At the annual meeting of the board of directors of the East Louisiana Railroad, held in Covington, the same directors and officers were elected as follows: Frank B. Hayne, president; N. G. Pearsall, vice president and general manager; W. J. Poitvent, secretary; C. K. Mullings, auditor and treasurer; E. H. Farrer, general attorney.

Under the present management the debt of the road has been materially reduced, and many improvements have been made. Heavier rails have been laid over part of the road, and the time to New Orleans has been shortened.

The Covington Literary, Social and Dramatic Club will give a dance at the Pavilion,

Last Friday night a grand ball was given at the Maison Blanche, in Covington. The hotel was illuminated with Chinese lanterns, and the large hall was filled with invited guests, who enjoyed dancing and music till a late hour. There was a profusion of choice refreshments, and the music was furnished by the Covington Brass Band. During the evening Mrs. I. Cohn favored the guests with some artistic selections on the piano. Taken altogether, it was one of the most enjoyable events of the season.

Abita Fire Co. No. 2, gave a grand entertainment and ball for the benefit of their engine fund, at Conrad's Hall, on Saturday, July 20. The affair was a grand success. The music was kindly furnished by Prof. H. Bruness, of New Orleans. The Hall was beautifully decorated with evergreens, lanterns and flags of all nations. The success of the affair was due to the members of the company. There were many donations. The fine umbrella, donated by Mr. J. Krantz & Bros., of New Orleans, was won by Mr. A. Beauoudray, a popular young gentleman of Covington. Mrs. A. Vitter won a fine Lamp. Thanks are also due to Mr. and Mrs. Vitter and friends of New Orleans, Mr. and Mrs. Benson, Mr. and Mrs. Schmidt, Miss Annie Strain and Mrs. L. Strain, Mrs. E. Mornin, Mrs. P. Elwell, Mr. F. Stire and Mr. W. R. Shaw.

Among the arrivals by the evening East Louisiana train last Monday was Mr. George Parke, a native of Covington, who returns on a short visit after an absence of nearly ten years, spent in Boston and other eastern cities. He will be a guest of his uncle, Mr. W. C. Pharis, for a few weeks. Mr. Parke has just completed a bicycle ride of 3260 miles, from Boston to New Orleans, which occupied the greater part of the past year. The same wheel which he rode on the trip is still doing service, and appears little the worse for such a trip.

The people of Denison, Texas, assembled in Church last Sunday, and the minister offered a fervent prayer for rain. In about two hours a hard rain occurred, accompanied by high winds, which destroyed a number of houses, including the church. The rain saved the crops, and donations will be freely given to rebuild the church.

Capt. E. Miller, the veteran navigator, informs us that we were mistaken in stating that the Jacques Dupre was the first steamer running from New Orleans to Covington. He states that the first steamers were the Black Hawk, Capt. Wm. Bagley and the Corsair, Capt. J. W. Hoffmann, followed by the Mazepa, Capt. Knight, and the Walker, Capt. Bonville.

Remedy for Charbon.

Office of R. E. Dodds & Bros.,
Doddsville, Miss., July 2, 1901.
Editor Greenville Democrat:
Dear Sir: Seeing an account of so much charbon or disease similar to charbon, we give below a remedy that we have been using for thirteen years, and have had quite a lot of charbon among our stock, but have never seen this fail to cure when commenced within 24 hours after disease appears. It is a very simple and cheap remedy and cannot produce any harm, and we would be glad that you publish this remedy for the benefit of those who may have the disease among their stock. We average working over 100 mules all the time, and as stated above, have never lost a mule with charbon yet.

A Remedy for Charbon—Mix oxide of zinc with sweet oil until it makes a thin paste or paint. After first softening the mule's skin, on and about the swollen parts, with warm water and soap, apply or paint the skin with this mixture, over all the parts affected, rubbing into the skin good. Apply this several times per day, until the swelling has stopped spreading, then about three times per day until all trace has gone.

This is also good for any other swelling that stock may have.
Yours truly,
R. E. DODDS & BROS.
