To Eat to Feel Good.
Countless thousands have found a
blowing to the body in Dr. King's
New Life Pills, which positively
cure Constipation, Sick Headache,
Dizziness, Jaundice, Malaria, Fever
and Ague and all Liver and Stomach
troubles. Purely vegetable; never
gripes or weakens. Only 25c at the
City Drug Store, by J. L. Watkins.

WATERWORKS SYSTEM
Covington is undoubtedly on a
boom. No one can care to deny that
fact. The new factory, with its
ten ton output, the electric light
plant soon to be in operation, and
the great amount of building in
progress, all emphasize the fact.
There seems to be one imperative
need to which our citizens have
not sufficiently awakened, however,
and that is the installation of a system
of waterworks. The old-fashioned
"bucket brigade" was all very
well, when there was not so much
at stake, but now that values have
increased so largely, the demand for
modern methods for fighting fires is
apparent.

The simplest way to meet this
question would be to erect a tank-
pipe to supply sufficient pressure,
and to place fire plugs on the principal
streets. Some steam power
already in operation could be utilized
for the pumping, as the ice
factory or a saw mill, the town to
rent the power, or have the pumping
done by the private corporation.

A water supply at our doors
would fill another long-felt want—
the watering of the streets during
the long dry spells that we have to
contend with every summer. The
clouds of dust detract so much from
the appearance of our business
streets, and give strangers a poor
impression of our progressiveness.
It is positive that many private
residences and stores would be glad
to subscribe to a water supply for
personal use. Let us hope that this
matter will be the next important
one taken up and pushed through
by our City Fathers.

Mrs. C. E. VanDeusen, of Kil-
bourne, Wis., was afflicted with
stomach trouble and constipation
for a long time. She says: "I have
tried many preparations but none
have done me the good that Cham-
berlain's Stomach and Liver Tablets
have. These Tablets are for sale at
V. H. Frederick's Drug Store, Cov-
ington, and E. B. Paine's Drug
Store, Mandeville. Price, 25 cents.

**Provision for Consump-
tives.**
It will be remembered, apropos
of a suggestion of the Times-Democrat
for forest camps or a free sanitarium
in the pine woods of Louisiana
for consumptive patients, that the
State Board of Health gave the
suggestion its hearty imprimatur,
and appointed a committee to collect
information regarding the
cause and the prevention of consump-
tion as a preliminary to giving
effect to the suggestion.

The following is the report of
that committee submitted to the
Board at a special meeting yester-
day:
"Gentlemen of the State Board of
Health:
"The committee submits for
your consideration a brief consen-
sation of the opinions held by the
most eminent specialists upon the
cause and prevention of consump-
tion.

"(a) The Contagiousness of Con-
sumption.—The erroneous idea has
long prevailed that consumption is
always hereditary. The disease is
hereditary only in an infinitesimal
proportion of cases. The fact can-
not be too strongly impressed upon
the public that, in almost every in-
stance, the disease is derived from
the excretions of some individual
affected with consumption.
"(b) How Consumption is De-
termined.—The cause of this
malady is a microscopic germ
whose scientific name is bacillus
tuberculosis. All matters expec-
torated by a person afflicted with
consumption contain legions of
these bacilli, which retain their
virility even after the drying of the
sputum, and to their diffusion may
be attributed the spread of the dis-
ease. They contaminate the indi-
vidual—

anywhere—and, after drying, mingle
with the atmosphere and may de-
velop the disease in unaffected
persons.
Again, if the expectoration of a
consumptive falls upon his own
clothing, or upon the bed covering,
blankets, curtains, carpets, etc.; in
public places such as hotels, sleep-
ing cars, etc., it is extremely liable
to infect others, some authorities
hold that in certain stages of the
disease it may be transmitted from
the breath of the patient, as by
kissing.

"2. The disease may also be in-
troduced into the system through
the alimentary canal.
"By using the same utensils for
drinking and eating that have re-
cently been used by a consumptive.
"It may also be contracted from
drinking the milk of an infected
cow, or eating the undercooked
meat of a diseased animal.
"The greatest danger, however,
is from the promiscuous spitting of
consumptives, and this reprehensi-
ble practice cannot be too strongly
condemned.

"(c) The Methods of Arresting the
Dissemination of the Disease.—
The prevention of consumption can
be epitomized in one sentence—
Destroy the matters expectorated.
"This can be done by having the
affected individual expectorate in
vessels containing a potent disin-
fectant, such as a strong solution
of carbolic acid or bichloride of
mercury. When away from home
the consumptive should always
carry a pocket paper receptacle to
receive his expectoration, and this
receptacle and its contents should
be burned or immersed in a disin-
fectant.

"All clothes and fabrics which
have been contaminated by diseased
sputa should be disinfected. All
vessels used in eating and drinking
by a person affected with consump-
tion should be washed in boiling
water before being used by others.
"The intelligent application of
these precautions will reduce the
danger of infection to a minimum.
"As the committee is also ex-
pected to touch upon the subject of
using the ozone regions of Louisi-
ana in the treatment of consump-
tion, we would say that we accord
our unqualified indorsement to the
movement.

We would recommend, however,
the erection of a thoroughly equip-
ped modern sanitarium, supplied
with all the tents and paraphernalia
necessary for such patients as may
require the exclusive open-air treat-
ment.
"Herein the patients would no
longer be a source of danger to
others, besides having the questions
of diet, exercise, etc., under intelli-
gent supervision, whose proper dis-
position would result in the com-
plete restoration to health of some,
and the improvement of all. With
all deference to the journal which
has originated this movement, the
committee would suggest that its
proper standard bearers be the la-
dies of Louisiana. No appeal for
"sweet charity's sake" has ever been
made to them in vain, and if they
once assume the undertaking its
ultimate success will rest assured.

"Since the Times-Democrat has
manifested such interest in the sub-
ject, let it arrange a meeting of the
prominent ladies of this city to or-
ganize a central committee to com-
mence this work.
"Local branches can also be es-
tablished in every town and village
throughout the State, and their ef-
forts, seconded by the powerful
support of the entire press, would
doubtless soon result in the acqui-
sition of the desired funds.
"A nucleus for the fund already
exists in the \$500 donated by E. and
L.

"A site awaits the sanitarium on
the fifty acres of land offered by
Dr. Tolson.

"In addition to the above, each
member of this committee, also,
will contribute \$100 to the assist-
ance of the movement.
"WALTER GLENDOWER OWEN, M. D.,
Of Iberville Parish, Chairman.
"ANTHONY NOLTE, M. D.,
Of Orleans Parish.
"THEOPHILUS T. TARTON, M. D.,
Of St. Landry Parish.
The report is very gratifying to
the Times Democrat; because in
the first place it indorses practically
everything that has been said in
these columns as to the channels
through which consumption is pro-
pagated, and as to the way in
which the disease is to be prevent-
ed, and in the next place, because
it gives our suggestions for forest
camps or a free sanitarium its "un-
qualified indorsement."

The Board of Health does not
adopt our proposition—that the
Board itself should head the move-
ment; but we are ready to admit
that the Board, in discharging its
duty of the task, makes a propo-
sition which, with its pardon, is
immeasurably better than ours.
The Board suggests that the
"proper standard-bearers are—the
Ladies of Louisiana." And it adds
in language every syllable of which
the Times-Democrat approves:
"No appeal for 'sweet charity's
sake' has ever been made to them
in vain, and if they once assume
the undertaking, its ultimate suc-
cess will rest assured."

It is now "up to" the ladies of
this city and State to take this mat-
ter into their hands and to carry it
to a successful termination. There
is no nobler work of charity than
this movement to erect camps or a
free sanitarium in the pine woods
of Louisiana for the benefit of poor
consumptive patients. If there be
anything more fruitful in this world
of trial and suffering than this
poor people should stand by help-
less and see their loved ones die of

consumption by inches before their
eyes, while they have not the means
to relieve them, we'd like to know
of it.
The movement, we may add, is
not for the benefit of rich people—
they can afford to go to expensive
sanatoria in other parts of the
country; it is for the benefit of the
stricken poor that the movement
is intended, and that the ladies are
requested to take the matter in
hand. We leave it now to them, in
the hope and perfect belief that
their sympathetic nature will in-
duce them to make the task their
own, promising for our own part
and for the press of city and State
that the papers will give them the
warmest and heartiest support.

The movement begins well.
From "E and L," the most readiest
and most generous of givers, there
has come \$500; Dr. Tolson has
given fifty acres close to Covington
as a site for camps or a free san-
itarium; while the three commit-
tees of the Board of Health have
not only put themselves to trouble
to collect information as to con-
sumption, but they have, each of
them, manfully given \$100 to
help on the movement!
The ladies "have the floor."

District Court Items.
The following cases were tried
and decisions rendered in the Dis-
trict Court since our report in last
week's paper:
State vs. Wm. Johnson, cutting with
intent to kill. One year in parish jail
and costs of prosecution.
State vs. Dan Hunt, disturbing the
peace. \$20 and cost, and 18 hours in
jail, or 30 days in jail.
General Brown, for violating the rule
of spitting on the courtroom floor,
fined \$1.00.
Bally Rogers, appearing in court
under the influence of liquor, fined
\$10.00.
F. Corkers, failing to appear when
called as a witness, fined \$2.00.
State vs. Joe Hunt et al, disturbing
the peace, not guilty.
State vs. Richard Singletary, carrying
concealed weapon, not guilty.
Willie Dawson, burglar, one year in
the penitentiary at hard labor and cost.
Daniel Washington, burglar, five
years in penitentiary at hard labor, and
costs.
Frank Brown, burglar, two years in
penitentiary at hard labor, and costs.
Geo. Wood, petit larceny, two years
in penitentiary at hard labor, and cost.
State vs. Jos. E. Parker, assault and
battery, fined \$15 and costs.
State vs. George Hunt, disturbing the
peace, fined \$20 and costs.

Pechon and Wm. N. Cooper, judgment
in favor of plaintiffs.
Babington & Co. vs. B. L. Crawford,
judgment in favor of plaintiff.
Hardy H. Smith vs. John F. Gallaway,
judgment in favor of plaintiff.
Paul J. Dulon, Marshal, vs. Chas
Heintz, Sr., judgment in favor of plain-
tiff.

Headache often results from a
disordered condition of the stomach
and constipation of the bowels. A
dose or two of Chamberlain's
Stomach and Liver Tablets will cor-
rect these disorders and cure the
headache. Sold by V. H. Frederick,
Covington, and E. B. Paine, Mandeville.

He Kept His Leg.
Twelve years ago J. W. Sullivan,
of Hartford, Conn., scratched his
leg with a rusty wire. Inflammation
and blood poisoning set in. For
two years he suffered intensely.
Then the best doctors urged ampu-
tation, "but he writes, 'I used one
bottle of Electric Bitters and my
leg was sound and well as
ever.' For Eruptions, Eczema,
Tetter, Salt Rheum, Sores and all
blood disorders Electric Bitters has
no rival on earth. Try them. J. L.
Watkins, of the City Drug Store
will guarantee satisfaction or re-
fund money. Only 50 cents.

Heirs of Robert Layton.

REMARKABLE CURES OF RHEUMATISM.
From the *Vindicator*, Manchester, N. C.
The editor of the *Vindicator* has
had occasion to test the efficiency
of Chamberlain's Pain Balm twice
with the most remarkable results in
each case. First, with rheumatism
in the shoulder from which he suf-
fered excruciating pain for ten days,
which was relieved with two applica-
tions of Pain Balm, rubbing the
parts affected and realizing instant
benefit and entire relief in a very
short time. Second, in rheumatism
in the thigh joint, almost prostrating
him with severe pain, which was re-
lieved by two applications, rubbing
with the liniment on retiring at
night, and getting up free from pain.
For sale by V. H. Frederick, Cov-
ington, and E. B. Paine, Mandeville.

QUESTIONS AND ANSWERS.
[All questions received by us, up to
Saturday night, upon subjects of gen-
eral interest, will be answered in our
issue of the following week. If in our
power to do so. Address all questions
to THE FARMER, Covington, La. (Ques-
tion Department).]

V. S. F.: Rice throwing at wed-
dings is gradually being discoun-
tenanced by the better element of peo-
ple. Carnations are substituted, or
rose petals. The faintest new cus-
tom of all is the throwing of hand-
fuls of violets as the bride leaves the
house.

O. N. L.: The new Curfew Ordinance
requires children under fifteen
years of age to be at home and off
the streets by eight o'clock in winter,
and nine o'clock in summer, unless
accompanied by their parents or
guardians. The law is now in force
in over four hundred of our cities
and has worked well wherever tried.

A. G.: Beggy trousers may be
prevented by frequent pressing,
which you can do at home. Brush
the trousers carefully first, lay them
stretched at full length on an iron-
ing-board, dampen with soft sponge,
and iron them over a regular ironing
board. Always lay your trousers
out at full length when you take
them off; do not hang them unless
you have stretchers.

Country Girl: To succeed as an
author you must send your story or
book to a publisher, and get his
opinion regarding it.
E. K.: The purchase system in
the British army was abolished in
the year 1871.
Man Jay: The lady bows first.
A man should always lift his hat in
acknowledgment of any salutation
made to the lady with whom he is
walking: As a rule men do not
lift their hats to one another, when
meeting on the street, the exception
being when a young man meets an
older man or a distinguished one.

Wrenched Heart: Jealousy is by
no means an evidence of either true
friendship or love. When it exists
it is sometimes wisest to recognize it,
but under most circumstances it
should be ignored.
Perplexed: Wedding invitations
should be issued about two weeks
before the day appointed for the
ceremony.
P. L.: Lemon juice and cream
mixed together in equal parts, makes
a most efficient lotion for whitening
and softening the skin.

J. S.: If you want to be polite
never take the arm of a young lady
with whom you are walking—it
makes her angry nine times out of
ten.
Inquisitive: Herbert Spencer de-
fines "Agnoisticism" as the belief
that the existence of a personal God
can neither be proved or disproved.
The word is derived from the Greek,
and signifies "not to know."
