates her successful endeavors.

The Columbia road was worked last week from the five mile post to Covington, in the same slipshod fashion it has been worked for the past ninety years. Old residents tell us it was a better road forty years ago than it is to-day. We hope, however, that this is the last time the force will be acted, and that ere another year rolls by, we will find a road tax in operation in this parish.

Mr. and Mrs. H. R. Warren visited Sunday evening at "Oak Glenn." We dropped in to have a chat with "Our Tom," and was glad to note Mrs. Warren's great improvement in health. The committee from the Farmers' and Planters' Association arrived during our stay, and tendered the nomination for Representative to Mr. O'Connor, and we heard with much pleasure his speech of consideration, as he proved to be in entire sympathy with the members in their repugnance to the suffrage amendment.

There will be a round of pleasure in our district during the holidays, the same as last year, commencing Christmas Eve at "Oak Glenn." Mr. and Mrs. O'Connor's residence, where the original Santa Claus will appear and personally superintend the distribution of gifts to the children from a mammoth Christmas tree.

Mrs. Clark, Mrs. Edgar and Mr. and Mrs. Wm. Oswald are each of them a house party on succeeding nights. Mr. and Mrs. W. H. O'Brien will celebrate the tenth anniversary of their marriage Monday evening, Dec. 30, and we will all see in the Old Year out and the New Year in at the home of genial Dick Norman and his charming family.

Great interest is being taken in this District and surrounding section in the Farmers' and Planters' Association, and their next meeting promises to be a rouser.

PINE KNOT.

The odds and ends of politics aimes called Populists, etc., will hold a State nominating convention at Alexandria, January 8, 1896. It is proposed to nominate a full State Ticket, one that the Republicans—lily whites and chameleon daisies—will endorse.

That the Republican party in Kentucky has had a very remarkable robust growth is very plain indicated from the fact that Mr. Bradley, the Governor, has already received five hundred applications for office, with only twenty-one appointments at his disposal.

A Kansas girl who believes in character in noses is in a quandary. She has three suitors, one with a long nose, one with a turn up nose and another with a nose which turns down. According to a local superstition a long nose indicates that the owner will never get up in the morning and make the fire; a turned-up nose shows the possessor to be of a disposition to be easily disgusted with poor cooking, and a turned-down nose shows that the suitor is sure to devote a great deal of time to lodges. She went to an older woman for advice and was told to marry the one who wanted to get married first.

A CARD.

New Orleans, Nov. 25, 1895. To the Members of the House and Senate, from 1881 to 1895, inclusive: Gentlemen—Will each one of you kindly answer, at your earliest convenience, if from 1881 to 1895, I was, or was not, an advocate for any and all measures coming before the House for the good of the city of New Orleans. This is the best of your knowledge and belief. Respectfully, J. S. ROSSIER. Address: Figure Office, 536 Common street, Story Building. (State papers please copy.)

A. F. Kilpatrick, of Fillmore, Cal., had the misfortune to have his leg caught between a cart and a stone and badly bruised. Ordinarily he would have been laid up for two or three weeks, but says: "After using one bottle of Chamberlain's Pain Palm I began to feel better, and in three days was entirely well. The peculiar soothing qualities which Chamberlain's Pain Palm possesses I have never noted in any other liniment. I take pleasure in recommending it." This liniment is also of great value for rheumatism and lame back.

A Woman With a Long Thumb Wants Her Own Way.

Denbarola, the acknowledged authority on Palmistry, says that "a woman with a long thumb will always do her best to have her own way."

Denbarola, then art a grotesque back number and thy remark is an unwarmed fiction upon the vast army of ladies with bobtailed thumbs. Nowadays every woman does her best to have her own sweet way. To her credit be it said, she generally succeeds, too, no matter what the longitudinal dimensions of the thumb may be. As a matter of fact, the most successful woman in this direction that we ever met had no left thumb at all, having mislaid it in a batch of home-made mince meat she was chopping.—Elvira Bog.

According to a report just issued by the Parisian police, there have been 1380 people who have totally disappeared in the French metropolis in the last twelve months. The authorities have been informed during that time of nearly five times as many cases of disappearance, but were able to trace them to the morgue, to the hospital or to expatriation. They have found it impossible, however, to obtain any clew whatsoever to the fate of 1380 men, women and children mentioned above as missing.

An Indiana judge in instructing a jury said: "Gentlemen, you have heard the evidence. The indictment charges the prisoner with stealing a jackass. This offense seems to be becoming a common one. The time has come when it must be stopped; otherwise, gentlemen, none of you will be safe."

Geo. W. Jenkins, editor of the Santa Maria Times, Cal., in speaking of the various ailments of children said: "When my children have cough there is only one patent medicine that I ever use, and that is Chamberlain's Cough Remedy. It possesses some medical properties that relieve the little sufferers immediately. It is in my opinion, the best cough medicine in the market." If this remedy is freely given as soon as the croupy cough appears it will prevent the attack. It is also an ideal remedy for whooping cough.
